## **TURANVILLE SHORTHORNS**

Welcome to our 15th annual bull sale at Turanville. This year we offer our 2020 drop “R” bulls and a run of 2021 “S” Autumn drop bulls, registered and recorded with Performance Herds Australia (PHA) Ltd. PHA consists of a group of progressive seed-stock breeders recording pedigree and performance of progeny from Shorthorn and Shorthorn cross females across Australia, representing some of the oldest and largest Shorthorn herds in the Country.

The seasons have continued with good rainfall in the Hunter although the wet summer did see some of our young cattle struggle but we won't complain about too much rain!! The sale bulls have scanned well and are now displaying their genetic strengths as they gain weight on forage oats and pastures.

The bulls on offer this year have as always been prepared on pasture and forage crops maintaining the objective of commercial longevity without the effects of grain feeding. They have been vet checked and semen tested, fully vaccinated and will present in good working order ready to give you the trouble-free service that Turanville bulls are renowned for. At Turanville we don't just talk the talk – we put our females under strict fertility pressure just as a commercial herd does. The Spring drop bulls have an age spread of under 6 weeks and the Autumn bulls under 8 weeks.

At Turanville the bulls are left in as large a contemporary group as possible in order to measure their data and utilise Breedplan to help identify more predictable animals, with the genetic mix to drive the commercial breeder's profit.

Turanville genetics have gained a reputation for performing well in numerous carcass competitions over the years. These results, along with the continued feedback from feedlots and MSA kill sheets all help us to measure the important commercial performance of our cattle and identify the bloodlines that best suit market requirements. Turanville have also been supplying purebred Shorthorns into the JBS Great Southern Farm Assured program and the JBS Thousand Guineas Shorthorn Branded Beef product.

This year's draft includes 16 sons of the exciting new sire The Grove Terabytes N0615. He was selected for his physical style, balance and muscling along with strong balanced EBV's with marbling in the top 1% for his year drop. Turanville Bonecrusher – the grand old sire has 4 sons and The Grove K0749 has 8 sons who as usual will impress. There are also a number of bulls marked as suitable for heifer joining. There will be one Durham Red yearling suitable for heifer joining also.

Please view the bulls on our website and link to the Performance Herds Australia database to study any further information you may need: [www.turanville.com.au](http://www.turanville.com.au)

We would like to welcome you to Turanville and look forward to catching up with you for an inspection of the bulls on sale day or at any time prior to that

**Kind Regards**

**Doug, Nic, Angus, Henry and Sophie Robertson.**

# Information

**Inspection:** Bulls will be available for inspection from 10.30 am on sale day. We recommend and encourage prior inspection so please feel free to contact us to arrange a time.

## **All prices GST exclusive**

**Helmsman selling system** - Sale will be conducted on Auctions Plus. All buyers will need to log on to their account to bid. There will be devices and wi-fi available for any buyers at the sale that don't have access to Auctions Plus.

**Agents Rebate Terms:** 6% to all agents contacting Doug Robertson at least 24hrs prior to the sale introducing clients via email and attending the sale, then settling per Turanville Partnership terms on RCTI within 7 days – Strictly enforced.

**Guarantee:** In simple terms, we stand by our bulls. In the unlikely event of infertility in the six months from sale day if a bull is totally infertile or totally incapable of natural service, provided it is not caused by injury or disease since the sale, we will replace or refund the purchase price (without expenses) less salvage value. Any claims to be made within 6 months with a relevant veterinary certificate. Please contact us if you have any concerns.

**Health:** Fully vaccinated for 7 in 1, Vibrio and Pesti-guard.

**Fertility:** All bulls have been inspected by Peter Gorman of Upper Hunter Veterinary Services for structural and breeding soundness, including reproductive examination and semen testing.

**Delivery:** While every care will be taken, no responsibility can be accepted whilst awaiting delivery. We encourage you to insure your purchases. See Achmea advertisement.

**Breedplan Performance Data:** All bulls are registered with Performance Herds Australia (PHA) and have Group Breedplan figures comparable to PHA cattle. These figures are not comparable to The Shorthorn Society of Australia figures.

**Weights and Performance Data:** Up to date measurements available on sale day.

**Disclaimer:** The owners, employees, sale staff and representatives accept no liability for accidents that occur, any person attending does so at their own risk. Please be aware of the dangers inspecting bulls in sale pens. While all care has been taken in the preparation of this catalogue we accept no responsibility for any errors or omissions in this publication.

Purchaser: \_\_\_\_\_ \$ \_\_\_\_\_

**23 months.** Top 5% Scrotal. Top 10% 200DW, 600DW, MSA-B2 Index. Top 15% 400DW, IMF. Top 20% CWT. Half-brother to last year's top selling bull at \$21500. The second calf out of N18 and she has another outstanding one here. He had the highest EMA and IMF in these 2 year olds on raw data, a very balanced package genetically with high IMF and weight for age giving him a great overall index.
