OUR BREEDING PHILOSOPHY

Many Studs wax lyrical, use big words from the text book to describe their Breeding Philosophy. It can be long winded and hard to grasp.

At Stoney Point we keep it simple:

We breed bulls that **DO**
We breed bulls that **STAY**

BULLS THAT DO deliver the genetics to your herd that:

- Ensures your cows get in calf, then calve down unassisted, raise a calf that grows and grows producing lots of high quality meat and both the bull and cows remain healthy and fertile.
- Produce a no nonsense docile herd whose offspring are sought by feedlotters and processors.

BULLS THAT STAY or are durable ensures your purchased bull:

- Possesses structural soundness with great feet and legs and superb udders in his female offspring.
- Retains his softness, style and shape and breeds to type.
- Is a great all round performer – ticks all the boxes.

It is all about breeding Real Angus – like they should be, loaded with ***Superior Fertility and Capability*** ensuring our clients herds are efficient, producing the highest quality meat.
