

CATHNAL SANTA GERTRUDIS STUD is owned and operated by Allen and Cathrine Murfet at Sheffield, Tasmania. Cathnal have been breeding Santa Gertrudis cattle for 3 decades during which time we have been using Polled bulls which have given us a strong polled based herd. Our bulls have been carefully selected from Queensland, NSW, Victoria and South Australia. Maintaining the Classified breed standards, character and traits have seen a strong emphasis on structural soundness and muscling with good growth and bone. Cathnal focus on breeding quiet, easy doing cattle suitable for both stud and commercial breeders. We have actively promoted the breed within Tasmania and have successfully shown our cattle at Royal and local shows within our State.

We proudly offer our Santa cattle for dispersal due to our pending retirement.

Lot 1

Cathnal Yelena 167 (P) -DOB 24th Sept 2019 - Classified S

An attractive eye appealing young cow sired by Rosevale Gallipole (P). A first calver, she has great depth of body and thick frame with good volume and muscle pattern. A very structurally correct feminine female together with her heifer calf will quickly become herd favourites.
