

# OUR mate needs a HAND

The wider polocrosse community especially NSWPA would all be very familiar with the impact and input he has had on a wide array of players and supporters over the past 18 years. From 2004 - 2020 Peter or "Bull" was the sports trainer for the NSW nationals teams for almost 2 decades religiously helping keep our players on the field with little to no cost to players. He has also been the Australian World Cup Team trainer on 2 occasions and been involved with many Australian teams both domestically and abroad. The tables have turned and its now time that Pete needs our help. In early August Bull is heading to Sydney to have life changing surgery to help with a lengthy and debilitating back injury that has been hindering him for many years. As you may be aware these types of surgeries don't come cheap, so it would be much appreciated if you could dig deep and bid up big to help ease some of the financial pressures that are coming our mates way.
