Micron Figures

The micron figures for all sale rams were obtained from samples taken in May and August under the supervision of NSW SMB Councillors.

Micron figures are a guide only and should be used as such. They do not necessarily tell how an individual ram will breed. Rams tested are in full show feed and micron results can be expected to show stronger figures than would be expected under natural conditions.

The '**Comfort Factor**' is expressed as a percentage and is defined as the proportion of fibres which have a diameter of less than 30µm. Research has shown that wools with a 'Comfort Factor' of 95% or greater (ie. less than 5% of fibres greater than 30µm) can be comfortably worn against the skin. A wool with a 'Comfort Factor' of 100% contains no fibres greater than 30µm.

The '**Spinning Fineness**' is expressed in microns and provides an estimate of the performance of the wool when it is spun into yarn. The 'Spinning Fineness' is calculated from the measured Mean Fibre Diameter and the measured Coefficient of Variation of Fibre Diameter. The Spinning Fineness is the same as the Fibre Diameter when the Coefficient of Variation (CV) is 24%. Wools with a CV of less than 24% will have a Spinning Fineness less than the Fibre Diameter.

The Mean Fibre Diameter, the Standard Deviation of Fibre Diameter, and the Coefficient of Variation of Fibre Diameter are values that have been measured by AWTA Ltd using Laserscan instrumentation. The 'Comfort Factor' and 'Spinning Fineness' are values that have been calculated using formulas that have been derived from research studies. They are not values that are directly measured by AWTA Ltd and care should be taken in their use.

The **Standard Deviation** is a statistic that summarises the way diameter results from individual fibres are spread around the Mean Fibre Diameter. It measures the absolute distribution of fibre diameter either side of the Mean and is expressed in microns.

Sixty eight percent (68%) of fibres fall within a range one Standard Deviation either side of the Mean, and 95% of fibres fall within a range two Standard Deviations either side of the Mean. For example a wool with a Mean Fibre Diameter of 20µm and a Standard Deviation of 4µm will have 68% of fibre snippets between 16.0µm and 24.0µm and 95% of fibre snippets between 12.0µm and 28.0µm.

The Coefficient of Variation is a measure of the relative distribution of fibre diameter and is expressed as a percentage (%). It is calculated by expressing the Standard Deviation as a percentage of the Mean. For example a wool with a Mean Fibre Diameter of 20µm and a Standard Deviation of 4µm will have a Coefficient of Variation of $(4.0 \div 20.0) \times 100 = 20\%$.

Terms: Nett Cash before delivery

The Purchaser understands stock will be sold under the standard terms and conditions of sale pertaining to the sale of stud stock within the State of New South Wales (which terms and conditions are on public display), together with any additional semen and marketing rights or conditions set down by the Vendor and displayed. The Purchaser agrees to be bound by these terms and conditions. Where there is a discrepancy between the standard terms and conditions and the Vendors terms and conditions, the Vendors terms and conditions shall prevail.

Special Note to Buyers

1. In the interest of the buyer and to prevent the occurrence of mistakes, all instructions concerning the delivery of trucking and insurance thereon must be given IN WRITING at the Instruction Office of the Showground and signed by the Buyer or his representative.
2. Agents may deliver any lots to other Agents, if requested, but in such case the Buyer is required to sign a delivery order to be handed to the forwarding Agent by the Buyer.
3. Instruction for despatch of consignments comprising more than one owner must be signed by each Buyer; no instructions will be considered complete until all have signed.
4. INSURANCE. Cover can be effected immediately instructions are given. NO VERBAL INSTRUCTIONS CAN BE ACCEPTED.
5. All transfer certificates are the responsibility of the Vendors.

Disclaimer

The Association and the Vendors accept no responsibility for the accuracy nor the repeatability of the information supplied in this catalogue.

Terms and Conditions of Auction Sale for Merino Rams

1. Subject to any reserve price, the highest bidder shall be the Purchaser. Any bidder may retract his bid until such time as the auctioneer announces by the fall of the hammer or otherwise that the lot is sold.
2. In the event of a disputed bid, the auctioneer shall be the sole arbitrator and his decision shall be final. If one of the claimants will advance, then the lot or lots may be put up again at the auctioneer's discretion.
3. The auctioneer may refuse to accept any bid which, in his opinion, is not in the best interests of the Vendor and shall have the right to refuse any such bid without giving any reasons therefore.
4. Where the Vendor reserves the right to bid at the auction in respect of a lot and instructs the auctioneer to make more than one bid on his behalf, the auctioneer shall, prior to submitting the lot for sale by auction, announce in a clear and precise manner the number of bids reserved by the Vendor in respect of that lot.
5. A bidder shall be deemed to be a principal unless, prior to bidding, he has given to the auctioneer a copy of a written authority to bid for or on behalf of a person.
6. As soon as practicable after the fall of the hammer, the Purchaser shall sign the agreement (if any) for sale.
7. No person shall be entitled to bid unless prior to the commencement of the sale he has, if requested, made arrangements satisfactory to the selling agent for the payment for any ram which may be sold to him.
8. The purchase money for each ram shall be payable in cash to the Vendor's agent on the fall of the hammer. Delivery shall take place as soon as practicable after the auction. Subject to anything specifically to the contrary contained in the Special Conditions of Sale for Export. The auctioneer may at any time before or during the auction require any person wishing to bid for any ram to deposit with him the whole or any part of the auctioneer's estimate of the purchase money.

9. The risk in each ram purchase shall pass to the Purchaser immediately upon the fall of the hammer whereupon the Purchaser shall be responsible for the safety and well-being of the same. Property in the ram shall notwithstanding remain with the Vendor until the purchase price has been paid in full. If the Purchaser is given possession of any ram prior to payment of the purchase price, the Purchaser shall be in possession solely as bailee for the Vendor until the purchase price is paid in full and until such time, the Purchaser shall not deal with the ram in any way inconsistent with the title of the Vendor.

10. For so long as any part of the purchase monies shall remain unpaid, the Vendor or his agent shall be a liberty to repossess any ram and for that purpose to enter upon any lands or premises of the Purchaser and to hold that ram at the Purchaser's risk and to resell the same with or without notice by public auction or by private treaty in such a manner as the Vendor may determine and the Purchaser shall be liable for all losses and expenses arising out of any such resale and agrees to indemnify the Vendor and the Vendor's agent in respect thereto.

11. Subject to anything specifically to the contrary contained in the following Special Conditions for Sale for Export all conditions and warranties expressed or implied by law including those created by any statute except the conditions and warranties that may apply pursuant to the provisions of the Trade Practices Act (1974) are hereby excluded and subject as aforesaid, each ram is sold with all defects, faults, diseases or imperfections, if any, whether the same may be discoverable by inspection or not and the Vendor shall not in any way be liable for any loss or damage that may arise of result from such defect, fault, disease or imperfection or any error or misdescription of any ram sold or otherwise and no representation made by the auctioneer at the time of the sale shall bind the auctioneer or the Vendor.

Special Condition - Retention of Semen Rights by the Vendor

12. This condition applies when the Sale Catalogue or the Agent announces prior to auction of any Lot that the Lot is subject to the Vendor retaining any rights to the semen of the Lot.

13. "Semen rights" means any right to semen reserved to the Vendor including the right to market the semen.

14. The Vendor will display in writing before the sale or in the sales catalogue or in a prominent place, the Vendor semen rights terms and conditions.

15. The Purchaser warrants that the Purchaser understands, agrees to and accepts the semen rights terms and conditions.

16. The Purchaser acknowledges that if the Purchaser breaches the semen rights "terms and conditions" the Vendor may be able to recover damages from the Purchaser.

17. The Vendor hereby releases the Agent from any liability, claim or action whatsoever howsoever arising in relation to the sale of the Lot and the Vendor semen rights.

18. In the event of any dispute between the Vendor and Purchaser regarding semen rights, neither the Vendor nor the Purchaser will not join the Agent as a party to the dispute.

19. The Vendor indemnifies and agrees to keep the indemnified Agent from any claim whatsoever arising in relation to the Vendor semen rights.
