WELCOME

John and Fiona Glover would like to welcome everyone to their inaugural On Farm Bull and Productions Sale.

This has been over 20 years in the making after purchasing the pick of the herd from the dispersing Worralla Park Angus. From these foundation females and the use of artificial insemination and embryo transfer, Wattlewood built up their numbers and kept quality in the herd with selecting only the best females that displayed structure, temperament, and a balance of EBV's.

Wattlewood has had success in the show ring, selling at National Sales and in carcass competitions across Australia. Their biggest success though, is selling quality bulls and genetics to repeat buyers over the years.

John and Fiona are supported by good friend and cattle person, Rachael Cochrane who helps around the farm and with the animal husbandry of the Wattlewood herd.

Wattlewood has bred and grown a great line up of Bulls and Females that are backed by the Zoetis Star Breeder program, are Sire Verified by Angus Australia and tested HD 50K. The bulls have been semen tested and are ready to work, while the 'R' females are PTIC.

Thank you for your interest and support in the Wattlewood inaugural sale.
