Definitions of Terminology

Note:

These Definitions are to be used as a guide only.

Buyers must use their own judgement when considering their purchase.

Approximately 6 weeks should be allowed for a new handler to bond with his/her new dog (bonding time may vary between dogs).

Starting

Displays an interest and approaches stock according to natural ability.

Started

Given basic commands, some training on a lead (Come, sit, stop etc.)

Keeness to work may override obedience.

Interested in stock and going around them in an enclosed area.

Works according to natural ability.

Handlers need to be on foot.

Short practice sessions.

Well Started

May be unsettled in strange places.

Confident on a small mob and may not handle a large mob.

Makes a few mistakes.

Reasonably obedient depending on levels of desire.

May need a while to settle when working.

Brings a small mob of sheep towards handler in easy situations.

Learning to drive stock but sometimes goes to the head of the mob.

Needs a firm hand and plenty of praise / encouragement.

Can be worked from either a car, bike, horse or on foot when settled.

Trained

Mature in appearance.

May be unsettled in strange places.

Shows confidence in approaching stock that it is familiar with (i.e.; paddock dog

– in paddock, yard dog – in yards)

Acceptable levels of obedience.

Keeness to work and nature will depend on genetic makeup.

Yard dogs are keen to either force, back & bark when required.

Droversdream Dolly is a work machine for her age. Free bark, starting on command, amazing foot work , eye and wanting to back at just 10 weeks old. She will grow into a phenomenal allrounder for big numbers and big days. Happy biddable pup and wants to please. Will give anything a go and wont back down. With great bloodlines she has huge potential for any job, she will grow into handle goats, cattle and sheep, truck or shearing shed work. A real true stock mover, not often they come this keen and on the go.
