While all care is taken with the preparation of pedigrees and information in this catalogue, no responsibility will be accepted for any inaccuracy.

2% Rebate to outside agents in attendance

WELCOME TO THE ARMDALE PARK ANNUAL RAM SALE 2022

It is hard to believe it is September and the ram selling season is upon us again. The year has certainly flown. 2022 has been another good year rain wise, albeit a little wet in some spots, however, conditions have generally been good.

We are again stoked by the success of Armdale Park clients. The Rural's Wagga Livestock Marketing Centre's, Weekly Lamb & Sheep Report certainly confirms that Armdale Park genetics have the capacity to lift a commercial operation to the top. We consistently see our clients not only included, but most weeks at the top of the list. We put everything we have into maintaining the stud's genetics at the highest standard possible, and aim to provide rams in ultimate working condition ready to do the job for our clients. The support we received at last year's sale was absolutely amazing, and we are so appreciative of the faith that our clients put in our product. We are proud to be providing rams that are seriously value adding to our client's enterprises.

Although the current prime lamb market has come back from the record highs achieved last year, quality lambs are still attracting premium prices. Our aim is to offer the best quality Dorset rams available anywhere and this year's rams will not disappoint. All rams will have Stockscan figures displayed on sale day. We are very impressed with scans achieved again this year reaching a top EMA of 52.24. Thirty six rams achieved scans with an EMA above 40!

This year on offer will be 16 Elite Stud Rams, 110 Autumn Drop Rams and 65 Spring Drop Rams. The Spring drop rams were mostly born in September, so will be about four months younger than the first run of rams. Although not as mature as the Autumn drop rams, these rams are of the same quality and are only a month or so off being the same size.

Please note that this year our on-property auction will be interfaced with Auctions Plus, to allow clients unable to attend in person to participate in the sale. Clients will be pleased to note that this year we will have tiered seating which will assist the sale to run more smoothly.

Inspections by appointment are welcome prior to sale day. To assist clients, footage of sale rams will be posted on our Facebook Page: 'Armdale Park Poll Dorset Stud' prior to sale day. If we can be of any further assistance, please do not hesitate to call Garry: Mobile 0427275134

Garry, Catherine and Sam would like to thank all their valued clients for their on-going support.

CONGRATULATIONS

Steve On An Outstanding Career

We would like to take this opportunity to sincerely thank Steve Ridley for his on-going support of the Armdale Park Poll Dorset Stud over many, many years. Steve is highly regarded as a stock agent, and is renowned for his eye for stock and his impressive skill as an auctioneer. This year Steve has made the decision to retire from full time work, but will continue casually in the industry and has kindly offered to take the Auctioneers stand once again at this year's annual sale. We wish Steve all the very best in his retirement and hope he enjoys the opportunity to spend more time playing golf, and spending time with his family, especially his precious grandchildren. Congratulations Steve on an outstanding career.

Legends of Armdale Park Sires: A-Armdale, AP-Armdale Park, GL-Glenore, H - Hillden, K-Kurralea,
SW- Springwaters, T-Tattykeel, UP-Ulandi Park, VV Valley Vista (T)-Twin, (Trip)-Triplet

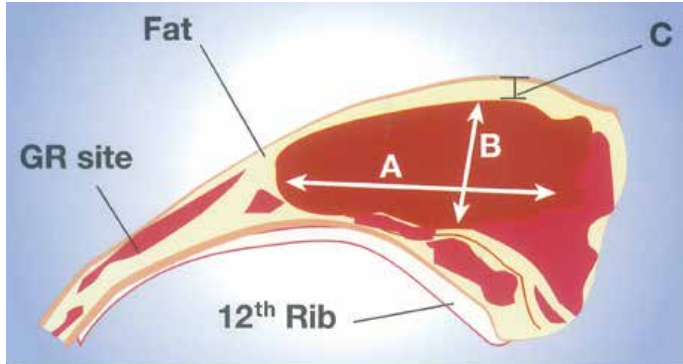

Figure 1: Exposed 12th rib on the carcass cut through the last thoracic and first lumbar vertebrae.

Scanning for performance traits in animals has become a significant on-farm measuring tool for many years.

Australian STOCKSCAN Services P/L scanner's assess sheep at around 8-12 months of age for:

- Live Weight (LW)
- Eye Muscle Width (A)
- Eye Muscle Depth (B)
- Fat Depth (C)
- Eye Muscle Area (EMA) is calculated using the eye muscle width (A) and depth (B) measurements (AxB)

The meat index is based on the eye muscle width (A), eye muscle depth (B) and fat (C) measurements, with an adjustment for the age of the sheep, so the index is what the sheep's index would have been at eight months of age.

PLEASE NOTE:
STOCKSCAN figures included in this catalogue are as at 22nd July 2022.

SIRES OF STUD RAMS IN THIS YEAR'S 2022 SALE

Glenore 180145

Reserve Champion Ram Hamilton

Purchased for \$8000

Sire of two rams in this year's catalogue
and sire of one of our Keeper rams this year.

Armdale Park 401-18(T)

First son retained of Armdale 520-16

Two son's retained in 2021.

Armdale Park 28-18(T)

Sired by the successful
'POCOCK' Springwaters 66-16

Two son's retained in 2021.

SIRES OF STUD RAMS IN THIS YEAR'S 2022 SALE

Armdale Park 190497

Purchased by Karl Sinclair for \$8700 at our 2020 Annual Sale.

Springwaters 160566

Purchased by Patrick Flanagan for \$10,000. This year represents his first drop of rams here from semen purchased.

Armdale Park 180280

Sired by A160520 who bred the top priced ram at the last two annual sales. This is the first drop of rams as he suffered a broken leg in his first year. In his first drop of lambs, he has sired three stud rams and our keeper ram for this year.

Armdale Park 190329(T)

A very long, smooth ram with very clean points.

Armdale Park 190086(T)

A very big ram sired by VV170058, the Supreme Exhibit at Bendigo 2018 Used as an out cross sire.

A: 80 MANN STREET, COOLAMON NSW 2701 | E: REGALSIGNS@GMAIL.COM | PH: 0269 273 583
WWW.REGALSIGNSCOOLAMON.COM

The Armstrong Family wish to thank all buyers and under bidders for their support.

As always a 100% guarantee is offered on all our rams, and any feedback is always welcome.

We wish you well with your purchases and hope you continue to be market toppers!
