**OB
CERT
#43**

GREAT RAMS = GREAT LAMBS.

Newbold PRIME LAMB SIRES are bred for lamb production. We use both Lambplan ASBVs and visual assessment to produce rams that sire heavy, early-maturing lambs that go on to provide the best profits for our clients.

2021-Drop Rams

We are pleased to be offering a solid line up of rams again in 2022. The 2021-drop rams are all excellent examples of Newbold sires - high growth, high quality and easy care.

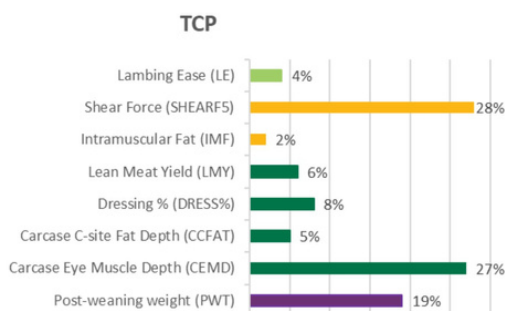

In this year's catalogue, we have flagged those rams with ASBVs in the Top % in Australia. With many of our rams falling within the Top 20% for WWT and PWWT, they are tailor-made for high profit prime lamb production. Bred to produce lambs that grow quicker and reach target weights in a shorter time.

Colour Legend

TCP Index

Earlier this year, all LAMBPLAN terminal indexes (TCP, EQ and LEQ) were updated to include Lambing Ease (LE). The following graph shows the updated traits in the **Terminal Carcase Production (TCP)** index and how they contribute to the overall balance of the index in the top 10% of current terminal sires.

HEALTH ASSURANCES

- Ovine Brucellosis free certificate #43
- Current OJD status is MN3
- Foot rot free
- Inoculated August with 6 in 1
- Rams shorn August
- Drenched with Startect
- Newbold sheep can go to all states of Australia

DELIVERY & DISPATCH

Free Australia-wide delivery to central points.

FREE LUNCHEON 12PM

The infamous, delicious Newbold Lamb burger luncheon.
