A RURALCO PARTNER

# THANKS TO OUR SPONSORS

Check out these **GREAT PRIZES** to be won on sale day!

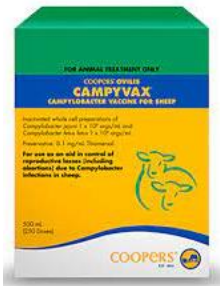

## VOLUME BUYER'S BONUS PRIZE

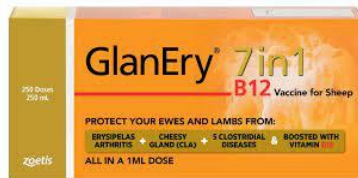

Need a lot of quality rams? Buy more rams on sale day than anyone else and win this impressive outdoor firepit! Handcrafted by Jake Smith of G & S Fabrications Condobolin and designed by Amy Strudwick, it's a unique addition to any dorper lamb lover's entertaining area.

## REGISTERED BIDDERS DRAW

All registered bidders are entered into the draw to win one of these premium products from our great sponsors. Winning bidders to be drawn at the conclusion of the auction.

3x250mls  
COOPERS  
CAMPYVAX

250mls  
ZOETIS  
GlanEry

20 litres  
BEACHPORT  
GREENCap

## TOP PRICED RAM BONUS

FREE collection of 100 straws of semen from the highest priced sale ram.

## How to Purchase Online

[www.auctionsplus.com.au](http://www.auctionsplus.com.au)

To facilitate online purchases, Burrawang's On Farm Sale will be interfaced with AuctionsPlus. AuctionsPlus requires that all new registered AuctionsPlus buyers complete Buyer Induction Training prior to bidding. *AuctionsPlus recommends that all intending bidders have completed their registration and training 24 hours prior to auction.* For more information, visit [www.auctionsplus.com.au](http://www.auctionsplus.com.au) and sign up to start the process.

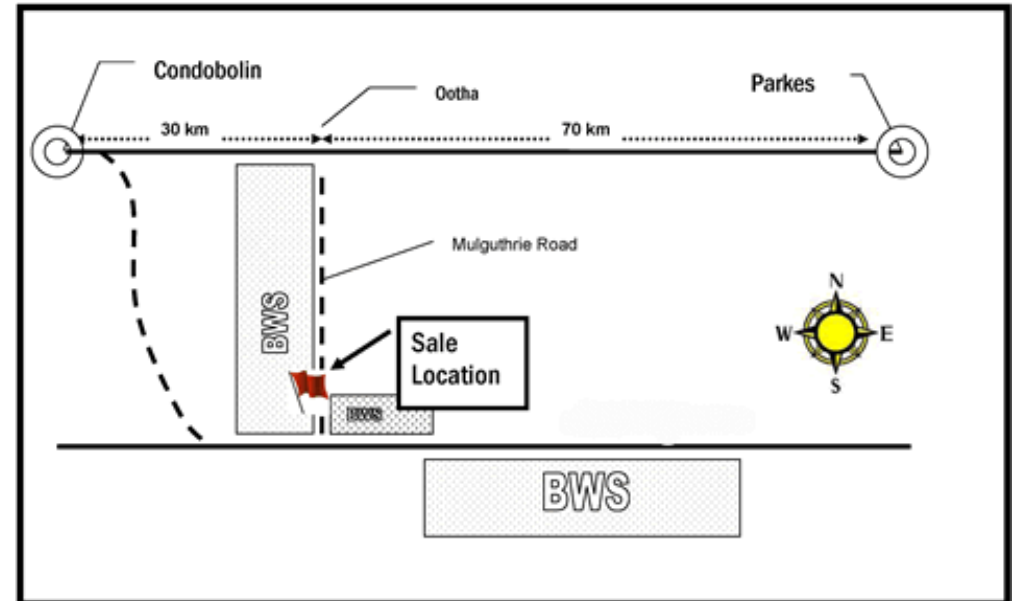

### Bidding begins online from 1pm on Sunday, March 20<sup>th</sup>

Online bidding begins on Sunday and remains open until the lot is sold during the live auction on Monday. We recommend considering the use of an autobid to ensure your bids are recognised. Because the auction will be held live, lots can be sold very quickly and using an autobid is the best way of enabling AuctionsPlus to relay the bid to ensure it is accepted by the auctioneer.

## Attending In Person

### Sale Location

Burrawang Dorper and White Dorper Stud is located on Burrawang West Station in central NSW; the sale arena is at 314 Mulguthrie Rd Ootha NSW. Look for the sign on the southwest corner of Henry Parkes Way and Mulguthrie Road intersection at Ootha. Turn south and follow the road approximately 3km until you come to a large shed on your right on which is displayed a large Burrawang Dorper and White Dorper stud sign.

## Sale Agents

BR&C Agents will conduct the sale; contact Darren Old on 0459 980 591 for more information.

## Burrawang Contacts

For more information about Burrawang Dorpers and White Dorpers, contact Mal Brady on 0428 500 027, Graham Pickles on 0418 112 888 or Stud Master, Wicus Cronje on 0475 892 862.

## Purchase Pick Up and Deliveries

Buyers attending the sale in person are encouraged to take purchased rams with them at the conclusion of the sale. For those buyers who are unable to do so, please contact Mal Brady on 0428 500 027 in advance of the sale or as soon as possible thereafter, to organise pick up from Burrawang West Station. *All rams are to be picked up by Friday March 25, 2022.*

*FREE DELIVERY of purchased rams for AuctionsPlus buyers is available to the following destinations:*

- Cunnamulla, QLD                      - Mildura and Swan Hill, VIC                      - Renmark, SA                      - Kalgoorlie, WA                      - Dubbo, NSW

All due care will be taken for the safety and health of your purchased rams prior to pick up and during delivery, however, to protect your investment, we strongly recommend that you consider insuring your rams from the time your ownership begins, which is the "fall of the auctioneer's hammer" on your purchase during the sale on March 21<sup>st</sup>.

## Quality Control Process

Burrawang uses an uncompromisingly strict standard of quality when selecting animals offered for sale. Our quality control standards are applied throughout each animal's life to ensure animals offered for sale meet the Breed Standard of Excellence for structural correctness and carcass quality.

## Independent Typing and Catalogued Comments

Australian and South African qualified breed inspector, **Philip Van Schalkwyk**, independently inspected and classed this group of sale rams on February 27<sup>th</sup>, 2022. The result of Mr Van Schalkwyk's inspection of each animal is reflected in the top right corner of each listing in the catalogue.

Burrawang's Stud Master, Wicus Cronje, has provided comments about rams in the sale. His comments, as well as supplementary performance and pedigree information, are included in each lot listing.

## **Performance Measurements**

Eye muscle depth (EMD) in mm and rib fat depth (Rib Fat) in mm, as shown in each lot listing, were measured by Sheep Genetics LAMBPLAN qualified scanner, Trevor Pearce at various intervals including early post weaning (EP), post weaning (PW) and on February 27<sup>th</sup>, 2022. EP is defined as 120 to 210 days old, and PW is defined as 210 to 300 days old. Average daily weight gain is provided for the period between weaning and either EP or PW as available. This represents the growth rate of the ram during that period and is shown by ADG (kg/day). Age at time of measurement is provided in the catalogue.

## **Eye Muscle Shape**

With the assistance of Sheep Genetics qualified scanner, Trevor Pearce, Burrawang has been recording the shape of our animals' eye muscles as well as eye muscle depth (EMD). While eye muscle depth is a good indicator of carcass quality, the shape of the muscle is equally important to meat yield. Shape is scored from 1 to 3 with 3 indicating the most productive shape.

Our breeding selections now incorporate this important production indicator. Each of the rams on offer was scored by Trevor Pearce and the score is shown in the information for each lot.

## **Super Breeder Dams**

One of the many significant production advantages provided by Dorpers, is the rate at which the breed can reproduce. As non-seasonal breeders, Dorpers can produce at a faster rate than seasonal breeders. To ensure our stud flock performs at the rate expected of the breed, most of Burrawang's stud production is based on natural, group joining with multiple sires, much like commercial joining.

This allows us to validate how well each ewe naturally performs. To maximise production, the ability to reproduce quickly is important, but so is the ewe's ability to raise her lambs. We track both capabilities along with other qualities and performance measures.

Within the pedigree tree of some lot listings, blue text appears to indicate that the dam is a known "Super Breeder." This designation is based on natural joining only so does not include artificial joining, such as Artificial Insemination or Artificial Insemination for Embryo Transfer, to represent the ewe's natural abilities most accurately. To be designated as a "Super Breeder," the ewe must have lambed each time she was

joined and raised all lambs born. In addition, she must meet at least one of the following criteria: had multiple births in two consecutive years, had two multiple births and a single birth in three consecutive years, lambed twice within 7 months, or lambed three times within 17 months.

Not all dams in the catalogue have had the opportunity to become a "Super Breeder" so lack of designation as such, is not necessarily an indicator of underperformance.

## **Working Rams**

Some rams offered for sale were used as sires in recent stud joinings. It is our policy that all rams offered in our On Farm Sale test **negative for Ovine Brucellosis prior to the sale.**

## **Health, Presentation and Ready-to-work Condition**

- To ensure the animals are healthy, all of them received Glanvac® 6 in 1 vaccination at tailing, weaning and at prescribed regular intervals including on February 9<sup>th</sup>, 2022. On that same day, the rams also received Avomec Duel drench.
- Burrawang's flock is Accredited Ovine Brucellosis Free; Certificate O5/9 expiring 2/28/2025.
- Burrawang's OJD status is MN1; clear of OJD with certificate NS21021.
- To facilitate assessment of conformation at sale, unless otherwise noted, most rams were shorn in late-August.
- Rams are presented in good condition with a healthy amount of body fat, so they are ready-to-work.

## **Satisfaction Guarantee**

Burrawang is committed to customer satisfaction. Buy with confidence knowing that Burrawang warrants these rams, for a period of 6 months from date of purchase, regarding fertility and structural integrity. The warranty does not extend to injuries, illness or issues arising as part of the ram's normal living circumstances or during transport. We are happy to guarantee your satisfaction with either money back or a replacement.

<p>A genuine stud maker! <b>2020 National Grand Champion White Dorper Ram TRUMP</b> was a standout when he won the title at just 9 months old and he remains a standout today. The only difference is that now he's a proven stud sire of incredible quality offspring. LAMBPLAN followers will be pleased to find strong influences of <b>Australia's #1 sire for all shedding breeds (as ranked by Lambplan in Jan 2022 with a MCP index of 157.47) KEG</b>, in TRUMP's breeding via his Super Breeder dam. TRUMP inherited outstanding carcass qualities and body fat from both sides of his pedigree. It's hard to miss TRUMP's outstanding muscling which is confirmed by his 52mm EMD and his history of leading performance indicators, such as top 10% PW and wean weights, and top 20% PW EMD, compared to his peer group. The quality of his head, the length and depth of his body, especially the depth of flank are remarkable but his performance as a breeding sire is exceptional. He has proven himself as a sire who breeds lambs of unusually high quality. He comes from a long line of high quality breeders including his maternal granddam who has two ewe offspring with sons in this sale. TRUMP is one of his breeders favourite rams. In addition to TRUMP himself, six of TRUMPS sons are also on offer; all are stud rams. <b>SEMEN RETAINED BY BREEDER.</b></p>

Weaning	111 days	32	N/A	N/A	N/A
<p><b>2021 National Champion Senior Dorper Ram BEDROCK</b> is such a special ram and so deserving of his win in the ring and as a proven stud sire. It comes as no surprise, given his pedigree which draws on the Cronje/Mickey Phillips strengths via sire GREATMATE, complimented by those of maternal grandsire BLINKI's Cronje/Global bloodlines. Structurally, he is unbelievable with an incredibly good topline and strong masculine head. He walks like a dream and has a genuinely nice temperament. Superior meat production capacity is evident in the depth of his brisket, his good sprung of rib, deep flank and width right through his body from shoulders to well-developed loins and broad rump. With current EMD of 43mm, he was also in the top 10% PW weight and in the top 20% wean weight for his peer group. His depth can create an illusion that he is short in the body but he is actually quite long. Everything about BEDROCK suggests a lot can be expected from him in terms of breeding performance and the quality and consistency of his offspring. This was confirmed by his first drop of lambs and continues to be reinforced by all subsequent drops of his lambs. In addition to BEDROCK himself, eight of his sons are on offer in this sale. In this regard, BEDROCK is consistent in his breeding like many of the high quality breeders in his lineage such as his maternal granddam who has three ewe offspring with sons in this sale, one of which is Ex Sire COWBOY. <b>SEMEN RETAINED BY BREEDER.</b></p>

<p>MARKSMAN's first drop of lambs hit the ground in April 2021 and confirmed, not only his prowess, but his ability to consistently throw true to his breeding. Like his sire, 6GUN, you know what to expect from MARKSMAN's offspring...take a look at his five quality sons on offer in this sale. MARKSMAN has incredible feet and a highly sought balance of muscling and beneficial body fat. His overall quality starts with his head, which is strong with a notably strong jaw, and continues throughout his long body which features muscling that goes way down his legs. MARKSMAN lives up to his heritage...a pedigree dominated by the best of Cronje and Mickey Phillips bloodlines, working magic. <b>SEMEN RETAINED BY BREEDER.</b></p>					

# NEXT BURRAWANG RAM SALE

## MONDAY OCTOBER 10 2022

LOT 22		FOSTERS WD 190525		STUD T5

PW	285 days	64	0.19	37	5
Weaning	64 days	22.5	N/A	N/A	N/A
<p><b>2021 National Champion Senior White Dorper Ram FOSTERS</b> has an amazing presence and good temperament. The outstanding quality of his head tells the story of overall quality and good breeding. FOSTERS is extremely well balanced and, from end to end, is a standout. He has well developed loins, an exceptionally long rump, amazing feet and extremely sound structure. The depth, quality, and muscle length of his hindquarter, along with his ability to walk so easily, are hugely impressive. FOSTER's sire, LOCO, produced several of BURRAWANG's sires during his very short breeding time before he met an early demise in the paddock. LOCO and TRUMP's dam, share the same pedigree; both were sired by <b>KEG, LAMPLAN's top sire of all shedding breeds in terms of MCP index as reported in January 2022.</b> And FOSTER's maternal grandsire CASPER, was another prolific producer whose offspring topped their peer group in growth rate. FOSTERS himself has an impressive 44mm EMD with a PW EMD in the top 20% of his peer group. FOSTERS is a proven sire who throws lambs of high overall quality and very low cull rates; see for yourself...9 of his sons are on offer. It all adds up to give FOSTERS that WOW factor. <b>SEMEN RETAINED BY BREEDER.</b></p>

<p>COWBOY is the spitting image of his sire, RODEO, the 2020 Australian Grand Champion Dorper Ram. His muscling, width and depth throughout his long body, great sprung of rib, strong head and beautiful skin, are eye catching. Growth and muscling are confirmed by his 43mm EMD and his PW EMD in the top 20% of his peer group. COWBOY is a proven sire who consistently passes along his outstanding carcass and structural attributes. His performance as a sire does great justice to his bloodlines which include many strong breeders such as his maternal granddam, who has three of her ewe offspring with sons on offer in this sale, including ex sire BEDROCK. COWBOY is well balanced, carries his muscle easily and has a really nice temperament. Structurally, he is an exciting ram who stands perfectly and moves with an easy gait. He is a special ram who promises a bright future for the dorper breed.</p> <p><b>SEMEN RETAINED BY BREEDER.</b></p>

LOT 24		MIMIC WD 191430		STUD T5	
2.5 yrs	Wt 96kg	EMD 45mm	Rib Fat 5mm	MS 3	
<p style="text-align: center;">XEROX BURRAWANG WD 170272</p> <p><b>Sire</b>      <b>COPY BURRAWANG WD 180430</b></p> <p style="text-align: center;">BURRAWANG WD 120173            BURRAWANG WD 111129</p> <p><b>Dam</b>      <b>BURRAWANG WD 151186</b></p> <p style="text-align: center;">BURRAWANG WD 139069</p> <p style="text-align: right;">Natural conception; Single birth</p>					
Performance	Age	Wt (kg)	ADG (kg/day)	EMD (mm)	Fat (mm)
PW	235 days	54.5	0.18	34	3
Weaning	116 days	32.5	N/A	N/A	N/A
<p><b>2021 Australian Reserve Champion White Dorper Ram MIMIC</b>, is a striking ram. Unbelievably correct structurally, he is also an extraordinarily strong, masculine ram with a long body and particularly good legs, who is incredibly well balanced and has outstanding carcass quality. Like The DOC from his dam's side, MIMIC stands perfectly over his front legs, has very strong hocks and carries his generous amount of meat very easily, moving with a smooth, fluid style. Kasteel bloodline on both side of his pedigree is evident in his remarkable growth rates, well developed loins, long deep body and very masculine shape. EMD of 45mm is impressive and as is his history of strong growth and muscling measurements including PW weight and EMD in the top 10% and wean weight in the top 20% of his peer group. MIMIC has been used at BURRAWANG as a sire but we do not recommend him to be used for stud breeding purposes; we found that his ram lambs tend to be a little too wide in the front end to continue using him for stud breeding. However, for commercial breeding purposes, MIMIC will deliver everything in spades in terms of money-making meat production!</p>					

LOT 25		WD 210809		STUD T4

HANDGUN has a tremendous head, nice thick legs, wonderful topline, very good bone structure and balance and is excellent on his feet. He was used as a sire at a very young age so hasn't had the chance to grow as he would otherwise have done. In fact he was at work when his peer group were scanned at PW. He is one of 17 PISTOL sons on offer, was born a twin and his granddam has two of her ewe offspring with sons in this sale. <b>SEMEN RETAINED BY BREEDER.</b>

<p>This, and the following T5 stud ram, along with the T4 stud ram in lot 117, are the result of carefully crafted breeding selections using sire CASANOVA. This particular ram is a twin and provides that rare combination of outstanding muscling and plenty of beneficial body fat. He is very well bred and carries a lot of meat on his long, deep body. He's structurally safe, moves smoothly and easily and has a great temperament.</p>

<p>This ram has is all and he knows it! Another of CARLTON's awesome heads and high-quality carcasses, this young ram is an impressive T5 stud which can do well for any stud or commercial breeder. He's very sound with an excellent topline. Well-muscled from end to end with remarkable brisket and sprung of rib, he has length, depth and width all over. Terrific inner and outer twists and deep flank. A very high-quality animal.</p>

<p>A T4 stud whose EMD has always been impressive; 37mm EMD at 11 months old and in the top 10% of his peer group at PW, he also has a good cover of beneficial body fat. A big robust ram with strong head, long and deep body, very well developed loins, who carries a lot of meat while moving smoothly and easily. A must buy for anyone who wants fast growing, heavy lambs.</p>						

# GET MORE LAMBS ON THE GROUND

*What would  
9%<sup>^</sup> more lambs  
mean on your farm?*

<p>An EMD of 38mm at 11 months of age is pretty impressive as is his ample amount of sustaining body fat which makes him particularly well suited to dry country commercial breeding. His maternal line's fecundity and breeding consistency, also helps ensure his value as a commercial sire; his maternal granddam has two of her ewe offspring with sons in this sale and this ram's dam is a Super Breeder.</p>

A strong, long, easy walking ram with a very good topline, great skin and high quality head. He's going to be a very big 'boy'. Consistent with his bloodlines' reputation for high fecundity, he is a twin whose maternal granddam has three ewe offspring with sons in this sale. Two of her ewe offspring are Super Breeders. This T4 stud ram is one of 11 THOROUGHbred sons of offer.

Typical of CARLTON's offspring, this T4 stud ram has a really good head followed by great width right through his body with an excellent topline, good sprung of rib, big outer twist, great overall carcass, lots of meat and plenty of beneficial body fat. His current EMD of 37mm is remarkable for a young ram and his dam is a Super Breeder.

<p>As expected from all of CARLTON's sons, this T4 stud ram has a really good head. Although he's a little shorter than some in his body, he's also very deep and wide with lots of meat and a great carcass. No shortage of meat production capacity here as evidenced by his PW EMD in the top 10% of his peer group and wean weight in the top 20%. This ram's dam is a Super Breeder.</p>

There are plenty of reasons why this ram's sire <b>KEG is Australia's #1 sire for all shedding breeds (as ranked by Lambplan in Jan 2022 with a MCP index of 157.47)</b> . This young T4 stud ram illustrates many of those reasons. He has an outstanding balance of muscling and beneficial body fat which ensures his lambs will be early maturing and heavy. Plus, he's long, wide and deep, walks like a dream with an extremely strong topline and an ideally shaped and amazingly, deep eye muscle you can actually see (38mm at 11 months of age). His powerhouse pedigree includes the dam of current BURRAWANG WD sire, KING KONG 200083.

<p>As expected from sire FOSTERS, this T4 stud is remarkably good in his muscle scanning (37mm EMD at 11 months old) and in his fat cover. He is a very high quality animal with a great head, a lot of length and depth, incredible loin development and a remarkably long rump. So typical of FOSTERS' sons, he'll breed fantastic ewes to retain and who will turn off lambs with tremendous carcasses. The fecundity of the ewes in his maternal line, including his Super Breeder dam, ensures this ram will create plenty of lambs during his breeding career.</p>

This is an amazing ram and another great example of why FOSTERS is so valuable as a stud sire; this young ram has tremendous muscling for his size and exudes quality. He has the body length, muscling, sound structure, easy walking style and that essential balance of meat and beneficial body fat, to ensure he breeds plenty of quality fat lambs. He's one of two in the sale with identical pedigrees; both are stud animals.

<p>A tremendously high EMD of 38mm at just 10 months of age, added to the fact that his EMD at EP was in the top 20% of his peer group, affirms that he is a meat making machine! He's long in the body with a good topline, has well developed loins and noticeably good outer twist, all of which earns him his T4 stud typing.</p>

The fact that MARKSMAN has so many rams on offer in this sale, is testament to his breeding consistency and quality and validates his value as a sire. This T4 stud ram is a good example...the head quality, the balance, the meat, the good topline and easy walking style are all typical of MARKSMAN's breeding. This ram has a lot going for him from his dam's side as well...she's a Super Breeder.

A big, heavily muscled animal with a good outer twist, this T4 stud ram is a twin whose maternal granddam has three ewe offspring with sons on offer in this sale. Two of the three ewes, including this ram's dam, are Super Breeders. This fecundity in his background and the fact that his sire SPUR has 23 sons on offer here, bodes very well for this ram's future as a breeding sire.
