"I been on Nigel's sheep since the stud started. Our weaning percentage has steadily gone up over the years to average 142% for the past two years. Wool cut has gone up about half a kilogram, with our ewes cutting 6.8kg at last shearing, with 11 months growth. What we like about the Kerin Poll sheep is they're an easy-care type sheep, they join up well, we don't get much fly problem or anything else, so we're pleased with them."

- Kerin Poll client, Darren Reeks, Woodstock

ET-bred lambs
