Vendor: Roderick Binny P: 0409 911 791 E: rbinny@australiangrassfedmeats.com

www.bettervaluebulls.com.au

100 cows & calves, all rejoined - 3 in 1 units; 30 heifers joined, 20 heifers unjoined, 50 embryos, large semen offering and a number of Stud Herd Sires will be catalogued for sale in a complete offering of GLENLEA's Breeding Herd.

GLENLEA HISTORY

Glenlea Bloodlines represent 45 years and two generations of continuous breeding of Stud Charolais cattle, operated for over 35 years in Tasmania and more recently relocating to Guyra, near Armidale in the New England region of Northern NSW. Since moving to Guyra GLENLEA has expanded by founding the BETTER VALUE CHAROLAIS GROUP. This brought together several smaller stud clients both new and established, then together with GLENLEA have to be able to market larger lines of performance recorded bulls and females to the commercial cattle industry, selling approximately 100 bulls and 100 females per year over the last several years.

Many Glenlea females are outcrosses to NSW and QLD bloodlines. The herd has been extensively performance recorded since the inception of BREEDPLAN in the 1980's, with full EBVs, including all carcass traits, recorded for many generations. Herd Selection has always been based around the commercially profit driven traits of fertility, doability, growth, calving ease with particular attention to shorter gestation length, and ability to finish on grass based grazing systems. In Tasmania, there is basically no feedlot industry, all stock are finished on grass based systems. Therefore a softer type, earlier maturing Charolais evolved at Glenlea to provide seedstock to the commercial cattle industry.

OFFERING

We will offer **100 Stud Registered cows and calves**, both Autumn and Spring calvers with many outstanding bull calves at foot - the Autumn drop bulls would normally be sold as yearlings later in 2017, so a great opportunity! Many of the heifer calves represent two lifetimes of Charolais breeding and selection, and are at the pointy end of the Charolais breed in Australia in terms of performance and phenotype. **50 Stud registered heifers both joined and unjoined**, with joined heifers A.I. to several of the breeds leading proven sires. All these females would be a fantastic start to a new Charolais stud, to build on a smaller herd, to purchase cows with high performance bulls at foot, for new sires to a commercial herd or add an elite female or two to an established herd.

Additionally, we will offer **a number of bulls including our current Herd Sires**, as well as a selection of **embryos and semen**. In all almost 200 lots, something for everyone!

INSPECTION OF SALE CATTLE

The Sale will be conducted online via AuctionsPlus on Monday 16th January. On the weekend prior to the sale, **14th and 15th January, we will open the farm publicly** for interested parties to inspect all cattle for sale.

We are also more than happy to show anyone the cattle by appointment anytime. If you are travelling up or down the New England Hwy between now and sale day, we are only 25 min drive west of the Hwy from Guyra. So for a **private inspection call Roderick on 0409 911791**.

SPECIAL OFFERS

GLENLEA WILL BE OFFERING TERMS PAYMENT ON ALL LOTS TO ANY APPROVED PURCHASERS. Contact Roderick Binny to discuss options.

FREIGHT SUBSIDIES will apply to cattle heading south and north. Full details in catalogue or call to agent or vendor to discuss.
