Offering:

**5 Specially Selected Stud Rams
70 Flock Rams**

It's with great pleasure we welcome you to our 2nd on property sale on Monday 26th September. It feels like only yesterday we were packing sale pens up in the shed and we're here again. We are still blown away with last years sale results and thank everyone involved for their support in what was an unbelievable day for us.

What a season we are currently having. La Nina seems to have set in and we have had our fair share of rainfall this growing season, I would nearly go to the point to say it's the wettest I've seen it on our place in the 5 years we have been here. All dams and water holes are full with plenty of run off water laying around the place and making spraying crops and pastures ever so challenging.

The last 12 months has had its fair share of its highs and lows. A below average 2021 lambing was due to the dreaded Campylabactor infection getting into the main of our stud ewe flock in June last year. It's something I've always heard about but never thought much about it. It's an infection the ends up in the placenta of the unborn foetus that can result in mass abortions across your flock. We ended up losing an estimated 20% of lambs due to this last year. This year we have vaccinated every female on the property prior to joining. It's a vaccine that I would highly recommend.

We have introduced some exciting new genetics into our stud over the past 12 months. We were lucky enough to secure 8 top quality ewes at the Baker families Geraldine dispersal in May 2021. Among them we purchased the then Australian record price ewe Geraldine 16.15 who has bred exceptionally well for the Baker family. We look forward to seeing what these ewes do within our stud in the years to come. We also ventured to the Retallack On-property sale in October where we secured a new stud sire Retallack 'Will-Exceed' 336.20 for a sale top of \$29000. A big upstanding, free moving correct sheep that oozes quilty and style. A sheep that will be used very heavily in the next few breeding seasons. We will have Retallack 'Will-Exceed' 336.20 on display on sale day.

Our AI and very first ET program took place in March. An Embryo transfer program is something we have considered for a couple of years now to fast track genetics. We used a range of industry leading sires throughout these programs and look forward to presenting some of the progeny to you in next years sale.

Once again it was great to finally get back to showing and displaying our sheep again this year. We were lucky enough to be awarded the following top awards.

- Reserve Champion Border Leicester ewe and Most successful exhibitor at Bendigo sheep and wool show.
- Grand Champion ram and most successful exhibitor at the Bendigo National show and sale.
- Grand Champion ram, Reserve Longwool exhibit Adelaide Royal and most successful exhibitor.

Showing sheep is something we really enjoy doing and is a great way to compare your livestock with other studs across Australia.

We look forward to catching up on sale day where we will offer 5 Specially selected rams and 70 flock rams. We thank you kindly for your support and wish you well with your purchases. Please stay around upon completion of the sale for a BBQ and a quiet beverage or two.

Kind Regards, Will and Billie

Most Successful
Border Leicester Exhibitor
Bendigo Sheep & Wool Show 2022

SIRE REFERENCE

Glenlee Park 28.17 - Sold at Horsham Border Leicester Show & Sale 2018 for \$4,000 to Talbragar Stud NSW. A ram that we retained semen for in flock use. We have used him heavily in two consecutive AI programs and think he is one of the best rams we have bred.

Glenlee Park 25.17 – An AI bred sire by Retallack Exceed & Excel.

Glenlee Park 42.19 – A son of Jackson 126.17 which we purchased in the Jackson's on property sale in 2018 for \$12,000.

Geraldine 31.18 – Champion Ram National Border Leicester Show & Sale 2019. This ram went on to top the sale for \$10,000. We purchased semen and has been used throughout our stud.

Retallack 867.16 – Top priced \$12,500 ram at the 2017 October Retallack Ram Sale. We were losing bidder on the day but purchased semen and has been used throughout our stud.

Retallack 403.17 – Was a joining sire to a number of Geraldine stud ewes we purchased at their dispersal.

Pina 205.19 – Was a joining sire to a number of Geraldine stud ewes we purchased at their dispersal.

Australian Wool Network Livestock and Property are the selling agents.

A 2% rebate is available to outside agents introducing buyers in writing the day prior to the sale.

'Our Stud is Accredited Brucellosis free and has Ovine Johnes MN2V status'

Understanding LAMBPLAN Maternal ASBVs

Trait	WWT (kg)	MWT (kg)	PWT (kg)	FAT (mm)	EMD (mm)	NLW (%)	CFW (%)	SC (cm)	WEC (%)	INDEX
ASBV	0.8	1.0	2.5	-0.4	0.4	4	5	0.6	-10	105.6
Acc	51	53	61	45	38	33	37	44	37	

- An ASBV of 0 is the average of the 1990 drop.
- Note: A useful rule of thumb for converting ram ASBVs into lamb production differences is to simply halve the ASBV (as rams contribute half the genetics of the lamb).
- Accuracy - published as a percentage, is a reflection of the amount of effective information that is available to calculate the ASBV. All ASBVs are now published with accuracies. The higher the percentage, the closer the ASBV is to the true breeding value of the animal. Breeding values without accuracies are Flock Breeding Values (FBVs) and can only be compared within the flock.
