ROCK-BANK BREEDING PHILOSOPHIES

At Rock-Bank we aim to sell rams which will maintain microns and wool quality, which are physically well balanced, have heavy body weights, good doing ability and fertility. When rams leave Rock-Bank they will be physically able to work at full capacity and reproduce themselves as you expect them to.

Purity is important at Rock-Bank.

Full feeding begins with ewes during gestation and continues through the lambing stage. Young ram lambs are weaned onto lightly stocked improved pasture, with paddock feeders always full of high protein feed to maximize wool follicle and body growth.

We make no apologies for extreme feeding. This approach has proven over a period of time to enable each ram to fully display its potential for wool quality, quantity and body weight.

Micron Testing Policy:

All rams are shorn mid November removing the fine lambs tip. They are shorn again in late March. The **Current Micron** test is from samples taken late August.

This micron sampling system promotes maximum micron development, identifying rams which are holding microns on extreme feed and represents an up to date micron test for sale rams.

Rock-Bank is a full Stud operation; however we understand our clients live in a commercial world. If your purchases do not come up to expectations in the first 12 months please contact us. We are in this industry for the long haul and we have vested interest in your success.

ROCK-BANK POLLS & SIREs

The Rock-Bank Poll Stud was started in 2012 with the purchase of a poll ram from the Pemcaw Merino Stud at the Dubbo National Merino Sale in August 2012 for \$44,000 in partnership with the Merryville Merino Stud.

He was joined to the best 17.5 to 18.5 micron fine wool ewes of exceptional frame, size and wool cut with the best meat attributes.

Our aim is to breed a poll that has high quality wool and have good wool weights, on a large meaty frame, with great emphasis put on fertility and mothering ability, and will stand up to our very wet winters and humid springs.

ROCK-BANK Merino Stud

The Rock-Bank Stud was established in 1880 on pure Saxon bloodlines and until 1950 only Winton and Valley Field blood was used. Since 1950 only pure Merryville blood has been used. In recent times two top Merryville sires have been purchased for \$40,000 and \$30,000.

The aim at Rock-Bank has been to breed a big productive Superfine sheep that will hold micron on improved pastures, and most importantly produce wool of the highest quality suited for the top Italian, Japanese, Korean and Chinese wool mills.

NATIONAL TITLES

- Australian Supreme Champion Merino Ram 1997, 2006 & 2018
- National Merino Pair of the Year (Bendigo) 2002, 2006, 2008 & 2014

DISCLAIMER

The vendors warrant that the information provided in this brochure with respect to age and the shearing times are correct.

Whilst all care has been taken with other information contained in this catalogue and with respect to the information provided and representation made, the vendors accept no responsibility whatsoever with respect to such information and representations (including, but without being limited to, information and representations concerning the expected wool microns, wool weights, wool yields and repeatability of tests) and the purchaser shall have no cause of action against the vendors with respect to such information or representation should such information or representations prove to be incorrect or misleading.

Every care has been taking in compiling this catalogue to ensure accuracy, but no responsibility is accepted for any errors or mis-descriptions which may have occurred.

CONDITIONS OF SALE

1. The sale is subject to reserve prices and the right of the Vendor, by his Agent or Auctioneer, to bid for any lot or lots as many times as he may think fit, or to withdraw any Lot or Lots without declaring the reserve. Subject to the aforesaid the highest bidder shall be the buyer, but the Auctioneer may without giving any reason therefore refuse to accept the bidding of any person or persons. No bidder shall bid a sum less than the Auctioneer nominates or retract his bid and if any dispute arises respecting a bid, the Lot shall be put up again at the last disputed bid or the dispute may be decided by the Auctioneer. The stock shall be at the risk and expense of the purchaser in all respects on the fall of the hammer and the Auctioneer and the Vendor shall not thereafter be responsible for the safekeeping of the stock.

2. The buyer shall deposit twenty-five per cent of the whole amount of purchase money if required by the Auctioneer at any time during the sale.

3. All stock shall be paid for in cash immediately on conclusion of the sale, and prior to delivery, but unless other arrangements regarding settlement have been made satisfactory to the Auctioneer in the event of delivery being given or possession obtained by the Buyer or his representative prior to such payment that until payment in full of the purchase money and of any cheque given on account of the same, the stock shall remain the property of the Vendor and the Buyer shall hold as trustee for the Vendor, but in all respects at the risk of the Buyer.

4. As all Lots are available for inspection prior to commencement of the sale, the stock are to be sold with all faults, if any, and all conditions and warranties which might but for this clause be implied by law are hereby expressly negatived. The Auctioneers are not liable in respect of any error, misdescription or omission in any particulars appearing or stated regarding the description of pedigree of any stock offered for sale, and no such error, misdescription or omission shall entitle the buyer to annul the sale, or reject the stock or claim any compensation, damage or abatement in price.

5. Notwithstanding the provision of Clause 4 hereof, the Purchaser shall have the right to cancel the sale, but shall have no claim for damages or compensation of any kind whatsoever, should any animal within the minimum time required from the date of sale fail to pass any veterinary tests, and/or obtain any necessary Health Certificate, to enable it to be transported interstate to a destination nominated by the Purchaser on the day of the sale. All veterinary expenses shall be borne by the Purchaser on certification of the completion of the requirements for interstate movement, but by the Vendor should the animal fail to comply with such requirements.

6. Notwithstanding any agreement, custom, rule or usage relating to the liability of Agents to Principals in respect of payment for stock sold at Auction, if any stock shall be sold to a Purchaser normally resident outside Australia, or to any other person acting on behalf of such a Purchaser, the Agents shall not be liable to pay the Vendor, proceeds in respect of such sale, unless the Agent shall have been paid in full by the such Purchaser AND in the event of such stock being re-sold pursuant to these Conditions of Sale, the Agent shall not be liable for any resulting deficiency or loss.

7. The price entered in the sale book by the clerk at the sale shall be final and shall bind the Buyer and the Vendor except in the case of manifest error.

8. Commission shall not be refunded on sales cancelled after the fall of the hammer.

NOTE: Any person attempting to induce a Buyer to abstain from bidding, by any promise that may influence price in a Buyer's favour, or to abstain by reason of such attempt and also any Auctioneer or Clerk who knowingly enters in the record of sale any other name than that of the successful bidder (unless the bidder confirms the record immediately after the sale) is punishable by fine or imprisonment.
