# A MESSAGE FROM THE MCINTYRE FAMILY

It is fifty years since the introduction of Limousin's into Australia and forty years since "Chateau" Limousins were founded. The breed has evolved over the years to an Australian style Limousin suitable for our vast conditions. With changing market conditions Chateau have included Black and Polled Limousins to combine with their traditional French Pure genetics.

In 1983 John & Bev commenced the "Chateau" Stud with the purchase of twelve females from the "Streamville" dispersal under the guidance of Yvonne King-Foster of Tanhill Limousins (UK) and Gavin Wright Snr (manager at Streamville). And over time have carefully selected cow lines to introduce into the herd.

Several of the lots offered still trace back to the original cow families purchased complemented by new genetics from International and Domestic A.I. Sires.

To celebrate and coincide with our 40th year, we will be offering Bulls as well as for the first time on-property Females & Genetic Lots into the Auction.

The sale will be conducted by our regular format with an open cry auction and interfaced with Auctions Plus to allow online bidding. All lots will be on display in Pens on sale day. We also welcome anyone that would like to view the animals prior to sale day to contact us to arrange a time.

Our draft of bulls includes several bulls with performance data the upper end of the breed in multiple traits for Stud Breeders and astute cattle producers though to those looking for shape and phenotype suitable for traditional vealer production to those targeting the heavy domestic and MSA programs.

The female lots will include Polled French Pure & Polled Black Un-Joined and Joined Heifers, Cows calving February/March, a selection of Embryo's, along with the "Pick of the Spring Drop T calves" & "Pick of the Herd Flush", which is the first time Chateau have offered this opportunity to hand select from the core of their breeding herd.

We would like to also take a moment to thank everyone that has supported us over the years and we look forward to continue working with everyone and this great breed with future generations.

*John & Bev, Andrew & Jenna*

2022 Chateau Limousins Annual Sale  
Sale Topper - Chateau Recall R13  
Sold for \$12,000 to Mt Gambier Limousins  
Mt Gambier, South Australia

Purchaser \_\_\_\_\_ \$ \_\_\_\_\_

South Paw S30 is a Black, Double Polled genuine Stud Sire prospect that is bred for Australian conditions with the first 3 sires in his pedigree being of the highest performers of the breed with over 540 progeny registered between them. S30 himself will have calves at Chateau prior to his 2nd birthday. With a set of figures that get better and better, he's a bull that easy to admire for his depth of body and shear volume, big top and a back end that runs deep into his lower thigh with a great nature and true sire appeal. A bull that hard to go past & even harder to part with. Retaining 50% Semen share and 50% Marketing rights.

## 2 CHATEAU STEVEDORE S34 (H,A,AA)

S87 is a Black, Polled Q5 son that will add some shape in the back end and big early weight into his calves. A moderate frame youngster to suit first cross cows.

# Females & Genetics

## A HISTORY OF CHATEAU FEMALES.....

A touch on just a few of our most constant and prolific cow families that feature not only in this years sale but over the last 40 years of “Chateau”.

Several of females trace back to the first of the twelve purchases at “*Streamville Dispersal*” in 1982, being from the “*Olaf Jeulette*” & “*Olaf Hannah*” cow lines, which are very prolific breeders that have consistently bred replacement females and sale bulls that have lasted four decades.

Also included are descendants from live French imported cows being “*Eclipse*” & “*Delicieuse*” from the “*Billabong Dispersal*”. They have produced cattle with performance and substance and have regularly featured in pedigrees of top sellers on farm or at the National.

We were also fortunate enough to be able to introduce the “*Tonka*” cow line that was imported from “*Tanhill, UK*” and retained by “*Tanhill Australia*” that was one of two cow lines not offered in their record-breaking sale in 1988.

In the black department one of our high selling matrons would be progeny from “*Kaludabah Black Opal B52*”. Being a daughter of the “*Lloyds Black Polled Wunda*” who has been highly influential in the Limousin breed in Australia.

## 24 PICK OF THE HERD FLUSH

Opening the female draft we offer up full access to the heart of Chateau with a 'Pick of the Herd' flush. While offering what we consider the lead heifers regularly at the national or privately this will be the first time in 40 years that the breeders are fair game. The cow can be selected from the autumn or spring group with purchaser to supply semen or to select from one of our in-house sires. Guarantee minimum 4 transferable embryos with a maximum of 10 embryos. With a 50% pregnancy guarantee if implanted by an approved technician.

Quiet A Vintage Q81 is a Black, Double Polled cow that has left us a good bull calf by Yukon and is at the front end of the bull weaners. Q81 is wide throughout, easy doing with good milk and calving ease. By Next Level N5 who we used on heifers for a season had 7 sons in the 2021 sale averaging \$7,000 to a top of \$10,000. Al'ed to South Paw S30 (Lot 1) on 13/5/22 and will calf before the sale.

**29 GHR POLLED ZANE (IMCFH4) (P, A, AA) x CHATEAU NATURAL LOOK (JWMFN11) (P, A, AA)**

This mating is a combination of a soft, moderate, easy fleshing Heavy Duty daughter coupled with the power and style of GHR Polled Zane. This joining is a replica of Reward R42 who was entered for the National last year who succumbed to injury thankfully we had collected him prior. He was a soft skin, free moving bull that had sire appeal written over him and we expect his siblings to be no different. Selling 4 embryos with a 50% pregnancy guarantee if implanted by an approved technician.

x CHATEAU PENDANT (JWMFP64) (P, A, AA)**

A pick of 4 embryos by Homo Polled sire TREF Hardcore. Our first Hardcore calves were born early, have a soft skin and are super quiet with some real power and shape. Your choice of either donor dam - N80 or P64. Selling 4 embryos with a 50% pregnancy guarantee if implanted by an approved technician.

Novel Girl N80 is a full sister to New Generation N79. Half-sister to Pampered Girl P72 who was 2020 Junior Champion heifer at the National selling to Brentvale Limousins with 5 maternal brothers performing stud duties. A gentle cow with a broad muzzle, loaded with capacity and an ability to always catch your eye.

Purchaser \_\_\_\_\_ \$ \_\_\_\_\_

Pendant P64 is a super long, wedge shaped Polled French cow that has left us a replacement heifer and a son in the sale. P64 has a great disposition, a big middle and a sleek hair type. Calved as a 2yo P64 is a cow that is free in her movement, hardworking cow that will have an impact on our herd for many years to come like her mother still producing at 15 years of age.

Purchaser \_\_\_\_\_ \$ \_\_\_\_\_

Sweet Girl S71 is a Double Polled, French Pure heifer. She has been a favourite for her stylish and feminine outlook with soft pattern and an easy-going manner. A wedge shaped, strong topped heifer with loads of capacity, S71 would have been another National entry. Al'ed to Goldstein Park Phoenix on 29/11/22.

Thank-you for  
your attendance and  
support today

## **BUYER DELIVERY INSTRUCTIONS**

At the completion of the sale we ask all successful purchasers to attend the office and inform us of your delivery instructions.

## **LOOKING AFTER YOUR NEW PURCHASE**

As our cattle are run in groups they are used to having other stock around and are never left in yards by themselves. Upon arrival please ensure that your purchase has company (a steer or cow) and plenty of food whilst they survey their new surroundings. Be aware that this is a new environment to them and will take a while to get use to both you and your farm.

# UNDERSTANDING EBVs

An Estimated Breeding Value (EBV) is an estimate of the genetic merit of that animal for each trait measured.

EBVs are provided for the following traits:

**Gestation Length:** ranks sires for the time between conception and the birth of a calf. Shorter gestation is indicated by negative EBVs and longer by positive EBVs.

**Birth Weight:** indicates the genetic potential for birth weight. Positive EBVs indicate higher birth weights and negative EBVs indicate lower birth weights of progeny.

**Milk:** a key component of fast growth to weaning is the dam's maternal performance. A bull with a high milk EBV should produce daughters which milk well.

**200, 400 & 600 Day Weight:** give us an estimation of the animal's genetic potential for growth.

**Docility:** is expressed as the increase or decrease in the percentage of progeny that will be scored as docile (score 1 or 2). Positive EBVs indicate a higher proportion of progeny that will be scored as docile and negative EBVs indicate a lower percentage of progeny being scored as docile.

**Comparing EBVs:** The EBVs for Limousins cannot be compared with EBVs for animal of other breeds. They should be compared with the current average EBV for the Limousin breed.

## BREED AVERAGES EBV's FOR 2021 BORN CALVES

Gest.	BWt	Milk	200wt	400wt	600wt	Doc
-2.1	+1.7	+7	+21	+35	+49	+43

**Accuracies:** are presented with each EBV and give an indication of the amount of information that has been used in the calculation of that EBV. The higher the accuracy the lower the likelihood of change in the animal's EBV as more information is analysed for that animal and its relatives.

**Disclaimer:** The Estimated Breeding Values (EBVs) contained within this sale catalogue were compiled by the Agricultural Business Research Institute (ABRI) from the data supplied by breeders. Neither the Australian Limousin Breeders' Society or ABRI oversee or audit the collection of this data.

## EXPLANATION OF SUFFIXES

### **HORN STATUS:**

(PP) Homozygous Polled by DNA test or pedigree as both parents confirmed Homozygous Polled

(P) Polled

(Ps) Polled with Scurs

(H) Horned

### **COLOUR:**

(BB) Homozygous Black by DNA test or pedigree as both parents confirmed Homozygous Black

(B) Black

(A) Apricot

(R) Red (not apricot).

### **F94L GENE:**

(AA) 2 copies by DNA test or pedigree as both parents confirmed to carry 2 copies

(AC) 1 copy by DNA test

(CC) No copies by DNA test

(U) Un-tested

# THE SCURRED GENE IN CATTLE

Some polled cattle have scurs. Scurs are incompletely developed horns that are generally attached only to the skin. They range in size from tiny scab-like growths to large protrusions almost as large as horns.

Therefore, polled cattle can be smooth-polled or scurred-polled (polled but expressing scurs).

Many breeders have the mistaken idea that scurs represent an error in transmitting the horned characteristic. That's not the case. Scurred cattle should be classified as polled since they do have a polled gene. Only polled animals can express the scurred trait.

## CATALOGUE DISCLAIMER

While all care has been taken in compiling this catalogue however responsibility lies with prospective purchasers to determine its accuracy.

Chateau Limousins reserves the right to retain 1/4 semen share for any lots offered for sale for in herd use only, with no further call on the bull. Collection to occur prior to delivery at vendors expense.

We reserve the right to make adjustment to sale order, substitutes to sale lots which will be notified to intending buyers via supplementary sheet on sale day.
