Wallangra Angus

JACK & JOYCE CROSS, well known graziers in the district and throughout Queensland were fortunate to draw a property in a Government ballot, and took ownership on 20th September 1956. **66 years ago**. The block was virgin scrub with no fences and had no natural surface water.

They named the property Wallangra - 2586ha (6390acres) Brigalow country - 631 Golden's Road, Wandoan Old.

Hard work was no obstacle to both of them. Roads, boundary & internal fencing, stock dams & turkey nests, sheep & cattle yards, clearing the property & planting improve pastures went on over the years as their income would allow. They rented a house nearby before building their own home.

From sheep (wool and fat lambs) to Hereford cattle and soon after they decided to give the Angus breed a go.

Over the following years they travelled around to purchase the right base herd, covering eastern Australia, New Zealand and Tasmania and bought the best Angus they could find & afford.

They could see the benefit in breeding Angus cattle and with the cattle they purchased, it was not a hard decision to start a registered Angus stud which they did under the name of Wallangra Pastoral Co in **1961**.

Work began and never stopped for Jack until the day he passed - Christmas day 1980, 2 months before reaching his 75th birthday. 24 years was not long enough to enjoy the fruits of his hard work at Wallangra.

Joyce received a lifetime membership award of 50 years, from the Angus

Society in 2011. The stud has been operating for **62 years**.

When asked about how they selected a good beast Joyce would reply "I pick a beast from the eye not from what is written in a catalogue".

On 3rd December 1983 she married Desmond Hodgkinson from Clermont in nth Qld who became her companion for the next 23 years. In that time they completely went out of the sheep and concentrated on the Angus cattle. Joyce found herself alone again after Des passed away in 2007. Joyce managed to keep the property going and the stud alive with the help of workers for the next 9 years. Joyce passed away in 2017 at 90 years of age.

Unfortunately Joyce & Jack were not blessed with having their own children. Joyces family consisted of a brother, Athol Smith who had 5 daughters, and a step brother who did not marry. She was very close to Athol who visited Wallangra regularly for shearing, fencing & any work that was required.

Over the years Jack and Joyce developed a good reputation with their bulls selling them annually on farm - to many repeat buyers.

It has been our goal to make an annual bull sale on the property, giving everyone the opportunity to buy a bull or heifer they really like.

Every year Wallangra has been known to have topped the sale with their weaner heifers & steers at Oakey (previously) and now Dalby saleyards. A credit to the stud.

We had our first annual Bull & Heifer sale in March 2022 which was a great success. Many thanks to Nutrien Ag Wandoan, Joe Keppel, and Dane Pearce & Colby Ede for their advice, help & auctioneering skills. (I hear Dane auctioned and achieved \$300,000 for a stallion at Tamworth Stock Horse sale this year. Well done.)

I would like to thank my son Troy Whip who has managed Wallangra for the last 6 years with much help from his fiancee Janette & son Jack, also my daughter Juanita for her help.

Our line of Bulls this year is quiet even and typical of the Wallangra breed. We are working towards bringing in new bloodlines each year to enhance the stud.

Our heifers this year are a pleasure to offer. It was my decision not to feed the heifers last year as I felt a buyer would just put them in a paddock and the big change in diet so close to calving would not be of benefit. But they were not presented as well as they should have. For this sale they are better quality and in better condition, thanks to a good season and also some supplementary feeding for 2 months. They will be grass fed only for the 2 months prior to sale.

Many thanks to those that assist in making this sale a success, my family, including my sister Kaye, workers, agents, buyers travelling to the property for the sale, and buyers that bid on Auction plus. Sadly my husband, John, passed away in August 2022 and will not be part of this year's labour of love and rewards. We are all very proud to be part of the dream my Aunt & Uncle started 62 years ago.

Margaret Whip

The auctioneer, agent, buyer and vendor shall be wholly responsible for the acts and omissions of their respective servants, contractors and agents. The term "auctioneer" includes, so far as the law and context permits, the vendor's agent.
 - (b) When used in these terms the expressions "companion animals" means all animals originating from the same property on a particular day. Where lots are split and sent to multiple establishments, then all of these animals shall be regarded as companions.
- The following applies in interpreting these terms and conditions:
 - (a) The following words have the following meanings: Fees means all levies, charges, fees, costs and other expenses incurred or relating to these terms and conditions and the sale and purchase of livestock including, without limitation, transaction levies, yard and weigh dues, cartage, advertising and rebates, and whether paid for, or incurred, by the agent;

CHAPTER TWO -STANDARD TERMS OF SALE

- Subject to any reserve price, and to the right, prior to the fall of the hammer, of the vendor to withdraw any lot without declaring the reserve, the highest bidder shall be the buyer.
- The auctioneer has the right to bid on behalf of the vendor provided that right is notified prior to the commencement of the sale and is subject to State law.
- A bid cannot be made or accepted after the fall of the hammer unless, in accordance with clause 8, the auctioneer decides to put the lot up again.
- Prior to the fall of the hammer the auctioneer shall announce the last bid and receive any further bids. The last price called by the auctioneer at the fall of the hammer shall be the amount at which the lot has been sold.
- In the event of a disputed bid, the auctioneer is the sole arbitrator of the successful bidder or the auctioneer may decide to put the lot up again. The auctioneer's decision is final.
- The auctioneer may refuse to accept any bid which, in the auctioneer's opinion, is not in the best interest of the vendor and need not give reasons for doing so.
- A bidder shall be deemed to be a principal unless, prior to bidding, the bidder has given to the auctioneer a copy of written authority to bid for or on behalf of another person.
- 11. The successful bidder at a livestock auction sale must give to the auctioneer at the fall of the hammer:
 - (a) the purchaser's name; or
 - (b) the bid card number which identifies the purchaser; or

If a buyer does not comply with any of these terms and conditions, which includes the requirements of State law, any livestock knocked down to that buyer may be re-sold by public auction or private contract in whatever lots and manner the auctioneer decides. The re-sale may be with or without notice and shall be at the buyer's risk. The buyer is responsible for all loss and expense arising out of a re-sale and is not entitled to any resulting profit.
- 15. The buyer of livestock must pay the agent the full amount of the purchase price in immediate funds on receipt of a tax invoice. Payment is required prior to delivery unless some other time for payment is specified in an agreement between the buyer and the auctioneer that was made before the fall of the hammer. If, before delivery, payment has not been made then clauses 20 to 23 apply.
- No person may bid unless, prior to the commencement of the sale, that person has made arrangements satisfactory

to the auctioneer for payment for livestock purchased. If bids in breach of this condition are inadvertently accepted, delivery shall not be given until the purchase money is paid and any law, rule or practice to the contrary is accordingly negatived as far as possible.

- (b) In the event that the buyer pays the Price or part of it direct to the vendor then the agent has no liability to the vendor for the amount of such payment. Further, if the agent pays the vendor any amount which the buyer also pays direct to the vendor in respect of the same livestock, then the vendor must repay the agent that amount and the agent may debit that amount to an account held in the name of the vendor by the agent.
- (c) Regardless of whether or not a sale has occurred the agent may, but is not under obligation so to do, instead of deducting payments owed to it by the vendor, debit the amount of the commission and fees to an account held in the name of the vendor by the agent
- 25. (a) The auctioneer has been retained by the vendor as auctioneer for the purpose of selling the livestock comprised in the lots. The terms of engagement between the auctioneer and the vendor do not extend to the provision of advice by the auctioneer to the vendor in relation to the safety or otherwise of the sale ring, the saleyards and the surrounding environments.
 - (b) The vendor, the agent and the buyer agree to comply with their several duties under the Australian Animal Welfare Standards and Guidelines for the Land Transport of Livestock and further to consign, manage, receive, transport and handle livestock in accordance with any other or additional requirements of animal welfare legislation specific to the jurisdiction in which livestock are consigned, managed, received, transported and handled in the course of the auction process.

CHAPTER THREE – VENDOR WARRANTY FOR CORRECT PRESENTATION AND DECLARATION

- 26. This chapter applies only in the case of livestock and their companion animals sold at auction for slaughter when the buyer is the slaughterer and the livestock are transported direct from the sale yard to the meatworks at which they are slaughtered. This chapter does not apply if the buyer is a trader who subsequently resells the livestock to a slaughterer. A slaughterer is any person who pays the AMPC Processor levy.
- 27. The warranty of a vendor is that livestock and their companion animals offered for sale at auction:
 - (a) pass government and other regulatory authority requirements and inspections at the time of slaughter;.
 - (b) are of merchantable quality;
 - (c) carry an NLIS device in accordance with State law;
 - (d) in the case where a representation has been made in the pre-sale catalogue that the livestock have particular characteristics or are fit for a particular purpose or market, and such representations are based on information in any document, the livestock will have those characteristics or will be fit for the particular purpose or market; and
 - (e) all information in any document provided by the vendor is true, complete and correct in all material respects.
 - 28. In the event of a breach by the vendor of the vendor's warranty and provided such breach is notified by the buyer to the agent by 5:00pm on the 7th day after the fall of the hammer then the buyer is not liable to pay the portion of the Price of such of the vendor's livestock to which the breach applies.

- However if the breach by the vendor is such that the livestock are not rejected outright but are instead downgraded then the buyer will pay the value of the livestock at their next highest and best use.
- 30. In the case of a breach by the vendor of the vendor's warranty then the vendor will also be liable to the buyer for any further losses which the buyer might establish but the buyer will take all reasonable steps in co-operation with the agent and vendor to mitigate both the effect of the breach and the amount of any loss.
- Where a sentinel animal of a lot tests positive for chemical residue, or foreign material contamination and provided such test is certified and notified as required by these vendor warranty terms, then:
 - (a) the buyer will be entitled to delay payment for the price of all livestock in that lot only; or
 - (b) the vendor has the option, at the vendor's cost, of collecting the companion animals, if allowed by law; or of having the livestock slaughtered in which event the risk of further condemnations will be that of the vendor. Where product integrity is potentially jeopardised, the Processor has the right to refuse slaughter and send the livestock back to the consigning property at the vendor's cost.
- 32. The auctioneer is liable to the buyer in respect of any breach of the vendor's warranty arising out of:
 - (a) any error, by the auctioneer, of transcription of information from the NVD completed by the vendor to the pre-sale catalogue or the buyers post-sale summary;
 - (b) any failure by the auctioneer to notify the buyer, prior to bidding, of any breach by the vendor of the warranty of the vendor if the buyer establishes that the agent knew of such breach prior to the sale; and
 - (c) any failure by the auctioneer to announce prior to bidding, or disclose in the pre-sale catalogue, that the vendor has failed to provide a NVD that is complete in all material aspects.

CHAPTER FOUR - OWNERS RISK FOR CONDITION OF CATTLE

- 33. This chapter applies only in the case of cattle and their companion animals sold at auction for slaughter when the buyer is the slaughterer and the cattle are transported direct from the sale yard to the meatworks at which they are slaughtered. This chapter does not apply if the buyer is a trader who subsequently resells cattle to a slaughterer. A slaughterer is any person who pays the AMPC Processor levy.
- 34. Owners risk reflects the producer's responsibility to provide slaughter cattle for sale that are fit for human consumption. Cattle are fit for human consumption if they are not condemned as unfit by government. Owners risk applies if the condemnation is due to a condition in the animal which the buyer establishes, by the relevant government certificate, existed prior to the fall of the hammer.
- 35. A buyer with the benefit of owners risk protection is not liable to pay the Price of that animal to the vendor. The buyer remains nevertheless liable for all costs incurred after the fall of the hammer in transport, slaughter, testing and disposal of the animal.
- Owners risk protection is available to the buyer of cattle to which this chapter applies if all of the following are satisfied:

- (a) a certificate is issued by government which states the relevant NLIS RFID tag number and PIC, the date of the certificate, the reason for condemnation and that the reason for condemnation existed prior to the fall of the hammer;
- (b) the certificate is received by the selling agent either in its original form or by fax or electronic communication in the form of data, text or imaging by 5:00pm on the 7th day after the fall of the hammer; and
- (c) if the condemnation is due to chemical residue the certificate follows testing in a government approved laboratory which establishes maximum residue limits in excess of the Australian limit.
- Owners risk does not apply, and the buyer must pay for the cattle, if the reason for condemnation is any of bruising, fever, partial condemnation or emaciation.
