STUD NEWS UPDATE

Le Martres Herd Welcomes Back Another Sire -

In January 2022, the Le Martres Limousin Stud Herd welcomed back 'Le Martres Black Kennedy' (LEMPK54).

Le Martres Black Kennedy was originally sold to Jack & Cheryl Devanny of Gooram, via Euroa, Victoria at the 2015 Annual Bull Sale. Jack & Cheryl bought him as the equal top priced bull on the day.

Over the ensuing years, Black Kennedy served a commercial role mating Angus & Angus/Hereford cows and his progeny regularly topped the Euroa Sales.

Jack & Cheryl report that he has not had any illness or injuries and has been an excellent bull to handle.

Now at 9 years of age, the Devannys were faced with retiring him from their operation and so contacted the Le Martres Stud offering him back for stud duties.

The Le Martres Stud has as high values – longevity, structural correctness and good manners, so the decision to purchase him back and include him in the 2022 Sire Team was very easy.

Sires previously purchased back and still serving in the Sire Team include –

Le Martres Gladstone (G133)
Le Martres Black Jensen (J179)

Stud Sire - Le Martres Black Kennedy (K54)

LE MARTRES BEEF

Dear Fellow Beef Producers

Welcome to our thirteenth Le Martres Beef Annual Bull Sale.

We again proudly offer you another industry focused set of bulls with an offering of a significant number of both mature & yearling bulls.

And, our Sale Bulls just seems to get better and better for a whole range of reasons.

For those of you whom do not know our cattle, we produce our cattle under grass feed conditions. We believe this is why our cattle move and perform readily in a wide range of environments and, are highly fertile.

Established in 1988, Le Martres Beef proudly breeds Limousin cattle with optimal growth and exceptional quality carcasses, a range of coat colors (apricot, black & blue) and an increasing selection of which are polled.

Our Limousin cattle are bred to perform in Australian conditions for your benefit. "Le Martres Beef cattle work for you". Leon Martin

The stud has a within herd genetic selection program based on 23 years of adopting the Livestock Assessment services of the 'Natural Ecosystems Group' (NEG) of Albury, NSW.

This service utilises objective measurement - weighing, live scanning and indexing technology to identify cattle of superior 'meat yield and quality'.

The many benefits are,

- higher carcass yields
- better balanced carcasses, ie. ideal meat/fat/bone ratios
- greater carcass uniformity across progeny.
- higher value heifer progeny
- higher meat content (> 60% dressing percentage)
- higher 'Carcass Merit Index' post weaning for high meat performance
(NEG; CMI >2000 @ 12 months, or NEG; CMI/mth > 166.67)
- adequate fat cover(>4 mm & < 10 mm) for softness and ease of finishing
- higher marbling (> 2.0 IMF) for meat quality.

Young herd sires are selected from within the herd on the basis of,

- born early & relatively small (ensuring shorter gestation & small birth size)
- high 'Carcass Merit Index' post weaning
- bred from superior milk performance dams
- structurally correct
- carrying large testicles well suspended away from the body.

We continue to place great emphasis on cow families and, sons bred from these families.

Again, as we move amongst our clients, we encourage them to retain the F1 & F2 heifers from their commercial herds and, breeding on with these cattle. Also, our Le Martres genetics are proving ideal for both grassland &/or feed-lot finishing, especially as domestic trade orders. And, increasingly our cattle are successfully meeting the challenges set for larger Steers &/or Bullocks.

We remain dedicated to objectively improving the meat yield & quality of our cattle for your benefit.

Breed with Le Martres and, Bank the benefits".

Yours in Limousin,

The Le Martres Beef Team.

Leon Martin

Ron Leary

SALE INFORMATION

The 'Selling System'

On Property - The Helmsman Sale will be conducted in the 'Woolshed' which is located in close proximity to the stockyards. Mr James Brown of 'Ray White Rural Albury/GTSM' will conduct the sale. There will be no sale ring, or selling of the bulls through a sale ring.

AuctionsPlus, Buyers Orders And Phone Link Up

Mobile phones operate successfully at the Woolshed (venue). Auctionplus will be operating through-out the Sale and we encourage buyers to register beforehand and contact the Sale Agent to indicate their intent.

We encourage potential buyers who are unable to attend the sale to make arrangements with the listed Sale Agent during the sale to place bids. Please make arrangements at least 48 hours prior to the Sale Day.

Inspection

Bulls can be inspected prior to the sale by arrangement with the vendor or Selling Agents. This gives us the opportunity to assist in selection of the most suitable genetics for your requirements.

Guarantee

Bulls - We guarantee to ensure all clients achieve one crop of calves from each bull purchased. The bulls have been selected for structural soundness. The bulls have been raised on a grass fed system which has proven successful over time to ensure our bulls/females are fertile. In the event of infertility, we (the vendor) guarantee (without expenses, interest, costs and damages) if any bull proves to be totally infertile or totally incapable of natural service, provided it is not caused by an injury or disease contracted since leaving the sale, to replace the bull with a bull of comparable value. Any claim for a bull must be lodged within 6 months of the date of the Sale direct with the vendor, and be accompanied with a relevant Veterinary Certificate. A claim will be considered on its merits by us (the vendor) and our Veterinarian.

Health

TB and Brucellosis free herd and stock are free to move anywhere in Australia. JD status is JBAs 6. The bulls have been vaccinated previously with Vaxall 5 in 1 and Pestigard.

Tattoos

Certain bulls have an industry tattoo denoting the purity of '1', '2' or '3'. In explanation, the Le Martres Beef Breeding Program selected young Herd Sires to introduce the traits of black coat color and polledness into the herd. Many of these sale bulls are of higher purity than these tattoos denote, and we ask you to take more notice of the percentage purity listed in the catalogue.

Objective Measurement

The bulls were weighed, carcass scanned and indexed as yearling/mature bulls in December 2021. This practice is meaningful by providing the buyer with information of the body type of the calves these bulls are likely to produce when their calves are of a similar age. Over time, this approach has proven to be reliable and, very well received by our clients. This information is provided in the catalogue for your reference.

The bulls will be weighed again just prior to the Sale and, have a scrotal measurement taken, and this information will be provided in a supplementary sheet.

Semen Collection

Each bull is being sold with 100% possession, marketing and ownership. Le Martres Beef is reserving the right, if desired in the future, to collect semen from any bull. All costs associated with the collection of semen will be met by Le Martres Beef, and collection would be done at a time suitable to the purchaser. The purchaser will have total control of the bull, including any marketing of the physical bull or semen.

Notice to all Buyers

Pre On Line Registration

1. All Buyers must pre register at <https://raywhitegtsm.com.au/buyer-registration>.

Invoicing

1. Ray White/GTSM will invoice successful Purchasers at the completion of the Sale.

Sale Rebates

1. All Buyers who settle their purchases on the day by cheque/credit card will receive a 2% rebate.

Delivery

1. Cattle will only be released after financial settlement has been completed with Ray White/GTSM.

Notice to all Agents

Pre On Line Registration

1. Agents can go online at [www.https://raywhitegtsm.com.au/buyer-registration](https://raywhitegtsm.com.au/buyer-registration) and introduce their Buyers before the sale.

Sale Rebates

1. All Agents whom fully complete & sign the Registration Form and settle on their clients behalf within the terms offered in the invoice will receive a 5% rebate on any of their clients purchases.
2. All Agents settling only on their clients behalf only will receive a 1% rebate on any of their clients purchases.

Personal Transport To And From The Property

Inspections by appointment - transport from Albury to and from the property can be arranged. Please contact the Agents of the Martin Family to make any such arrangements.

Air Facilities

Good airport facilities are available at Albury and Wagga Wagga. And private planes may also use Holbrook.

Accommodation

We recommend you contact the Motel direct:

Thurgoona Country Club Resort

1 Evesham Place,
THURGOONA
Ph: (02) 60431666

Insurance

We recommend you insure your purchases. All care will be taken to the conclusion of the sale but thereafter it is the purchaser's responsibility for any injury or death. We recommend you insure all purchases on the day with Ray White/GTSM, agent for CGU Insurance, and insure for at least the first 12 month period.

Livestock Delivery

Joe Wilton is the vendor's nominated carrier. Joe will help co-ordinate all transport arrangements for your new purchasers with Sale Agent Ray White/GTSM. Joe Wilton - 0408 739 559.

Important Notices

1. The vendor will not be responsible for any errors or omissions in this catalogue.
2. The Selling Agent, its members, subsidiary or related corporations, officers, agents and employees for themselves and for those for whom they act while exercising due care provide all information without responsibility and give no guarantee whatsoever as to its accuracy. All persons who attend the sale do so entirely at their own risk and the Selling Agent, its members, subsidiary or related corporations, officers, agents and employees and its principals, for themselves and for those for whom they act, do not assume or accept any responsibility or liability of whatever nature for any injury or damage whatsoever which may occur.

LE MARTRES BEEF

Le Martres Beef is known for adopting objective measurement to improve the carcass yield and quality. This process is reaping financial rewards for their clients and the greater Beef Industry.

A 'weigh & Scan' operation was conducted on the 28.12.21 on the 2020 Spring drop of yearling sires, which appear in the 2022 Annual Bull Sale. The assessment provided the following results and, a comparison with the previous 2019 drop showed the following trends –

<u>Trait:</u>	<u>2020 Bulls Av. Result:</u>	<u>Comparison With 2019 Bulls:</u>
* Age	16.2 months	+3%
* Live Weight	568 kg	-0.1%
* Rib Fat	5.8 mm	+9%
* Rump Fat	6.1 mm	+9%
* Marbling/IMF	3.6 %	+9%
* EMA (Eye Muscle Area)	118.57 cm ²	+7%
* NEG; Carcass Merit Index	3052.0 (Super Elite)	+4%
* NEG; CMI/Age	188.4	+1%

The 2020 cattle were slightly older when assessed, and accordingly have recorded higher gains for a range of traits. These results confirm the consolidation of the positive trait changes achieved over recent years. In itself, a very positive result.

Le Martres genetic selection program continues to produce cattle with reliable performance and, an extremely desirable set of carcass traits.

EXPLANATORY NOTES FOR CATALOGUE

LWT:

Live weight is measured by weighing the live animal. Results are measured in kilograms.

RIB & RUMP FAT:

Fat Depths are measured by carcass scanning of the live animal. Fat depths are measured on both the 12/13th Rib and P8;Rump sites, and measured in millimetres.

Measures of >3mm and <10mm will be ideal results for Domestic Trade cattle.

EMA:

Eye Muscle Areas are measured by carcass scanning of the live animal. Such areas are measured on the 12/13th Rib site, and measured in square centimetres.

Eye Muscle Areas(EMAs) greater than 100 cm sq. for either sex and all ages of cattle, excluding cattle under 6 months, will be a very good result.

IMF:

Intramuscular Fat is measured by carcass scanning of the live animal. IMF is measured on the 12/13th Rib site, and measures the percentage of fat distributed through-out the eye muscle.

Intramuscular Fat(IMF) measures of >2% will be ideal result for Domestic Trade cattle.

NEG; CMI:

The 'Natural Ecosystem Group (NEG); Carcass Merit Index' (CMI) is based upon the Live Weight(LW), Eye Muscle Area(EMA), Fat Depths(FD) and Intramuscular Fat(IMF) of the animals weighed & scanned.

Animals with heavy LW, large EMA, least FD and high IMF are rated highest by the 'NEG; CMI'.

The results are presented in groupings by age, and ranked from highest to lowest.

N.B It will be recommended animals under the age of 24 months be divided into groups with up to a three month spread of age for the purpose of peer group comparisons.

NEG; CMI/AGE:

The 'Natural Ecosystem Group (NEG); Carcass Merit Index' (CMI)/month is a powerful tool for assessing the performance of a live animal, ie. carcass merit relative to age. And, likewise when comparing a live animal against its peers.

EXPLANATION OF THE SUFFIXES TO ANIMAL NAMES IN THIS CATALOGUE

Horn Status:	(HP*)	Homozygous Polled by DNA test
	(HP)	Homozygous Polled by progeny test
	(2P)	Homozygous Polled by pedigree
	(P)	Polled
	(S)	Scurred
Colour:	(HB)	Homozygous Black by DNA test
	(2B)	Homozygous Black by pedigree
	(B)	Black
	(R)	Red (not Apricot)
Protoporphyrin Status:	(PN)	Proto Normal
	(PF)	Proto free by pedigree
	(PC)	The animal is a carrier of the abnormal gene for Proto.
	(PS)	Proto suspect (parent of carrier animal)
	(PU)	The animal has not been tested for Proto or have parents which have been tested normal or are free by pedigree.

EXPLANATORY NOTES FOR CATALOGUE

F94L – The Limousin Muscle Gene

What are the effects of the Limousin Muscling Gene?

The research conducted by the Adelaide University group led by Dr Wayne Pitchford has clearly documented the effects of the Muscle Gene as shown below.

	Two Copies of the Gene:	Zero Copies of the Gene:	% Difference:
Hot Carcase Weight	390.8 kg	380.2 kg	+3%
Weight of Silverside	11.58 kg	9.76 kg	+19%
Eye Muscle Area	102.0 sq cm	86.1 sq cm	+19%
Retail Beef Yield	73.4%	68.1%	+8%
Shear force of Loin Muscle*	4.06	4.30	- 6%
Shear force of Silverside*	3.94	4.43	-11%

Note: (*) lower shear force indicates more tender beef

How big is the effect if I use a Limousin bull over cows of another breed?

Most Limousin bulls carry two copies of the Limousin Muscle Gene so each of the progeny will get at least one copy of the Gene from the bull.

Animals with one copy are likely to exhibit about half the differences shown above.

A Limousin cross calf is expected to have –

- * 9.5% more Silverside,
- * 9.5% larger Eye Muscle Area
- * 4% more Retail Beef Yield
- * 3% increase in Tenderness of the Loin Muscle
- * 5.5% increase in Tenderness of the Silverside.

F94L Verification

All bulls in this Sale are descendants of Stud Sires whom have had their F94L status verified by a DNA Test.

What is a Limousin bull worth?

A Limousin bull siring 30 calves per year over 5 years.

Realistically these calves – steers & heifers – can make a \$50 premium per head in the market.

Therefore it can be reasoned the bull is worth $30 \times 5 \times \$50 = \$7,500$ MORE to the Buyer!

ID No.	Rank	LWT (kg)	Rib Fat (mm)	Rump Fat (mm)	IMF (%)	EMA (cm ²)	Carcase Merit Index; Vers. 5:	Age: (mths)	CMI/Age:	Sire:	Skin Color:	Horn Status:

8 head

Le Martres females offer tremendous meat yield & qualities, early puberty for ease of rebreeding through-out adult life, excellent mothering, high milk performance and terrific calf weaning weights. Le Martres has 30+ years breeding and carefully selected bloodlines that offer wonderful comercial performance and good manners. This will be a tremendous opportunity to include Limousin females into a commercial breeding program and experience the Limouin benefits.

LE MARTRES BEEF

Taking Delivery Of Your New Cattle - Bulls

To help your new cattle settle into their new property, the following points may be of assistance.

- * All Le Martres Beef cattle have been grazed in large herds all of their lives, so they have always had plenty of companion animals, and never been alone.
- * It is a good idea to have mature cattle of your own in the stockyards for company for when your new cattle arrive. These cattle will provide company for the new cattle, and encourage them to settle in quicker, and get to know the lay-out of your stockyards/races/ paddocks.
- * At Le Martres Beef we handle our cattle quietly and confidently, we always show our cattle respect, and our cattle respect us. We generally use motorbikes and dogs to yard the cattle. And, work the cattle on foot and with dogs in the stockyards. The cattle are not familiar with horses.
- * Handle you new cattle quietly and with respect and they will settle into their new property and herd and will be easy to handle whenever the need arises.

At Delivery

- * At Le Martres Beef we will work with you to ensure your newly purchased cattle are delivered safely, professionally and timely. We highly recommend Mr Joe Wilton as the nominated carrier.

During The Settling In Period

- * The majority of cattle have been grazed in a large herd.
- * Once unloaded, ensure the cattle have mature company and plenty of food and water.
- * Be aware it is a new environment for the cattle and, sometimes time in the yards with mature company and plenty of food and water may be required.
- * Do not box up bulls not familiar with each other – the majority of breakdowns/injuries are caused in the bull paddock when new bulls are directly added to an existing group of bulls.
- * Remember the pecking order scenario with other bulls – the newest addition into a bull paddock may receive a hard time for a while. Perhaps graze bulls in adjoining paddocks for some time before grazing together in the same paddock.
- * The bull(s) are use to being treated with respect and will respond accordingly to good management.

At Joining Time

- * For a young bull(s) arrange a minimal number of cows/heifers to allow the bull(s) to learn to serve and work amongst the herd. Practice makes perfect!!!
- * Observe the bull(s) closely and regularly at the commencement of a joining period. This ensures you are aware of the bulls ability to serve, and you will get to know their behaviour and manners. Continuing to observe the bull(s) will increase the chances of you noticing if an accident has occurred and/or females in the herd are returning from service. In which case, the bull(s) can be removed and a back up bull(s) placed in the herd.
- * If using more than one bull in a herd it is advisable to combine a mature with a young bull or two in a team.
- * Do not mate bulls with horns and polled/dehorned bulls together. Single mating is preferred.

After Joining Time

- * Try and combine younger bulls in the bull paddock, and graze older bulls in a seperate herd to avoid injury of the older bulls.
- * Offer all bulls plenty of food and water in order to recover body weight and regain optimal health and nutrition.
