CROSS COMMERCIAL FEMALES	42
NOTES	43

Nestled in the picturesque Darling Scarp 120km north of Perth, the family farm of Kamarah is run by Errol, Annette, Brenden and Ashlee Howard.

Started as a mixed farming operation of merino sheep and grain in 1980, the 1450 hectares now includes a commercial Murray Grey herd initiated in 1996, the establishment of many perennials and a 22,200 place grow out piggery enterprise.

Speckle Park is Australia's newest breed of beef cattle. Originally, from Canada they are renowned for their quiet temperament, milking ability and meat quality.

It is with tremendous pleasure
that we welcome you to our

2nd Kamarah Speckles Sale Catalogue

THE The overwhelming support from Western Australia buyers and the positive, growing interest in the Speckle Park breed in the WA, encouraged us to offer a Yearling Bull and Heifer sale. It is with tremendous pleasure that we welcome you to our second Kamarah Speckles Sale Catalogue.

Kamarah Speckles has a strong focus on producing consistent, quality breeding stock and aspire to produce bulls that will deliver crossbred calves for the premium meat market. Nestled in the picturesque Darling Scarp, 120km north of Perth, we pride ourselves on our teamwork, honesty, excellence, and passion in sharing the Speckle Park story.

Raised on perennial grasses, oats, hay and healthy nutritious feed pellets our stud cattle are run alongside our commercial herd. And as such the stud animals do not receive any different handling and have not been broken in for showing. Managing the cattle on our 1450 hectare property promotes the attributes of the bred, in having them develop robustness to walk and fend for themselves.

A valuable partnership with Wattle Grove Speckle Park Stud, over 10 years, has enabled us to grow our herd. The reliability of the Kamarah breeding has been recognized with Kamarah Speckles gaining outstanding results at Wattle Grove Speckle Park sales.

In 2017 an embryo flushing program and semen collection using top Kamarah stock commenced with BOS Veterinary and Rural Services, Dongara.

Running our Speckle Park bulls over our commercial herd has resulted in the progeny being sought by lot feeders.

Yielding flavoursome, tender, juicy steaks through a local butcher is another Kamarah Speckle achievement. Some customers at Northern Valley Quality Meats, Bindoon, pre order and drive 100kms to secure this meat, which is described by owner Jason, as the best quality carcasses he has seen in 35 years. "Big muscle, yields so good and the quality sells its self."

As the Speckle Park goes from strength to strength, we hope you are as excited as we are with what we have on offer today.

Central Stockcare have been purchasing commercial weaners from Kamarah Speckles for past 3 years and have found them to perform very well in a commercial feedlot environment targeting domestic markets. The performance has been above average and MSA carcass feedback with Index consistently above 58 points. The Speckle and Speckle X weaners enter the feedlot at 300–400 kg range and have all been weaned a minimum of 2 weeks prior to entry, which helps reduce incidence of respiratory stress related illness. We have found the Speckle cattle are resilient in a feedlot environment provided weaned properly prior to entry and have far less incidence of illness than other British and Euro Breeds. We would recommend Kamarah Speckles to prospective commercial breeders targeting the domestic feedlot trade.

Kind Regards
Errol, Annette, Dean, Brenden & Ashlee

Please talk to one of the Elders team who can assist you.</p>		

SUPPLEMENTARY SHEET

Updated weights, scan data and any other new or relevant information will be posted online or available on Open day & Sale Day.

BREEDPLAN &EBV'S

A 2019 EBV Percentile table has been included in the catalogue for your reference.

EBV's can be a tool for purchasers to assist them in making selections, however we strongly suggest more emphasis should be placed on raw data and visual inspection.

Our belief is Speckle Park EBV's currently have a very low accuracy due to limited breed numbers and we are uncomfortable in promoting these figures for that reason.

We trust in our knowledge of our cattle and the ability and performance of their individual pedigrees and we are happy to discuss any part of that to assist in your decision making.

GENETIC TESTING

SNP#	SNP case number from Neogen
MSTN	NC - Non Carrier of the myostatin gene nt821 C - Carries one copy of the myostatin gene nt821
COAT	ED/ED - Homozygous black Ed/e - Dominant black/ recessive red
POLL	PcPc - Homozygous polled HPc - carries one copy of the horn gene
LEPTIN	CC CT TT A Leptin TT genotype animal has an increased rate of fat accumulation as compared to a Leptin CC animal.

VISITOR SAFETY

While every care has been taken to ensure the safety of all persons and property, the Vendors and Agents are not liable for any damage or injury caused.

All our cattle have been screened for temperament and are quiet to handle under normal circumstances.

Understandably Open Day and Sale Day is

a very different experience for our cattle. We ask that you be aware that one may misbehave due to the change in their surrounds and the pressure of many strangers invading their space.

VISITORS ENTER THE CATTLE PENS AT THEIR OWN RISK. CHILDREN/PRAMS ARE NOT PERMITTED TO ENTER THE YARDS.

We cannot cover every example of the dangers of cattle handling, we just request you use a little common sense and have your wits about you at all times.

FREIGHT

In WA we offer freight to all regional sale centres, through Lee McCallum, Old Bambun Grazing, 0438905990, or by appointment with Elders or Lee McCallum.

Interstate Freight will be provided by Falls Transport 0429826342 to their SA, Victorian or NSW Depot, or by arrangement with Lochie Falls. We will pay \$500.00 of the interstate transport cost through Falls Transport.

HERD HEALTH

Kamarah Speckles is JBAS 8 Accredited. All animals are Pestivirus negative and have been drenched with.

7in 1	1.4.2022	13.5.2022
Vibrio	1.4.2022	13.5.2022
Marksman	1.4.2022	13.5.2022
Pestiguard	1.4.2022	13.5.2022
Paramectin RV	1.4.2022	

Our Guarantee to you

BULLS

Kamarah Speckles guarantee the fertility of the bulls at the time of the sale. As our bulls are only yearlings it is strongly recommended by our Veterinarian that semen collection is not undertaken until they are at least eighteen months old.

The entry of every bull constitutes a guarantee by the Vendor that if a bull should prove infertile within 4 months of purchase, for reasons other than injury, misadventure, disease, mismanagement or negligence, the Vendor will provide you with a satisfactory replacement if available or issue you with a credit equal to the purchase price (excluding any costs and expenses of the Purchased price in taking delivery) minus salvage. This credit may be used to purchase an animal at a future Kamarah speckles Sale.

Any request for replacement/credit must be lodged with the Vendor within 4 months of the Sale date and be accompanied with a vet certificate and a signed declaration by the Purchaser to the effect that the substance of the vet report is true and correct.

FEMALES

Females have been vet checked and are guaranteed to be fertile for a period of 6 months after the Sale date

The entry of every female constitutes a guarantee by the Vendor that if a female should prove infertile for reasons other than injury, misadventure, disease, mismanagement or negligence, the Vendor will provide you with a satisfactory replacement if available or issue you with a credit equal to the purchase price (excluding any costs and expenses of the Purchased price in taking delivery) minus salvage. This credit may be used to purchase an animal at a future Kamarah speckles Sale.

Any request for replacement/credit must be lodged with the Vendor within 4 months of the Sale date and be accompanied with a vet certificate and a signed declaration by the Purchaser to the effect that the substance of the vet report is true and correct.

This guarantee is exempt if the female is flushed within this 6 month period, as we believe this can be counterproductive to her long term breeding.

FROZEN GENETICS

- All semen is stored at BOS Vet & Rural, Dongara. Phone 0899261331, bosvetandrural@gmail.com
- Insurance and freight ex BOS Vet & Rural, is the responsibility of the purchaser.
- All genetic material is qualified for Australia only.

All animals in the Sale are parent verified and carry the SPI pedigree assurance tick

DISCLAIMER

All reasonable care has been taken to ensure that the information provided in this catalogue is correct. However the Vendor or the selling agent do not assume any responsibility for the correctness, use or interpretation of the information included in this catalogue.

AuctionsPlus

How to Register and Bid on AuctionsPlus

- 1 Go to www.auctionsplus.com.au to register at least 48 hours before the sale.
- 2 Select “**Sign Up**” in the top right hand corner.
- 3 Fill out your name, mobile number, email address and create a password.
- 4 Go to your emails and confirm the account.
- 5 Return to AuctionsPlus and log in.
- 6 Select “**Dashboard**” and then select “**Request Approval to Buy**”.
- 7 Fill in buyer details and once completed go back to Dashboard.
- 8 Complete buyer induction module (approx. 30 minutes).
- 9 AuctionsPlus will email you to let you know that your account has been approved.
- 10 Log in on sale day and connect to auction.
- 11 Bid using the two-step process – unlock the bid button and bid at that price.
- 12 If you are successful, the selling agent will contact you post sale to organise delivery and payment.

THE NEW WAY TO BACKGROUND WEANERS

BETTER PASTURE UTILISATION

Pasture is the cheapest energy and protein source so it is important to get the most from it. Supplementing carbohydrates (grain or pellets) little and often increases microbe populations in the rumen. This increases pasture and forage digestion, leads to a higher weight gain and turns over more stock on a set amount of pasture.

Trials have shown that supplementing weaners with only **1kg/day feed can increase weight gain by more than 300g/day**. See www.advantagefeeders.com for all the trial results.
