

Intermediate and Reserve Champion Rams at the Aust. Dorset Championships, Bendigo August 2022.

Ram & Ewe Sale

Thursday 2 February 2023, 1:30pm
1171 Nundle Rd, Piallamore

Welcome

The Douglas family of Abelene Park welcome you to our summer Ram & Ewe Sale. If there is any way we can be of assistance, please let us know.

We are very happy with the draft of sale sheep and believe there is an excellent selection of genetics to fit a varied range of breeding programs.

Many of the sheep are half brothers and sisters of our successful group that we exhibited at the Australasian Dorset Championships in Bendigo last year.

We thank you for your continued support and attendance and wish you well with your purchases.

Abelene Park 164-21

Junior Champion ram Aust. Championships and sold for equal top price of \$14,000 to the "Sunnybanks" stud TAS and "Glenore" VIC studs in partnerships.

Abbreviations used:

T - Twin

TR - Triplet

AI - Artificial

Insemination

F - Farrer

S - Sunnybank

H - Hilden

Y - Yentrac

Tat - Tattykeel

R - Rene

Sale Information

Inspection - Sheep will be penned by 10.30am on sale day. Pre-sale inspection by arrangement.

Health - All sheep have been multiple vaccinated, 6in1 booster rams - October 2022, ewes - August 2022. All sheep drenched Tridectin 3/1/2023. Sheep have been vaccinated with Gudair and Scabiguard.

Accredited brucellosis free flock NW81/1.

Stud registration/transfer - Minimum \$4000 for stud ram registration and transfer. Please inform agents if you would like your ram registered. All Poll Dorset ewes are eligible for stud registration.

Rebate - A 2% rebate available to outside agents introducing buyers prior to sale and settling on their behalf within 7 days of invoice.

Australasian Dorset Championships - with the Dorset Championship in Bendigo cancelled in 2020 & 2021 it was so good to get sheep back on the floor in major competition last year.

Our 7 Poll Dorset rams all finished in the top 3 in their class and took out 4 broad ribbons.

Class details below:

1st August drop shorn ram & Junior Champion - Pictured opposite
1st June drop bare shorn & Intermediate Champion - Sold to the "Englewood Park" Stud VIC \$11,000.

1st August drop performance ram & Reserve Junior Champion
1st June drop shorn ram & Reserve Intermediate Champion - Sold to the "Jenstan" Stud \$15,000.

2nd Group of 3 rams

2nd August drop woolly ram - sold to the "Boerderey" stud \$6000

2nd Intermediate performance ram.

3rd Senior performance ram - sold to the "Yentrac" VIC stud \$12,000

Our Milk tooth August drop White Suffolk ram placed 2nd in a class of 24 entries and sold for \$7500 to "KIS" and "Smithston" studs.

Sire Information

“Silk” AP228-19

Sire Yentrac 169-11

A top son of Y169 that we retained. He is a ram with excellent neck and shoulder setting, long body and very good hindquarter. His first son sold at our 2021 Spring sale for the 2nd top price of \$6600. Both our Intermediate Champ rams at Bendigo last year are his sons - selling for \$15,000 & \$11,000.

“Aldi” AP228-18

Sire AP251-08

This amazing young sire was our keeper ram from our hugely successful 2019 show team. He is the sire of ‘Brickman’, our keeper ram last year that is a really powerful ram that was Junior Champion at the NSW Championships and performance class winner. He also sired our top selling ram at our spring 2021 sale at \$7400. Another son AP 2-21 sold at Bendigo last year for \$12,000 and he also sired the Res Junior ram at Bendigo.

Valma 295-20

Sire Valma 47-18

Purchased in 2021 from Tasmania. Moderate frame ram with good muscling, carcass shape and clean points with a good balance of Lambplan figures.

Rene 175-19

Sire Springwaters 104-17

Purchased in 2020 for his excellent conformation, bone and good wool. His sire was Senior Champion Ram at Bendigo in 2018. He has produced good bodied sheep with sound structure.

Valma 361-20

Sire Valma 47-18

Another sire from the famous “Valma” stud in TAS. Purchased for his clean points, good wool and sound structure. His first sons in the ram lamb group have good type.

AP185-18**Sire AP107-17**

A large frame ram with smooth shoulders and wide loin. He is sired by AP107, who also sired our Supreme Exhibit at the Australasian Dorset Championships in Bendigo in 2019. A son of AP185 was our top selling ram at \$10,000 in the ADC online ram sale 2021. He also sired our Junior Champ ram at Bendigo last year.

AP2-21 x 'Aldi'**AP12-20 x AP185****'Dozer' Yentrac 710-15 x Yentrac 651-12****197-20 x 'Aldi'****"Digger" AP287-17****Sire Yentrac 710-15**

Our 2017 drop keeper ram & top son of Y710. he is a powerful ram with strong commercial traits such as growth rate, length & carcass.

White Suffolk**Farrer 258-17****Sire Farrer 64-16**

Foundation sire for our WS Stud. Long bodied ram with sound leg structure. He has excellent Lambplan figures, particularly eating quality and muscle.

Farrer 54-19 x Ella Matta 300-17**AP 2-19 x Farrer 258****Charollais****Camlea 82 x Camlea Craig**

Understanding LAMBPLAN ASBVs

Rams with lower ASBVs for birth weight (BWT) produce lambs with lower birth weight. Both low (lamb survival) and high (lambing difficulties) birth weights should be avoided.

Rams with more positive ASBVs for post weaning weight (PWT) produce lambs that grow quicker and reach target weights in a shorter time. This ram will produce lambs that are, on average, 3kg heavier at post weaning age (7.5 months) than a ram with an ASBV of 0.

Worm egg count (WEC) ASBVs estimate an animal's genetic potential for worm burdens. Lower WEC ASBVs are desirable. This ram will, on average, sire progeny that will have 5% fewer eggs/gram than a ram with an ASBV of 0.

Trait	BWT (kg)	WWT (kg)	PWT (kg)	PFAT (mm)	PEMD (mm)	WEC (%)	INDEX
ASBV	0.3	4	6.0	-1.5	1.0	-10	150
Acc	43	63	71	59	69	37	

Rams with a more positive ASBV for weaning weight (WWT) will, on average, produce lambs that grow quicker to weaning. This ram will produce lambs that are 2kg heavier than a ram with a 0 ASBV for WWT.

Rams with a more negative ASBV for post weaning fat (PFAT) will produce lambs that are leaner, at the same weight. This ram will produce lambs that are, on average, 0.75mm leaner at the GR site when compared to a ram with a FAT ASBV of 0.

Rams with more positive ASBVs for post weaning eye muscle depth (PEMD) produce lambs that have more muscle, independent of weight, and a higher lean meat yield. This ram will produce lambs that have, on average, a 0.5mm deeper eye muscle than a ram with a 0 EMD ASBV.

An index is a guide to the value of a ram for a particular market. Rams with higher indexes will produce lambs that are more suited to that particular market target. It is important to understand what market the index applies to before using an index.

- An ASBV of 0 is the average of the 1990 drop. It is important to compare ASBVs against current industry average.
- *Note: A useful rule of thumb for converting ram ASBVs into lamb production differences is to simply halve the ASBV (as rams contribute half the genetics of the lamb).*
- Accuracy - published as a percentage, is a reflection of the amount of effective information that is available to calculate the ASBV. All ASBVs are now published with accuracies. The higher the percentage, the closer the ASBV is to the true breeding value of the animal. Breeding values without accuracies are Flock Breeding Values (FBVs) and can only be compared within the flock.
- MLA acknowledges the contributions of the Australian Government and AWI in the development of this publication.
