SPECKLE PARK
ONLINE GENETICS AUCTION
23-03-23

OUR AUCTIONEERS

Ryan Morris has over 20 years experience as a Licenced Auctioneer and Stock and Station Agent. He is passionate about Stud Stock and has over 30 years experience in Breeding, Preparing, Exhibiting and Marketing Stud Stock, in particular Cattle and Equine.

It is during this time Ryan developed an affinity for the Speckle Park Breed working alongside the first importers of Speckle Park into Australia. He prides himself on a sound understanding of the pedigrees of this tremendous breed of cattle and has always been impressed with the phenotypic attributes of Speckle Park.

Ryan has been Involved in the marketing and selling of a vast number of Speckle Park in Australia to world record prices, and is pleased to be a part of the Legends Unlocked Sale, another piece of the puzzle in the success of one of the fastest growing Breeds of cattle in Australia.

WELCOME

Legends of the Future UNLOCKED brings a carefully curated selection of the best breeding from each of our participating studs. Opening the frozen genetics tank, all breeders are sharing sought after and new-to-market genetics from Australia, USA and Canada. Selections have been made under scrutiny, paying particular attention to proven female production lines, maternal, fertile producers of milk for calf raising. On the sire side, carcass and scrotal traits with excellent testicular development and feet are critical phenotype factors for breeding longevity.

Our eight consignors from Australia, USA and Canada are offering you some of the most productive and valuable Speckle Park pedigrees available in 2023. Notably, the success of Six Star Speckle Park over the last decade and particularly the last two years, selling three outstanding animals for an average of \$80,000 is testimony to the demand for sound breeding. In addition, the UNLOCKED auction includes a number of animals selected in response to phenotypic excellence. From the most prestigious Speckle Park show in the world, Canadian Western Agribition, Hidden Valley Beef's, Notta 305E Prime Time 312H, Grand Champion and Supreme Bull will be available in embryo and semen packages and BigWig's KFC Electra Cow and Calf Champions pedigrees will also be available for the first time in the Australian market.

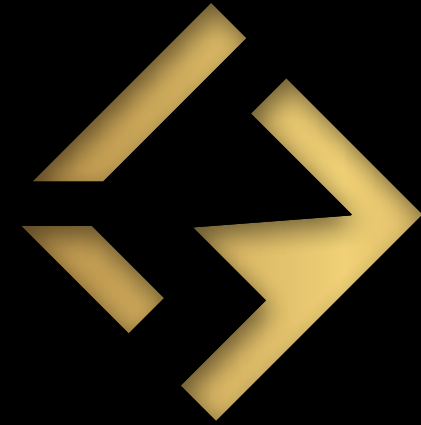

These champions are joined by a raft of Speckle Park Champions of the World including two times Champion of the World winner, Notta 1B Hawkeye 444E, silver medal bull Underhill Gotcha Splash of Black 7G and bronze medal bull and outstanding breeder owned by

Greenhaven Speckle Park - Notta Chasin' Fame. An opportunity to tap into the power pedigree of Six Star Southern Aurora 'Justice' R10, 2023 Speckle Park Champion of the World, is also here for the taking.

Some fresh genetic lines for the Australian market have also been catalogued. Many with proven pedigrees and impressive progeny in Canada, they will be high quality additions to Australian breeding programs. INC Talladega 11J straws and embryos, newly released straws from Six Star Founding Fame (the calf of Notta Chasin' Fame) and the renowned cow Double L Karmen 16 embryos are just some of the highlights. In addition, we have BigWig's Spartacus who includes bloodlines from Double Interbreed Champion, Merom R27, right back to Notta Pho-Finish 54P, the highest-ranking milk producer in the breed and Six Star Royal Flesh 101Y one of the biggest carcass producers together with Extreme E27 that needs no introduction.

Good breeding reduces the need for culling, and investing wisely up front will always improve and accelerate a stud cattle program. The dams and sires on offer here are very competitive with solid, proven performance bloodlines and outstanding phenotypes. We have not compromised on what we are presenting to you in our inaugural UNLOCKED online genetics auction. We are sharing our best. We hope you appreciate and utilize these pedigrees and unique offerings and we look forward to reaping the benefits flowing from the influence of these lines in your future programs.

The Team
LEGENDS UNLOCKED

THE OFFERING:

21 Embryo Packages

52 Semen Packages

THE LOCATION:

ONLINE only at AuctionsPlus

THE AUCTION:

THURSDAY 23 March 2023

Commencing 6:30pm aedt

5:30pm QLD time

ONLINE AUCTION

ONLINE BIDDING

The auction will be conducted online and only online bidding will be possible. In order to purchase any of the lots on offer, online bidders must be registered. You would need to register through AuctionsPlus as per their guidelines on page 3.

Please note all new registered AuctionsPlus buyers are required to complete Buyer Induction Training prior to bidding. AuctionsPlus recommends that all intending bidders have completed their registration and training 24 hours prior to auction.

Once registered you will be able to bid from your computer, phone or tablet.

Bidding opens at 6:30pm aedt 23 March 2023, 5.30pm QLD time.

PAYMENT TERMS

- I. All lots are sold per each – the price is on a per embryo / per straw basis.
- II. All lots are sold exclusive of GST. The purchase price will be the total of the successful bid price PLUS GST.
- III. All lots are at the risk and expense of the purchaser on the fall of the hammer. It is important that the purchaser consider the need to take out insurance cover in respect of his/her purchased lot/s.

- IV. Invoices will be sent after the sale by our selling agents. Payment arrangements can be discussed with the selling agents. Payment on invoices must be made within 7 days of the invoice by way of cleared funds transfer. Title to the purchased lot will pass to the purchaser upon receipt of payment of the invoice for that lot.

EMBRYOS AND SEMEN STRAWS

- I. Embryos and Semen lots are qualified for Australia only.
- II. Buyers to please note that some embryos are frozen IVF embryos produced by IGT Australia.
- III. Storage of sale lots are shown on each lot.
- IV. For international sales contact vendors directly.
- V. Shipping costs and insurance will be the responsibility of the purchaser from the fall of the hammer.
- VI. Delivery of purchased lots will be by arrangement with each vendor

CONTACT DETAILS

- I. AUCTION: Martin Luitingh
Phone: 0404 077 097
Email: splegendssale.com
- II. GENETICS: Individual vendors.

DISCLAIMER

All reasonable care has been taken by the vendors to ensure that the information provided in this catalogue is correct at the time of publication. However, neither the vendors nor the selling agents make any other representations about the accuracy, reliability or completeness of any information provided in this catalogue and do not assume any responsibility for the use or interpretation of the information included in this catalogue and give no guarantee whatsoever as to its accuracy. It is the purchaser's responsibility to seek independent verification of any information contained in this catalogue.

Any commentary or assistance provided by the vendors is to be considered as a guide only. It is the purchasers' responsibility to satisfy themselves as to the suitability of the relevant lot for their intended use.

SPI:

All participating vendors are members of SPI. The Speckle Park genetics offered are from registered, parent verified and DNA tested animals according to SPI regulations.

How to Register and Bid on AuctionsPlus

1

Go to www.auctionsplus.com.au to register at least 48 hours before the sale.

2

Select “**Sign Up**” in the top right hand corner.

3

Fill out your name, mobile number, email address and create a password.

4

Go to your emails and confirm the account.

5

Return to AuctionsPlus and log in.

6

Select “**Dashboard**” and then select “**Request Approval to Buy**”.

7

Fill in buyer details and once completed go back to Dashboard.

8

Complete buyer induction module (approx. 30 minutes).

9

AuctionsPlus will email you to let you know that your account has been approved.

10

Log in on sale day and connect to auction.

11

Bid using the two-step process – unlock the bid button and bid at that price.

12

If you are successful, the selling agent will contact you post sale to organise delivery and payment.

For more information please contact us on: Phone: (02) 9262 4222 Email: info@auctionsplus.com.au

TECHNICAL INFORMATION

Not all Breeders breed with specific data. On the contrary some of the commercial buyers that we have engaged with have thousands of animals and they judge them by phenotype. Dyed in the wool breeders that will look at an animal for 10 minutes and make a decision about whether or not that animal will be a good breeder for the thousands of cows that they have. Others have a scientific approach, they get to the top by testing, evaluating and re-evaluating. We recognise that there is merit in both approaches. We include in our catalogue information that may principally be important to some breeders but not to others. By way of example we include for instance the animal ID so that the animal can be researched on SPI. A brief three generation pedigree, as most of the breeders are familiar with pedigrees in any event. The Myostatin, leptin, red gene, and coat data- all of which can be sourced on SPI. It is our intention to show you the animal and not to clutter the pages with data that breeders in any event have got access to or should be familiar with. We want to show you the animal - the phenotype and produce data in relation to progeny.

In November we experienced difficulties with Transova in Canada and USA. Despite undertakings the lead times were much longer than was promised. Please note that

to accommodate possible delays, we will only have the overseas genetics here by end of June. Some of the animals are new to the Australian market and we guarantee that all animals will be registered in Australia and registered as donors. Notably at this time we are busy with the registration of the Underhill Animals and the INC Cattle Company animals all of who have been parent verified.

DNA testing codes:

Horn Test: PcPc - Homozygous polled. Animal carries no horn gene
HPc - Heterozygous polled. Animal carries one copy of the horn gene.

Red Gene : RGF - Red Gene FREE
RGC - Red Gene CARRIER

Myostatin: NT821F - FREE
NT821C - CARRIER

Leptin: CC: both DNA strands have a C allele
CT: one DNA strand has a C allele and the other a T allele
TT: both DNA strands have a T allele

DNA testing codes are provided for the semen lots.

EMBRYOS

2 X EMBRYOS / LOT

INC TALLADEGA 11J

A bull like Talladega 11J comes around once in a lifetime. One of the best to come out of the INC program, he was Champion Speckle Park in the Jackpot Bull show, Champion Bull Calf & Grand Champion Bull at the 2021 Manitoba AgEx as well as Legends of the Fall Speckle Park Champion & Bull calf Champion at 2021 FarmFair. In 2022 he won Champion Junior bull at Agribition and made the Supreme. A wide topped, deep ribbed bull with a high end frame score and excellent scrotal composition. He is joined with Double L Karmen 16. Karmen delivers on carcass, scrotal circumference, udders and milk and is an impressive maternal female. So far she has delivered 3 calves. The first one was sold at the Autumn Alliance Sale for \$60,000; the second one was sold out of the paddock for \$90,000. This has to be a record for calf production. The potential of this joining is exceptional and this embryo offering out of the Six Star tank should be your focus for your next breeding program. A Grade planned embryos available in Australia in June 2023. Payment terms: 20% refundable deposit payable at time of purchase. Balance payable at time of import.

An outstanding joining here. Don't miss this superb opportunity ! 'Justice' R10 is phenomal with a pedigree full of proven, highly regarded, high performance bloodlines. He has impeccable structure, raw data and a huge scrotal circumference of 44 cm. The power of the 2022 Speckle Park Champion of the World 'Justice' R10, combined with the deep sided, soft maternal lines of the Battalion Heartbreaker line of females can only result in legendary progeny. S21, a daughter of the highly productive Battalion Heartbreaker M1 who had produced many champions herself, broken many records and had been one of the most sought after female lines ever bred in Australia, is the donor dam. S21, is displaying signs of her dam's phenomenal fertility by producing an impressive 11 A GRADE embryos and a whopping 15 embryos subsequently, whilst a maiden heifer ! All this adds up to a maternal easy temperament female with excellent udder structure and conformation. Adding the yield and scrotal scores of Justice should produce a show stopping calf with balance and milk. An impressive progeny and opportunity to buy into two highly coveted lines. Our guarantee: 1 pregnancy if implanted by an approved technician and testing at 8 weeks. Take your program to the next level. A Grade embryos stored at United Cattle Breeders, Deuchar, Queensland.

Karmen is one of the Speckle Park breed foundation dams, with high eye muscle ranking, in the top 10% for solid mature cow weights and top 20% for carcass and IMF. Joined with Notta Chasin Fame 327G, sired by Hawkeye, the resultant progeny should produce high carcass yields, excellent structure and scrotal circumference. Her granddaughter, LWD N11, produced the outstanding calf Six Star Found the Fame, who recently sold by private treaty for \$90,000. Both sire and dam are myostatin free and red gene free. A Grade Embryos, stored at Eastern Artificial Breeders.

Here is a first chance opportunity to tap into a powerful Canadian embryo combination - a first release for Australia. Kismet, a Colgan's General daughter, is joined with Wolf Lake Field Ready. Field Ready is a proven champion Canadian bull, laying down impressive progeny in Canada and Australia. A white bull, he ranks in the top 1% for milk with an exceptional score of 9 and is a myostatin non carrier, red gene free sire. With Notta Pho Finish 54P on the sire side and General on the dam side, the resulting progeny should offer impressive carcass, scrotal circumference and milk. A Grade IVF Frozen planned embryos, available in Australia in June 2023. Payment terms: 20% refundable deposit payable at time of purchase. Balance payable at time of import.

A very special opportunity to produce what could be the next world champion Speckle Park. This is the first release of this combination and offers exclusive access to one of the best Canadian bulls bred in the last decade. An exceptional bull, Notta Prime Time 312H was Agribition 2022 Grand Champion and a top ten Supreme bull. He is loaded with excellent qualities. A 46cm scrotal circumference, easy fleshing, outstanding temperament and incredible ease of movement as a 1 tonne 2 year old. His Dam, Notta Photo Finish 12A adds milk and mature cow weights in the top 5% for the breed. With sire Notta Hot Topic 305E, Prime Time delivers on carcass, phenomenal structure with a wide flat top, depth of rib and perfect feet. This embryo combination is a blue blood joining with Notta Kat 202E, an outstanding female in her own right and a broody, perfectly structured udder, daughter of Kat 7A. She brings more milk, large scrotal circumference, fertility and maternal softness to the progeny from this embryo. A very special joining and one not to be repeated. Dont miss your opportunity to tap into these impressive blue blood genetics. A Grade embryos, stored at Holbrook Breeders.

80B is a top notch, deep sided cow with length and a perfect udder along with great feet and structure. She continuously, consistently produces quality calves. When Dalton Payne of Greenwood Speckle Park toured our herd he picked her out as the cow he had to have. Crossing this dynamic female with Farr-Out adds milk and moderate framed, well structured progeny with impressive scrotal and udder composition. This combination is sure to turn into a herd sire or your next donor dam. Both sire and dam are homo polled, red gene free and myostatin non carriers. Another excellent joining here. 'Justice' R10 is phenomenal with a pedigree full of proven, highly regarded, high performance bloodlines. He has impeccable structure, raw data and a huge scrotal circumference of 44 cm. The power of the 2022 Speckle Park Champion of the World 'Justice' R10, this time bred to Bluespark Starlight P01 (BSP P01), who was the top selling lot at \$51,000 at the Bluespark dispersal sale held in 2021 alongside the "Speckles in The Capital" sale, will produce highly sought-after progeny. This outstanding female is an SPKNZ Extreme E27 daughter who impresses with her overall larger frame and extra length. She has excellent structure and a neat udder. Her pedigree goes back to 64L who was notably the first cow in Canada to be flushed in the history of the breed. Starlight has other proven legends in her star studded pedigree including Lacerta, John Wayne and Codiak Nice Lady. Combined with the sought after attributes of Justice, these calves are set to become stars in their own right! Astute breeders will recognise the potential in this exciting joining. Our guarantee: 1 pregnancy if implanted by an approved technician and testing at 8 weeks. Take your program to the next level. A Grade embryos stored at United Cattle Breeders, Deuchar, Queensland.

Your opportunity to buy into the world record priced sire and 2022 Champion of the World, 'Justice' R10 is here! Also a son of Grand Champion and 2 x Champion of the World, Notta 1B Hawkeye 444E, 'Justice' R10 needs little introduction. Justice's sire power delivers carcass yield, mature cow weights, scrotal circumference and overall structure. An outstanding beef bull, well regarded by stud and commercial cattlemen. This joining, with PSiloveU BGW P4 brings together two homo polled, red gene free and myostatin free parents. P4 ranks in the top 10% for milk and adds mature carcass yields to the resulting progeny. An excellent joining for a low birth weight, high yielding calf of impressive phenotype. A Grade planned IVF frozen embryos (IGT Australia), guaranteed 50% success rate by an approved embryologist. Payment terms 20% refundable deposit at time of purchase. Balance payable in June 2023.

This is an embryo combination never before released in Australia. Canadian calves exhibit depth of rib, high scrotal circumference and excellent phenotype; particularly through the shoulder, hip and feet. Sired by Notta 110B Hot Topic, sire of Agribition 2022 Grand Champion and Supreme bull, Notta Prime Time 312H. Notta Hot Topic delivers with bloodlines back to Theta 42T (top 10% milk) and Bart 110B. This joining with Notta Cadence 213C, a beautifully structured, clean underline Royal Flesh daughter, packs an extra punch with added carcass yield and scrotal circumference expected. Notta Cadence 213C was Agribition Grand Champion Female 2016. This combination could be your next power packed show champion. A rare opportunity to secure an exclusive Canadian combination. Both sire and dam are red gene free, homo polled. A Grade embryos stored at Holbrook Breeders.

Monique N103 is a unique combination of high carcass and top milk scores, running through her Codiak breeding lines. She is a daughter of Codiak Putnam 61Y who ranked in the top 1% for milk and produces excellent udders and scrotal structure. Joined here with Notta Cause A Scene 307E, a sire out of Notta 300X Theta 11A offering royal bloodlines including Notta Theta 42T, Stands Alone and Royal Flesh. A stand out sire for carcass structure, temperament and milk, with Theta 42T and Stands Alone in his grandsire line. These embryos offer an opportunity to produce impressive, high yield calves with excellent temperament without compromising maternal traits and milk. Both sire and dam are myostatin free, red gene free and homo polled. A Grade embryos stored at Eastern Artificial Breeders.

Electric 31E, a winner in the ring from a young calf, offers high yield, with eye muscle values in the top 15% for the breed. He is a well structured, second generation Lacerta 68L bull and beef bull with a focus on carcass average milk. Joined to 21U here, a cow continuously picked out as a favourite by cattlemen. She produces quality calves time and time again while being the fleshiest cow in the herd. She is as wide as a table and deep made. She's a smooth moving cow who just raised a phenomenal heifer calf as a 14 year old. If you want easy keeping, fertility, longevity and phenotypically sound cattle her genetics are a must have. While 31E is hetero polled, red gene carrier and myostatin non carrier, 21 U is homo polled, homo black and myostatin non carrier. A grade embryos are stored in Canada and will be shipped on purchase at no further cost.

SIX STAR ROYAL COMMAND

SIRE: MAUNGAHINA LEGACY

DAM: SIX STAR G70 BAMBE L2

SPKNZ SPN H20

MT RANKIN BAMBE G10

An excellent all round performing sire here. A son of Maungahina Legacy and out of Six Star Bambe, this sire ranks in the top 10% for milk, carcass weight and top 5% for scrotal size. A bull that should provide progeny for good market yield with fertile and maternal cattle with good milk. A solid choice for any herd. Red Gene free, myostatin non carrier. Straws stored at Beef Breeding Services at Wacol in Brisbane.

Electric 31E is a top end herd bull of many accolades from a young age at FarmFair and Agribition. A leopard bull, he is thick made, with tons of length and depth. His foot and leg structure are excellent and his calves have shown the same width and depth he possesses along with early maturity, larger scrotal measures and are easy fleshing. His 205d weight is 398 kg (895lbs). His mature weight is 1089 kg (2450lbs). His dam, the great Lightning Lady 31X cow, won Grand Champion Female at Agribition in 2017 with him on her side. He's a bull that can be used in a lot of ways to strengthen any herd. His daughters have great udders and milk well. He is a red gene carrier, myostatin free and hetero-polled. Aus qualified straws stored at Holbrook.

Thank You

Our first sale of live animals and genetics in November 2022 was well supported with over seventy buyers from across Australia. The majority of interest was in the genetic lots and a great number of buyers continued to inquire on those pedigrees for semen and embryos. Hence, we decided to offer a selection of those in-demand lines in addition to new sires and dams, from proven pedigrees. Our aim has always been to offer high end breed lines with animals bred for longevity, fertility and performance which will accelerate the performance of our clients' herds and improve their bottom line.

We hope that you have enjoyed our offering in our first frozen genetics sale. We are grateful for the continued support we have received and positive feedback from clients and fellow breeders, which encouraged our decision to sell again within such a tight time frame. Thank you to Martin Luitingh for once again having the enthusiasm and foresight to initiate another sale. To all our consignors, we are grateful for your commitment to the sale and for digging deep in the tank to bring some of your very best genetics to the market. Thank you to Rhonda from Commercial Printers, Marilu Luitingh and Annie, who delivered an all-out effort in a short time frame to create a professional catalogue we are very proud of. Thank you to Roz Alexander, for hours of content creation and marketing direction. Finally, last but certainly not least, a successful sale would never happen without a professional auction team. Thanks must go to the team at AuctionsPlus and agent Scott Myers from H Francis & Co. who have worked quickly and professionally in conjunction with auctioneer Ryan Morris and Struan Pearce. It's been a pleasure to be supported by you all and to know that the UNLOCKED genetics sale was managed and run in the most professional manner. Thank you.
