Welcome to Mount Pleasant Limousins 9th Annual Sale.

Firstly, I can not believe that this is our 9th sale. The time has gone by so fast.

2022 has been very similar to last year in many ways. We have had another very wet Autumn and Winter with water laying everywhere. We should have a cracking Spring, with full dams heading into Summer.

We have been very busy with the boys and their football, so we haven't attended many shows this year. Luke and I went to Sydney Royal for a few days and had a wonderful time catching up with many of our fellow cattle breeding friends that we hadn't seen in a few years due to COVID. It felt wrong to be in the shed for a few days with no cattle and not doing anything.

We broke in two 12mth old bulls and I took Jack and Charlie to the 2022 National Limousin Junior Show in Canberra. Charlie paraded Mt Pleasant Swagger and did a fantastic job presenting him. Jack exhibited his own bred bull calf JR Skywalker S5.

Many of you may be aware that we purchased a bull to add to our Herd Sire paddock. In my defence its Jacks fault as he was bidding ;) Jokes aside we purchased the Homo Polled Homo Black Mandayen Kingmaker R65 from Mandayen Limousins in South Australia. This bull is a great addition with his genetics, EVBs, temperament and softness.

This year we have 18 bulls on offer. 14 black s and 4 apricots. There are no broken in bulls this years line up as there have been no shows. Jack has Lot 7 on offer, a Red Rock Double Sprung M50 son and Tom and Harry have 2 sale lots, Lot 5 and Lot 17 on offer. Lot 5 being the only Longreach Kakadu son on offer.

Thank you for my 4 men, even though they are busy with work, sport and after school commitment they still manage to give me a hand on the farm. Thanks to Richard as well and to Christine Holmes, of Redgum Graphic Design and Signwriting, who creates all our ads and sale catalogue. And to all my helpers on sale day. I really appreciate it.

We trust you will find cattle in this year's line that will suit your program and should you be successful in a purchase, we hope you are as happy with them as we are.

Sherrie (Luke and boys)

Limousins

Sale Information

Buyer Registration

Buyers number system will be in operation at the sale. All prospective buyers must register prior to the sale. GST will be added onto the price at the fall of the hammer.

Sale Order

The Vendors reserve the right to alter the sale order.

Supplementary Sheet

Will be available on the day

Health:

- All animals have been tested for Pesti virus
- Have had 2 vaccinations of 7 in 1, Pestigard and Vibrovax
- Back lined with Eprinex on 27th May 2022
- Back lined with Coopers Easy Dose 17th August 2022
- Vet checked and semen tested

Sale Preparation

All the bulls on offer have been prepared on an oats crop with the occasional bale of oaten hay, with access to mineral lick blocks. There has been no hoof trimming.

Junior Members

Junior Limousin Youth Members will be offered a 5% discount on all purchases.

Catering

Lunch and refreshments will be provided by Mount Pleasant Limousins at 12

Stud Transfers

All animals are registered with the Australian Limousin Breeders Society and they are eligible for transfer within. We ask all purchasers of animals who require transfers to indicate this on your "Buyers Instruction Sheet".

Rebate

A 2% rebate is offered to outside agents who meet the following conditions.

1. Introduce their client in writing to the vendor by 5pm on the day prior to the sale.
2. Accompany their client at the sale.
3. Settle within 7 days.

Insurance

Purchases become the responsibility of the buyer at the fall of the hammer. While all care will be taken by the vendors we recommend buyers insure their purchases. An insurance representative will be present at the sale.

Delivery and Transport

We are willing to hold bulls for a reasonable period after the sale to enable purchasers to coordinate the successful and efficient transport of the bull to their properties at the buyers risk, again all care will be taken by the vendor.

NOTE: On delivery of your new bull please ensure you have some steers or cows in the yards to ease the transition from the herd at home to their new environment. The bulls have been handled gently and moved by quad bike so with any new method of handling it should be taken slowly. There is no trailer loading facilities - only trucks

Guarantee

We guarantee the structural soundness and fertility of our sale bulls. If a bull proves to be infertile or incapable of natural service within 12 months of the sale date, the vendor will credit the purchase price less the salvage value of the bull provided the problem is not caused by injury, disease, misadventure or negligence incurred since taking delivery. Any claims must be accompanied by a relevancy veterinary certificate. The vendor reserves the right to obtain an independent veterinary assessment to confirm any claim.

What are scurs?

Some polled cattle have scurs. Scurs are incompletely developed horns that are generally attached only to the skin. They can range in size small scab like growths to large horn like protrusions. Therefore, polled cattle can either be smooth polled or scurred polled (polled but expressing scurs). Many breeders mistake the idea that scurs represent an error in transmitting the horned characteristic, but this is not the case:

Scurred cattle should be classified as polled since they do have the polled gene.

Only a polled animal can have the scurred trait.

Sale Catalogue Disclaimer

All care has been taken in compiling this catalogue however responsibility lies with prospective purchasers to determine it's accuracy.

Local Accommodation

Forbes Victoria Inn: 02 68512 2233

Plainsman Motel: 02 6852 2466

Notices

Health and Safety of Visitors

Visitors enter the yards at their own risk. Children under 16 and people with reduced mobility, or require the use of aids are requested not to enter the yards.

Under normal conditions all animals are considered to be of docile temperament, however sale day is not considered 'normal' conditions.

Sale Catalogue

All reasonable care has been taken by the vendor to ensure that the information provided in the catalogue is correct at the time of publication. However, neither the vendor nor the selling agents make any other representations about the accuracy, reliability or completeness of any information provided in this catalogue and do not assume any responsibility for the use or interpretation of the information included in this catalogue. You are encouraged to seek independent verification of any information contained in this catalogue before relying on such information

Understanding EBV's

An Estimate Breeding Value (EBV) is an estimate of the genetic merit of that animal for each trait measured.

EBVs are provided for the following traits:

Gestation Length:

Ranks sires for the time between conception and the birth of a calf. Shorter gestation is indicated by negative EBVs and longer by positive EBVs.

Calving Ease Direct:

Indicates the influence of the sire on calving ease. Sires with positive EBVs for calving ease will increase calving ease and sire with negative EBVs will decrease calving ease.

Birth Weight:

Indicates the genetic potential for birth weight. Positive EVBs indicate higher birth weights and negative EBVs indicate lower birth weights of progeny.

200, 400 & 600 Day Weight:

Gives us an estimation of the animals genetic potential for growth.

Milk:

A key component of fast growth to weaning is the dam's maternal performance. A bull with a high milk EBV should produce daughters which milk well.

Scrotal Size:

Indicates whether the bull will produce sons with above average or below average scrotal sizes.

Docility:

Is expressed as the increase or decrease in the percentage of the progeny that will be scored as docile (score 1 or 2). Positive EBVs indicate higher proportion or progeny that will be scored as docile and negative EBV's indicate a lower percentage of progeny being scored as docile.

The EBVs for Limousins can not be compared with EBVs for an animal of another breed

Accuracies are presented with each EBV and give an indication of the amount of information that has been used in the calculations of that EBV. The higher the accuracy the lower likelihood of change in the animal's EBV as more information is analysed for that animal and its relatives.

The EBV contained within this sale catalogue were compiled by the ABRI (Agricultural Business Research Institute) from the data supplied by breeders. Neither the Australian Limousin Breeders' Society or ABRI oversee or audit the collection of this data.

AuctionsPlus

How to Register and Bid on AuctionsPlus

1

Go to www.auctionsplus.com.au to register at least 48 hours before the sale.

7

Fill in buyer details and once completed go back to Dashboard.

2

Select “**Sign Up**” in the top right hand corner.

8

Complete buyer induction module (approx. 30 minutes).

3

Fill out your name, mobile number, email address and create a password.

9

AuctionsPlus will email you to let you know that your account has been approved.

4

Go to your emails and confirm the account.

10

Log in on sale day and connect to auction.

5

Return to AuctionsPlus and log in.

11

Bid using the two-step process – unlock the bid button and bid at that price.

6

Select “**Dashboard**” and then select “**Request Approval to Buy**”.

12

If you are successful, the selling agent will contact you post sale to organise delivery and payment.
