**Rosevale K1057(P)** has had six calves in six years and is PTIC. Two of her sons have sold for breeding to the Sewell and Carson families.

**Feremone S1036(PP)** is an easy doing, homozygous polled bull. He is a 'middle of the road', functional type who is backed by a fertile female. While small in percentage, there is some Charolais content in this bull which is evident in his dark cream coat colour. You would expect him to breed a high number of red calves if mated to red cows.
