How to Register and Bid on AuctionsPlus

- 1 Go to www.auctionsplus.com.au to register at least 48 hours before the sale.
- 2 Select “**Sign Up**” in the top right hand corner.
- 3 Fill out your name, mobile number, email address and create a password.
- 4 Go to your emails and confirm the account.
- 5 Return to AuctionsPlus and log in.
- 6 Select “**Dashboard**” and then select “**Request Approval to Buy**”.
- 7 Fill in buyer details and once completed go back to Dashboard.
- 8 Complete buyer induction module (approx. 30 minutes).
- 9 AuctionsPlus will email you to let you know that your account has been approved.
- 10 Log in on sale day and connect to auction.
- 11 Bid using the two-step process – unlock the bid button and bid at that price.
- 12 If you are successful, the selling agent will contact you post sale to organise delivery and payment.

WELCOME

Dear Fellow Beef Producers,

We would like to take this opportunity to invite you to our annual Flemington Autumn Bull & Female Sale.

We are proud to offer a commercially focussed line up of Angus and Limousin bulls from strong maternal cow lines with plenty of weight for age, structural integrity, carcass and muscle shape combined with softness and doing ability. We strive to produce cattle with extra weight and doing ability, as the main profit driver for any beef production enterprise is kg/ha. Regardless of cattle market fluctuations, cattle at the top end for weight for age generally bring the premium prices.

With cattle producers being paid on weight we think it is important to take note of raw data and actual performance rather than basing selection totally on EBV criteria. This raw data shows how animals perform in their environment and how they rank among their contemporaries in their management group.

All sale bulls will have weight, carcass scan data and scrotal measurements available prior to the sale.

ANGUS LOTS

Flemington has been producing Angus bulls since 2013 with most bulls previously sold by private treaty from the paddock. This is the second year we have offered bulls for auction on-farm.

The Angus offering will feature some of the first progeny of Woodhill Patent to be offered in Australia. Other sire lines include Texas Earnan L612, who was the \$56,000 top priced bull from the 2017 Texas Bull Sale. Millah Murrah Paratrooper, Dunoon Prime Minister, Murdeduke Quarterback, GAR Inertia, Sydgen Enhance, JSRL Quick Fix Q29 (Texas Earnan L612 son), JSRL Pokerface P21 (Youngdale Xcalibur son), Byergo Black Magic, also have progeny represented in the sale. Our bulls offer some unique pedigrees on their maternal side with fully imported Canadian outcross genetics.

Please keep in mind, the young age of the bulls. Most of these bulls are around 18 months at sale time and not 2 until the spring. The younger 2022 “T” drop bulls offer the opportunity to secure a young bull and acclimatise to your environment prior to a small Autumn joining or a bigger Spring joining later in the year.

Once again, a feature of the sale is the inclusion of a specially selected group of 12 stud Angus females from DSK Angus (Dad & Helen). These females are backed by 35 years of breeding with the same proven maternal cow base as some of our sale bulls.

LIMOUSIN LOTS

The Flemington Limousin stud was established in 1994 and is one of the longest running Limousin herds in Australia.

Our Limousin bull offering are ALL POLLED with most being homozygous polled. The sale will feature progeny of our exclusive Canadian sire, Greenwood Fernando 704F, Flemington Next Level N40, Flemington Quick Level Q40 (son of Next Level N40), Morrisvale Kept Secret and Mandayen King P57.

All the Limousin females are straight from our keeper pen, the entire offering is homozygous polled and have been AI bred to the new homozygous polled, homozygous black Canadian sire, East Coast Hector.

SHOW STEER PROSPECTS

For the first time we will also offer a small line of purebred and crossbred show steer prospects that should suit a preparation for Royal shows or major steer shows later in the year.

All sale lots will have photos and video footage available on the Auctions Plus sale page or relevant breed society website.

If you would like to arrange an inspection, please contact Donna Robson 0428 599 544 or the Elders agents, Nick Gilvarry 0438 871 653, or Jenni O’Sullivan on 0428 222 080.

We invite you to enjoy our hospitality and take the sale day as an opportunity to catch up with fellow cattle breeders.

Kind regards,

Ian & Donna Robson

SALE INFORMATION

Friday, 17th March 2023 at 1pm (AEDST)

'Flemington Park',
531 Westwood Rd, Adelong NSW 2729.

INSPECTIONS

The cattle will be available for inspection from 10am on sale day. Prior inspections can be made before the sale or open day by contacting Donna Robson 0428 599 544. All sale lots will have photos and video footage available.

SALE FORMAT

The sale will be run as an **OPEN CRY AUCTION** and will be **INTERFACED** with Auctions Plus.

PHONE BIDDING

Mobile phone service will be available sale day if you require an agent or representative to bid on your behalf.

SALE REBATE

A rebate of 3% will be paid to all outside agents who attend the sale with or on behalf of their client[s] or introduce buyers in writing 24 hours before the sale and settle within seven (?) days.

BUYER'S INSTRUCTION

Written instructions for delivery must be provided upon completion of the auction. No verbal instructions will be accepted. Buyer's that require transfer of registration for animals purchased should leave Herd Ident details on the Buyer's Instruction Slip.

DELIVERY & TRANSPORT

FREE DELIVERY within 250km of Flemington.

Delivery to other areas or major centres can be made by negotiation with Ian Robson 0427 695 852.

Please note:

Flemington does not have facilities for loading trailers.

INTERSTATE PURCHASES

We will hold stock for interstate purchaser's until necessary tests and health documentation has been completed.

INSURANCE

Representatives will be available on sale day to take care of your livestock insurance needs. While all care will be taken by the vendor and the agents the purchases become the responsibility of the buyer at the fall of the hammer.

ANIMAL HEALTH

All Flemington and JSRL sale lots will be vet inspected for pregnancy status, reproductive soundness and semen tested by Holbrook Vet Centre.

DSK heifers - All heifers have been preg tested in calf or empty and soundness evaluated by Ced Wise BVSc.

All heifers have been vaccinated with 7 in 1, drenched with Eclipse Pour-On and have tested negative for Pestivirus.

Borah Station is J-Bas 6, beef only herd with no history of Bovine Johnes Disease.

Flemington is classified as J-Bas score 6.

All cattle have been tested negative to Pestivirus (BVDV). Bulls have been vaccinated with 7 in 1, Vibrio and Pestigard. Females have been vaccinated for 7 in 1 and Pestigard.

All sale lots will be vet inspected for pregnancy status and reproductive soundness.

CATERING

Complimentary morning tea, lunch and refreshments will be available on the day.

COVID-19

Please follow directions and safety signs on sale day regarding COVID-19. We are a COVID registered business and will be working within current government guidelines.

All guests will be required to sign in on arrival and adhere to social distancing rules. Please be responsible and respectful of others and their health and safety and do not attend the sale if feeling unwell.

SALE DAY SAFETY

Sale pens allow for cattle inspections without having to enter the pens. Persons enter the sale pens at their own risk and no prams or children under 15 are to enter the sale pens.

DISCLAIMER

People entering upon this property for any purpose whatsoever including attendance at cattle auctions and open days do so at their own risk.

We are not liable to you for any personal injury or death suffered by you and/or for the theft, loss of or damage to any property caused or contributed to by us or by any other person whether caused or contributed to by our or their negligence, deliberate act or unlawful conduct.

"We" or "us" or "our" refer to the owners, their employees, contractors and agents and each of them.

While all care has been taken to ensure that information in this catalogue is accurate, both the vendors, Elders and Cattlelogue Queen takes no responsibility for any mistakes and further actions taken by any party resulting from any mistake.

CONNEALY MENTOR 7374 SV
D. DSK CMT BLACKBIRD N53 #
DSK RR BLACKBIRD L61 #

A ROBUST BULL THAT OFFERS SOME REAL POWER AND PERFORMANCE THAT IS SO CORRECT.

By a home-bred sire, this bull has been one of our favourites since weaning for his natural thickness and weight for age. He expresses so much muscle shape, length, big scrotal with great weight for age.

With the maternal strength in his pedigree he should leave behind some great females and progeny with some extra thickness and weight.

A BULL WITH A VERY APPEALING DATASET, LOW BIRTHWEIGHT, GOOD GROWTH, GREAT MATERNAL WITH AN IMF FIGURE OF 4.0.

This bull had the highest IMF and the biggest EMA in his contemporary group when scanned as a yearling, a unique combination. He is one of the heaviest bulls in the sale draft, big bodied, great skin, big nuts with a strong sirey head. His dam is emerging as one of our elite females, with a really good daughter in production and another good bull calf at foot that could be one of the pick bull calves from the 2022 spring calf drop. The first Quarterback progeny will only be hitting the market this Autumn, an opportunity to secure a son.

A VERY COMPLETE BULL THAT IS SO WELL PUT TOGETHER THAT SHOULD SUIT A HEIFER JOINING.

Great strength of top line, big scrotal and really sound footed. Great carcass data, big EMA combined with positive fats and above breed average for IMF. S42 is out of a first calf heifer and was one of the top bull calves at weaning. We chose to use him over a group of stud and commercial heifers as he offered an outcross pedigree to our herd with good carcass data. S42 only came out on the 2nd January.

ONE OF THE FIRST PATENT SONS TO BE OFFERED IN AUSTRALIA.

S84 is a great natured bull who combines thickness, doing ability with length, depth and capacity. Out of one of our fully imported Blackbird donor cows, he is a maternal brother by pedigree to our stud sire, Quick Fix Q29 and Lot 11. This bull has an extremely good birth to growth spread on paper to suit a heifer joining. Used as a yearling as a back up sire over a group of our heifers last spring then reintroduced to his mates, so has had to play a bit of catch up.

His 2 full ET brothers sell as Lot 16 & 17.

T25 IS A YEARLING BULL THAT IS A STANDOUT FOR GROWTH AND PERFORMANCE.

A bigger framed bull that stands on good substance of bone with plenty of width, dimension and muscle expression.

Top 1% of the breed for Feed Efficiency, top 5% for 200, 400 day growth and carcass weight. His dam is an impressive young cow whose full brother sold for \$26,000 at the 2022 DSK Bull Sale to Hewitt Cattle Company.

AN IMPRESSIVE YOUNG YEARLING BULL THAT APPEALS FOR EXTRA LENGTH, FRAME AND NECK EXTENSION.

A placid natured bull with a strong sirey head that moves with accuracy. His dataset will offer some extra performance and EMA without sacrificing IMF. His dam was selected from the Premier dispersal whose daughters sold to \$32,500 and avg'd \$23,000. His sire Black Magic, comes from a program in the US with strong emphasis and selection on feed efficiency and feed conversion. We have used Black Magic to inject some extra length and performance with the calves being born with ease.

Check out his maternal brother, Lot 1.

THE YOUNGEST BULL IN THE DRAFT.

T43 is a really thick, big butted yearling bull with plenty of carcass.

A bull that should add some thump to his calves. Sired by Prime Minister who sold for \$140,000 in 2020.

His dam was the top priced joined heifer at the Premier dispersal.

A SUPER STYLISH YEARLING CALF THAT IS A TYPICAL EARNAN L612 SON WITH THICKNESS, DEPTH, CAPACITY AND PLENTY OF WEIGHT FOR AGE.

Great silky smooth skin and hair type and a good strong sirey head.

His dam was selected from the Anvil dispersal and has to be admired for her structural integrity, maternal ability and udder quality.

T40's maternal sister, JSRL Entice Jestress S18, was the Supreme Exhibit at the 2022 Angus Youth Roundup.

A VERY WELL PUT TOGETHER YOUNG BULL BY THE \$140,000 HIGH SELLING PRIME MINISTER.

T41 is out of one of our top Rachis females and is a maternal brother to JSRL Navman who was a class winner at the 2019 Sydney Royal Angus Feature Show. Navman had an EMA of 150 at 23 months and the biggest EMA of any bull of any breed at the show.

A low birthweight bull that should suit a heifer joining.

JSRL ENTICE JESTRESS S18
Supreme Exhibit - 2022 Angus Youth Roundup
Maternal sister to Lot 23

ESTIMATED BREEDING VALUES

An Estimated Breeding Value (EBV) is an estimate of the genetic merit of that animal for each trait measured. EBVs are provided for the following traits:

CALVING EASE DIRECT estimates the differences in the ability of a sire's calves to be born unassisted from a 2-year-old heifer.

GESTATION LENGTH ranks sires for the time between conception and the birth of a calf. Shorter gestation is indicated by negative EBVs and longer by positive EBVs.

BIRTH WEIGHT indicates the genetic potential for birth weight. Positive EBVs indicate higher birth weights and negative EBVs indicate lower birth weights of progeny.

200, 400 & 600 DAY WEIGHT give us an estimation of the animal's genetic potential for growth.

MATURE COW WEIGHT estimates differences between animals in live weights of cows at 5 years of age.

MILK a key component of fast growth to weaning is the dam's maternal performance. A bull with a high milk EBV should produce daughters which milk well.

SCROTAL SIZE indicates whether the bull will produce sons with above average or below average scrotal sizes.

CARCASE WEIGHT ranks animals for carcase weight.

EYE MUSCLE AREA ranks animals for eye muscle area measured at the 12th rib on a 300kg carcase.

RIB FAT ranks animals for rib fat depth at the 12th rib on a 300kg carcase.

RUMP FAT ranks animals for fat depth at the p8 site on the rump on a 300kg carcase.

INTRA MUSCULAR FAT ranks animals for the percentage of intramuscular fat at the 12th rib of a 300kg carcase.

DOCILITY is expressed as the increase or decrease in the percentage of progeny that will be scored as docile (score 1 or 2). Positive EBVs indicate a higher proportion of progeny that will be scored as docile and negative EBVs indicate a lower percentage of progeny being scored as docile.

ACCURACIES Accuracies are presented with each EBV and give an indication of the amount of information that has been used in the calculation of that EBV. The higher the accuracy the lower the likelihood of change in the animal's EBV as more information is analysed for that animal and its relatives.

COMPARING EBVS

The EBVs for Limousins cannot be compared with EBVs for animal of other breeds. They should be compared with the current average EBV for the Limousin breed shown below.

BREED AVERAGE EBVS FOR 2021 BORN CALVES

 RED ROCK KYLIE C342 (P, A, U)

A GREAT SON OF THE RED ROCK BLACK LYNX COW TO START THE LIMOUSIN SALE DRAFT. Black Lynx is proving to be one of the best cows in the Flemington herd; her maternal strength is shown by how she clicks with every bull she is joined to. Her progeny have topped 2 of our sales and avg'd just over \$22,000, with 3 sons doing stud duties at Provenance, Berdihold and JR Limousins. S60 offers a unique pedigree and presents himself as an outcross sire option. Admired for power, width and dimension he carries and combination of thickness with softness, depth, capacity and doing ability. S60 had the biggest EMA and highest IMF in his contemporary group when scanned as a yearling. Check out S60 as a sire option to inject a powerful maternal cow line into your herd.

A larger framed, free moving bull with a placid nature that has to be appreciated for his thickness and capacity. This bull has such a commanding presence and hard to find a Limousin sire with his performance and power. A bull that could be considered for stud duties with his phenotypic make-up and his EBV dataset. He is in the top 5% for IMF and 15% for all growth figures and milk. His dam was selected from the Birubi Dispersal Sale and his sire was the Grand Champion Bull from the 2017 Sydney Royal Feature Show. His full brother sold in 2022 sale for \$20,000 to Benjarra Limousins. Will be entered for Sydney Royal with delivery after the show. Homo-poll test pending. **SEMEN WILL BE RETAINED FOR OWN IN HERD USE. SELLING FULL POSSESSION AND SEMEN MARKETING RIGHTS.**

SHOCKWAVE S118 IS A CLASS ACT. A stylish, eye-appealing sire prospect with a strong sirey head, great muscle expression, depth and capacity. When you check out his EBV dataset, he is hard to go past on paper. Top 10% or better for more than 10 traits. His dam, is one our young donor cows that is emerging as one of our elite young cows, who leaves progeny with a lot of natural thickness and softness. Her only daughter has also been retained. S118 is the only ET calf so far from this flush and we are excited to get the rest of these embryos in. Maternal brother doing stud duties sold for \$17,000 in our 2022 sale to LAS Limousin Stud.
SEMEN WILL BE RETAINED FOR OWN IN HERD USE.

S73 is a low birthweight, easy keeping sire prospect that is so well put together with a lot of carcass shape, strength of spine with a medium maturity pattern. S73 was selected and used as a back up sire to join a group of "S" heifers last spring and came out of his joining group on the 2/01/2023. His dam has been a consistent breeder so far producing bulls that have gone into both stud and commercial operations with one son selling to Ro-Maree Limousins. His sire, Next Level has been producing so well for us, with progeny selling to \$34,000 and topping our last 2 sales. We have now used 4 Next Level sons in our stud herd.

T23 IS A REALLY SMART LOOKING YOUNG BULL WITH A LOT OF EYE APPEAL.

T23 is a stylish bull that has alot of thickness and substance. When you get over the top of this young bull and he carries alot of strength of spine with a big top and he is super impressive from behind with such a thick, square hindquarter. The extension and elevation through the neck gives him a real "look at me" appearance. His dam is a heavy milking cow and at 15 years of age is still producing here for us here at Flemington.

Maternal brother sells as Lot 32.

"Smoothy" is a homo polled black sire with power and performance to offer. Very similar in type to his maternal brother, Lot 31. S97 has a great presence and always catches your eye with his extra length of body, thickness and capacity. S97 is an ET son of Native Teerz, who is still going strong at 15 years of age which shows her maternal power and longevity. S97 is sired by Next Level N40 who was the top priced bull at the 2017 Limousin National Show and Sale and has gone on to breed practical, commercially oriented cattle with his progeny being the top sellers at our last 2 sales. Check out his maternal brother Lot 31.

A POWERHOUSE OF A BULL!
 This bull is super impressive with so much thickness and carcass, combined with depth, capacity and volume. This bull will produce progeny with grunt, muscle and performance. Check out the dataset on this bull, definitely a bull that could be considered for stud sire duties for those looking to improve maternal and carcass quality attributes without sacrificing muscle shape. S35 had some impressive raw data when scanned at 16 months with the biggest EMA and highest IMF in his Autumn born contemporary group. His dam was shown successfully and a class winner at Sydney Royal under judge, Gerald Spry. One of the first sons to be offered by King P57 who was the top-priced bull at the 2019 Mandayen Sale.

S32 IS ANOTHER KING P57 SON THAT PRESENTS WITH A LOT OF NATURAL THICKNESS AND CARCASS SHAPE.
 S32 is a moderate-framed bull that is a soft, easy doing type with a medium maturity pattern that will make him suitable for producing progeny for the domestic trade market or to suit someone who specialises in breeding show steer calves. He has a great dataset for carcass quality traits, highly positive for fat and IMF.

Maternal brother sells as Lot 30.

S36 is a larger framed bull has some extra length and stretch that should produce progeny with extra weight and performance and suit heavier markets. S36 is a free-moving bull that is sound footed and gets around so well. He should also breed some great replacement females with the maternal strength of his dam. His maternal sister, Flemington Pretty Lady P53, was the top priced cow and calf unit at our 2019 Female sale purchased by Back Creek Limousins. S36 is homozygous black, so if looking to produce a line of calves that are black, have a look at this guy.

FLEMINGTON QUICKSTEP D39 (P, A, U)

A low birthweight, heifer bull prospect with a good smooth shoulder.

A bull with a strong maternal pedigree whose dam is a heavy milking, consistent, productive breeder. His sire has bred extremely well for us, check out his paternal sisters later in the sale.

WELCOME

Firstly we must thank all the people and connections at Flemington for giving us the opportunity to participate in the 2023 sale.

The program at Flemington is always to breed cattle with a commercial focus and structural integrity with high performance and finishing ability. With the transition into the Angus program, this is still the focus.

Flemington's management aims for quality, not quantity, with a ruthless culling program of 'deliver or your gone'.

Our draft of 12 quality heifers has come from the power end of our cow families and selected with a balance of phenotype, breeding and industry focus. These heifers are from some of our top young matrons in the DSK herd, and we are only willing to part with them as we have so much life left in their mothers.

We were overwhelmed by the support and interest in last year's sale heifers and the successful sale results. It was a thrill for us and a justifying record when two of these heifers went on to win blue ribbons at Sydney and Brisbane Royal Show last year for their new owners.

The joined sale heifers have been AI'd to popular sires and backed up to Knowla Surreal S9. A Karoo Realist son with exceptional length, clean shoulders, long neck, sires head and good feet. We are keen to see his calves, and in combination with the AI sires, the progeny from these heifers should make an impact.

We wish you well with your purchases and hope that these females make as much of an impact in their new herds as their mothers and grandmothers have made in our herd.

Kind regards,

Chris Knox & Helen Alexander

CANADIAN OUTCROSS GENETICS

We have been sourcing Canadian genetics for the past 15 years.

Travelling to find suitable animals to suit our breeding criteria of maternal strength, fertility, extra frame and muscle content with the efficiency and constitution to suit our Australian conditions.

S116 will be halter broken as a show prospect and entered for Sydney if the purchaser wishes to show her. While we think this group of sale heifers are a special lot, S116 is the one that comes to the top on most inspections. A high performance female sired by our Big Tex who sired last year's 2 sale heifers that went on to win Royal Show blue ribbons for their new owners at Sydney & Brisbane and also sired our equal top priced sale bull for us. S116 shows class with loads of capacity and volume on a very correct frame. Descends from our foundation Hot Stuff line. With the breeding potential in this young female we may regret offering her but we select heifers for this sale from our very top and we wish the successful buyer all the best in having faith in a top young Angus female.

AFTER YOU TAKE TIME TO EVALUATE THIS HEIFER, YOU HAVE TO SAY "BIG TEX" HAS DONE IT AGAIN.
This big bodied, high performing heifer is the result of the cross of our two most influential sires used at DSK in Rachis and L612 (Big Tex).
This is a heifer who will produce top progeny to a variety of sires. Dam, M39 is currently raising an absolute standout of a bull calf by our homebred 2019 Brisbane Interbreed Champion sire, DSK New Age N71 who is another great Xcaliber son working well. It is hard to find Angus females these days with the performance, power and volume that S53 has. Don't miss this one because we think she is special.

S126 IS A COMPLETE AND MODERATE FEMALE SHOWING WIDTH & VOLUME THOUGHTOUT.
Our Woodhill Patent progeny continue to impress and he was used heavily in our heifer joining program to calve in 2023. Her dam, M118 is another great breeding female for us that is sired by Xcaliber who has produced some of our most productive females here at DSK. The maternal pedigree is stacked with easy calving but high performing individuals including H89 and B73 being big framed, wedgy high performance but easy keeping females.

S82 is an excellent type of female with an exciting pedigree. Great Granddam, Panda R3 was the first Angus female to win Interbreed honors at Sydney Royal in 1998. The Panda line has been a strong and consistent breeding family here at DSK since our foundation and Knowla Angus stud also have a strong and successful Panda cow family that originated from one of our founding Panda females. Dam, K17 is a full sister to Panda J25 (see Lot 52) and our highly regarded sire Kracka K21 whose daughters are exceptional breeders for us. They are all by Sitz Upward who is in nearly all good Angus performing pedigrees world wide and a proven cowmaker. Big growth figures to go with a great type of female with a reliable pedigree make S82 a great opportunity to secure a future breeder of worth.

S137 IS ANOTHER SHOW PROSPECT THAT WILL BE ENTERED FOR SYDNEY ROYAL IF THE PURCHASER WISHES TO EXHIBIT HER.
 A real eye-catching heifer with a strong spine and structural correctness. Sire by Pep who is a Big Tex son and has sired an outstanding line of sons in our 2022 bull sale including our equal top priced bull at \$30k. The Martina family started from an outstanding Merrigrange show cow and Granddam V5 was an awesome breeder sired by Hi Road who made some standout matrons for us in earlier years. S137 will develop into a high quality cow who will stand out in any herd. SERVED BY BLA21S09 2/11/22.

THERE WAS A LOT OF DISCUSSION BEFORE WE MADE THE DECISION TO INCLUDE THIS PROMISING, MOSTLY ALL CANADIAN, YOUNG HEIFER IN THIS DRAFT OF SALE FEMALES. Her dam, N84 is the only Mogck Bullseye female in Australia with Bullseye being the sire of well known Hoover No Doubt. Pollyanna 22P is the eye-catching Granddam and an elite donor dam from the Young Dale Angus herd in Canada where Xcaliber was also bred and established a super sire name for himself. With this outcross, impressive maternal pedigree and sired by Xcaliber, T33 is bound to be an elite herself and one not to be missed. Xcaliber was the maternal grandsire of our top priced bull (\$30k) and female (\$27k) sold in 2022 as well as sire of many top priced bulls in past DSK sales. Xcaliber was also the sire of the 2019 Interbreed Champion Bull at Brisbane Royal [DSK YXC New Age N71]. **SELLS UNJOINED.**

WE MAY HAVE SAVED THE BEST TILL LAST. T34 is a stylish and correct female with big capacity and volume even at this young age. A sleek, silky hair type and soft skin help with the overall wow factor this heifer exudes. Sired by Knowla Monty M186 who is producing great progeny in a wide range of herds. Dam, Panda Q2, is an impressive, big volume, Big Tex daughter out of Panda J25 who is our best Upward female and Grand daughter of Panda R3 who was the first Angus female to win the Interbreed at Sydney Royal in 1998. We see outstanding potential in this baby heifer and only for sale because we are using an outstanding Monty son as a walking sire in our herd. **SELLS UNJOINED.**

PTIC TO EAST COAST HECTOR, AI DATE 8/12/2022.

SHOW STEER PROSPECTS

For the first time, we are proud to offer a small selection of show steer prospects.

These steer calves represent the same genetic lines as our previous steer show winners.

Sires represented include Calderwood Energiser Q717, Flemington Longyard L36, Flemington Ready to Roll R20 and Flemington Ready or Not R21. Some calves are purebred Limousin calves (eligible for Sydney Royal) or crossbred infused with Charolais, Limousin and Angus (eligible for Brisbane, Melbourne, Adelaide Steer Feature Show).

The steers offered will be offered individually (dam not included) and will be weaned prior to delivery (dam excluded from sale). Due to their age, if required, the steers can stay at Flemington until 30th April 2023.

Flemington P8 Reserve Champion
Middleweight Carcase & Gold Medal Winner Sydney Royal

Class Winner 2022 Sydney Royal
Sold for \$10 per kg

Some of our major steer awards in recent years include:

- Heavyweight Champion Steer on Hoof at Upper Hunter Beef Bonanza
- Grand Champion Carcase Colin Say & Co. Beef Extravaganza (Glen Innes)
- Reserve Champion Middleweight Carcase Colin Say & Co. Beef Extravaganza (Glen Innes)
- Heavyweight Champion Steer on Hoof at Brisbane Royal
- Grand Champion Steer on Hoof at Melbourne Royal
- Reserve Champion Middleweight Carcase & Gold Medal Winner Sydney Royal
- Reserve Champion Heavyweight Steer Sydney Royal

OFFERING A CASH INCENTIVE OF \$500 TO THE SUCCESSFUL PURCHASER,
if any of these steers go on to win a Grand Champion Hoof or Hook Award
at a Royal Show or a Major Steer Show.

BRINGING YOUR NEW BULL HOME

When purchasing a bull, care and handling after the sale can be as important as the purchase itself. Looking after your bull well during the initial stages of his working life may ensure longevity and success within your breeding herd.

DELIVERY

When transporting your new bull insurance against loss in transit, accidental loss of use, or infertility, is sometimes provided by vendors. Where it is not, it is worth considering.

After purchase tips:

- When purchasing, ask which health treatments he has received.
- Treat and handle him quietly at all times - no dogs, no buzzers. Talk to him and give him time and room to make up his mind.
- With more than one bull from different origins, you must be able to separate them on the truck.
- Make sure that the truck floor is covered to prevent bulls from slipping. Sand, sawdust or a floor grid will prevent bulls from being damaged by going down in transit.
- If you can arrange it, put a few quiet cows or steers on the truck with the bull. Let them down into a yard with the bulls for a while before loading and after unloading.
- Unload and reload during the trip as little as possible. If necessary, rest with water and feed. Treat bulls kindly your impatience or nervousness is easily transmitted to an animal unfamiliar to you and unsure of his environment.

IF YOU USE A PROFESSIONAL CARRIER

- Make sure the carrier knows which bulls can be mixed together.
- Discuss with the carrier, resting procedures for long trips, expected delivery time, truck condition and quiet handling.
- Give ear tag and brand numbers to the carrier and make sure you have the carrier's phone number.
- If buying bulls from interstate, organise any necessary health tests before leaving and work out if any other requirements must be met before cattle can come into another State.

When buying bulls from far away, you may often have to fit in with other delivery arrangements to reduce cost. You should make it clear how you want your bulls handled.

ARRIVAL

When the bull or bulls arrive home, unload them at the yards into a group of house cows, steers or herd cows.

Never jump them from the back of a truck directly into a paddock—it may be the last time you see them. Bulls from different origins should be put into separate yards with other cattle for company.

Provide hay and water, then leave them alone until the next morning.

MATING NEW YOUNG BULLS

Newly purchased young bulls should not be placed with older herd bulls for multiple-sire joining. The older, dominant bull will not allow the young bulls to work, and will knock them around while keeping them away from the cows.

Use new bulls in either single-sire groups or with young bulls their own age. If a number of young bulls are to be used together, run them together for a few weeks before joining starts. They sort out their pecking order quickly and have few problems later.

When the young bulls are working, inspect them regularly and closely.

MATING OLDER WORKING BULLS

Older working bulls also need special care and attention before mating starts. They should be tested or checked every year for physical soundness, testicle tone, and serving capacity or ability.

All bulls to be used must be free-moving, active and in good condition. Working bulls may need supplementary feeding before the joining season to bring up condition.

DURING MATING

- Check bulls at least twice each week for the first 2 months. Get up close to them and watch each bull walk; check for swellings around the sheath and for lameness.
- Have a spare bull or bulls available to replace any that break down. Replace any suspect bull immediately.
- Rotate bulls in single-sire groups to make sure that any bull infertility is covered. Single-sire joining works well but it has risks. The bulls must be checked regularly and carefully, or the bulls should be rotated every one or two cycles.

Bulls are a large investment for breeding herds and they have a major effect on herd fertility. A little time and attention to make sure they are fit, free from disease and actively working is well worthwhile.
