FERTILITY: BULLS - THE GLEN'S 2 YEAR BULL GUARANTEE All bulls sold by The Glen Pastoral Co. are fertile and structurally sound to the best of our knowledge. If a bull becomes infertile, breaks down or becomes structurally unsound due to reasons other than injury or misadventure, within 2 years of the date of sale, we will:

1. Provide the purchaser with a satisfactory replacement if available, or
2. Refund the purchase price minus the salvage value of the animal purchased.

This is not an insurance policy. We recommend insurance against injury or loss of life. Claims may only be considered when accompanied by a veterinary certificate.

BULLS OFFERED IN THIS SALE ARE:

- Tested for Pestivirus, are PESTIVIRUS CARRIER STATUS NEGATIVE and are vaccinated for Pestivirus.
- Breeding soundness evaluated by Holbrook Veterinary Centre, a member of the Australian Association of Cattle Veterinarians:
 1. External and Internal genital organs are assessed and deemed normal.
 2. Testicular tone and scrotal circumference are assessed/measured and deemed normal.
 3. Bulls are inspected for structural soundness, gait and only physical abnormalities.
 4. All bulls have passed a semen examination involving an assessment of semen motility and sperm morphology.
- Vaccinated 7 in 1 for clostridial diseases and Leptospirosis. Vaccinated for Vibriosis and Pestivirus.
- TACE evaluated for Birthweight, Calving Ease, Fertility, Temperament, Growth & Carcase Traits.
- We guarantee that no bulls have been foot trimmed and that all bulls are fertile and capable of natural service, and that no performance enhancement drugs are used.
- Liveweight taken close to sale date will be available on the website during sale week and in printed form at the sale.
- The recessive gene status for the bulls catalogued is documented with each individual lot.

Buyer pre-registration

Intending bidders must register for a buyer number. The Buyer pre-registration form will be available on The Glen website under the heading Sales. www.theglenpastoral.com.au

Although it is recommended that buyers pre-register, buyers attending the sale may register on sale day.

The video of the sale lots and sale catalogue will also be under the heading Sales on The Glen website by mid to late August. A supplementary catalogue documenting bull weights and updated sale information will be added to the website one week prior to the sale and be available on sale day.

PERFORMANCE RECORDING NOTES

- All calves born are Calving Ease Recorded. In most calving cohorts, we do not have to assist any births. Consequently, TACE does not analyse the data in these cohorts and Calving Ease is not included in the list of traits measured, even though it is recorded.
- The Glen's entire breeding herd, all replacement females and all sale bulls are DNA sampled and subjected to Genomic Analysis in TACE.
- The Glen has discontinued scanning for carcass traits at 400 days. For the past 2 years we have found that the scan data we submitted did little to either alter the EBV's or improve the accuracy of EBV's, after the carcass traits were calculated from Genomic Analysis.
- All calves are weighed at 200 days and sale bulls are weighed at either 400 days or 600 days.

PRE-SALE INSPECTIONS

Pre-sale inspection of the sale bulls is welcome any time. Please phone, text or email Mike or Ian to arrange a date and time.
