AuctionsPlus

SALE INFORMATION

**10am Friday, 29th July 2022
at Woolooga Saleyards**

SALE FORMAT

The sale will be run as an
**Online Simultaneous
Auction with AuctionsPlus.**

AuctionsPlus

The sale will be also conducted using the Bid Card system. Prospective purchasers are asked to register prior to the sale and nominate their card number when purchasing during the sale. This should ensure accurate identification of each purchaser for the Auctioneer.

You will need to register your PIC on buyer registration for NLIS transfer to be done.

INSPECTIONS

Prior inspection of the sale bulls may be made by appointment with the vendors or selling agents.

ANIMAL HEALTH

All bulls have been semen tested and treated with 7 in 1, 3 Day Sickness and 3 Germ Blood.

Pre-sale tick treatments on all bulls will make them eligible for inspection at Woolooga on Friday afternoon.

DNA PARENT VERIFICATION

Please note that not all our sale bulls have been DNA parent verified prior to sale.

If you require your bull to be DNA parent verified, we will organise for testing and cover the costs of all laboratory fees, provided you notify us in writing on the buyer instruction sheet on the day of the sale.

In the unlikely event that the results do not match with the catalogued pedigree, we will refund the purchase price of the bull in full in exchange for the bull.

★ FREE LUNCH ★

Complimentary refreshments
will be provided before and after sale.

Please note, we take no responsibility for any discrepancies that may arise for incorrect parentage if buyers do not request DNA parental verification testing on the buyer's instruction sheet on the day of the sale.

REBATE

An outside rebate of 2% will be offered to agents introducing the client in writing up to 24 hours before the sale and settling within seven (7) days.

BUYER'S INSTRUCTIONS & DELIVERY

Written instructions for delivery must be provided upon completion of the auction, using the Buyer's Instruction Sheet at the back of this catalogue. No verbal instructions will be accepted.

SUPPLEMENTARY SHEET

All bulls will be ultrasound scanned prior to the sale for eye muscle area, rump and rib fat. This and scrotal sizes will be provided on a Supplementary Sheet available on sale day, or prior to the sale by contacting vendors.

REGISTERED BULLS

If a transfer of registration is required for stud purposes, please indicate that on your Buyer's Instruction Sheet.

COVID-19

Please follow directions and safety signs on sale day regarding Covid-19.

All guests will be required to adhere to social distancing rules. Please be responsible and respectful of others and their health and safety and do not attend the sale if feeling unwell.

SALE DAY SAFETY

Persons enter the sale pens at their own risk and no prams or children under 15 are to enter the sale pens.

INSURANCE

Livestock insurance can be arranged if required by the Buyer. The Sellers recommend travel insurance is taken by the Buyer. While all care will be taken by the vendor and the agents the purchases become the responsibility of the buyer at the fall of the hammer.

FREE DELIVERY - TERMS & CONDITIONS

- Delivery at the Seller's cost will be to either Toogoolawah, Murgon, Kingaroy, Biggenden, Gympie, Eidsvold, Taroom, Dalby, Roma or Blackall (delivery centres) as nominated by the Buyer on the Buyer's Instruction Sheet. If bulls are to go to more than one centre, separate Instruction Sheets are required.
- The Sellers will use their own trucks or their nominated transport operator. Buyers can't arrange engagement of their own transport operator and charge the Seller for the cost.
- The point of delivery for each delivery centre will be at the Seller's discretion (the delivery location). This will mostly be at sale yards at the delivery centre.
- Timing of delivery to the delivery location will be at Seller's discretion but will usually be within 1 to 7 days of the sale.
- The Sellers will feed and water bulls as necessary at their cost until delivery to the delivery location.
- Bulls remain at risk of Buyer from the fall of the hammer, and the Buyer indemnifies and holds the Seller harmless against any loss the Buyer suffers between the fall of the hammer and delivery to the delivery location.
- The Sellers and the Seller's agents will use their best endeavours to inform the Buyer of the delivery location and the anticipated time of delivery to the delivery location. The Buyer or the Buyer's agent must be in attendance at the delivery location at the expected delivery time to receive bulls.

SALE CATALOGUE DISCLAIMER

All reasonable care has been taken by the vendors to ensure that the information provided in this catalogue is correct at the time of publication. However, neither the vendor nor the selling agents make any representations for the accuracy, reliability or completeness of any information provided in this catalogue and do not assume any responsibility for the use or interpretation of the information included in this catalogue. You are encouraged to seek independent verification of any information contained in this catalogue before relying on such information.

- Any variation to these terms must be agreed to by the Seller countersigning the Buyer's Instruction Sheet setting out the variation. No other variations will be binding on the Sellers.

UNDERSTANDING EBVS

What is an EBV?

An animal's breeding value is its genetic merit, half of which will be passed on to its progeny. While we will never know the exact breeding value, for performance traits it is possible to make good estimates. These estimates are called Estimated Breeding Values (EBVs).

EBVs are expressed in the units of measurement for each particular trait. They are shown as +ive or -ive differences between an individual animal's genetic difference and the genetic base to which the animal is compared.

For example, a bull with an EBV of +50 kg for 600-Day Weight is estimated to have genetic merit 50 kg above the breed base of 0 kg. Since the breed base is set to an historical benchmark, the average EBVs of animals in each year drop has changed over time as a result of genetic progress within the breed.

Calving Ease EBVs (%) are based on calving difficulty scores, birth weights and gestation length information. More positive EBVs are favourable and indicate easier calving.

- CE % Dir = Direct Calving Ease

The EBV for direct calving ease indicates the influence of the sire on calving ease in purebred females calving at two years of age.

- CE % Daughters = Daughters' Calving Ease

The EBV for daughters' calving ease indicates how easily that sire's daughters will calve at two years of age.

Gestation Length EBV (days) is an estimate of the time from conception to the birth of the calf and is based on Artificial Insemination and hand mating records. Lower (negative) Gestation Length EBVs indicate shorter gestation length and therefore easier calving and increased growth after birth.

Birth Weight EBV (kg) is based on the measured birth weight of progeny, adjusted for dam age.

The lower the value the lighter the calf at birth and the lower the likelihood of a difficult birth. This is particularly important when selecting sires for use over heifers.

200-Day Growth EBV (kg) is calculated from the weight of progeny taken between 80 and 300 days of age.

Values are adjusted to 200 days and for age of dam. This EBV is the best single estimate of an animal's genetic merit for growth to early ages.

400-Day Weight EBV (kg) is calculated from the weight of progeny taken between 301 and 500 days of age, adjusted to 400 days and for age of dam.

This EBV is the best single estimate of an animal's genetic merit for yearling weight.

600-Day Weight EBV (kg) is calculated from the weight of progeny taken between 501 and 900 days of age, adjusted to 600 days and for age of dam.

This EBV is the best single estimate of an animal's genetic merit for growth beyond yearling age.

Mature Cow Weight EBV (kg) is based on the cow weight when the calf is weighed for weaning, adjusted to 5 years of age.

This EBV is an estimate of the genetic difference in cow weight at 5 years of age and is an indicator of growth at later ages and potential feed maintenance requirements of the females in the breeding herd.

Steer breeders wishing to grow animals out to a larger weight may also use the Mature Cow Weight EBV.

Milk EBV (kg) is an estimate of an animal's milking ability. For sires, this EBV indicates the effect of the daughter's milking ability, inherited from the sire, on the 200-day weights of her calves. For dams, it indicates her milking ability.

Scrotal Size EBV (cm) is calculated from the circumference of the scrotum taken between 300 and 700 days of age and adjusted to 400 days of age.

This EBV is an estimate of an animal's genetic merit for scrotal size. There is also a small negative correlation with age of puberty in female progeny and therefore selection for increased scrotal size will result in reduced age at calving of female progeny.

Carcase Weight EBV (kg) is based on abattoir carcass records and is an indicator of the genetic differences in carcass weight at the standard age of 650 days.

Eye Muscle Area EBV (sq cm) is calculated from measurements from live animal ultrasound scans and from abattoir carcass data, adjusted to a standard 300 kg carcass.

This EBV estimates genetic differences in eye muscle area at the 12/13th rib site of a 300 kg dressed carcass. More positive EBVs indicate better muscling on animals.

Sires with relatively higher Eye Muscle Area EBVs are expected to produce better muscled and higher percentage yielding progeny at the same carcass weight than will sires with lower Eye Muscle Area EBVs.

Rib Fat and Rump Fat EBVs (mm) are calculated from measurements of subcutaneous fat depth at the 12/13 rib site and the P8 rump site (from live animal ultrasound scans and from abattoir carcasses) and are adjusted to a standard 300 kg carcass.

These EBVs are indicators of the genetic differences in fat distribution on a standard 300 kg carcass. Sires with low, or negative, fat EBVs are expected to produce leaner progeny at any particular carcass weight than will sires with higher EBVs.

Retail Beef Yield EBV (%) indicates genetic differences between animals for retail yield percentage in a standard 300 kg carcass.

Sires with larger EBVs are expected to produce progeny with higher yielding carcasses.

Intramuscular Fat EBV (%) is an estimate of the genetic difference in the percentage of intramuscular fat (marbling) at the 12/13th rib site in a 300 kg carcass. Depending on market targets, larger more positive values are generally more favourable.

The absolute value of any EBV is not critical, but rather the differences in EBVs between animals. Particular animals should be viewed as being "above or below breed average" for a particular trait.

The first step when interpreting an EBV should be to compare it to the current breed average EBVs. This will give you an indication of how the animal compares with the current genetic level for the breed for each trait.

Comparison with the breed average EBVs allows you to establish whether an animal is above or below the current genetic level of the breed.

BREEDPLAN BREED AVERAGE EBVs FOR 2020 BORN CALVES

CED	DTRS	GL	BW	200	400	600	MCWT	MILK	SS	CWT	EMA	RIB	RUMP	RBY	IMF
+0.7	+0.7	-2.6	+0.5	+12	+24	+33	+35	+7	+1.0	+20	+1.6	+0.4	+0.4	+0.1	+0.1

This can be taken further by comparing the animal's EBVs to the Percentile Bands Table to assess exactly where the animal ranks within the breed for each trait.

DISCLAIMER The Estimated Breeding Values (EBVs) contained within this sale catalogue were compiled by the Agricultural Business Research Institute (ABRI) from the data supplied by breeders. Neither the Australian Charolais Breeders' Society or ABRI oversee or audit the collection of this data.

Understanding Selection Indexes

There are three standard selection indexes calculated for Australian Charolais animals.

These are:

- **Domestic Index (Dom)**
- **Northern Terminal Index (N Term)**

Each selection index has been developed for a different production/market scenario.

Domestic Index

Estimates the genetic differences between animals in net profitability per cow joined for an example commercial herd with a British cow base (e.g. Angus) targeting grass-finished production for the domestic trade.

This Index assumes pasture grown and finished steers weighing 430 kg (240 kg HSCW and 6 mm P8 fat depth) at 12 months. Daughters are retained or sold for breeding therefore maternal traits are of importance.

In response to industry feedback positive emphasis has been placed on finishing ability.

Northern Terminal Index

Estimates the genetic differences between animals in net profitability per cow joined for an example commercial herd in Northern Australia (i.e. Brahman cows) targeting the production of grass finished steers for the Jap Ox market.

Steers are sold direct to slaughter at 630 kg (345 kg HSCW and 5 mm P8 fat depth) at 28 months. All progeny are slaughtered. In response to industry feedback positive emphasis has been placed on finishing ability.

All selection indexes are reported as an EBV, in units of net profit per cow mated (\$) for a given production/market scenario. They reflect both the short term profit generated by a sire through the sale of his progeny, and the longer term profit generated by his daughters in a self replacing cow herd (where applicable).

One useful strategy of utilising selection index information is to complete the following steps:

- Identify the selection index of most relevance
- Rank animals on the selection index
- Consider the individual EBVs of importance
- Consider other traits of importance.

AuctionsPlus

How to Register and Bid on AuctionsPlus

1

Go to www.auctionsplus.com.au to register at least 48 hours before the sale.

2

Select “Sign Up” in the top right hand corner.

3

Fill out your name, mobile number, email address and create a password.

4

Go to your emails and confirm the account.

5

Return to AuctionsPlus and log in.

6

Select “Dashboard” and then select “Request Approval to Buy”.

7

Fill in buyer details and once completed go back to Dashboard.

8

Complete buyer induction module (approx. 30 minutes).

9

AuctionsPlus will email you to let you know that your account has been approved.

10

Log in on sale day and connect to auction.

11

Bid using the two-step process – unlock the bid button and bid at that price.

12

If you are successful, the selling agent will contact you post sale to organise delivery and payment.

For more information please contact us on:

Phone: (02) 9262 4222

Email: info@auctionsplus.com.au

Kilkenny Charolais dates back to 1970, initially operated by the late Tom Hunter of Evora, Blackall. Kilkenny Charolais is focused on producing high-quality commercial bulls that survive and deliver results.

The female herd now consists of 1200 purebred females. They are bred in the ticks on coastal, mountainous, forest country just west of Eidsvold, graze on natural grass only, and are given a dry lick when needed. Only the most formidable cows survived, meaning the constitution of the Kilkenny breeder is unheard of for stud Charolais.

The bulls are then transferred to Verbena Park at Taroom.

KILKENNY NOW HAS THREE BULL DEPOTS

Verbena Park, Taroom

Rosclare, Tambo

Boongoondoo, Jericho

All bulls are vaccinated with 3 Day, 3 Germ Blood, Vibrio and 7 in 1.

This year’s draft consists of 60 bulls which 21 are polled. The bulls have been grown out on scrub buffel pasture and have been supplementary fed on a silage and lucerne hay mixed for sale preparation.

Bulls are available for inspection at Verbena Park, Taroom before 22nd July.

Barambah-Dale Charolais is a family owned and operated business that has been breeding Charolais since 1993, with Wayne and Lesley Davis at the helm.

The herd is now run across three southern Queensland properties: "Wingfield" at Dalby, "Horsley Park" at Moonie, and "Scotland Downs" at Westmar.

We have a real passion for the breed with their ability to infuse growth, muscle and thickness when crossed with virtually any other breed. On top of that we are striving to increase the genetic propensity in our herd for softness and fat coverage, which will in turn improve bottom lines down the supply chain.

From the beginning we have been very committed to the whole process of stud breeding to produce the ideal beast that will deliver higher returns for our commercial clients. We continue to use a variety of genetics, including the introduction of more polled genetics, as we strive to be the cattleman's choice and to have a positive impact on the beef industry. We select for growth, structural soundness, fertility, constitution, temperament and importantly – easy-finishing ability. We have been selling bulls into the South and North Burnett and the Brisbane Valley for over 25 years. It is very satisfying for us to see the results of weaners sold sired by Barambah-Dale bulls.

This year Barambah-Dale will present a selection of 50 sound, well-muscled bulls, which have proven themselves through a rigorous selection process. Of the 20 polled bulls in the sale, test results have confirmed 3 as Homozygous Poll. All sires used were proven at last year's sale. The bulls have been prepared for the sale at our "Wingfield" bull depot on a pellet specifically designed for bulls, with unlimited access to oaten hay. We will sell the bulls in lines according to sire, allowing the buyer to easily select the type they require. All the horned bulls have that thickness and softness we strive for, and the polled bulls have thick heads and plenty of softness. The last line of bulls are younger bulls, being born in November/December. All our sale bulls have been treated with: Pestigard, 7 in 1, Vibrio, Three Germ Blood and Three-Day Vaccine.

On offer is a bull for every market and requirement. We stand behind our Bulls.

Barambah-Dale Charolais has a website and Facebook page that will provide you with any extra information you require. Wayne and Lesley are happy to host private inspections for you to look over their bulls prior to the sale. Thank you for your attendance and we look forward to catching up at the sale at Woolooga.

Wayne & Lesley Davis and family

Wellcamp Stud is a family operated Charbray Stud and commercial breeding operation.

Wellcamp Stud principles Anthony, Kylee, Alastair, Hamish and Megan Curtis operate at 'Scotland Downs', Westmar.

Our Charbray cattle are born and raised at 'Scotland Downs'. We aim to breed quality Charbray animals that are physically sound, display good temperament and have strong carcass attributes.

Our cattle are evaluated on strong fertility traits, growth rates and market requirements. We want our animals to reach these targets consistently. Charbray cattle perform strongly under market conditions and we believe that the Charbray breed is consistently kicking goals with their versatility in all market areas.

This year's sale bulls have been grown out on pasture and will be prepared for sale at "Wingfield" Dalby in conjunction with the Barambah-Dale Charolais bulls. We are proud to offer these bulls for your perusal and we welcome any enquires or feedback.

All bulls are vaccinated with: 3 day vaccine, 3 germ blood, 7 in 1, Pestigard and Vibrio vaccine.

We look forward to seeing you at this year's sale.

*Charbray Trademark used with permission as an identified Certified Charbray Breeder

Russell shows exceptional depth and softness combined with faultless temperament. A polled sire.

Purchaser \$

We have been involved in breeding Charbray Bulls since 1979, initially at Charbray Farms, then with Michael's late father, Jim Connolly, when we established "Emjay Charbray" in 1987.

Our mantra is "Vigour, Versatility, Value - breeding well-muscled flat backs for the commercial cattleman, that are soft with bone and frame, growth for age, easy doing, docile and wrapped up in a package that is easy on the eye."

With the able assistance of Warren Smith, "Celestial Charbray" we focus on breeding Purebred or "Generation Bred Charbrays", i.e. using Charbray bulls over Charbray females. This has improved consistency in our progeny, but the parent breeds are still needed to broaden the genetic base of our herd.

Our bulls are bred on our black soil forest country properties at Goomeri. They are in the ticks and consist of blue gum and apple tree flats with iron bark ridges. Our bulls have been sold into the Northern Territory, Western and Northern Queensland and bull buyers all say cattle bred in our coastal South-East Queensland country thrive in all conditions.

All bulls have had the same preparation from birth, with oats crop from weaning and about 90 days on a high roughage grain ration with access to hay and oaten silage. All are vaccinated with 3 Germ Blood, 7 in 1, Longrange Botulism Vaccine and Vibrio (June 22). Due to unavailability of 3-day fever vaccine, they were not vaccinated, but all have had the illness late last year, so it was considered unnecessary to vaccinate.

Temperament is high on our agenda. All cattle are worked with bikes and dogs, tailed as weaners and handled in a quiet manner. Those who do not pass our temperament test are turned off as steers or feeder heifers. It will be evident in our offering for this year that all have an excellent disposition.

We are believers in breeding to perform, not feeding to perform.

However, we consider appropriate feeding similar to a commercial feeding regime, allows a bull to demonstrate to the buyer the potential of his progeny, without creating the problems that come with over feeding.

We are confident you will agree our bulls are commercially orientated and will go out and do a fantastic job in any environment and for any market.

LIVESTOCK AUCTION TERMS & CONDITIONS OF SALE

CHAPTER ONE - PRELIMINARY

1. (a) A vendor is bound by these terms and conditions by offering livestock for sale by auction.
- (b) An agent (which includes an auctioneer) is bound by these terms and conditions by conducting an auction sale.
- (c) A buyer is bound by these terms and conditions by bidding at auction.
- (d) **Competition and Consumer Act (Cth) 2010**
 It is unlawful for parties that are, or otherwise would be, in competition with each other to make, or give effect to, a contract, arrangement or understanding that contains a provision relating to:
 - i. price-fixing; or
 - ii. restricting outputs in the production and supply chain; or
 - iii. allocating customers, suppliers or territories; or
 - iv. bid-rigging; or
 - v. collusive bidding.
 Large fines and other sanctions may be imposed for unlawful conduct.
2. (a) In these terms the expression auctioneer, agent, buyer and vendor respectively includes the servants, contractors and agents of each of them. The auctioneer, agent, buyer and vendor shall be wholly responsible for the acts and omissions of their respective servants, contractors and agents. The term "auctioneer" includes, so far as the law and context permits, the vendor's agent.
- (b) When used in these terms the expressions "companion animals" means all animals originating from the same property on a particular day. Where lots are split and sent to multiple establishments, then all of these animals shall be regarded as companions.
3. The following applies in interpreting these terms and conditions:
 - (a) The following words have the following meanings:
 Fees means all levies, charges, fees, costs and other expenses incurred or relating to these terms and conditions and the sale and purchase of livestock including, without limitation, transaction levies, yard and weigh dues, cartage, advertising and rebates, and whether paid for, or incurred, by the agent;
 Livestock means animals auctioned pursuant to these terms and conditions; and
 Price means the amount at which the lot has been sold to the buyer referred to in clause 7 of these terms and conditions
 - (i) plus any Fees and other expenses incurred in relation to the purchase of livestock that are payable by the buyer; and
 - (ii) plus any GST added in accordance with clause 12.
 - (b) These terms and conditions are subject to legislation or regulation in the State in which the auction is conducted and in the event of any conflict then the legislation or regulation will prevail. The provisions of these terms and conditions are in addition to, and do not derogate from, the duties and rights of vendors, agents and buyers set out in legislation and regulation in the State in which the auction is conducted.

CHAPTER TWO - STANDARD TERMS OF SALE

4. Subject to any reserve price, and to the right, prior to the fall of the hammer, of the vendor to withdraw any lot without declaring the reserve, the highest bidder shall be the buyer.
5. The auctioneer has the right to bid on behalf of the vendor provided that right is notified prior to the commencement of the sale and is subject to State law.
6. A bid cannot be made or accepted after the fall of the hammer unless, in accordance with clause 8, the auctioneer decides to put the lot up again.
7. Prior to the fall of the hammer the auctioneer shall announce the last bid and receive any further bids. The last price called by the auctioneer at the fall of the hammer shall be the amount at which the lot has been sold.
8. In the event of a disputed bid, the auctioneer is the sole arbitrator of the successful bidder or the auctioneer may decide to put the lot up again. The auctioneer's decision is final.
9. The auctioneer may refuse to accept any bid which, in the auctioneer's opinion, is not in the best interest of the vendor and need not give reasons for doing so.
10. A bidder shall be deemed to be a principal unless, prior to bidding, the bidder has given to the auctioneer a copy of written authority to bid for or on behalf of another person.
11. The successful bidder at a livestock auction sale must give to the auctioneer at the fall of the hammer:
 - (a) the purchaser's name; or
 - (b) the bid card number which identifies the purchaser; or
 - (c) the name of the person on whose behalf the successful bid was made; and
 - (d) the Property Identification Code (known as the "PIC") of destination.
12. The auction shall be conducted on the basis that the bid price shall be exclusive of Goods and Services Tax (GST). GST shall be added after the fall of the hammer for those sales subject to GST.
13. The vendor warrants;
 - (a) That the vendor has (or will have) the right to sell the livestock at the time of delivery; and
 - (b) That the purchaser will obtain title on completion of the purchaser's obligations under this contract including payment.

14. If a buyer does not comply with any of these terms and conditions, which includes the requirements of State law, any livestock knocked down to that buyer may be re-sold by public auction or private contract in whatever lots and manner the auctioneer decides. The re-sale may be with or without notice and shall be at the buyer's risk. The buyer is responsible for all loss and expense arising out of a re-sale and is not entitled to any resulting profit.
15. The buyer of livestock must pay the agent the full amount of the purchase price in immediate funds on receipt of a tax invoice. Payment is required prior to delivery unless some other time for payment is specified in an agreement between the buyer and the auctioneer that was made before the fall of the hammer. If, before delivery, payment has not been made then clauses 20 to 23 apply.
16. No person may bid unless, prior to the commencement of the sale, that person has made arrangements satisfactory to the auctioneer for payment for livestock purchased. If bids in breach of this condition are inadvertently accepted, delivery shall not be given until the purchase money is paid and any law, rule or practice to the contrary is accordingly negated as far as possible.
17. (a) Cattle sold on a liveweight basis that are weighed pre-sale are at the risk and expense of the buyer upon the fall of the hammer.
- (b) Cattle sold on a liveweight basis that are weighed post-sale are at the risk and expense of the buyer immediately after weighing.
- (c) All livestock other than cattle sold on a liveweight basis are at the risk and expense of the buyer upon the fall of the hammer.
18. (a) Subject to this clause the sale is complete on the fall of the hammer.
- (b) The time for rejection is the time commencing at the fall of the hammer and ending at the first of:
 - (i) delivery is taken by a representative of the buyer;
 - (ii) departure of the animal from the purchaser's delivery pen; or
 - (iii) one hour after the last animal is:
 - a. in the case of pre-sale weighing, sold; or
 - b. in the case of post-sale weighing, weighed.
- (c) During the time for rejection the buyer may reject any animal which is lame, blind or diseased where that condition existed prior to the fall of the hammer but could not be reasonably observed when the animal was in the selling pen.
- (d) If the purchaser rejects an animal during the time for rejection then the sale of that animal is cancelled and the animal is returned to the vendor or sold on such terms as any buyer and the agent may agree, after the agent has disclosed the reason for rejection to that buyer.
- (e) This subclause applies only to cattle which are sold in Queensland at auction for slaughter. The agent has responsibility for the prevention of loss or escape (but not death, sickness or injury) of those cattle from the time of the fall of the hammer, for delivery to and from the scales, to the buyer's delivery pen and onto the buyer's nominated transport. This responsibility ends at the earlier of those cattle boarding the buyer's nominated transport or sunset on the day after the sale. This subclause does not apply if the agent makes an announcement to that effect prior to sale.
19. (a) Subject to the right of rejection in Clause 18, all conditions and warranties expressed or implied by law are hereby excluded from the sale to the extent that the law allows. All lots are open for inspection prior to the commencement of the sale and are sold with all faults, if any. No compensation shall be given for any faults, imperfections, errors of description, number in or of any lots sold or otherwise.
- (b) Any claim or objection arising out of an error or misdescription in the provision of relevant information in terms of legislation or regulation concerning the National Livestock Identification Scheme (NLS) must be made by 5:00pm on the seventh day after the fall of the hammer. No objection, requisition or claim against the vendor or agent in respect of such error or misdescription can be made after that time.
- (c) Any statements made by the vendor or the auctioneer whether in writing or orally to the effect that any female has been pregnancy tested or scanned positive shall mean and require only that a certificate in writing shall be supplied to the buyer signed by a qualified veterinary surgeon or certified scanner certifying that the said female has been tested or scanned on the date specified in the certificate and that in the opinion of the surgeon or scanner was pregnant on that date.
- (d) For slaughter cattle, the agent undertakes to make every reasonable effort to ensure that any NLS cattle device number is transferred from the saleyard PIC to the purchaser's PIC on the NLS database no later than midnight on the day of the sale.
- (e) For other slaughter livestock the agent undertakes to make every reasonable effort to ensure that the NLS information is transferred from the saleyard PIC to the purchaser's PIC on the NLS database no later than midnight on the day of the sale.
- (f) Where livestock have a food safety or market eligibility status derived from the National Vendor Declaration (NVD) and/or the NLS/ERP database, the agent will inform the buyers by presale catalogue and/or announce the status prior to the offering of those lots.
20. If delivery is made to, or possession obtained by, the buyer or its representative before full payment of the Price, then until full payment is received, the buyer:
 - (a) does not acquire title to the livestock;

- (b) holds the livestock as bailee only for the vendor;
 (c) must act in a fiduciary capacity in its relationship with the vendor;
 (d) must store the stock separately or so that they are readily distinguishable from other livestock owned by the buyer;
 (e) is responsible for the safety and well being of the livestock;
 (f) may make a bona fide sale for market value of any or all of the livestock. As between the buyer and the subsequent buyer, the sale shall be made by the buyer in its own name and not as agent for the vendor, however as between the vendor and buyer, the sale shall be made as bailee and agent for the vendor; and
 (g) must keep and account for the proceeds of any subsequent sale separately from its other money and hold those proceeds, together with the benefits of any rights against subsequent buyers, on trust for the vendor.
21. The purchaser agrees that:
- Clause 20 creates a registrable security interest under the Personal Property Securities Act (Cth) 2009 (PPSA);
 - The Purchaser acknowledges the rights of the Seller (and/or the Agent if Clause 25 applies) to register a financing statement under the PPSA with respect to the security interest created by this clause;
 - The Livestock are collateral for the purposes of the PPSA;
 - To the extent permitted, the Purchaser waives any right the Purchaser has under the PPSA to receive notices; and
 - the date upon which the security interest created by this clause comes into force is the first date on which livestock are delivered pursuant to this contract
22. The buyer may not make any claim against the vendor for actions by the vendor or its agent under clauses 20 or 21 and indemnifies the vendor and its agent against any loss, damage, costs, expenses, penalties, fines or claims suffered by the vendor, the agent or any person or entity arising from the vendor exercising its rights under clauses 20 or 21.
- 23.1. Clause 23 applies whenever the agent pays the vendor before being paid by the buyer, which the agent is not bound to do. The agent is then the del credere agent of the vendor at law.
- 23.2. The vendor hereby gives notice to the buyer of the assignments referred to in clause 23.3.
- 23.3. When this clause applies, in addition to any rights of the agent that arise by operation of the law, the parties agree that, subject to clause 23.5 the agent is subrogated to all rights of the vendor under these terms and conditions against the buyer.
- 23.4. The vendor acknowledges that the agent may take enforcement, repossession or other action to recover any livestock for which the buyer has not paid in full, or the Price of such livestock, owing by the buyer under these terms and conditions:
- when this clause does not apply, as agent of the vendor (including by reselling the livestock); and
 - when this clause applies, on the agent's own behalf exercising the rights of the vendor by subrogation or assignment under these terms and conditions (whether in the vendor's name or not) and, where title to the livestock has not passed to the agent, by selling the livestock as agent of the vendor without the agent having to account to the vendor for the proceeds of sale.
- 23.5. The agent may at any time, assign, transfer, securitise or otherwise dispose of all or any of its rights under these terms and conditions and any debts created pursuant to it (including, without limitation, the rights assigned to it under clause 23.3).
- 23.6. The vendor hereby irrevocably appoints the agent as the vendor's attorney to:
- do at any time and in any manner as the agent thinks fit all acts necessary or desirable to perfect or improve the rights and interests afforded, or intended to be afforded, to the agent under these terms and conditions; and
 - appoint one or more sub-attorneys to do anything that the agent may do as the vendor's attorney.
- 23.7. These terms and conditions do not render the agent liable to the buyer as vendor nor entitle the buyer to set off against the agent any right the buyer may have against the vendor or otherwise.
- 23.8. The buyer acknowledges that the provisions of this clause 23 are intended solely for the benefit of the agent (and its assigns) and the vendor. The liabilities and obligations of the buyer will not be in any way affected:
- by this clause 23, other than as it expressly provides; or
 - by the failure of the agent or the vendor or either of them to comply with the terms of this clause 23.
- 23.9. The buyer must pay all amounts payable to the vendor or the agent under these terms and conditions without any deduction, withholding, set off or counterclaim whatsoever, whether the benefit of a deduction, withholding, set off or counterclaim is alleged to exist in favour of the buyer as against the vendor or the agent in any capacity whatsoever or any other person including any assignor of the vendor's or the buyer's interests under these terms and conditions.
24. (a) The agent agrees that he is liable to pay to the vendor the Price, less such commission as is agreed between the vendor and the agent, and in the absence of any agreement such amount as is reasonable, and less the Fees that are payable by the vendor that were incurred by the agent on behalf of the vendor in relation to the sale of the livestock.
 (b) In the event that the buyer pays the Price or part of it direct to the vendor then the agent has no liability to the vendor for the amount of such payment. Further, if the agent pays the vendor any amount which the buyer also pays direct to the vendor in respect of the same livestock, then the vendor must repay the agent that amount and the agent may debit that amount to an account held in the name of the vendor by the agent.

- (c) Regardless of whether or not a sale has occurred the agent may, but is not under obligation so to do, instead of deducting payments owed to it by the vendor, debit the amount of the commission and fees to an account held in the name of the vendor by the agent.
25. (a) The auctioneer has been retained by the vendor as auctioneer for the purpose of selling the livestock comprised in the lots. The terms of engagement between the auctioneer and the vendor do not extend to the provision of advice by the auctioneer to the vendor in relation to the safety or otherwise of the sale ring, the saleyards and the surrounding environments.
 (b) The vendor, the agent and the buyer agree to comply with their several duties under the Australian Animal Welfare Standards and Guidelines for the Land Transport of Livestock and further to consign, manage, receive, transport and handle livestock in accordance with any other or additional requirements of animal welfare legislation specific to the jurisdiction in which livestock are consigned, managed, received, transported and handled in the course of the auction process.

CHAPTER THREE - VENDOR WARRANTY FOR CORRECT PRESENTATION AND DECLARATION

26. This chapter applies only in the case of livestock and their companion animals sold at auction for slaughter when the buyer is the slaughterer and the livestock are transported direct from the sale yard to the meatworks at which they are slaughtered. This chapter does not apply if the buyer is a trader who subsequently resells the livestock to a slaughterer. A slaughterer is any person who pays the AMPC Processor Levy.
27. The warranty of a vendor is that livestock and their companion animals offered for sale at auction:
- pass government and other regulatory authority requirements and inspections at the time of slaughter;
 - are of merchantable quality;
 - carry an NLS device in accordance with State law;
 - in the case where a representation has been made in the pre-sale catalogue that the livestock have particular characteristics or are fit for a particular purpose or market, and such representations are based on information in any document, the livestock will have those characteristics or will be fit for the particular purpose or market; and
 - all information in any document provided by the vendor is true, complete and correct in all material respects.
28. In the event of a breach by the vendor of the vendor's warranty and provided such breach is notified by the buyer to the agent by 5:00pm on the 7th day after the fall of the hammer then the buyer is not liable to pay the portion of the Price of such of the vendor's livestock to which the breach applies.
29. However if the breach by the vendor is such that the livestock are not rejected outright but are instead downgraded then the buyer will pay the value of the livestock at their next highest and best use.
30. In the case of a breach by the vendor of the vendor's warranty then the vendor will also be liable to the buyer for any further losses which the buyer might establish but the buyer will take all reasonable steps in co-operation with the agent and vendor to mitigate both the effect of the breach and the amount of any loss.
31. Where a sentinel animal of a lot tests positive for chemical residue, or foreign material contamination and provided such test is certified and notified as required by these vendor warranty terms, then:
- the buyer will be entitled to delay payment for the price of all livestock in that lot only; or
 - the vendor has the option, at the vendor's cost, of collecting the companion animals, if allowed by law; or of having the livestock slaughtered in which event the risk of further condemnations will be that of the vendor. Where product integrity is potentially jeopardised, the Processor has the right to refuse slaughter and send the livestock back to the consigning property at the vendor's cost.
32. The auctioneer is liable to the buyer in respect of any breach of the vendor's warranty arising out of:
- any error, by the auctioneer, of transcription of information from the NVD completed by the vendor to the pre-sale catalogue or the buyers post-sale summary;
 - any failure by the auctioneer to notify the buyer, prior to bidding, of any breach by the vendor of the warranty of the vendor if the buyer establishes that the agent knew of such breach prior to the sale; and
 - any failure by the auctioneer to announce prior to bidding, or disclose in the pre-sale catalogue, that the vendor has failed to provide a NVD that is complete in all material aspects.

CHAPTER FOUR - OWNERS RISK FOR CONDITION OF CATTLE

33. This chapter applies only in the case of cattle and their companion animals sold at auction for slaughter when the buyer is the slaughterer and the cattle are transported direct from the sale yard to the meatworks at which they are slaughtered. This chapter does not apply if the buyer is a trader who subsequently resells cattle to a slaughterer. A slaughterer is any person who pays the AMPC Processor Levy.
34. Owners risk reflects the producer's responsibility to provide slaughter cattle for sale that are fit for human consumption. Cattle are fit for human consumption if they are not condemned as unfit by government. Owners risk applies if the condemnation is due to a condition in the animal which the buyer establishes, by the relevant government certificate, existed prior to the fall of the hammer.

35. A buyer with the benefit of owners risk protection is not liable to pay the Price of that animal to the vendor. The buyer remains nevertheless liable for all costs incurred after the fall of the hammer in transport, slaughter, testing and disposal of the animal.
36. Owners risk protection is available to the buyer of cattle to which this chapter applies if all of the following are satisfied:
- a certificate is issued by government which states the relevant NLS RFID tag number and PIC, the date of the certificate, the reason for condemnation and that the reason for condemnation existed prior to the fall of the hammer;
 - the certificate is received by the selling agent either in its original form or by fax or electronic communication in the form of data, text or imaging by 5:00pm on the 7th day after the fall of the hammer; and
 - if the condemnation is due to chemical residue the certificate follows testing in a government approved laboratory which establishes maximum residue limits in excess of the Australian limit.
37. Owners risk does not apply, and the buyer must pay for the cattle, if the reason for condemnation is any of bruising, fever, partial condemnation or emaciation.

CHAPTER FIVE - NOTICES REQUIRED BY LEGISLATION

NSW Property, Stock and Business Agents Act 2002 Warnings

- Penalties for collusive practices. It is an offence against the Property, Stock and Business Agents Act 2002 for a person to do any of the following as a result of a collusive practice, or to induce or attempt to induce another person by a collusive practice to do any of the following:
- to abstain from bidding; or
 - to bid to a limited extent only; or
 - to do any other act that might prevent free and open competition.
- Severe penalties may be imposed on persons convicted of collusive practices. The auctioneer has the right to make one bid on behalf of the vendor if the auctioneer clearly

and precisely announces that fact prior to the sale.

Tasmania Legislation. An auctioneer conducting a public auction must not appear to acknowledge the making of a bid if no bid was made. A person must not participate in collusive practices by way of making or receiving an unlawful promise to abstain from bidding, not to bid except to a limited extent or do any other thing which may prevent free and open competition.

WA Auction Sales Act 1973 s31 NOTICE.

It is an offence to:

- induce or attempt to induce another person to abstain from bidding by means of a promise, expressed or implied, that the other person will have the right to elect to take over as buyer or to toss or draw lots to establish who is to become the owner;
 - abstain or agree to abstain from bidding as a result of such a promise;
 - knowingly enter or permit or cause to be entered in the auctioneer's record any name other than that of the actual successful bidder;
 - enter in the auctioneer's record the name of the buyer other than that of the actual successful bidder; or
 - in the case of successful bidder supply wrong information as to the name of the buyer to the auctioneer or to any person, firm or corporation on whose behalf the sale is conducted.
- The vendor, or any person on behalf of the vendor, or the auctioneer have the right to make no more than three bids.
