

# BIARA

SANTA GERTRUDIS

**17th Annual Sale**  
**5 April 2022**  
Sale commences at 1.00pm

# BIARA SANTA GERTRUDIS

Biara Santa Gertrudis was established in 1976 with the purchase of bulls from Orleans Farms in Esperance. These classified bulls went over an Angus/Hereford/AIS cross herd. Herd grading up was a slow business so cows were purchased from Mt Ty in Queensland, Orleans Farm, Koorabup, Bahloo and Gundamain in WA to hasten the process.

Quality classified bulls have since been purchased from Rosevale, Gyranda, Eidsvold Stn, Yarrawonga, Wave Hill Greenup and Kelly Wallah.

Poll cattle have played an important part in our herd with at least 85% of the cows being polled. Future plans will involve these numbers of polled cattle increasing.

Biara's breeding objectives have always been to produce moderate sized cattle with good doing ability, lots of muscle, are fertile and with good early growth figures but are able to grow on as steers. These objectives have enabled our cattle to fit into the export, local and the Jap ox markets and are as important today as the day we started. Our breeding herd is run as a commercial herd with hay the only supplementary feeding during the break of the season. Heifers calve at 2 years of age and cows should calve every year. They are allowed to miss one pregnancy during their life if seasons go against them.

Bull calves are weaned onto stubbles then grazed on oats before being finished on grain for 40 -60 days pre-sale.

We are well aware that too much feed shortens a bulls working life and we are looking for a balance between presentation and presenting fit, fertile and quiet young bulls for sale.

EBVs have been used extensively in our herd and over the last few years and we have come to trust these figures in selecting replacements along with **our strict visual assessment for structural soundness, fertility, doing ability and temperament. We are now focusing on producing polled bulls for sale by using mostly (PP) sires.**

The Hasleby family wish to extend an invitation to attend our on farm bull sale on Tuesday **5 April, 2022.**

**We very much look forward to seeing you here.**

# BIARA

SANTA GERTRUDIS

## 17th Annual Sale

5 April 2022

Sale commences at 1.00pm

The **Hasleby family** will offer for public auction:

- 98 Santa Gertrudis bulls 47 (PP) 47 (P or scurs)**
- 3 Sangus (Black and Red Santa / Angus)**
- 18 Santa Gertrudis Heifers**
- 14 Sangus Heifers**

**Wendy Gould, Wendalla Stud** will offer

- 6 Santa Gertrudis bulls (5 polls, 1 Scur)**
- Ph 0418947521**

Pre-sale inspections welcome any time.

### Outside Agents:

A 2% rebate will be paid to any outside Agent who introduces **new** clients to the stud. New clients must be notified to Nutrien 48 hours before the sale on Biara bulls only. The Agent must accompany and assist their client on the sale day.

# NOTES TO BUYERS

**Auction Plus** - Sale will be streamed on Auction Plus

**Semen Test** - All bulls will have undergone a motility and morphology semen test. Results on sale day.

**Poll Horn Test** - Selected bulls have undergone **PP** test

**Pic No.** - Buyers, please present your Pic No at registration on the day.

**Delivery instruction sheet** - At the back of the catalogue must be filled in prior to taking delivery of bulls

**Sale supplementary sheet**

Provided on sale day

**Transport**

Bulls can be delivered to Coolina if required

**Inspection**

Bulls will be yarded for inspection by 10.30pm on the day of the sale. Inspection welcomed prior to the sale by appointment.

**Health**

All bulls receive Vibrio, 7 in 1 and Pestigard vaccinations and tested BVDV negative, prior to sale and as weaners.

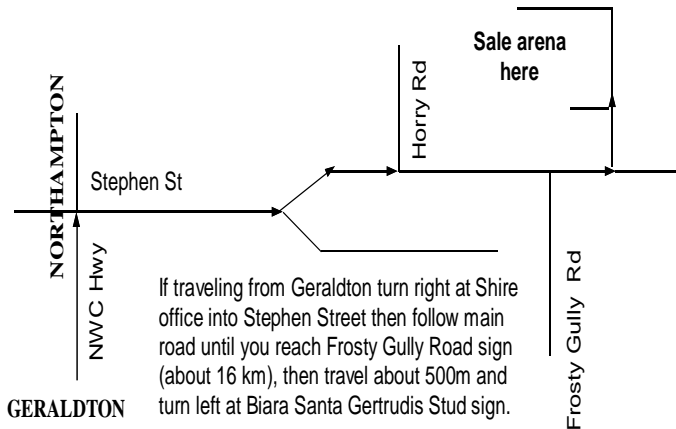

Biara is J-BAS 8 accredited.

**Airstrip**

Northampton Airstrip is approx 5 kms from Biara farm. Contact John for more details on 0438341027.

All care is taken that information is correct to the best of our knowledge.

Biara is situated 16km east of Northampton. Map below.

## GROUP PLAN EBV'S How to Interpret Them

Notes on Group Breedplan EBVs: BREEDPLAN is a genetic evaluation system for beef cattle that uses all pedigree and performance information known about an animal and its relatives to calculate Estimate breeding Values (EBVs). EBVs are the best estimate of the genetic merit of an animal for each trait measured. **EBVs are free from environmental influences that play a significant part of the observed performance of an animal.** Units of measurement for EBVs depend on the trait; for example, growth traits are in kilograms and fat depth in millimetres.

The GROUP analysis for Santa Gertrudis BREEDPLAN is processed by ABRI (agricultural Business Research Institute) from the integrated pedigree/performance database of the Santa Gertrudis Breeder's (Australia) Association.

**NB: GROUP BREEDPLAN EBVs can be compared with animals in other Santa Gertrudis Herds but not with animals in other breeds. It is important when assessing GROUP EBVs of a particular animal, to compare them with the average of the breed. The average of 2013 drop calves is used as the measurement of the current genetic level of the breed.**

CURRENT GROUP BREEDPLAN AVERAGE EBVs 2018 CALVES								
200D Milk	200D Wgt	400D Wgt	600D Wgt	Mat Wgt	SS	DTC	Domestic	Export
0	+11	+18	+24	+29	+1.0	-1.3	+17	+21

### HOW TO USE EBVs

The first step is to decide what characteristics are important in your breeding program, then select EBVs which fit the bill for your herd. For example, if you are selling 14-month-old steers and the last draft you sold could have been heavier without prejudicing your market, then you should look for a bull with a high EBV for 400 day wt.

### ARE BULLS WITH NEGATIVE EBVs WORTH BUYING?

Yes. They can be. EBVs are a guide to help in selection – not the only selection criteria you should use.

**200 DAY MILK AND GROWTH:** The vealer producer should place emphasis on the 200-day growth and milk genes. If the bull is to be used as a terminal sire, growth is most important. If the bull is to be used to breed replacement heifers and superior milking and mothering ability is required, then pay close attention to the EBVs for milk (kg). The estimate in kg milk is not the yield of milk of the dam, but the growth of the calf due to more milk and better mothering in the dam.

#### **400 DAY WT:**

400 Day Wt EBVs are a measure of the animal's ability to grow to 400 days of age (can be measured from 301-500 days). It should be used by producers who wish to turn off yearling cattle.

#### **600 DAY WT:**

600 Day Wt EBVs are computed for growth to 600 days of age (can be measured at 501-900 days of age). In production systems for heavy steers, this is important. It is the best prediction of an animal's ability to grow on to maturity.

#### **ACCURACY:**

An accuracy on EBVs gives an indication of the amount of information that has been used in the calculation of that EBV. The higher the accuracy, the less the animal's EBV are likely to change as more information is analysed for that animal and its relatives.

## **SEMEN TESTED BULLS**

**Biara is focused on presenting functional, fertile bulls** so all bulls have been assessed for semen **morphology and motility**. Quality and results will be on our supplementary sheets on sale day. We believe that morphology plays a major part of overall herd fertility.

Morphology of the sperm cell is now recognised as the most important measure of fertility in a bull. Results of the Bull Power Project showed that higher percent normal sperm of a bull was the trait most correlated to higher calf output. In addition, research is showing that percent normal sperm is correlated to the future reproduction performance of both male and female progeny.

## **HORN- POLL TEST**

**In our quest to produce polled bulls, we are now using 7 (PP) bulls as sires as well as 51 sale bulls** that have passed a homozygous **(PP)** test this year, meaning that it is likely that 98% of their offspring will be polled. These will be recognised with a **(PP)** behind their name in this catalogue.

# SIRES OF SALE BULLS

## Gyranda Kenny K 592 (PS)

Sire: **Rosevale Democrat (P)**  
Rosevale Democrat (P)  
Rosevale Honey Y165 (P)

Dam: **Gyranda F445 (P)**  
Strathmore Warden(P)  
Gyranda Z 303

### GROUP BREEDPLAN FIGURES

200D Milk	200D Wgt	400D Wgt	600D Wgt	DTC	SS	EMA	Rib Fat	Rump Fat
-7	+9	+12	+17	-5.2	+1.4	+2.3	+0.6	-0.5
\$ index value - Domestic +21					Export + 28			

**Remarks:** Gyranda Kenny(P) was purchased in 2015 for \$13000. He is the bull we were hoping to find - moderate frame, very thick and wide, very good sheath & testes, good slick coat and very quiet. He is the bull we feel we can put over any cow we have to get a worthwhile progeny that fits our criteria We have weaners now and can see that they are a carbon copy of Kenny. Sire of record top priced bull in 2020 **very impressive.**

## Rosevale Monty M 482 (PP)

Sire: **Rosevale Jackaroo (P)**  
Strathmore F672 (P)  
Rosevale Harmony (P)  
Rosevale Bullion (P)

Dam: **Rosevale Swan (P)**  
Rosevale Swan(P)

### GROUP BREEDPLAN FIGURES

200D Milk	200D Wgt	400D Wgt	600D Wgt	DTC	SS	EMA	Rib Fat	Rump Fat
-3	+19	+32	+47	+5.5	+4.1	+4.2	+0.8	+0.4
\$ index value - Domestic +21					Export +21			

**Remarks:** Rosevale Monty (P) was purchased in 2017 for \$42000 and is a PP bull meaning 98% of his progeny will be polled, a trait we were looking for, alongside of 85% morphology semen and a perfect sheath. Monty is a massive sire, slightly later maturing bull as his figures suggest but comes in a package that suits us, dark red colour and shiny coat, lots of breed character, perfect feet and legs and is very thick with the ability to finish or to lay down fat. A bull we think will leave a lot of good females as well as many good sale bulls. First bulls sold in 2020.

## Greenup Mandate M330 (P)

Sire: **Dangerfield Tycoon (P)**  
Danderfield Patrol Chief  
Dangerfield 5337 (P)

Dam: **Greenup Hindu (P)**  
Warenda D656(P)  
Greenup E 131

### GROUP BREEDPLAN FIGURES

200D Milk	200D Wgt	400D Wgt	600D Wgt	DTC	SS	EMA	Rib Fat	Rump Fat
+0	+19	+33	+37	-1.0	+0.5	+3.3	0.0	+0.1

\$ index value - Domestic +29 Export +29

**Remarks:** Greenup Mandate (P) Purchased for \$13500 in 2017 is a son of Dangerfield Tycoon (P), a bull with tremendous constitution, temperament, volume and muscle and we feel he has passed it onto Mandate. His sheath is a little larger than we like but it comes with looseness all over and softness that we think will enhance our herd if we mate him to our extreme navelled cows plus having perfect feet, lots of muscle, doing ability and 85% morphology he will be at home in the Biara herd.

## BIARA SALE BULLS

*Having our own on property sale has allowed us to **not** target a sale wt or compete for the heaviest bulls in a multi sale, so our sale bulls are not pushed with grain and if seasons are not good then bulls will be lighter but will have enough finish on them to show their attributes. Biara is all about breeding functional, fertile bulls that are treated much the same as any commercial animal. We are very aware that a big grain ration will shorten a bull's working life and we want our bulls capable of lasting 2-3 times more than the average working life of a bull.*

**BIARA SANTA GERTRUDIS  
EASYDOING, FERTILE  
FUNCTIONING BULLS  
THAT PERFORM**

## Rosevale Nautical N20 (PP)

**Sire:**                      Strathmore F672 (P)  
                                  **Rosevale Jackaroo J566 (P)**  
                                  Rosevale Harmony F219 (P)

**Dam:**                      Rosevale Frontier F584 (P)  
                                  **Rosevale Wahoo K201 (P)**  
                                  Rosevale Wahoo A403 (P)

### GROUP BREEDPLAN FIGURES

200D Milk	200D Wgt	400D Wgt	600D W	DTC	SS	EMA	Rib Fat	Rump Fat
-4	+15	+29	+39	-6.1	+2.7	+1.0	+2.7	+2.9

\$ index value - Domestic +20 Export +32

**Remarks: Nautical** was purchased for \$34000 in 2018 from Rosevale sale to upgrade our sire battery of (PP) bulls. He is a very deceptively heavy bull, very well balanced, soft, very quiet, dark red, with a sheath to improve any herd and is a bull who is always fat. He is a very good doing bull as evidenced by his fat figures. All this in a moderate frame with EBV's to back up his raw data and very good fertility data. After a delayed start due to a leg injury we now have calves on the ground and they are as impressive as we had hoped them to be with both growth and eye appeal. Nautical did a season at Rosevale before coming to WA and 6 of his sons sold in the 2021 Rosevale sale to average \$18333.

## Gyranda Newton N202 (PP)

**Sire:** Greenup Downpour D4 (P)  
**Wightfields Downpour (P)**  
 Wightfields A032 (P)

**Dam:** Gyranda C834(P)  
**Gyranda F349 (P)**  
 Gyranda 189 (P)

GROUP BREEDPLAN FIGURES								
200D Milk	200D Wgt	400D Wgt	600D Wgt	DTC	SS	EMA	Rib Fat	Rump Fat
-1	+15	+22	+34	-8.1	+0.7	+4.5	+1.0	+0.6
\$ index value - Domestic +29 Export +42								

**Remarks:** **Gyranda Newton** was purchased in partnership with the Rosevale stud and will do a season every 6 months on both sides of the country. Newton is a very heavy, well muscled **(PP)** bull, who is very quiet, dark red in colour, very correct confirmation. He has a combination of muscle, fats, DTC of -10.5 (fertility) and **96% morphology**, that we don't see very often in our travels so we couldn't let the opportunity go to purchase this **(PP)** bull. 6 bulls by Newton were sold in the Gyranda and Rosevale sales in 2021 and averaged \$19668. His progeny are showing constitution, depth of body, and doing ability that has us excited about this sire.

*Phone:*  
**0422272727**

## Rosevale Noah N50 (PP)

Sire: Rosevale Bandito B8 (P)  
**Rosevale Jethro J208(PS)**  
Rosevale Nancy B161 (P)

Dam: Benelkay Killjoy (P)  
**Rosevale Earth K269 (P)**  
Rosevale Earth H85 (P)

### GROUP BREEDPLAN FIGURES

200D Milk	200D Wgt	400D Wgt	600D Wgt	DTC	SS	EMA	Rib Fat	Rump Fat
-1	+15	+27	+37	-4.9	+1.4	+0.9	-0.1	-0.4
\$ index value - Domestic +21 Export +32								

**Remarks:** Noah was lent to us by Rosevale due to a bull breakdown. He is a dark red PP bull with a herd improving sheath, good growth, adequate muscling, good fertility data and correct confirmation. 10 of his sons sold in Rosevale's sale last year to av \$10000.

## FUTURE SIRES

## Rosevale Quotation Q216 (PP)

Sire: Rosevale Jethro J208 (PS)  
**Rosevale Maverick M102 (P)**  
Rosevale Baronia B63 (P)

Dam: Bullamakinka E58(PS)  
**Rosevale Yoga H461 (P)**  
Rosevale Yoga A343(P)

### GROUP BREEDPLAN FIGURES

200D Milk	200D Wgt	400D Wgt	600D Wgt	DTC	SS	EMA	Rib Fat	Rump Fat
+1	+9	+14	+19	-15.2	+0.7	+0.7	+4.1	+4.8
\$ index value - Domestic +22 Export +38								

**Remarks:** Rosevale Quotation was purchased privately in June 2021 to shore up our sire battery when we purchased 50 Rosevale cows and calves. He has extremely good fertility and fat data, is a **PP sire**, very good sheath and excellent confirmation which shows up in his mobility to cover most of the heifers we put him too. He is a sire to further enhance our fertility at Biara.

## Gyranda P678 Proverb (PP)

**Sire:** Warendra D696 (P)  
**Gyranda Longshot L110 (P)**  
 Gyranda H663

**Dam:** Gyranda Hummer H274(P)  
 Gyranda M727 (P)  
 Gyranda H643

### GROUP BREEDPLAN FIGURES

200D Milk	200D Wgt	400D Wgt	600D Wgt	Mat Wgt	SS	EMA	Rib Fat	Rump Fat
<b>+4</b>	<b>+16</b>	<b>+22</b>	<b>+33</b>	<b>+28</b>	<b>+1.5</b>	<b>+3.9</b>	<b>+0.7</b>	<b>+0.3</b>

\$ index value - Domestic +16 Export +17

**Remarks:** **Gyranda Proverb (PP)** was purchased for \$16000 in 2019. He is a very dark, slick coated bull, although he is not a big bull, he has tremendous thickness and width with a very neat sheath and from a sire and grand sire line that is well known for ease of calving. We think he will fit into our markets in the West, homozygous polled, early maturing, moderate frame and explosive early growth and sire appeal. Calves are on the ground and we are sure they will impress in next years sale.

**Sire:**                    Rowanlea Atomic A02 (P)  
**Rosevale Atomic F120 (P)**  
                               Rosevale ANITA Y393 (P)

**Dam:**                    Rosevale Zepplelin D552 (P)  
**Rosevale Afra G547 (P)**  
                               Rosevale Afra B37 (P)

**Remarks:** **Rosevale Ontario (PP)** appealed to us for his very correct structure, homozygous poll, docile nature, sire appeal, neat sheath, softness and moderate frame. Even though his figures are a little behind we feel he will make an impact in our quest to add doing ability, quietness and softness into our herd.

*Phone:*  
**0422272727**

## Rosevale Newport R988 (PP)

**Sire:** Rosevale Jabiru J206 (P)  
**Rosevale Newport N918 (PP)**  
 Rosevale K663 (P)

**Dam:** Rosevale E902(P)  
**Rosevale Teresa L807 (P)**  
 Rosevale Teresa A363(P)

**Remarks:** **Rosevale Newport** was purchased from the Rosevale stud in 2021 and was the top priced commercial bull at \$28000. He has all the attributes that we want, dark red, long, wide, heavy and deep bodied with extra finishing ability and fleshing. He is a **PP** with a very good sheath and structurally very correct. We believe he is the bull to produce early maturing, heavy, growthy steers with that extra finishing ability that all our clients, both north and south are looking for.

## AI SIRE

### Rosevale Maverick M102 (P)

A son of Jethro (P) who has DTC ebv of -16.0 in top 1% so potentially one of the most **fertile** bulls going around in a package that every herd should have. Polled, sheath improver, moderate frame, quiet, slick coat, muscle, fat cover, morphology of 95% and is a bull that will meet most markets.

#### GROUP BREEDPLAN FIGURES

## BIARA BLACK SANGUS

Biara has embarked upon a programme to supply the market with a black bull that has some Bos Indicus characteristics. We propose to keep these animals at 50% Santa Gertrudis and 50% Angus. To get to this point we purchased 15 females from Moordalup Stud and use our own stud Santa bulls. The resulting male progeny you can see here today.

Our aim is to breed animals that combine the best qualities of both the Santa and Angus breeds- namely carcass, marbling, market acceptability from the Angus and slick coat, wt gain and structural soundness from the Santa Gertrudis.

## POLL SCUR GENE

Poll Scur gene is not linked to the Poll - Horned gene. A scur is a horn like structure that is not attached to the skull and may vary in size from a tiny button to almost horn like length. For females to show scurs it needs two copies of the gene, where as a male only needs one copy of the gene to show a scur.

**The vast majority of scurred animals only exhibit a very small amount of scur for the entirety of their life.**

## STAR BREEDER PROGRAM

# BUY WITH CONFIDENCE

### Bull Sale

Northampton  
5<sup>th</sup> April 2022

All bulls at the sale will be STAR BREEDER program accredited. This program aims to maximise the reproductive integrity and health of stud stock.

Each STAR BREEDER certified animal at the sale has been:

- ✓ Tested to show that they are not Bovine Viral Diarrhoea Virus (BVDV) Persistently Infected (PI) animals
- ✓ Vaccinated against Pestivirus (BVDV) to ensure they are protected from the effects of this infection
- ✓ Vaccinated against Leptospirosis, a reproductive disease and potential WH&S risk for cattle handlers
- ✓ Vaccinated against Vibriosis, a sexually transmitted cattle disease

You can be confident that every step has been taken to ensure these animals presented for sale will not introduce preventable reproductive diseases into your herd.

For more information talk to your Zoetis Cattle Representative, call 1800 963 847 or visit [starprogram.com.au](http://starprogram.com.au)

**Remarks:** First of our younger bulls at **14 months** and first of our Rosevale Nautical **PP** sons that we have liked from an early age. A thick powerful eye appealing young **PP** sire that would be in the first pen but for his age. A lot to like about this sire who should produce early maturing steers that will keep growing into heavy animals.

**Biara 6096's calving 18,19,21.****Purchaser:** \_\_\_\_\_ **Price:** \_\_\_\_\_**Lot 32 BIARA 1003 (P) 15 months**Calved: 05/01/2021

## WENDALLA SANTA GERTRUDIS STUD, BOLGART

Wendalla Santa Gertrudis stud, number 939, was registered by Alan and Pauline Gould at Carnamah in 1974, with the purchase of females from WA's inaugural Santa Gertrudis stud, Woolawa, Walebing.

In addition to grading up, females were subsequently purchased from Queensland, South Australia and local studs including breed founder King Ranch, Glen Gillian and Forrest Hill studs and sires have been utilised predominantly from Wave Hill, Goonoo Goonoo, Gyrenda, Yarrowonga, Bullamakinka and Walmona. The stud was purchased by Wendy Gould in 2013 and is now run at Bolgart and Chittering.

This year Wendalla will offer a team of 5 polled and one poll scur bulls, including sons of Yarrowonga L 736 (P), Bullamakinka High Expectation H 178 (P) and Walmona Yale (P).

All bulls have been semen motility and morphology tested through Nutrien Breeding and also ear notch tested free from BVDV.

The have been vaccinated with Vibrovax and Ultravac 7in1.

Bulls have been raised on pasture, plus hay and lick blocks during the summer dry and have not been fed grain or supplementary feed at any time in their lives except for a seven-week period pre-sale when they have access to pellets with their hay.

Again, I thank the Hasleby family for providing the opportunity for Wendalla to be part of their annual on-property fixture.

Wendy Gould 0418947521

## Lot 70 Wendalla Usher U48 (P) 20 months

Calved: 04/08/2020  
Tatto U48
