Welcome

The time has come for our first on-property sale of 32 bulls and 16 elite embryos and we are thrilled to present them to you. We are calling it the **TRUE BLUE BULL & EMBRYO SALE**.

We're particularly excited to be able to offer for the first time in Australia, sons of Roseda Powerball23. He has taken the US by storm, for very good reason.

He's the highest growth rate bull in the US database. He combines a low birth weight and high marbling. Quite unique! His progeny has an attractive phenotype, very sound from the ground up, and their temperament is a delight.

At Barnett Angus our aim is to push the boundaries that result in economical cattle that taste great – **True Blue Meat that Tastes Great**.

That's why our focus is weighted to superior carcasses and a high IMF. As a meat lover, I'm probably over critical when I go to an expensive restaurant and get average tasting beef. There is no excuse for receiving average when we are paying a premium. If the beef industry is to excel, then our focus needs to be on 'taste' and a great taste comes from high marbling beef that's cooked well.

High growth rates plus high marbling should not be mutually exclusive and that's our very specific mission – to not just bend the curve that says you can have both, but to excel with both traits.

Of course fertility and calving ease are a given. A thriving calf underpins our economics, but it's not good enough to just say the calf is alive. He/she needs to add superior value to our breeding program.

We are tired of hearing about 'heifer bulls' that in our view, are often an excuse for animals with a poor growth rate to negatively impact your herd replacement program. If a calf from a heifer won't wean a heavy calf, then the breeding program is not working.

After all, your heifers should be your best genetics.

Each calf born at Barnett Angus is loved and treated as a special individual, as it has taken many hours of thought, design, and consideration as to its mating, its management recognising the associated outcome is ultimately a miracle of God's creation which brings us great delight.

We hope you enjoy our offerings as much as we have enjoyed raising them.

All the Best

Mark & John Barnett

About BarnettAngus

Bramblewick Farm is the home of BarnettAngus, on a small 150-acre picturesque farm at Westbury, 25 minutes west of Launceston, Tasmania.

The Farm is made up of undulating pastures on rich red soils and a 50-acre natural bush block abundant with wildlife diversity plus a small 35-year-old vineyard currently being renovated.

BarnettAngus grew out of a desire to produce the highest quality carcass production genetics.

Good soil, good cattle and good wine all need a dedicated focus and careful management to progress and sustain an enterprise that satisfies the spirit.

We use regenerative practices to continuously improve the soil and enhance the environment for our cattle to thrive.

Great cattle are not an accident. They come with generations of proven maternal excellence and a clear picture of what best works in a natural dry land environment. An environment that experiences tough times and good times which is the story of Australia.

We are very conscious that the value of the product that leaves the farm is underpinned by an enhanced customer experience that emanates from high marbling grass feed animals with the provenance of being raised naturally and ethically.

AuctionsPlus

How to Register and Bid on AuctionsPlus

- 1 Go to www.auctionsplus.com.au to register at least 48 hours before the sale.
- 2 Select **"Sign Up"** in the top right hand corner.
- 3 Fill out your name, mobile number, email address and create a password.
- 4 Go to your emails and confirm the account.
- 5 Return to AuctionsPlus and log in.
- 6 Select **"Dashboard"** and then select **"Request Approval to Buy"**.
- 7 Fill in buyer details and once completed go back to Dashboard.
- 8 Complete buyer induction module (approx. 30 minutes).
- 9 AuctionsPlus will email you to let you know that your account has been approved.
- 10 Log in on sale day and connect to auction.
- 11 Bid using the two-step process – unlock the bid button and bid at that price.
- 12 If you are successful, the selling agent will contact you post sale to organise delivery and payment.

For more information please contact us on:

Phone: (02) 9262 4222

Email: info@auctionsplus.com.au

Sale Notes

Insurance

Each lot becomes the property of the buyer at the fall of the hammer and all buyers are encouraged to insure their purchases at the conclusion of the sale. Contact GDL for quotes.

Embryos

Each embryo lot consists of 4 frozen IVF embryos and is sold on a per embryo x the bid price basis. Eg; the bid price of \$1,500 x 4 embryos = \$6,000 + gst

The embryos will be shipped within Australia within two weeks of the sale or as soon thereafter as practicable to a location nominated by the buyer at no cost to the buyer.

We welcome your interest in these unique offerings which are designed to accelerate your genetic progress and make calving an even more exciting time to bounce out of bed and check the pasture.

Sale Location – On Property and Online

On Property and Online - a live auction conducted by Nutrien and GDL inside the new sale complex at Westbury (corner of Richie Street and Blackhills Road) with recorded video of each animal on screens and interfaced online via Auctions Plus

Rebates to Outside Agents

A rebate of 5% to outside agents who attend the sale and 2% if they don't. Agents' buyer's must be introduced in writing at least 24 hours prior to the sale and settling on their behalf within 7 days from date of sale.

Freight

Mainland purchases will be delivered free of charge to Hodge Livestock just out of Melbourne as soon as possible after the sale. Contact GDL with your transport requirements to ensure the most economical delivery outcome.

Nutrition & Health

All animals are in healthy condition and have been vaccinated with Pestigard, Vibrovax and Ultravax 5-in-1

Structural Assessment and Foot quality

Structural Assessment and Foot quality have been assessed by Roger Evans from Bovine Scanning Services out of Tamworth. All bull passed their test admirably and considerable confidence is provided that they are sound and functional fault free animals.

Assessments performed were; Weight, P8 Fat, Rib Fat, EMA, IMF%, Temperament, Sheath and foot scores. Report sheets are available on request.

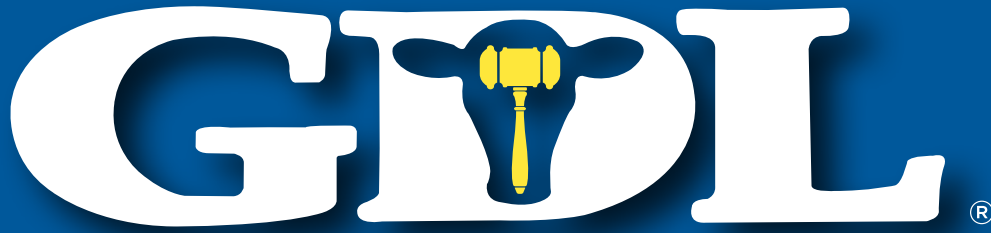

Semen Test

All bulls have undergone a yard side semen test by Sam from the Longford and Northern Midlands Veterinary Services. All bulls passed their test and are regarded as suitable for service and are free of abnormalities.

Assessments performed were semen motility, viability, volume, penis extension and scrotal circumference.

Go to our www.BarnettAngus.com.au to see the semen tests and Structural Assessment and Foot quality

Our aim is to offer genetics that produce tasty marbled beef that provide a marketing advantage as a result

For the first time in Australia, we are delighted to offer 3 sons of Powerball. An outlier for Easy Calving, High Growth, High Marbling Genetics that is taking America by storm. He is an improver for almost every category and his progeny oozes performance.

One of those **RARE** individuals whose key EPDs exceed those of his parents. There is not an animal in the Angus Breed that can match his combination of CED, YW and Marb EPDs.

Roseda Powerball23 F091 comes from the Blackcap cow family whose maternal line traces back to the famous G A R Precision 2536 that served as a donor at the Gardiner Angus Ranch and Wehrmann Angus. That maternal has four generations of top 1% marbling. He is a moderate framed bull whose progeny are selling at a premium.

A New Bloodline – The Rosebud Delightful Dozen

BBBL110

DELIGHTFUL DOZEN

We are always on the lookout for great maternal lines to complement our herd. Maternal power is cornerstone of all great herds the Rosebud Delightful Dozen were selected to play a genetic variation role in our herd. Phenotypically very sound and with added capacity and volume, these 12 heifers were purchased at the record breaking Circle8 sale in NSW last year. They are mostly Fireball daughters out of Circle 8 Rosebud L110, in calf to Paratrooper.

Smoker Mania

The day before Jeremy and Carmen's Circle 8 sale in August 22, my son John said 'Dad, just get on a plane and go, or I won't hear the end of you saying you should have been there!'

John was correct, so I went, and little did I know, I would find such a magnificent line of females. Several of them now reside at Bramblewick Farm, the home of Barnett Angus. They've been dubbed 'The Delightful Dozen'. The reason is obvious as they are exactly that. Superb temperament, deep bodies, solid feminine girls, and about to calve. Mostly by Fireball and pregnant to Paratrooper. They will provide an exciting additional bloodline to our breeding program.

At the heart of the Barnett Angus Mission is one simple thing – to increase the profitability of beef cattle operations. We believe the opportunity to do this lies in the genetic foundation we create in our females. That's why we are always on the lookout for great females.

Ones that have that blend calving ease, growth and carcass performance, maternal ability and structural correctness.

But back to Circle 8 sale, there was a metal sculpture adorned with Circle 8 insignias dominating the entertaining area and creating a warm ambience. It was a custom made 'Smoker' that looked like a steam engine with the ability to feed hundreds.

It was a great conversation piece and one which led to a discussion of why we are in the beef business. The answer in a nutshell, is because we aim to breed animals that taste fantastic, because that's the only way we can expect the consumer to pay a premium. There is no question that the meat that came out of that smoker was some of the best Beef many guests had ever had. What was it? What cut? How was it bred? How long had it been in the smoker?

Rosie R1 - MBAR1, daughter of Murray Proceed.

The discussion led to the importance of marbling which was right up our alley. At Barnett Angus have bred an animal we call 'Rosie'. She has an IMF score of 8, one of the highest in Australia. She is one of our touchstones. We love her very much and are excited about a few calves being born now from IVF and her natural bull calf, which looks at this early stage, to be a well-balanced young bruiser.

When I returned home and pondered the visit to Circle 8, I felt I should explore getting a custom-built smoker for our farm. A few more calls to Jeremy to discuss the pros and cons, then I was contacting the smoker maker who turns out to be a passionate and talented artist in every sense of the word.

He is the one and only Shannon Hobbs of HoonArt - 0426 540 330 hoonart77.com Instagram is at: <https://www.picuki.com/profile/hoonart77>

The experience of working with Shannon to design, plan and have him construct the Smoker Behemoth was second to none. I'm not sure if Shannon or I was more excited when I finally lit the match to fire up his latest creation which is now at Bramblewick Farm, the home of Barnett Angus.

We are very much 'Smoker Cooking Students' and aim to put on a delicious feast when you come to visit. Here's to new adventures, new experiences, and new friendships.

Bull Lots

1

BARNETT TRIBUTE T5

SCAN TO WATCH

A phenotypic delight that always stands to own his space. He's thick, sound and has a very wide base. Standing on four great feet, well balanced. An assessment of his data indicates that he's a bull that will improve almost every cow in the country. Low birth weight, high growth and incredible carcase values with a CW of +98 and an IMF of +6.3 and both Selection Index of top 1%. His sire; Roseda Powerball23 provides a great outcross and is an acknowledged proven super start in the US.

Please note: Barnett Angus reserves the right to collect 200 straws of semen at its own expense and at the convenience of the buyer

Elite Embryos

ELITE EMBRYO RULES:

Each lot includes a number of embryos. The bid that is offered is only offered on a per embryo basis. Hence if there are 4 embryos in a particular lot and \$1,600 is bid then the total purchase price for that lot is 4 x \$1,600 plus gst.

Embryos lots will be delivered free of charge to the buyers nominated AI centre.

Unique Semen Opportunity

HPCA BOUNTIFUL

DOB: 20/10/2016 ID: USA19841960 AMF,CAF,DDF,NHF,DWF,MAF,MHF,OHF,OSF

Unique to Australia, HPCA Bountiful is a maternal brother to HPCA Veracious by GAR Hometown. His US calves have just been weaned and great reports are coming in about their natural thickness, solid foundation, smooth shoulders and body type.

His dam is one of the most valued cows at Hinkle Prime Cut Angus and Hometown speaks volumes for himself. We're a little bit excited to be able to access such sire power – not extreme, just extremely efficient and designed to put money in the bank.

Picture of a very young Bountiful – functional efficiency at its best!
