40 Angus Bulls

SALE INFORMATION

Inspection

Bulls will be penned for inspection from noon of the day of the sale. Please contact Heath Tiller on 0418859361 to arrange an earlier inspection.

Health

All sale Bulls have been vaccinated with Pfizer Star – 7 in 1, Pestigard and Vibrio. Also, all lots have been tested and cleared with Pestinotch and all Angus Bulls have been Genomix tested. Vaccination dates are available upon request.

Scanning

All sale bulls have been scanned prior to the sale by Ben Glatz. He independently measures Eye Muscle Area, Rib and Rump Fat, intra Muscular fat and Scrotal size.

Semen Test

All sale bulls have been semen tested by Dr Mike Boerema B.V.Sc from Embryo Transfer services S.A.

DNA/Genomics

All registered Angus bulls are sire and/or dam verified and will have genomic enhanced EBV's.

Insurance

Insurance representatives will be in attendance at the sale and will insure your purchase at the fall of the hammer.

PIC

Property Identification code SB560755.

Parent Verification Suffixes

The Angus animals listed within this catalogue are displaying Parent Verification Suffix which indicates the DNA parent verification status that has been conducted on the animal.

PV - Both parents have been verified by DNA.

SV - The sire has been verified by DNA.

DV - The Dam has been verified by DNA.

- DNA verification has not been conducted.

E - DNA verification has identified that the sire and/or dam may possibly be incorrect, but this cannot be confirmed conclusively.

Outside Agent Rebate

A rebate of 2% will be allowed to outside agents who introduce their clients in writing to Tom Allen, 24 hours prior to the sale
Email: nikki.rogers@nutrien.com.au

Ph: 08 8664 01108

Accompany client to the sale.

Settle all accounts in full within 7 days of the sale.

Free Freight

The delivery instruction slip is to be completed by the buyer or agent and handed to the auctioneers at the completion of the sale. Free transport applies to many places within South Australia.

SALE INFORMATION

Disclaimer

The vendors have produced this catalogue with every effort to ensure the accuracy of the information, however will not be responsible for any errors or omissions.

Risk & Responsibility

Whilst all care is taken, any person attending this sale does so at their own risk and the vendors assume no liability, legal or otherwise, for any injury, accident, loss or damage to any person or property.

Conditions of Sale

As will be displayed at the sale.

PLEASE BRING THIS CATALOGUE TO THE SALE

DIRECTIONS

GOOLAGONG WELCOME

Welcome to Goolagong Angus stud's Inaugural on-property sale at Fernbank, Reedy Creek.

Whilst the stud has held its annual bull sale at Warnertown for the past seven years, this year is its first in the South East.

The stud will host two bull sales this year - at Reedy Creek on February 10th with 40 Angus bulls and at Warnertown on February 17th with 60 Angus bulls.

The stud will also offer 30 sangus bulls at its Mid North sale at Warnertown.

Goolagong will be part of Beef Week on Monday, February 6, at its South East property, Fernbank, where bulls will be on display for your inspection, or you are welcome to give Heath a call to arrange a time that suits you.

This year's Angus draft will contain sons of some extremely exciting sires; from Esslemont Lotto L3, KO Pandemic P107, Texas Quantum Leap Q29 and Merdeduke Quarterback Q11.

The stud has continued to incorporate the latest technologies in artificial insemination (AI) and embryo transfer (ET) programs this season. This has given it the opportunity to use the best genetics possible, to produce bulls with elite traits and characteristics.

Over the past two years Goolagong stud has invested heavily in Stoney Point Angus, purchasing 80 females across the two dispersal sales. These females have hit the ground running, producing quality offspring, some of which are being offered in this year's draft of bulls.

Goolagong stud purchased a new sire, Pathfinder Lakewood R861, last year for \$50,000. This bull is a son of Kenny's Creek

Intensity L123 and has moderate birth weight figures with plenty of growth and thickness. The first Lakewood calves are expected to land on the property later in the year.

All bulls in this year's sales are semen and vet tested by our veterinarian Mike Boerema, from Embryo Transfer Services of SA. Our aim is to provide paddock reared fit and healthy bulls, so buyers can be confident in their purchases.

Sales will again be interfaced with AuctionsPlus. All our bulls will be videoed for your inspection. These will be available on our website, socials and with QR codes in our catalogue - providing an instant link to watch on your smart device.

We wish to extend a warm welcome and look forward to seeing you on sale day.

Heath & Jenna, Brian & Diane Tiller

GOOLAGONG HISTORY

Breeding quality beef is something that comes naturally for the team at Goolagong Santa Gertrudis and Angus stud at Warnertown, with Brian and Heath Tiller being involved with beef cattle their whole lives.

Goolagong stud was established in 1979. Heath & Brian are fourth and fifth generation beef producers. The stud has been through several changes since it purchased the original 17 Santa Gertrudis cows, three heifers and bull in 1979, and over the years Brian and Heath have worked hard to introduce the right bloodlines to improve the herds confirmation, growth for age and fertility.

The stud expanded its beef cattle operation in 2014 by forming its Goolagong Angus stud. An opportunity arose from a well-respected Angus stud to purchase some good quality angus stud females.

By using some of the leading genetics throughout Australia with AI, ET and standing sires, the stud aims to produce cattle that have exceptionally good phenotype, that are structurally correct and have good figures to back them up.

Goolagong aims to breed bulls with low birth weight, high growth rate and are structurally correct bulls and females which are true to type and good skin.

The first crop of calves coming through from Merdeduke Quarterback Q11 and KO Pandemic P107 in this year's sale bull draft are looking impressive and are likely to gather some attention.

There will also be an exciting young AI bull by Rennylea L519 on offer at the South East sale, Goolagong L519 S157 out of Coorong Skye H233. This bull has birth weight +3.9, 600 day weight +131, and IMF +5.2.

Not only do Brian and Heath run the successful Goolagong stud, but also have a strong understanding of feedlot needs due to also operating HB Rural Feedlot and supplying weekly loads of cattle.

ANGUS

SIRES ON PARADE

GLATZ BLACK ANGUS SELWOOD N175

Purchased in 2019 as the top priced bull at \$13,000 for his depth of body, slick coat, beautiful phenotype and strong breeding pedigree. He also boasts well balanced figures.

KO PANDEMIC P107

Goolagong purchased privately for \$25,000 in 2019. A Beast Mode son with more frame than his sire who has great set of EBVs and displays a genuine stud sire appeal. Outstanding growth and fertility traits with breed leading fat cover and \$indexes in the top 1% of the breed.

TEXAS QUANTUM LEAP Q29

He was one of the first Ashland sons to sell in Australia and could be the best with his stud sire makeup and balanced EBVs that show improved fat cover and scrotal.

ANGUS

SIRES ON PARADE

BALDRIDGE BEAST MODE B074

His dam is the world-renowned Isabel Y69 who is proving to be one of the breeds' most prolific sire producing brood cows. He has an excellent set of EBVs that few can match with calving and huge growth and marbling over +3. Beast Mode has outstanding spread from birth to yearling, plus powerful carcass merit.

SIRE: G A R PROPHET

ESSLEMONT LOTTO L3

As Ayrvale General G18's highest marbling son, he displays correct structure with good heel depth & great body capacity. Has an amazing set of EBVs with top 10% or better for an incredible 16 individual traits.

SIRE: AYRVALE GENERAL

MURDEDUKE QUARTERBACK Q11

He is overloaded in stud sire presence and is structurally one of the most most pleasing to the eye.

He combines short gestation, moderate BW and growth in the top 1%, he is also in the top 1% for CW, IMF and all indexes with positive fat cover.

Tissue Sampling Unit (TSU)

Allflex® Tissue Sampling Units provide a simple but effective means for DNA testing livestock. Collect a clean, uncontaminated sample in seconds with a single squeeze motion, TSU's are easy to use and yield excellent lab results.

TSU's can be paired with a matching NLIS and visual management tag, creating a simple link between the genetics of an animal and its Identification.

ANGUS

UP & COMING SIRES

STERLING PACIFIC 904

Offers outstanding phenotype with great feet and docility plus growth carcass weight.

TEXAS ICEMAN R725

Texas Iceman offers a combination of EBV's like no other sire. Iceman's unrivalled performance, breed leading index values, and eye-catching phenotype combine to make him a sire who will dominate the global beef industry for many years.

EG EYES ON YOU AN1488

Elite growth and index is not all EYES ON YOU brings to the table. With added body mass frame in a sire appeal package.

Making cattle handling easier with...

- Fixed cattle and sheep yards
- Cattle crushes
- Gates and panels to suit your needs
- Drafting races
- Loading ramps
- Cattle and sheep feeders
- Round bale feeders
- Towable cattle and sheep yards

PREPARE YOUR BULLS BEFORE JOINING

Vaccinating bulls is the key to prevention of vibriosis.

Vibriosis is a major venereal disease and can cause infertility and abortion in cattle.

Vaccinating bulls is effective and practical

- It can lead to increased pregnancy rates
- It has no adverse impact on testicular function and semen morphology²

Conception rates can drop as low as **40%**¹

AVAILABLE AT YOUR LOCAL RURAL SUPPLIER

¹ Hum S. NSW Department of Primary Industries (DPI) February 2007. *Primefact*, 451.

² Zoetis Study Number B930R-AU-14-285. Data on file.
