# GLENDON PARK ANGUS FEMALE DISPERSAL

800

**450** Angus Cows & Calves 2-7yrs. Calves May-Oct drop redepastured Angus Bulls 1/10/14 still running with Bulls, (To be drafted into lines and age groups).

**30** Black Baldy Cows & Calves 2-7yrs. Calves July– Sep drop redepastured Angus Bulls 1/10/14.

**200** Angus Heifers 1 ½yrs PTIC to calving ease Angus Bulls to commence calving from May (identified to calve in monthly cycles).

**150** Angus Heifers 1 ½yrs N.S.M. (A small percentage too early to detect).

**Genetics** - High grade bulls for many years Booroomooka, Bald Blair, Dulverton, Te Mania and Wattletop sires.

**Fertility** - Rigorous classing of replacement females, always selecting females that conceive in the first two cycles.

**Production** - Steers have been grown to B3 feeder markets with strong repeat buyer demand.

**Constitution** - The cows and calves will present in strong store condition with healthy well grown calves at foot. A testament to the herd, considering the seasonal conditions. The replacement heifers are in forward condition and will be drafted into suitable lines.

**Agent Comment:** A tremendous opportunity to procure high grade Angus females only available as "Glendon Park" has been sold.

**GLEN INNES, NORTHERN NSW  
TO BE OFFERED AT GLEN INNES  
SALEYARDS & INTERFACED WITH
