Plunged Dipped Piranha off shears, all needles & animal health treatments are up to date,
Lambd this year marked 99% lambs.

4000 Wyvern Bred Wether Lambs

May/June 2015 drop, Unshorn, spray dipped Extinosad at weaning, mulesed & vaccinated.

The Wyvern flock is Hazeldean based, with contract bred rams coming from their depot at Rosevale, Hay, and the flock is classed by Craig Wilson. Wethers are regularly entered in the Peter Westblade wether trial and the sheep perform very well. The breeding flock average 18.7 micron, whilst the lambs are 2 micron finer. Rams selected going into the flock are selected using the MP+ index and the main production traits selected for are increasing fleece and body weight, whilst reducing micron. The sheep are well known for their easy care and ability to generate excellent financial returns, and will suit any breeding objective. The sale will be run in conjunction with Auctions Plus and full assessments of the sheep will be available from their website from 9th October. All sheep will present in wonderful condition and are the annual drafts of surplus sheep from Wyvern Station. Trucks will be available on the sale day.

All Sheep Assessments available 9th October 2015.

All lines to be sold in 4 & 6 deck lots & all sheep are required to be taken delivery on the day.

View all assessment online at www.auctionplus.com.au

NB: The sale will be conducted in the Riverina Sheep BIO Security Group & the sheep are Eligible to go to other BIO Security areas such as South Aust. & QLD. Free to Victoria Vendor offering 1% rebate to all outside agents.

Lunch available & supplied by Carrathool Sports Club

Terms & Conditions for Auctions Plus Bidding: All lines to be sold in minimum of 400 head per lot, should you wish to purchase more than 1 lot at the hammer price, please contact Auctions Plus prior to the sale (02 9262 4222) to register your interest. <http://www.auctionplus.com.au/>
