Welcome

2022 will mark a massive year for celebrations at Yerwal Estate. It begins with two big milestones for both our Angus and Simmental studs. This year marks the 50th anniversary for both the Simmental breed in Australia and our family breeding Simmentals. Merv and Marj Lawrey (Regan's grandparents) started breeding Simmentals in 1972 with their first live Simmental calf on the ground in 1973. They then passed on their much loved Simmental herd to Regan in 1991 that continues with the support of Regan's father Trevor as well as Regan's children Mitchell and Lacey.

2021 was our first year participating in the inaugural Queensland Simmental bull sale at Gracemere (Queensland) selling 12 Simmental bulls in August averaging \$13,708. We look forward to offering another 15 traditional Simmentals and 1 black Simmental that will be prepared by JJ's Fitting for the 2022 Queensland Simmental bull sale on the 25th of July 2022.

In addition to our Simmentals this year marks our 20th annual on farm Angus bull sale. Yerwal Estate Angus was established in 1999 with the aim to breed data performing angus with structural soundness, performance and longevity. We are excited for the future sale bull lineups to come with the addition of our new stud sire Texas Quinella purchased for \$48,000. Quinella's breedplan data with +7.8 for calving ease direct through to the top 1% of the breed for all growth traits finishing at +164 for 600 days add to this his great carcass and structural data make him a extremely complete sire that we look forward to cataloguing his progeny in future sales to come.

This year Angus and Simmental bulls have been prepared under the same conditions with the exception of lots 23-32 of the Angus bulls which have had less preparation time but are still looking impressive. Lot 1 of our Simmentals has been used in herd and semen retained for Yerwal and Mt Mooney use only. Once again this year we invite Mt Mooney Simmentals to our Simmental sale with Lots 2 and 3. Thank you to Renee and Quentin for continuing to support our programme and cataloguing two exceptional bulls for the sale.

To celebrate our 50th anniversary for our Simmentals and 20th anniversary for our Angus on farm sale we will be presenting both top priced bull purchasers a gift to recognise this amazing milestone.

A big thank you to all the support from our family and friends that have travelled near and far to help with both our on farm field day and bull sale.

Thank you again for continuing to support our breeding program from all of us here Yerwal Estate Angus and Simmental Stud.

Regan, Connie, Mitchell and Lacey

Welcome from Mt Mooney

A very warm welcome to you all from Mt Mooney.

It has been a fantastic year of cattle prices and it makes our personal commercial program work very well using Mt Mooney and Yerwal Estate stud bulls over our commercial herds. The extra growth and weight adds \$\$\$ to our calves.

We have continued with AI programs for our stud cows and heifers and have been backing up with Yerwal Est Powerplay and Barana Nottingham, which we already have progeny from, and are extremely happy with the results. ET programs are always on the go with calves arriving at the moment.

Mt Mooney sold into QLD last year in the Queensland Simmental bull sale, held at CQLX Gracemere. This is something we will continue to do with more bulls up for sale this year in July.

The bulls we kept home in SA will suit all programs, both dark red, full eye pigment with plenty of growth and weight for age. Both bulls have been vaccinated, semen and morphology tested, as well as 100k genomic profile.

As always; we stand by this;

'We will not sell anything that we would not be prepared to use ourselves'

We hope you enjoy viewing our cattle and hope to see you on the 7th of February at the Field Day.

Cheers.

Renee and Quentin Mooney Mt Mooney Simmentals

Important Information

Inspections

The Simmental sale bulls will be available for inspection at the Field Day on Monday 7th February 2022 from 9am (SA time). The Angus sale bulls will be available for inspection at Yerwal Estate on Monday 14th February 2022 from 9am (SA time). Private appointment available on request. Complimentary refreshments will be available at the sales to all visitors.

A supplementary sheet will be supplied at the sale including current weights and scrotal measurements.

Transport

Complimentary transport is available within South Australia, Victoria, New South Wales and southern Queensland and can be arranged upon request.

Guarantee

Yerwal Estate guarantees the structural integrity and fertility of all of its sale bulls. The entry of every bull constitutes a guarantee by the Vendor that the bull will be replaced or the purchase price* refunded if a bull proves totally infertile within the first 12 months from the date of purchase.

Please note that NO foot trimming is ever carried out at Yerwal Estate.

* Without interest, expenses, costs and damages.

Health Status

Yerwal Estate is Johne's Beef Assurance Score (J-BAS) accredited and has a score of J-BAS 7. All bulls were tested free of pestivirus and have been vaccinated with Ultravac 7in1, Pestigard and Vibrovax.

Scan Data

All sale bulls have been scanned by Mr Max Bowman who is an accredited scanner; Accreditation # 1026.

Buyers Registrations

Buyers are required to register with the selling agents prior to the commencement of the sale and to display their registration numbers at the fall of the hammer.

Sale Conditions

Conditions of sale by auction in South Australia apply. All sale lots are sold exclusive of GST. Please contact your selling agents to arrange phone bidding.

Agent Rebate

A 3% rebate is offered for outside agents if prospects are introduced to the selling agents in writing at least 24 hours prior to the sale.

Suffix Key

The suffix displayed at the end of each animal's name indicates the DNA parentage verification that has been conducted by Angus Australia.

PV: both parents have been verified by DNA.

SV: the sire has been verified by DNA.

DV: the dam has been verified by DNA.

#: DNA verification has not been conducted.

E: DNA verification has identified that the sire and/ or dam may possibly be incorrect, but this cannot be confirmed conclusively.

Disclaimer

Every effort has been taken to ensure that the information in this Sale Catalogue is correct at the time of publication. All reasonable care has been taken in its preparation however no responsibility is taken for any inadvertent errors or omissions.

Yerwal Est Ripper (PP) (ET) (AI)

Traits Analysed: BWT

Notes: Ripper has already seen stud duties at Yerwal and semen has been retained for in herd use at both Yerwal and Mt Mooney Simmentals. Ripper is an outstanding example of a modern moderate framed Simmental sire. He is exceptionally well muscled, docile, structurally correct and has the huge bonus of being homozygous polled.

Photographed bulls will be offered in July sale

In addition to their own sales in South Australia, Yerwal Estate Simmental Stud will be offering sixteen bulls at the Queensland Simmental Bull Sale at the CQLX Selling Complex, Gracemere on 25th July 2022.

2021 saw Yerwal Estate draft 12 bulls in the Inaugural Queensland Simmental Bull Sale at Gracemere (Queensland) in August. In a strong market but with many Queensland Commercial Cattle Operations yet to see rain Yerwal bulls performed very strongly achieving a 100% clearance at an average of \$13,708. Following the sale demand was extremely strong with a further insert number of Yerwal Traditional and Black bulls sold into Queensland in the following months. The Northern market has a preference for a larger framed animal with progeny frequently growing out to suit both the Jap Ox and Bullock Markets over high bos indicus content females. This year Yerwal has carefully selected bulls of a type desirable to Southern Markets which are on offer right here in South Australia with a second consignment once again headed to Queensland in July.

Yerwal Estate has been selling bulls into the Queensland Market for many years and in recent years bulls were sold into Duaringa, Maryborough and Rolleston. These bulls have been used primarily over high bos-indicus content cattle which is a contrast to the bulls sold in southern states. In these locations Yerwal Estate bulls are most commonly used over Angus, in Commercial and Stud Simmental Operations and also in operations targeting the heavy Vealer trade.

This demonstrates the versatility of the Simmental Breed and the strength of Yerwal Estate's offering.

The Queensland Simmental Bull Sale currently has 100 bulls nominated from 13 different studs representing every main land state in Australia. The sale is unique in that the following commitments must be adhered to by all vendors.

DEMONSTRATE INTEGRITY OF BULLS TO PROVIDE BUYERS "PIECE OF MIND"

Science and independent experts are a great way to assist in assessing the suitability of a sale bull. All bulls entered in the sale must be vet checked, DNA verified to sire, mouthed (to provide an indication of age), semen tested (morphology testing optional), EMA, IMF, P8, Rib and Scrotal Circumference measured. Bulls are also weighed at sale location to provide buyers with a true representation of weight.

All bulls entered are 8/8 registered purebred with the Simmental Association of Australia or Fleckvieh Association of Australia to guarantee buyers of hybrid vigour which is critical for an F1 cross.

NO HOOF TRIMMING OR BODY CLIPPING NO EXCEPTIONS

A purchasing decision including consideration of coat or feet type at sale should be genuine. Animal soundness evaluations are to indicate no visual evidence of hoof-trimming on certificates. Vendor participation is also based on head and neck clipping being permitted (though not preferred).

Cutting hair from ears, under pizzle, bottom of tail and spikes on top of tail set with scissors is the preferred presentation of sale bulls for the astute cattle producer.

VACCINATIONS ARE IMPORTANT AND SO IS BIO-SECURITY

No one wants to introduce pesti-virus or any other disease into a breeding herd that is healthy and

free from bio-security risks. Mandatory (Minimum) Vaccinations for bulls in the Queensland Simmental Bull Sale are 3-Germ (blooded), 3- Day Sickness, 7-1, Botulism with Bulls tested Pesti-Virus Free.

A SALE WITH A "BIG TAIL ON IT" IS A WASTE OF TIME FOR BUYERS AND VENDORS

In no instances will a bull previously entered in another sale (or advertised for sale independently) be eligible for entry to this sale. There are absolutely no exceptions to this rule and any vendor attempting to do this will be immediately removed from the sale. The tight entry conditions and theme of the sale have also been created to minimise "any tail" in bulls.

FURTHER INFORMATION ON THE QUEENSLAND SIMMENTAL BULL SALE CAN BE FOUND AT www.qldsimmentalbullsale.com.au OR BY VISITING THE QUEENSLAND SIMMENTAL BULL SALE FACEBOOK PAGE.

Email gday@studstockmarketing.com.au

Maximise your Stud Stock Sales with Australia's only dedicated Cattle Stud **Marketing Agency**

Stud Stock Marketing Services has the end-to-end means to market and promote your stud breeding operation, physical sales, genetic sales, online sales, paddock sales and even Breed Association.

Our team can assist to identify who your primary market is, identify the best ways to market and promote your operation to them and then perform some or all of the necessary marketing/promotion efforts at your request.

Create marketing campaigns, industry leading websites, targeted social media, fit-for-purpose video and TV commercials, high quality print (catalogues/flyers/ newspaper articles) and then there's design and production of banners, shed cards, branded merchandise and more.

MARKETING STRATEGY, PLANS AND **CAMPAIGNS**

Develop a marketing campaign that includes how, when and where to market and promote. Identify how return on investment (ROI) is measured so that you only spend money where its needed.

DIGITAL MARKETING AND FACEBOOK **CAMPAIGNS**

Have you ever received metrics on Facebook posts or campaigns you have paid for? Likely not, because they don't stack up and are overpriced. Our offering is affordable, and it works.

BRANDING AND GRAPHIC DESIGN

Align your brand with your desired market segment. Make your brand reflect the quality and professionalism of your operation every time it's visible to a potential buyer.

VIDEO PRODUCTION AND EDITING

Video sells better than photos or print. Our team can develop videos on anything you require including bulls for sale, stud sales, TV ads and more. We have a three-tiered solution offering pricing for every budget.

WEBSITE DESIGN. **BUILD, HOST AND** MAINTAIN

Create a website that markets and promotes your operation 24/7, 365 days a year. Create an industry leading website that improves your Google Ranking and creates more leads for your business.

LAUNCH OR GROW YOUR STUD SALE

Let us launch, improve or manage your entire bull sale. Only selling out of the paddock or online? We have a solution to sell your animals out of the paddock for a better return, one that has been tested and will get you results.

ELEVATE YOUR CATTLE STUD BRAND
