

Warrigal Limousins Reduction Sale

Ulster 1 Quarterback ran as a cover up bull for the Autumn drop calvers from 11/06/22 to 05/09/22. Unfortunately, only the cows that had the opportunity to AI seen to be in calf as Quarterback was found not to be working.

Empty cows then ran through another AI program moving them into spring calvers. We were fortunate enough to source another cover up bull – Flemington Lift off from Harlees Limousin's where he has done a top job. Looks like he hasn't had to do much work with a high take to AI. Lift off has been with the mob since 12/10/22 up until sale day. Sale Cattle checked by Taree Veterinary Hospital 13/01/23.
