

Genetic

lots	Idents	Details	Type	Notes
4	GBLPP103 X GBLPP101	Granoc Livestock Panoka P103 x Granoc Livestock Peaches P101	4 embryos	This embryo lot is packed full of genetics goodies. The bull being both homozygous black and homozygous polled he has gone and work very well as a safe AI sire here at GB livestock. The cow is backed by some proven strong cow power genetics in LFE 621y. The cow has tested heterozygous black and homozygous polled in this lot of embryos 22 embryos were frozen in total resulting in piece of mind that this cow has fertility stamped all over her. 4 embryos stored at Holbrook Breeders NSW.
4	IMU1M685 X IMUPL536	Koch Big Timber x ASR Little Dessi C536	4 embryos	We purchased ASR Little Dessi C536 when she was the lead heifer of the Grand Champion Pen of 3 purebred heifers at the 2019 National Western Stock Show as one of our foundation females from the famous ASR Simmental herd in Colorado. C536 is a tremendous Wide Track daughter with exceptional rib shape, capacity and udder quality. We believe this mating to Big Timber will be exceptional. We are excited to share this opportunity with you. 4 embryos stored at Holbrook Breeders NSW.
4	IMU1M685 X PEDPX1725	Koch Big Timber x ASR Ms Josie A306	4 embryos	ASR Ms Josie A306 was selected as the foundation female for our Simmental program to bring the highly renowned Josie cow family to Australia. The Josie family has performed over many generations across many influential cow herds so we were excited to secure access to this maternal line. We believe the Big Timber joining will really complement A306 and we are excited to share this opportunity with you. 4 embryos stored at Holbrook Breeders NSW.
4	IMUPG052 X GWAPQ001	Spring Creek Lotto X Summit Charisma Q1	4 embryos	Charisma Q1 is an exceptional young cow with immense capacity and performance. She is so unique in her outlook with tremendous flex and suppleness. Her grand-dam was Reserve Junior Champion Heifer at Sydney Royal and her pedigree runs deep into the FINE-ART cow family. ASR FINE-ART W983 was selected as our pick of the ASR Simmental Herd in Colorado. This is an exciting opportunity to access some elite and unique genetics at the cutting edge. 4 embryos stored at Holbrook Breeders NSW.
4	IMCPS06G X VPCPM015	MRL Playmaker 36G x Savannah Dharma M015	4 embryos	An outstanding opportunity to secure a superior joining. M015 is a super feminine cow, with an extra frame. An eye-appealing female, with an impressive pedigree, we believe this joining with MRL Playmaker will produce stylish, high-performance calves. We specifically selected Playmaker as we believe his performance will complement the capacity of our females very well, and this joining is no exception. A guarantee of 50% conception when using an agreed accredited technician. 5% discount on the purchase price for Simmental Youth members.
1 Flush	SCCPP043	Savannah Zoe P043	Flush	Flush of Savannah Zoe P043 to your nominated sire. One of our favourite females in the donor pen. A square cow with power, depth, and bone. A highly productive cow, with a picture-perfect udder. P043s first calf, Savannah Ripper R033, was one of our heaviest weaner bulls. Her much admired second calf, Savannah Sunrise, is sired by Wheatland Affinity 8196F. An opportunity to invest in some of the most proven, and consistent red genetics in Australia. Open and ready to flush, P043 gave 11 A grade embryos in her last flush. The cow must be flushed no later than September 30, 2022. A
10 straws	IMCPS06G	MRL Playmaker 36G	Semen	10 straws - Savannah has sought out the extra growth and performance this sire offers. Playmakers EPDs put him in the top 1% for both weaning and yearling weight in the Simmental breed, while still retaining calving ease. Playmaker sold for \$69,000 to Bouchard Livestock, and has been used in some of the leading US and Canadian Simmental studs. 5% discount on the purchase price for Simmental Youth members.
