WELCOME

Lily Xu

Dong Zhu

We are excited to be launching into 2023 and to be gearing up for our 8th on property sale of Bulls and Females. Our commitment made with the purchase of the Lakeside property and the subsequent establishment of the Simmental stud has not waived and we take great pride in the article that we produce.

The foresight to continue to invest in the best possible genetics available has seen 28 Semen Sires impacted within the Lakeside program over the journey as well as the aspect of using genetically powerful standing sires to complement the female herd. With a continued focus on structure, carcass quality, growth, temperament and polled factor we are hoping to provide a superior package of performance and consistency to our clients.

This continued use of Semen Sires is reflected in progeny from Grinalta's HP Sensation FF909D, WS Epic E152, BAR 5 PFF Luke 1215X and RPF Polled Right Time featuring amongst this year's sale team, as well as some of our previous favourites of FSMB Pol Eddy, FGAF Guerrero and standing Sires Woonallee Napoleon N462, Mt Ararat Jet and various homebred Sires.

The 2023 offering of 35 Stud and Herd Improving Sires gives prospective purchasers an opportunity to select from a very consistent group of polled Bulls that we believe is a great example of the Lakeside breeding objectives. Complementing this draft of Bulls will be on offer 13 pregnancy tested in calf, rising 2 years old registered heifers that offer the potential to develop into quality herd matrons. We are also very excited to offer 21 registered unjoined weaner heifers that showcase the direction of Lakeside and are possibly the most consistent we have offered, oozing quality and type.

Lakeside will open its gates to the general public to inspect the sale team which will be on display as part of the SA Beef Week Field Days on Monday 6th February and then will conduct the annual on property sale on Wednesday the 8th February. An invitation is extended to all interested cattlepeople to visit on either occasion to view our program, discuss our objectives and discover what impact the Lakeside campaign may offer to your cattle herd.

We are appreciative of the continued support and interest in our program which inspires our commitment to enhance the production and performance of the cattle that we produce for you. Looking forward to welcoming you all to our "Lakeside" property for our 2023 events and wish all a productive season ahead and every success in your farming and cattle business.
