

KRONGART STATION

S I N C E 1 8 4 6

EU WEANER AUCTIONS PLUS SALE

PCAS ACCREDITED

Approximately:

420 Steers

240 Heifers

Friday 18/12/15

The Krongart cow herd is comprised of structurally sound, large framed easy-doing females with outstanding temperament. The bulls used over these females have been selected on structure, positive fat, temperament and well balanced 400 & 600 day figures.

This has resulted in quality lines of weaners that have been yard weaned and received all their appropriate treatments, including;

- 2 x 5 in 1 vaccinations
- 2 x B12/Selenium
- 1 x Copper
- 1 x Piliguard

This is a great opportunity to purchase weaners property to property, stress free, ready to perform and meet the markets you are seeking.

We welcome inspection of weaners prior to sale.

Yours sincerely

Jamie Gray
