DUNROAN SHORTHORNS

ESTABLISHED 1953 ~ THE HOME OF TASMANIAN CHAMPIONS

WELCOME

The Loane family name has been synonymous with producing quality Shorthorn cattle for close to a century. Our passion is breeding top quality cattle with traits we recognise and appreciate, good frame, good feet, easy-doing, well muscled and with a good temperament.

Once again Emily has created this catalogue in its entirety and we sincerely thank and appreciate her dedication and hard work.

On offer we have 11 outstanding bulls with the main sire represented being Nagol Park YM Picaso P124, who we purchased at the 2020 National Shorthorn Show and Sale at Dubbo.

These bulls have been semen tested by David England of Deep Creek Cattle Services and structually assessed by Roger Evans of Bovine Scanning Services. All bulls have been sire verified.

There are 8 stud females on offer which once again have been chosen from the top end of our herd. Lots 14 and 15 have been pregnancy tested in calf by Damon England of Deep Creek Cattle Services. A pen of 9, 20-22 month old, empty commercial heifers will also be offered for sale.

This year's sale, while still on farm, will be at our new purpose built saleyards, entrance off Winspears Road, closest to the Bass Highway end.

We use and recommend transport by Pages Transport and any cattle purchased at this years sale will be delivered free of charge within Tasmania, King Island and to Pages Bulla Depot in Victoria.

Enquiries are always welcome, do not hesitate to contact us.

Sincerely
Phillip, Richele and Emily Loane
