Vendor Comments

Annual Sale of Ewe Lambs. These Ewe Lambs will grow out to be very productive future breeders if given the opportunity.

Joining Details

Not Station Mated

Assessor Comments

This is the once a year opportunity to purchase 'Paradoo Prime' ewe lambs. This flock is renowned for its hardiness; and maintains high performance even when put under pressure, consistently weaning between 135% to 145% lambs every year. These lambs are bred from White Suffolk infused Maternal Composite Rams in the top 10% of the Maternal \$ Index, with selection emphasis on early growth, worm resistance and eye muscle. They are weaned, Gudair vaccinated, have had 2 x 6 in 1 vaccines and were drenched only last week with Cydectin. These ewe lambs come highly recommended and will grow on to be excellent future mothers.
