

GLENLEA CHAROLAIS

Founding stud of the Better Value Bulls Group

In 2016 Glenlea Charolais and the Better Value Bull Group have over 100 bulls and 100 females for sale. Located in several locations across NSW, including on the North Coast, for all clients convenience.

Private treaty, either direct or with an agent anytime by appointment, has become our preferred selling method. This allows us to discuss one on one your cow herd, your environment and target markets so we can assist you in making the best selection of sires for your herd to give you the best outcome possible.

As part of our Stud Open day in conjunction with The Land's **Northern Beef Week 2016** we will have 40 plus bulls on display and for sale. You will find us at "Westbrook Station" just west of Guyra on Monday the 27th of June.

We are also excited to be participating in the inaugural **European Breeders Bull Sale** where we are offering 15 bulls and 12 females. This sale will be held at the Silver Downs Selling Complex just east of Tenterfield on Saturday the 2nd of July.

Glenlea will also take part in the **2016 Charolais National Show and Sale** and are pleased to be offering for sale a young donor prospect cow and calf unit as well as 3 classy show prospect heifers, Spring drop 2015 with outstanding bloodlines and performance figures. The sale will be held on Monday the 4th of July in Dubbo NSW.

Glenlea and the Better Value Bulls group also process cattle for domestic and export beef sales through our processing company **Australian Grassfed Meats**. We invite all bull buyers to discuss a potential supply relationship for our branded beef program, Blue Label Char-Blend, which is focused on charolais influenced cattle.

We invite you to inspect our cattle at any time and look forward to discussing your needs.

BULLS FOR AUCTION AND PRIVATE SALE

GLENLEA JOSH (P)

SIRE: RANGAN PARK RIO BRAVO D15 (AI) (ET) (P)

DAM: GLENLEA DESIRE 4TH (AI) (ET)

Josh is a classy sire prospect with medium frame, thick as a bus, polled, great doability, great EBVs. He also has super carcass data. Top 5% for EMA, Top 10% for IMF (marbling), Top 20% or RBV and above breed average for fat cover. Dam is an outstanding Full French cow that raises a great calf every year. Sire is a leading AI sire in Australia, having been used in over 25 stud herds with nearly 400 progeny and breed leading EBVs in 8 recorded traits!

For current EBVs search Charolais website with TATTOO: GLEJ27E

GLENLEA JONAH (P) (R/F)

SIRE: BRANCH VIEW FORDGED FROM STEEL (AI) (ET) (P) (R/F)

DAM: GOBONGO ISABELLA D86E (AI) (ET) (P) (R/F)

Jonah is a classy stud sire prospect and outstanding crossbreeding sire. He is soft, thick, great doability, tested homozygous polled, light red factor and great balanced EBVs across all traits. Fine hair coat and tight sheath, excellent high yielding carcass with softness.

For current EBVs search Charolais website with TATTOO: GLEJ29E

For more information contact Roderick Binny of Glenlea Charolais

GLENLEA JUGGLES (P)

SIRE: RANGAN PARK RIO BRAVO D15 (AI) (ET) (P)

DAM: JUNCTION FARM XTRA SPECIAL (P)

Juggles is a double polled sire with volume and softness. EBVs are very balanced showing well above average growth combined with top 10% fat cover and top 1% IMF (marbling) to target the high end MSA grids. Used in the stud last spring to join 30 stud females, 100% in calf.

For current EBVs search Charolais website with TATTOO: GLEJ39E

GLENLEA JOBERG (P)

SIRE: RANGAN PARK RIO BRAVO D15 (AI) (ET) (P)

DAM: GLENLEA ESTELLA 1ST (AI) (ET)

Polled bull with power! Used in the stud as a yearling! This is the modern Charolais type with the GLENLEA stamp! Great phenotype, fine hair, very square. EBVs back up what you see. Top 5% of breed in 200, 400 and 600 day growth, top 5% for EMA, top 10% for fat cover and amazingly with all that muscle top 1% of the Charolais breed for IMF (marbling). Joberg adds to his progeny hitting those MSA premium grass or grain finished grids.

For current EBVs search Charolais website with TATTOO: GLEJ38E

GLENLEA JATZ CRACKERS (P)

SIRE: GLENLEA EDDIE (AI) (P)

DAM: SEDALIA C.BISCUIT (AI) (ET) (P)

GLENLEA JATZ is another walking tank! His Sire, GLENLEA EDDIE (P), left us with some great progeny - early maturing and super thick, with low birthweights. Jatz is thick, soft, easy calving, plenty of growth with extra yield and maintaining ability to FINISH ON GRASS! EBVs are top 5% of breed for calving ease, top 2% for EMA, above breed average growth and top 15% for carcass.

For current EBVs search Charolais website with TATTOO: VLWJ13E

GLENLEA JEDDI (P)

SIRE: GLENLEA EDDIE (AI) (P)

DAM: FERVALE BONNY MANDIE (AI) (ET)

This fellow has some grunt! Sired by our top selling bull in 2011 at our Armidale sale, GLENLEA EDDIE (P). A massive yielding carcass, double polled, on a moderate frame with well below breed average birthweight (top 2% of breed for calving ease). He has excellent growth (top 15% of breed), while having a top 1% of the charolais breed EMA and RBY.

For current EBVs search Charolais website with TATTOO: VLWJ15E

GLENLEA JUNIOR T.I. (AI) (P)

SIRE: TATTENHALL IMPECCABLE I26 BR.HB.1382

DAM: PALGROVE ESTELLA 214 (AI) (ET) (P) (R/F) (TW)

A polled Tattenhall Impecable son, out of DUKE261 X Palgrove Estella female. Every long term stud breeder knows the influence this sire has had on Australian Charolais, and this fellow is one of the best natured sons I have ever handled. So deep and square. Bulls, feeder cattle, stud duties - he could do all of them. EBVs top 10% of breed for Mature Weight and Milk with excellent carcass traits.

For current EBVs search Charolais website with TATTOO: VLWJ7E

GLENLEA KANADA (P/S) (R/F)

SIRE: BRANCH VIEW FORDGED FROM STEEL (AI) (ET) (P) (R/F)

DAM: THW MY GIRL (AI) (P) (TW)

Thick soft bull, red factor, polled / scur. A bull we have admired from an early age. Very square with meat yield all over him. Fine hair coat, clean sheathed and lovely temperament. EBVs showing top 15% of breed for 200, 400 and 600 day weights, along with carcass traits also in top 15% for EMA and fat cover, while IMF (marbling) is in the top 5% of the Charolais breed.

For current EBVs search Charolais website with TATTOO: GLEK24E

On Offer at the Charolais National Sale 2016 on 4th July in Dubbo NSW.

Feature donor prospect red factor young cow from our Charol cow family, with red heifer calf at foot. Interbreed Champion Female at Guyra Show in 2013.

For current EBVs search Charolais website with TATTOO: GLEG14E

Australian Grassfed Meats was founded in 2013 By Roderick Binny and Karl Harms. Since that time we have developed several grassfed brands to supply the Chinese, Korean, Californian and domestic market with high end, restaurant quality, branded grassfed beef.

The program is focused on our two flagship brands "BLUE LABEL" and "RED LABEL BEEF" which are region specific to the greater New England region of Northern NSW and Southern Queensland. Prime cattle selected by the owners and backed up by MSA grading on the hook, underpin the brands consistency and growing reputation as a leading grassfed brand domestically and internationally.

Australian Grassfed Meats also produce several breed specific variants to our brands including "CHAR-BLEND" which is focused on charolais and charolais cross cattle. We buy cattle liveweight or over the hooks.

SEMEN FOR SALE

GLENLEA EDDIE (AI) (P)

SIRE: LT BLUEGRASS 4017P M686569 (P)

DAM: GLENLEA NOLANA 29TH

Top priced bull at our 2011 Armidale bull sale at \$11,000 and has exceeded expectations through his progeny. Top 1% of breed for low birthweigh, early maturing, with massive carcass traits (see his EBVs). His sons have been sort after by commercial breeders and very easy to sell. His daughters are some of the best "doing" cattle we have.

For current EBVs search Charolais website with TATTOO: GLEE14E

RANGAN PARK RIO BRAVO D15 (AI) (ET) (P)

SIRE: LT RIO BRAVO 3181 P M665507 (P)

DAM: PALGROVE SHOW GIRL 6 (P)

Fast becoming one of the great breeding bulls of the breed in Australia. Selected by Glenlea to add softness and polling to horned females and has exceeded all expectations. Progeny in over 20 studs. Amazing EBVs with very high accuracy puts him at the very top of the breed in Australia in many traits and overall. Proven by progeny Homozygous Polled (no scurs). Low birthweight. Growth in top 1% of breed, EMA top 10%, Fat cover top 1%, IMF top 1%. Fine hair coat, tight sheath in all progeny, length and eye appeal.

For current EBVs search Charolais website with TATTOO: RAND15E

BRANCH VIEW FORDGED FROM STEEL (AI) (ET) (P) (R/F)

SIRE: HARVIE JAGER 65J PMC228759 (P)

DAM: BRANCH VIEW XQUISITE Z47E

Exceeding breeding expectations in many traits. Low birthweight calves with plenty of growth, thickness, softness and style. His first progeny have had excellent carcass scan raw data. The doability of his calves are excellent. The greatest EBVs are of no value if sires and their progeny are not capable of performing in less than ideal seasonal conditions. Approximately 50% of progeny are red factor and most are polled.

For current EBVs search Charolais website with TATTOO: BVCF34E

GLENLEA BIG GUN (AI) (P) (R/F)

SIRE: ICARE 7193116802

DAM: GLENLEA JANET U6E R/F (P) (TW)

Trait leading sire in the Australian Charolais breed for 200, 400, 600 day weight. Top 1% of the breed for retail beef yield and carcass weight. Both these traits are often overlooked but measure overall thickness and muscling much better than EMA alone. All this performance in a Polled, Red Factor sire! EBV leader in all growth traits, oldest daughter have weaned 4 calves and a breeding on very well with perfect udders. 75% of progeny red factor.

WELCOME

On behalf of Steve Alford and the team at Alford and Duff First National, it gives us great pleasure in welcoming you to the inaugural multi-vendor Tenterfield Euro Sale at Silver Downs Selling Complex in Tenterfield.

This sale evolved from the need for smaller vendors to create their own sale. This sale is restricted to vendors who don't have their own sale. Buyers can purchase with confidence as all the bulls have been structurally vet checked and **SEMEN TESTED**. Vet certificates will be provided.

Live streaming will give our sale the added bonus of bidding online for buyers who are unable to attend the sale.

Alford and Duff First National will be offering a BBQ and refreshments for vendor's, buyers and guests on Friday afternoon 1st July 2016. We will also offer morning tea, BBQ and refreshments on sale day.

We would like to take this opportunity to thank all the buyers, for their participation in this the Inaugural Euro Sale. We look forward to catching up with you at the sale. We would like to thank all the bidders and under bidders in advance and wish you all the best with your purchases.

Inspections: Inspections from 2pm to 5pm Friday 1st July 2016 and from 8.30am sale day 2nd July 2016.

Agents Rebate: 2% outside agents rebate is offered to Agents introducing buyers 24 hours prior to the sale and settling on their behalf within 7 days.

Phone Bidding: The selling complex is located in a reliable mobile coverage area. Contact the selling agents if you wish to place a phone bid.

Live Streaming: As an added bonus, the sale will be streamed online Nationwide by Live Bidding for those who are unable to attend the sale on the day.

Catering: Morning tea, refreshments and BBQ lunch provided.

Disclaimer: All reasonable care has been taken by the vendor to ensure the information provided in the catalogue is correct. However the vendor and selling agents do not give any warranty as to errors or omissions. Prospective purchases should satisfy themselves by inspection or otherwise as to the accuracy of the information included in the catalogue.

Supplementary Sheet: A supplementary sheet will be available on sale day containing bull weights, withdrawals and any other additional information for individual lots.

Alford and Duff First National would like to thank Wilshire & Company, Thomas Rural & Norco Rural Store for their support of the Euro Sale.

Also we would like to thank The Golfers Inn and Settlers Motor Inn for their support. Please consider them when you are booking your accommodation.

GLENLEA CHAROLAIS

Glenlea will celebrate 45 years of breeding Charolais in 2016.

The stud was graded up from Angus, Shorthorn and Devon base cows with introductions of Full French females from bloodlines in New Zealand in the 1970s. The type developed by the Binny Family is a high performance, well-muscled Charolais on a medium frame with early gestation, and the critical trait of crossbred progeny of our bulls being able to finish on grass at domestic weights.

The herd having evolved in Tasmania over 40 plus years where very little feed lotting happens and so the vast majority of cattle are grass and crop finished, has resulted in a type that is different to the majority of Northern NSW and Queensland Charolais. Through extensive performance recording over the last 28 years we have been able to select for increased performance along with as much muscling as we can while maintaining calving ease, as gestation length is an often over looked trait in this quest, by eliminating the later gestation bloodlines you eliminate 99% of calving ease issues. The result may have some birth weight but the calves are born easily and with excellent vigour.

Our record of Show Champions, carcass competitions, grass fed steer performance trials continually allowed us to benchmark our cattle's performance and growth curves to refine our breeding strategy, this process is ongoing breeding cattle to suit today's markets.

Our polled breeding program started in the mid 1980's with the purchase of "DINO". His semen was exported to Canada, USA and several other countries, only the second Australian Bred Charolais bull to have semen exported at the time.

Today we are proud to present our polled Charolais bulls with all the growth and carcass quality with the ever important criteria of being good doers under tough conditions and fatten quickly to market following seasonal breaks.

Our first E.T. program was conducted in 1981 when the process was still being developed and we have been involved in E.T. programs ever since. Nearly all our current herd of females are from E.T.

With a major sale of the aged breeder herd in 2007 and the sale of the Tasmanian properties the framework for a move to NSW was laid.

If you want polled bulls with all power have a look at this fellow! Used in the stud as a yearling! As was the next lot. This is the modern Charolais type with the GLENLEA stamp! Great phenotype, fine hair, very square. EBV's back up the what you see in the bull, Top 5% of breed in 200,400,600 day growth, top 5% for EMA, top 10% for fat cover and amazingly with all that muscle top 1% of the Charolais breed for IMF% (marbling) which ranks him above many Angus, and adds to his progeny hitting those MSA premium grass or grain finished grids. Easy to see why we used him in the stud, which has impacted on his weight, but he is catching up fast and he will look his best sale day.

Half-brother to the previous lot, used in the stud as a yearling servicing 30 cows and heifers. This has impacted on his weight but he is catching up fast and will be showing his genetic merit to the fullest on sale day. A quartering angled photo give a perspective of the volume of the Glenlea bulls. A terrific polled sire with fine hair and a tight sheath. EBV's are very balanced showing well above average growth combined with top 10% fat cover and top 1% IMF% (marbling) to target the high end MSA grids.

Vac: 7 in 1, 3 day, tick fever and Semen tested.

This bull we used in the stud as a yearling, as an outcross sire for growth and overall carcass yield with very high raw scans for marbling at a young age. Double polled and docile, with extra volume and doability, we admired him for his phenotype and power that's why we used him in the stud, will breed awesome bullocks. This bull was born on the Coast. EBV's are top of the breed for growth, being top 5% for all growth traits, with positive retail beef yield that you can see in him!

Vac: 7 in 1, 3 day, tick fever and Semen tested.

This fellow is a gem, thick, polled, fine hair coat with extra measure of doability that will help him be ready for and get his work done in the tough seasons that we all face more often than ever before. Our stud selection is based on "doability" as the number 1 trait. Cattle that are pretty, stylish, great EBV's are of absolutely no use in real world cattle production if they can't maintain themselves in tough seasonal conditions and thrive quickly when seasons break, and critically pass that onto their progeny! This fellow has plenty of that and as with all our draft, has been bred into them through generations! EBV's are breed leading for so many traits top 1% for EMA, top 5% for IMF% (marbling) top 10% for all growth traits, top 15% for carcass weight and top 15% for fat cover.

Vac: 7 in 1, 3 day, tick fever and Semen tested.

This fellow is another of our lead young bulls, we have catalogued our best for this Inaugural Sale. This young bull was used on 20 heifers in the late Spring at 15 months with great fertility! All the same comments for the previous two lots apply and his full sister was the top priced heifer at the Charolais National Sale last year selling for \$8,500. EBV's top 1% of the breed again for IMF% (marbling) top 10% all growth traits, top 15% carcass, fat cover and EMA. Well above breed average for fat cover and below breed average for birthweight. A true curve bender!!

Vac: 7 in 1, 3 day, tick fever and Semen tested.

This is great bull to finish our draft of Charolais bulls with, a low birthweight sire used on 40 stud females in the late spring! We have always selected our lead young bulls to use in the stud and many times the progeny of our young sires has outperformed many highly rated A.I. sires on all measurable traits! Extra softness, fine hair, clean sheath, phenotypically the modern Charolais sire. EBV's are showing top 1% for fat cover and IMF% (marbling) above breed average growth, and EMA with top 15% for low birthweight. Another curve bender with extra fat cover! An ideal sire to join well grown heifers to and to cows with European content to increase softness, while keeping Euro weight for age!
