Breeding Philosophy

At Baarrooka, we breed high quality suris with a focus on fleece improvement through scientific measurement. Our aim is to be pioneers of a viable commercial suri fleece industry in Australia.

We have a white commercial herd of around 500 animals and a coloured stud herd of a similar size. We have stud males and breeding females in all colours. In our 21 years in alpacas, we have used the very best quality genetics available from around the world.

We recognise the importance of micron and consistency of micron in alpaca breeding and have been lucky to purchase a male such as Durango that has maintained a low micron and does not have high primary fibres in the brisket and belly. A male that has passed on these traits to both our commercial and coloured herds.

However, our breeding focus for the past 15 years has been on increasing **density**. Density is less heritable than micron and standard deviation, so it is more difficult to improve and set within a herd. We are pleased to have doubled our average fleece weights and believe we, as an industry, need to aim for 4kg saddle/prime fibre for alpacas to be a viable fibre industry. So density continues to be our #1 trait while we select for consistency (SD and CEM) as our secondary trait. We know we can lower the micron in as little as one generation, so that objective is less important at this stage.

Over the past 4 years, we have been dispersing our grey, appaloosa/fancy, fawn and brown lines, to concentrate on white and black suris, while maintaining the best of the colours to inject superior fleece characteristics into our black herd. Many of the coloured females offered have produced a black female or potential stud for us to continue on with.

Baarrooka has been recognised through showing at National and International level for the elite quality of our fleeces and have been dominating Best Black Suri at the Colourbration and National Shows for many years. Despite export routes currently being closed, we have a significant number of overseas-owned elite Baarrooka suris being agisted.

We are proud to offer females of the quality of those in this auction. We believe that sharing our genetic gain with other breeders will benefit the industry as a whole and continue to improve coloured suris in Australia.

Tularosa is breeding silver grey and black suri. Our mission is to produce robust alpacas with plenty of soft handling suri fleece, with the kind of feel you can't wait to wear. Over 15 plus years, the density, the quality and the predictability of the herd progeny have all steadily progressed. In the beginning, our herd even included first crosses and blue-eyed whites. This was necessary to get progeny with grey fleece and good fleece density. From this basis, with selective breeding and the impact of suri males imported from USA, we have crafted the quality herd we have today. Density, lustre and handle are the dominant characteristics we breed for, and continuing generational improvement is our enduring aim.

The alpacas offered for sale are from recognised lines, have been shown successfully or have had progeny shown successfully. Several are tried and true breeders, some are maidens from easy birthing lines, with a mating to a well-awarded male. One of our proven black stud males is also offered. Some lots have a reserve price, many do not.

Where available, we have included in the catalogue the last 2 years of fleece data for most alpacas (2021, 2022) as well as the first

The fleece data included in the catalogue is the first fleece and the last two fleeces for each animal. It should be noted that 3 years of La Niña conditions have had a significant impact on both micron and SD (and a corresponding negative impact on density and CEM scores). We have found from past experience that once conditions return to normal, the measurements return to more moderate numbers.

In addition to micron and SD, we have reported CEM - coarse edge micron which gives an indication of how far from the mean micron the broadest 5% of fibres begin. We aim for 10 micron or less.

The FDI is a fibre density indicator which is a mathematical formula that takes into consideration micron, SD, length and weight of saddle to provide a score that can be compared across the herd, regardless of micron. Density reduces as an animal ages so animals should be compared in age cohorts. The numbers generally relate to our description of density (allowing plenty of room for improvement) as below:

Fibre Density Indicator (FDI)

0-5	Low
5-10	Average
10-15	High
15-20	Very High
20+	Extreme

Within the Baarrooka herd, the highest scores in whites and fawns have been around 20 (with most being around 10-15) and in blacks around 16 (with most being around 9-12).

If you would like any additional information about the suris on offer, please contact Julie on 0407 889 669 or jwilkinson@baarrooka.com.au.

BAARROOKA

fleece data. Bear in mind that with the lush growth from unusually wet climate conditions in the Strathbogie area in 2021 and more so in 2022, the fleeces for these years were higher in both micron and standard deviation across the herd. The numbers are not truly representative of the fleece production capability of these suris.

We hope you enjoy the auction sale, and find an alpaca or two to complement your breeding program. Don't hesitate to contact Tularosa with any questions about the alpacas in the catalogue at tularosa@fastmail.com.au

Coloured Suri
Silver Suri

Buyer Information

Date of Sale: Saturday 13 May, 2023

Time: Auction will commence at 2.00pm via online auction site AuctionsPlus.

Inspection of Stock: Inspection of sale animals is by appointment. Baarrooka and Tularosa are within 20 minutes drive of each other in Strathbogie, so viewing animals at both studs will be easy. Contact the studs for directions: Baarrooka 0407889669; Tularosa 0408 533 654.

Breeding Status: All matings are offered in good faith and pregnancy status, where listed as 'Mated', is not confirmed unless specified in on-line lot description. Remates on females who are subsequently not pregnant or do not deliver a live cria is by arrangement with vendors. Empty females can be mated by arrangement and additional mating fees will apply.

Buyer Registration: Prospective buyers must register with AuctionsPlus 48 hours prior to auction.

Transport: Transport is the responsibility of the buyer. Stock can be left for up to 14 days, after which agistment will be charged. Other arrangements, such as matings, should be made with the vendors. **Any Animal Transport** will be the official transporter for the auction and will be able to advise on routes for delivery of purchased alpacas. Contact Jody on 0427 033 552.

Registration transfers: All transfers are at the buyer's expense.

GST: GST will be added after the fall of the hammer.

Selling Agent: Wilson Beer from Nutrien is the selling agent. He can be contacted on 0428 505 520.

Telephone bidding and buyers orders: Please contact Wilson Beer at Nutrien to arrange telephone bidding, or buying orders on 0428 505 520

Opening bids: Opening bids will start at \$600 for all animals. Lots with a price reserve are indicated. Where the reserve is not met, the highest bidder will have the opportunity to negotiate a sale with the vendor.

Terms of Payment: Terms of payment are EFT at time of purchase in accordance with the conditions of sale. For further information contact Nutrien: Wilson Beer 0428 505 520

Guarantees: All females sold pregnant come with live cria guarantee on a drive-by remate basis. Stud males are sold with a fertility guarantee.

Health Status and Biosecurity: The Baarrooka herd is Q-Alpaca and the Tularosa herd is non-assessed. Animals can be converted to Q-Alpaca if required, for a fee (this will take 6 months).

Buyers, please ensure that you are aware of the necessary State Health Protocol requirements for your location. South American Camelid Waybills will be prepared for every shipment. Buyers must have a PIC for the destination property.

Catalogue: All details in this catalogue are provided by the vendors and whilst all care has been taken in its preparation the vendors accept no responsibility for errors or omissions. Electronic catalogues are available from the vendors: jwilkinson@baarrooka.com.au and tularosa@fastmail.com.au and the agent wilsonbeer@bigpond.com.

How to Register and Bid on AuctionsPlus

1

Go to www.auctionsplus.com.au to register at least 48 hours before the sale.

2

Select “**Sign Up**” in the top right hand corner.

3

Fill out your name, mobile number, email address and create a password.

4

Go to your emails and confirm the account.

5

Return to AuctionsPlus and log in.

6

Select “**Dashboard**” and then select “**Request Approval to Buy**”.

7

Fill in buyer details and once completed go back to Dashboard.

8

Complete buyer induction module (approx. 30 minutes).

9

AuctionsPlus will email you to let you know that your account has been approved.

10

Log in on sale day and connect to auction.

11

Bid using the two-step process – unlock the bid button and bid at that price.

12

If you are successful, the selling agent will contact you post sale to organise delivery and payment.

Baarrooka Stud Males

ILR Moon Rivers Peruvian DURANGO

This is the most magnificent coloured suri male I have seen in my 21 years of breeding and he is well known and admired throughout the world. Durango has spectacular fleece traits, with a 2-year-old fleece analysis of 18.5, 4.5 sd and CF 98.6. His skin biopsy in February 2009 was S:P 12.6 and Fn 47.8. At 20 years of age, Durango still has pride of place in our herd and maintains excellent fleece characteristics.

Durango has produced our best suris in all colours. His son Thundercrack is our #1 male in the commercial (white) herd and a look at our stud row will display the raft of sons such as Epic, Entertainment, Firebolt, Odyssey, Bostano and Foreign Affair. Then there are the stud males that come from Durango daughters - Ezra, Magician and El Paso in the blacks and Sultan of Swing and Bamboo Blonde in the whites. To say he is the most influential animal of our herd is an understatement.

Durango is 3/4 Accoyo with accoyo sires Bruxo and Uribe on each side of his pedigree.

Durango has been held in-house, so his genetics are rare outside of the Baarrooka herd. There are a number of progeny and descendents from this amazing male in this auction.

ILR Torbio's Accoyo SUPREME

Supreme is a full Accoyo medium fawn male, imported from the US in 2013.

He was selected for his excellent frame, density, genetics and lustre. His sire, Torbio, one of the most influential Accoyo sires in the US also covers black. The Torbio line produces very well over Durango (Macgyver) lines. His progeny all display the strong frame and typey head that are indicative of the Accoyo bred suri.

This male has been used over both our Durango daughters and as part of our black breeding program. Supreme has produced every colour, from white, through fawns, browns, grey, bay black and true black. All with great Accoyo quality.

Baarrooka Stud Males

ILR Riptide's ULTIMATE BLACK

Purchased in the US for his superior genetics, blue-black fleece and stunning lustre, Ultimate Black has produced high quality, show winning progeny, including the Best Black winners at the 2012 and 2013 National Shows and Best Grey at the National in 2012. His progeny have very good density and excellent lustre and silkiness of handle.

We are unfortunate that we lost UB due to snake bite in 2016, but have certified a number of his sons and grandsons to pass on his legacy.

Ultimate Black was co-owned with Azzura and Tularosa.

ILR Sierra Bonita's THE BACHELOR

The Bachelor is a blue-black male with a silky soft and fine fleece from impeccable breeding in the US. His sire, Sniper and his maternal grandsire, Sirius Black are both stunning and highly awarded blue-black males. We have been very pleased with the impact Bachelor has made to our black breeding program. He generally produces to the colour of the dam or darker, with only a few fawns from blacks.

Bachelor was retained inhouse by co-owners Azzura, Baarrooka and Tularosa. Therefore his elite genetics are rare within the Australian herd.

Tularosa adds:

"Bachelor has been a wonderful addition to our herd. He is a compact black male, imported from USA. His genetics include the renowned MacGyver on both sides of his pedigree, plus the MacGyver son Sirius Black. He has brought his compact frame, his density and fineness to Tularosa progeny. We have certified several of his sons. He has two daughters in this sale- Razzle Dazzle and Frim Fram."

The above are the elite imported males that are the basis of our coloured suri breeding program and are the sires of the greatest number of females included in the auction. However, we have progeny from many of our other imported and home bred males, that combined with the foundation males have taken our breeding program to the next level. Details of those additional males are on our website:

www.baarrooka.com.au/stud-males

Tularosa Stud Males

ILR ABF Eminance's GRAY KNIGHT

Gray Knight was purchased in the US and co-owned by Baarrooka and Tularosa. This male had the most outstanding fine and soft handling fleece, with amazing consistency of micron. His first and second fleeces were almost identical, with the first coming in at 21.1, sd of 3.5 and CF of 98.5, while the second was 21.0 sd of 3.7 and CF of 98.4. At 9 years of age, his 2015 fleece analysis was 25.4 sd 4.3 CF 88.3 and CEM 7.7.

Gray Knight has proven himself to be the pre-eminent grey sire in Australia with his progeny winning multiple Best Grey awards in both animals and fleeces and even Best Black fleece awards. A number of his sons are now standing at stud at Tularosa.

We lost Gray Knight to snake bite in 2016. His genetics are rare and highly desirable. There are a number of females from his line in this auction.

Tularosa KAMIKAZE ET

Kamikaze ET has been a reliable stalwart in our breeding program. A son of imported Gray Knight, he has a strong frame, beautiful lustre and is true black with no red-brown fibres.

Back in 2014, he was awarded Supreme Black Fleece at Colourbration. He had Best Black Suri Fleece in show again at The National Alpaca Show in Adelaide in 2016. He has a certified son (Tularosa Levitate) and will soon have a second one (Tularosa Tier One).

Lowanna SOLSTICE

We purchased Solstice for his pedigree and his masculine frame. He rewarded us with several medium grey females including Carmencita and Rondo. They are offered for sale here. He was shown at Colourbration in 2011 where he was Reserve Champion Grey Suri.

Solstice was co-owned with Baarrooka.

LOT 1 Baarrooka TAS Fatma

251947 27/3/2020 Dark Brown/Roan Female with cria at foot

Sire: ILR Torbio's Accoyo Supreme (US)
Dam: Baarrooka UB Fee
Mating: Baarrooka Ultimate Gravity ET
 PM 10/4/22-10/5/22

Fatma is half Accoyo and is from a coveted Ultimate Black daughter. She has been bred to Gravity (Ultimate Black/Gray Knight) and is due prior to the Auction.

Fatma has an excellent frame, heavy bone and the stylish Accoyo head.

Fatma's dam was the same colour and produced blue black progeny to grey and black males.

This is an excellent opportunity to secure a young female from the Baarrooka black breeding program. We have retained two TB females from this proven quality black line.

Fleece:

Date	micron	sd	CEM	FDI
first	20.5	5.4	9.4	12.4
2021	23.2	5.2	10.8	9.4
2022	30.5	6.8	13.6	NA

Sire Supreme

Covering sire Gravity

LOT 2 Baarrooka Queen of Arkansas

194905 28/2/2013 Mahogany Open Proven Female

Sire: ILR Moon Rivers Peruvian Durango (US)
Dam: Baarrooka Queen Wilhelmina
Mating: open

Queen of Arkansas is from impeccable genetics - the incomparable Durango as her sire and our original elite coloured female Queen Wilhelmina, an ET donor and dam of 7 Stud Males.

We are very pleased with the quality Arkansas has produced for us, including the stunning Lisbon cria from her daughter Little Rock (see photo at left). However, as she has given fawn and brown to black and grey sires, she does not fit our breeding program.

Arkansas is an easy doer, mothers well and has the strong bone indicative of Durango progeny.

Fleece:

Date	micron	sd	CEM	FDI
first	20.3	5.8	11.1	NA
2021	27.4	5.7	11.4	9.9
2022	29.1	5.9	11.7	NA

2022 granddaughter by Lisbon

Sire, Durango

LOT 3 Baarrooka WC Quela

251828 5/3/2019 Medium Brown Open Proven Female

Sire: Baarrooka Wild Card
Dam: Baarrooka Durango's Quinn
Mating: open

Quela has the who's who of coloured suris in her pedigree, as well as a healthy dose of Accoyo: Durango, Gold Rush, CH Winslow, Arequipa King, Desert Prince, Royal Russett and Queen Wilhelmina - Peruvian brown genetics for days!

We have found Wild Card over our Durango females have been a fantastic match.

Quela has given us a MF female cria by Lisbon in 2022 (see photo of cria fleece, left) and so can be made available for other breeders. She will provide her purchaser with many years production of top quality suris.

Fleece:

Date	micron	sd	CEM	FDI
first	18.3	6.1	10.9	NA
2021	25.7	4.4	9	8.2
2022	26.3	4.2	7.8	NA

2022 cria by Lisbon

Sire, Wild Card

LOT 4 Baarrooka Kingsford's Allure

176580 18/8/2011 Dark Brown Open Proven Female

Allure in first fleece, 2012

Sire: ILR ABF Fine Thread's Kingsford (US)
Dam: Baarrooka Topnotch
Mating: open

Allure's sire is a top quality black male we imported from the US in 2010. She has an excellent, fast-growing fleece with a soft silky handle and excellent lustre. Her dam, Topnotch is an elite female with cashmere fine and very dense fleece. Topnotch was the dam of the 2019 National Best Black suri, Baarrooka TB Teagan.

Despite the white markings, Allure has had all solid cria, including a dark brown National winning male, by Ultimate Black, an excellent bay black female by Bachelor (dam of Albuquerque, Res. Champion Black Female Colourbration 2022) and the latest, a dense, show quality true black female by Magician (photo, left), who was second to the black Junior Champion/ Grand Champion at Canberra Royal 2023 in a large black class..

Fleece:

Date	micron	sd	CEM	FDI
first	22.0	5.4	10.1	NA
2021	29.3	6.4	11.8	NA
2022	28.0	6.3	12.9	NA

2022 cria by Magician

Sire, Kingsford

LOT 5 Esterlina Fedaura

161316 30/3/2011 Medium Fawn Open Proven Female

Sire: ILR Young Accoyo Rockefeller (US)
Dam: Surilana Aura of Allianza (Peru)
Mating: open

Despite her excellent imported Peruvian/Accoyo genetics, we have not made the most of Fedaura in the past, particularly since we were concentrating on white and black. We hadn't mated her recently until I realised, with her sire Rockefeller, she would likely be covering black. Her 2021 cria to the Bachelor is an excellent dark mahogany (dilute black), so she has proven herself there. Fedaura would be an asset for producing high quality progeny in a white or coloured breeding program.

Fleece:

Date	micron	sd	CEM	FDI
first	21.3	4.8	NA	NA
2021	26.6	6.8	14.2	10.3
2022	29.8	7.7	17.1	NA

Fedaura as a yearling

Full brother, Esterlina Cervato

LOT 6 Baarrooka Breeze Bondi Babe

216014 19/11/2017 Medium Fawn Open Proven Female

Sire: Baarrooka Wild Card
Dam: Baarrooka Breeze UB Surfie Chick
Mating: open

Bondi Babe has a pedigree strong in black genetics and high quality suris on both sides.

She has produced two female cria for us – a bay black from grey sire Baarrooka Firenze and in 2022, a medium fawn from 2019 Supreme, Lisbon (recently sold, Champion Intermediate female at Red Hill Show).

We are pleased to have her black female to breed on with. This allows us to offer Bondi Babe for sale to black or coloured breeders.

Fleece:

Date	micron	sd	CEM	FDI
first	14.0	3.9	7.4	NA
2021	26.5	5.4	11.5	6.9
2022	30.9	6.0	11.8	NA

2022 cria by Lisbon

Sire, Wild Card

LOT 7 Baarrooka De La Renta

226909

5/4/2016

True Black

Open Proven Female

Sire: Baarrooka Durango's Delaware
Dam: Baarrooka Wraith ET
Mating: open

De La Renta is the only black progeny we bred from Delaware before he was sold interstate. If we had known how long it would take us to produce another black Durango son, we may have held onto Delaware for a bit longer!

De La Renta has a true black fleece with excellent lustre and locking and high density.

De La Renta has had a true black female (unfortunately early and stillborn) and medium fawn male to Bachelor and, her most recent, a bay black female to El Paso. We are keeping her 2022 female to continue this line and she is showing excellent lustre and density and an impressive flat locked architecture.

Fleece:

Date	micron	sd	CEM	FDI
first	20.5	5.4	9.4	12.4
2021	25.7	5.4	10.7	NA
2022	28.2	5.8	11.1	NA

2022 cria by El Paso

Sire, Delaware

LOT 8 Baarrooka Solstice's Fire

226991

31/3/2017

True Black

Open Proven Female

Sire: Lowanna Solstice
Dam: Baarrooka UB Fee
Mating: open

An excellent young true black female from grey male Lowanna Solstice and an Ultimate Black daughter, Fire has excellent bone, fleece coverage and true-to-type suri head. Her regrowth displays very good locking and lustre each year.

Fire has produced two true black cria to Magician, both excellent. The 2022 cria was a female which we will breed on with, so we can release Fire for other black or coloured breeding programs.

Fleece:

Date	micron	sd	CEM	FDI
second	23.8	5.6	NA	NA
2021	25.1	5.3	11.6	8.5
2022	29.6	6.7	14.6	NA

2022 cria by Magician

LOT 9 Baarrooka Breeze Purple Patch 195949 10/10/2013 Medium Fawn Open Proven Female

Sire: Pacofino Purple Rain
Dam: Baarrooka Breeze Graycie
Mating: open

Purple Patch is from two excellent silver greys, but unfortunately didn't inherit the lovely silver colouring herself. However, with her elite grandsire, ILR ABF Eminence's Gray Knight, she has the fleece characteristics he is well known for. Graycie, her dam, has produced many excellent greys, including stud male Gladiator, Gravity and Ezekiel.

Patch has produced three males, which have not been registered (we now register all cria regardless of sex, but didn't previously).

Purple Patch has maintained her excellent fleece statistics and combined with very good density, would be an asset in a grey suri herd.

Fleece:

Date	micron	sd	CEM	FDI
first	21.9	5.2	10.2	NA
2021	24.2	5.2	11	10.5
2022	24.7	5.1	10.5	NA

Dam, Graycie

Half brother, Gravity

LOT 10 Baarrooka Point Blank 195875 5/3/2013 Light Brown Open Proven Female

Sire: ILR Moon Rivers Peruvian Durango (US)
Dam: Baarrooka Spandeanu Ballet
Mating: open

Point Blank has an excellent pedigree, with Durango (3/4 Accoyo) as her sire and excellent Accoyo males Icalon and Bosisto, as well as Senator and Desert Prince on the maternal side.

She has the solid bone and correct frame of her sire and has also maintained excellent fleece characteristics.

While I had held on to the best of my Durango daughters, I must part with those that do not fit in with my current breeding program (black and white), providing excellent opportunities for other suri breeders.

Fleece:

Date	micron	sd	CEM	FDI
first	19.7	5.2	9.8	NA
2021	24.8	5.6	11.5	9.5
2022	26.9	5.8	12.0	NA

Sire, Durango

Reserve

LOT 11 Baarrooka Pernod 216038 5/3/2018 Medium Fawn Open Proven Female

2022 cria by Magician

2022 cria by Magician

Sire: Baarrooka Poltergeist
Dam: Baarrooka Ultimate Aniseed
Mating: open

Pernod has a deep black pedigree with Ultimate Black and Talca Black Onyx on her dam's side and a dark grey sire from black import Cantano's Phantom (US) and grey Secret Image.

Pernod is one of our densest coloured females and produced an excellent female to Magician in 2022 (shown with her dam and below in the photos, left - not included). We would love to produce a black from her, but do have her daughter to breed on with.

Pernod does have a bit of attitude, so is not recommended for beginner breeders.

Fleece:

Date	micron	sd	CEM	FDI
first	20.5	5.4	9.4	15.0
2021	24.9	5.7	11.7	13.5
2022	28.0	6.1	11.8	NA

LOT 12 Baarrooka UB Baton Rouge 194893 15/11/2012 True Black Open Proven Female

2014 cria by Gray Knight

Sire, Ultimate Black

Sire: ILR ABF Ultimate Black (US)
Dam: ILR Stone Brook's Black Rose by Saber (US)
Mating: open

Baton Rouge has a full US pedigree, with both parents selected and imported from the US.

Baton Rouge has produced some excellent progeny for us, including two brown males (by Supreme and Durango) sold as stud males, a silver grey female by Gray Knight sold to Switzerland, and two true black females.

As can be seen in the photo, Baton Rouge is maintaining excellent fleece quality and suri style.

Her dam is by our harlequin grey import Lequioa Rose, so there is a potential to produce appaloosa/harlequin grey from this line also.

Fleece:

Date	micron	sd	CEM	FDI
first	21.8	6.5	12.8	NA
2021	26.0	5.8	12.4	7.3
2022	27.7	6.1	12.9	NA

LOT 13 Baarrooka TB Jennifer

226880

30/1/2016

True Black

Open Proven Female

Sire: ILR Sierra Bonita's The Bachelor (US)

Dam: Serena Lodge Lady Blackberry

Mating: open

Bachelor progeny are tightly held by his co-owners due to his excellent fineness and density and exclusive, high quality pedigree. In addition, Jennifer's dam is from two black suris imported from Peru.

Jennifer has a strong, straight frame, good coverage and excellent suri head.

She has produced two excellent black males, one to Durango and the other to Trans Am (see photo). Both will be considered for stud duties at Baarrooka.

Fleece:

Date	micron	sd	CEM	FDI
first	21.1	4.9	10.2	NA
2021	27.2	5.6	10.9	6.6
2022	29.0	6.2	11.8	NA

2022 cria by Trans Am

Sire, The Bachelor

The animal previously listed as an (unintentional) duplicate Lot 13 here has been moved to Lot 53

LOT 14 Baarrooka Epic Turnaround

227022

5/2/2019

Medium Fawn

Maiden Female

Sire: Baarrooka Durango's Epic
Dam: Baarrooka Better Days
Mating: maiden

Turnaround is an excellent female from our best lines. Sire, Epic is a highly awarded Durango son with excellent lustre and locking year after year. Dam is an Ultimate Black daughter.

She has very good density, excellent lustre and locking on a strong and straight frame. She has a true-to-type suri head and excellent fleece coverage.

Despite her quality, Turnaround does not fit in our black breeding program, so has not been mated. Although not a 'proven performer', her elite genetics and her own fleece and frame qualities indicate she will indeed become one. **Fertility guarantee.**

Fleece:

Date	micron	sd	CEM	FDI
first	19.8	5.3	11.5	12.2
2021	25.6	5.8	12.7	10.8
2022	26.7	5.8	12.2	NA

Sire, Epic 2022

LOT 15 Baarrooka Breeze Twix

251971

23/2/2020

Mahogany

Maiden Female

Sire: ILR Moon Rivers Peruvian Durango
Dam: Baarrooka Breeze Ultimate Bounty
Mating: maiden

Twix is a Durango daughter from a black Ultimate Black dam. While she will produce black and our best blacks have come from brown Durango daughters (eg Magician and El Paso, our best black stud males), we have enough black females that we do not need to use the browns for black production any more.

Twix will produce brown or black, depending on what she is mated to. She is well grown with fine fleece and from our proven quality lines. She also has one of the densest fleeces in our coloured herd. **Fertility guarantee.**

Fleece:

Date	micron	sd	CEM	FDI
first	18.4	4.3	7.9	11.1
2021	19.4	4.4	8.3	14.4
2022	21.8	4.7	9.4	NA

Dam, Bounty

Sire, Durango

Reserve

LOT 16 Baarrooka Breeze TB Black Cowgirl 226951 20/11/2016 True Black Open Proven Female

Sire: ILR Sierra Bonita's The Bachelor (US)
Dam: Baarrooka Breeze GK Yalena
Mating: open

Cowgirl has a full Peruvian pedigree with Bachelor, Gray Knight and Zosimo featuring.

She has a solid frame with strong bone and a typey suri head and excellent coverage. She benefits from the fineness of Bachelor and GK and Bachelor's density.

Her 2022 male cria by Magician has excellent independence and lustre, a silky handle and great density (see photo). We also have a female by Durango to breed on with.

Fleece:

Date	micron	sd	CEM	FDI
first	19.9	5.4	11.0	NA
2021	25.7	6.4	13.8	10.1

LOT 17 Baarrooka Midnight Express 226855 29/11/2015 True Black Open Proven Female

Sire: ILR ABF Riptide's Ultimate Black (US)
Dam: Baarrooka Queen Beatrix II
Mating: open

Midnight Express is the coveted and proven combination of Ultimate Black and Gray Knight - two of the excellent males we imported from the US and who have had an enormous impact on black and grey suri breeding in Australia.

Her Bachelor daughter is excellent and is an important part of our black breeding program (a photo of her male cria to Halfway to Heaven, left). Express retains very good lock structure and lustre in her regrowth fleece and has a strong frame.

This is an excellent opportunity to secure a quality female from the Baarrooka black breeding program.

Fleece:

Date	micron	sd	CEM	FDI
first	22.4	6.0	11.6	NA

2022 grand-cria by Halfway to Heaven

Dam, Queen Beatrix II

LOT 18 Baarrooka Durango's Quinn

226890 14/3/2016 Light Brown Open Proven Female

Sire: ILR Moon Rivers Peruvian Durango (US)
Dam: Baarrooka Queen Juliana
Mating: open

Quinn is from impeccable genetics - the incomparable Durango as her sire and a daughter of our elite coloured female Queen Wilhelmina, an ET donor and dam of 7 Stud Males. We have held tightly onto these genetics because of their quality and reliability, but as our focus is now on black suri, they need to be released to other breeding programs.

While being left open for the past few seasons has had a detrimental affect on her fleece statistics (and her waist!), we are confident in her quality and sound genetic base and know she will produce excellent progeny for her new owner.

Quinn has the trademark solid frame and excellent fleece characteristics of her famous sire. She is the dam of Lot 3 Quela.

Fleece:

Date	micron	sd	CEM	FDI
first	18.1	5.2	9.5	NA

Grand-dam, Queen Wilhelmina

LOT 19 Baarrooka Justice

216008 18/11/2017 Medium Fawn Female with cria at foot

Sire: Tahara Pascali
Dam: Baarrooka Durango's Joyous
Mating: MB female cria born 13/3/23 by Lisbon

Justice has an impressive pedigree with well-proven suri males Amador, Durango, Ultimate Black and Icalon present.

In addition to her own pedigree, Justice comes with a medium brown female cria by 2019 National Supreme Champion, Lisbon. He brings additional Durango, Icalon, Amador, Snowmass Illumination and Pucara Eliza genetics.

Justice exhibits excellent lustre, locking and density. She has maintained consistent fleece statistics. With her dark coloured female cria, she is sure to provide an excellent buy.

Fleece:

Date	micron	sd	CEM	FDI

LOT 20 Baarrooka Supreme's Viola ET 226906 29/3/2016 Bay Black Open Proven Female

Viola as a yearling

Sire: ILR Torbio's Accoyo Supreme (US)
Dam: Baarrooka Secret Garden
Mating: open

Viola's dam, Secret Garden has produced some of our best blacks to Supreme, Bachelor and Durango through our embryo transfer program.

Viola is more than half Accoyo and is from an Ultimate Black daughter. She has the stunning Supreme head and excellent frame.

While reflecting the higher micron of the Accoyo lines, her fleece has excellent lustre and good nourishment and very good density.

We do have other black females from this line, but not one from Viola, so have placed a reserve on her.

Fleece:

Date	micron	sd	CEM	FDI
first	23.1	5.1	9.4	NA
2021	28.8	5.6	10.4	11.2
2022	30.9	6.5	13.0	NA

LOT 21 Baarrooka Breeze Ultimate Bounty 196025 6/3/2015 Bay Black Open Proven Female

Sire, Ultimate Black

Sire: ILR ABF Riptide's Ultimate Black (US)
Dam: Baarrooka Breeze Kit Kat
Mating: open

A daughter of the impressive import Ultimate Black (half Accoyo), on the dam's side are Gold Rush, Stirling Moss, Top Hat and Desert Prince.

Bounty has excellent regrowth with obvious lustre and good lock architecture. Her fleece statistics have stayed relatively constant and she displays a low coarse edge micron (CEM) and very good density.

Bounty has produced bay black, fawn and brown cria. We have bred on with the black daughter.

Fleece:

Date	micron	sd	CEM	FDI
first	19.4	5.2	9.6	NA
2021	26.4	5.0	9.7	9.9

Reserve

LOT 22 Baarrooka FA Eindhoven

251880 21/2/2019 Light Brown Open Proven Female

Sire: Baarrooka Durango's Foreign Affair
Dam: Baarrooka Edelweiss
Mating: open

Eindhoven is a *very dense* female (Top 5%) from our super-dense stud male, Foreign Affair (FDI of 20.7 in 2020). Her dam was a multiple show champion, including at Royal Canberra, Sydney and National shows.

We are very pleased with the quality of the first cria by El Paso (see photo) who is in our 2023 show team. However, as Eindhoven is less likely to produce black we have decided to breed on with her daughter.

Eindhoven has a lovely friendly temperament, so would suit both new and experienced breeders wanting to breed elite quality coloured suris.

Fleece:

Date	micron	sd	CEM	FDI
2020	19.3	4.4	8.5	15.7
2021	21.4	4.5	9.1	14.9

Sire, Foreign Affair (2nd fleece!)

LOT 23 Baarrooka TAS Extreme

251830 22/4/2019 Medium Fawn Open Proven Female

Sire: ILR Torbio's Accoyo Supreme (US)
Dam: Baarrooka Spotter's Xample
Mating: open

Xtreme is from our special full-Accoyo fawn male, imported in 2010 and the sire of some of our best blacks. Her dam has excellent black genetics - Sniper's Spotter of Pipecreek Farm (US) (Sniper was one of the highest awarded black males ever in the US and is also Bachelor's sire) and Ultimate Black.

Xtreme has a high lustre, well-aligned fleece with very good density. She would have been shown in 2020 except for covid.

Although fawn, Xtreme produced a true black female with her first cria. This cria is everything we hoped for and will be retained in our black herd.

Fleece:

Date	micron	sd	CEM	FDI

LOT 24 Baarooka Breeze Bounce

227023 15/2/2019 True Black Female with cria at foot

Sire: Baarooka Magician ET
Dam: Baarooka Breeze Black Beauty
Mating: Firecracker
 LMD 29/4/22

Bounce is a True (blue) black with both parents also being true black. She produced her first cria, a black female by El Paso in 2022 and will have had her cria by Firecracker by the auction. Bounce's dam has produced 11 cria - every one of them black. Two males are stud males, one having been exported to Germany.

Bounce's 2022 daughter (photo left) is in our 2023 show team and is displaying a very soft fleece with independent locks and bright lustre. We expect her Firecracker to be equally impressive.

This young female has many years of production ahead of her.

Fleece:

Date	micron	sd	CEM	FDI
first	18.8	5.3	10.1	NA

LOT 25 Azzura Lavato's Black Magic

229020 20/4/2018 True Black Open Proven Female

Sire: ILR GLR Lavato (US)
Dam: Azzura Black Magic
Mating: open

Black Magic is by a well-regarded black male imported from the US by Azzura. These are very rare genetics in Australia.

She has a deep black pedigree and a true black fleece. Although higher micron, she has very good density and produces quality cria.

Black Magic has solid bone, a strong and straight frame and a beautiful head. She births and mothers well.

Fleece:

Date	micron	sd	CEM	FDI
2019	29.5	8.0	16.8	NA

LOT 26 Baarrooka Foggy Mornings 254015 15/2/21 Medium Fawn Maiden Female

Sire: Alabaster Kid Klu
Dam: Kurrawa Luv in the Mist
Mating: maiden

Foggy Mornings is a young female from our commercial herd. As she is fawn, she does not fit within either our white or black herds, however because she offers genetic diversification, from both her sire and dam, we would try to produce white from her. Hence we have put a reserve on this one.

Foggy is a very stylish female with strong bone, a straight frame and good coverage. She has excellent quality regrowth as seen in the photos and also has very good density. **Fertility guarantee.**

Fleece:

Date	micron	sd	CEM	FDI

Sire, Kid Klu

LOT 27 Baarrooka Y10 254019 16/3/2021 Medium Fawn Maiden Female

Sire: Baarrooka Thundercrack
Dam: Bumble Hill Indian Rose
Mating: open

Another coloured young female from our commercial herd, Y10 is by our No.1 white male, Thundercrack who is a Durango son and full brother to Foreign Affair. Although he has a coloured background, the quality of his progeny have been outstanding and mostly light fawn or white from white dams. As Y10 is medium fawn, she does not fit within either our white or black herds, despite her quality.

Y10 is a very stylish female with excellent fleece statistics and quality regrowth as seen in the photos. She also has very good density. **Fertility guarantee.**

Fleece:

Date	micron	sd	CEM	FDI
first*	18.1	4.0	7.2	11.0
2022	20.0	3.8	7.4	NA

*Fleece test with Trim OFF

Sire, Thundercrack's 10th fleece

LOT 28 Baarrooka BH TAS Lily

251858 4/5/2019 Medium Fawn Maiden Female

Sire: ILR Torbio's Accoyo Supreme (US)
Dam: Bumble Hill Gerbera
Mating: maiden

A third fawn female from our white herd, Lily is by Accoyo male Supreme, imported from the US in 2010. Her dam is one of the top females in the Bumble Hill herd, with Jaegar Geronimo (a Jolimont Carlos son), and Accoyos Piccolo and Amador in her pedigree.

As Lily is fawn, she does not fit within either our white or black herds, despite her quality and so has not been bred. She would be a great addition to any coloured suri breeding program with her excellent frame and density, that stylish Accoyo head and impressive fleece regrowth. **Fertility guarantee.**

Fleece:

Date	micron	sd	CEM	FDI
2020	22.7	5.3	10.4	NA
2021	23.3	4.9	9.9	9.4

Sire, The Bachelor

LOT 32 Azzura Rapids Nerna

241875 17/4/2017 True Black Female with cria at foot

Sire: ILR WLK Rapid Fire (US)
Dam: Azzura Nerna
Mating: Baarrooka TB Black Trans Am
 PM 18/4/22-10/5/22

Nerna is from a black male imported from the US in 2013. He was bred by the well-regarded Wilkins family. This line is rare in Australia.

Nerna is very black and has produced two black females - one to Durango and the other to Trans Am. Unfortunately last year's cria had its eyes pecked by crows and she died. Nerna has been rebred to Trans Am.

Nerna has a solid frame and grows a long, independent fleece.

Fleece:

Date	micron	sd	CEM	FDI
2020	27.9	6.3	12.1	NA

LOT 35 Baarrooka TAS Transcend

252031 22/4/2021 Dark Fawn Maiden Female

Sire: ILR Torbio's Accoyo Supreme (US)
Dam: Baarrooka Living Proof
Mating: maiden

Transcend is by Supreme (full Accoyo) over a black female. This combination has given us some of our best blacks via embryo transfer - three black females, the first of which has produced two stud males, Mercury and Firecracker, to Bachelor.

Transcend is a full sister to our true black stud male Halfway to Heaven. While the fawn females will also produce black, we have enough of the black to not need to use them.

Transcend is a stunning female who has a lifetime of production ahead of her. **Fertility guarantee.**

Fleece:

Date	micron	sd	CEM	FDI

LOT 36 Baarrooka Living Proof 195889 28/3/13 True Black Pregnant Female

Sire: ILR ABF Fine Threads' Kingsford (US)
Dam: Delrohan Gentile
Mating: Baarrooka UB Magician ET
 PM 10/5/22-30/5/22

Living Proof has been an embryo transfer donor and has had 8 cria to Supreme (full Accoyo) - 6 of these were black and 5/8 female. This combination has given us some of our best black females and also our true black male Halfway to Heaven. Her first female, Supreme Brilliance has produced two black stud males - Mercury and Firecracker - to Bachelor. One of her fawn females, Transcend is offered in Lot 35 above.

Living Proof has also had a bay black female to Bachelor, and the mating on board by Magician should be another excellent stud quality black. We are hoping the cria will be delivered by the time of the auction.

LOT 38 Baarrooka Durango's Bobby Jean ET 226989 25/3/2017 Medium Fawn Female with cria at foot

Sire: ILR Moon Rivers Peruvian Durango (US)
Dam: Baarrooka Secret Garden
Mating: Baarrooka TB Firecracker
 LMD 8/5/22

Bobby Jean's dam, Secret Garden has produced some of our best blacks to Supreme, Bachelor and Durango through our embryo transfer program.

BJ's sire is the famous Durango and dam is an Ultimate Black daughter. She has a stunning head and excellent strong frame. Her fleece has excellent lustre and good nourishment and density.

BJ had a black male to Magician in 2022 but unfortunately, it was early and stillborn. We expect an excellent black cria from Firecracker by the time of the auction.

Fleece:

LOT 39 Baarrooka Supreme Harriet 196008 17/10/2014 Medium Brown Open Proven Female

Sire: ILR Torbio's Accoyo Supreme (US)
Dam: Baarrooka Heaven
Mating: open

Harriet is by our imported male Supreme (full Accoyo). Her dam is by Desert Prince and Eurogliders (dam of well known sire Baarrooka Ultimate Groove). Harriet produced a stunning bay black female by Durango's Odyssey who has gone on to produce excellent black progeny. After I sold this female, I tried the mating with Odyssey again, but mine was a brown female.

Harriet's higher fleece statistics reflect her Accoyo heritage and impact on her density score. However, she has proven herself with her progeny. Her daughter Honeymooners has produced two show winning true black females, with one Reserve Champion Adult at the 2022 National and the other 1st black intermediate at Canberra Royal, just missing the Reserve Champion ribbon.

I would still like to replicate her first female, so have set a reserve on this one.

Fleece:

Date	micron	sd	CEM	FDI

Reserve

LOT 40 Baarrooka Mountain Man

226950 18/11/2016 Silver Grey Certified Male

Sire: Lowanna Solstice
Dam: Baarrooka Ultimate Vanya

Mountain Man is an excellent silver grey male suitable for stud duties. He has solid bone, a stocky frame and very good fleece characteristics, including good density. His sire, Solstice had a very successful show career and went on to sire numerous show winning progeny.

MM's dam is an Ultimate Black daughter and has produced two other stud males - a silver grey at Baarrooka and a true black standing stud in WA. Both of these were by Gray Knight.

As we have sold our grey suris and already have two grey males standing at stud for outside breedings, Mountain Man is going to waste. He would make an excellent stud male in a black/grey breeding program. Fertility guarantee included.

Fleece:

Date	micron	sd	CEM	FDI
first	19.1	4.6	9.4	NA

LOT 41 Baarrooka Supreme Mercy

196065 27/3/2015 True Black Open Proven Female

Sire: ILR Torbio's Accoyo Supreme (US)
Dam: Wyona Meritaten
Mating: open

Mercy is by our imported male Supreme (full Accoyo). She has produced two females (including the bay black by Gravity, shown at left) and a male.

Mercy has a square, solid frame with excellent bone, births easily and mothers well.

While her fleece micron has crept up over time, her consistent CEM reflects a lack of coarse fibres on the extremities. She has also scored well for density, particularly as a mature, breeding female. We are very pleased with the quality of her cria and will continue to develop this line in our black program.

Fleece:

Date	micron	sd	CEM	FDI

Reserve

LOT 42 Tularosa Rondo

227099 14/1/2017 Medium Grey Female with cria at foot

Sire: Lowanna Solstice
Dam: Tularosa Rhapsody
Mating: Tularosa Karate Kid (LMD 25/04/2022)

Rondo would be an excellent core female for a quality grey herd. She is a medium grey suri, with lustre and great conformation.

She was sired by Lowanna Solstice over a Gray Knight Daughter (Rhapsody), both of whom were grey champions at high level shows. Rondo was awarded 2nd in class as a junior at Alpaca Spectacular 2017.

She is not fond of being handled, especially when pregnant, so would suit an experienced, patient breeder.

Rondo's most recent cria (Reaching Out) was 1st in class and had Best Grey Suri Fleece at National Alpaca Show 2022. Rondo is mated to Tularosa Karate Kid. He is a calm, lustrous true black suri and she is offered with this cria at foot.

Fleece:

Date	micron	sd
first	20.8	4.8
2021	25.1	4.9

Mating: Tularosa Leonardo
 LMD 10/12/2022.

Shake It Up is a big-framed grey female sired by Ultimate Black. No birthing issues here! She has had 2 females which we have retained- first a grey and then a true black show quality female.

Registered as medium grey, but is closer to dark grey. Although her fleece hasn't stayed fine, it still has nice handle thanks to her sire Ultimate Black- handle which she passes on to her progeny.

She is offered mated to Tularosa Leonardo for his silver-grey fleece and medium frame and is due in December 2023.

Fleece:

Date	micron	sd
first	19.4	5.2
2021	29.6	7.4
2022	30.3	6.8

Covering Sire, Leonardo

Reserve

LOT 46 Tularosa Levitate 227097 2/4/2016 True Black Certified Male

Sire: Tularosa Kamikaze ET
Dam: Tularosa Leviosa

Levitate is a beautiful boy and a joy to work with. A certified and proven true black suri male, Levitate is well awarded (Supreme Black Suri Male Australian Alpaca Spectacular 2018, 1st in class Canberra Royal 2018 and Sydney Royal 2019).

He has top shelf breeding from celebrated US (Gray Knight and Ultimate Black) and Peruvian lines. Several of our progeny from Levitate have been shown (halter or fleece) at high level; their fleeces have lovely lustre and handle (eg Sharma, Lucinda, King of Rio).

He would be a valuable addition to your coloured suri breeding program.

Fleece:

Date	micron	sd
first	17.6	4.8
2021	24.30	5.3
2022	26.4	6.0

LOT 47 Tularosa Lucy Liu 227092 13/11/2016 True Black Pregnant Female

Sire: Lowanna Solstice
Dam: Tularosa Loop the Loop
Mating: Tularosa Leonardo

Lucy Liu is a true black daughter of Solstice and was shown for a 3rd in class Australian Alpaca Spectacular in 2017 as a junior. (Similarly, her true black daughter was shown for 3rd in class at Colourbration 2022, and 2nd as an intermediate at Canberra Royal 2023.)

Lucy Liu is a compact female, and is from consistently black and grey lines.

She now has some visible greying fibres on her flanks on her 7th fleece. She is mated to Tularosa Leonardo, expecting a true black or silver-grey cria, due in Spring 2023.

Fleece:

Date	micron	sd
first	21.5	5.5
2021	29.0	6.8
2022	30.2	7.0

Lucy Liu daughter

LOT 48 Tularosa Razzle Dazzle

227088 18/05/2016 Mahogany Pregnant Female

Sire: ILR Sierra Bonita's The Bachelor (US)
Dam: Tularosa Riff Raff
Mating: Tularosa Leonardo
 LMD 03/12/2022

Razzle Dazzle for a reason! A really lustrous female of good density and that mahogany colour which also throws black or grey depending upon the mating sire. A dependable breeder, she has had 2 nice male crias in the past.

Her maternal pedigree includes Gray Knight, and her sire is excellent black import The Bachelor.

This time she is mated to tried and true silver-grey Tularosa Leonardo.

Fleece:

Date	micron	sd
first	16.9	4.9
2021	24.6	5.0
2022	25.5	4.8

1/4/2014

Medium Grey

Female with cria at foot

Sire: Aviana Farms Desperado

Dam: Tularosa Frangelica

Mating: Azzura Night Intrigue

LMD 25/04/2022

Frankie D is a silver-grey female and was 1st in class as an intermediate at Colourbration in 2015. She is from traditional lines including Somerset Arequipa King and Pinjarra Stirling Moss, and has produced 2 silver females. Each of these has been shown. One was Australian Alpaca Spectacular Champion Grey Suri and has been sold to Europe. The other we have retained; she had an excellent show record with 1st in class at 2019 Colourbration and at 2018 Australian Alpaca Spectacular and 2018 Canberra Royal.

Frankie D's current mating is to Azzura Night Intrigue, true black male. She is offered with this cria at foot. Some quality diverse genetics right here to complement your breeding.

Fleece:

Date	micron	sd
2015	21.9	4.7
2021	29.1	6.7
2022	29.0	6.7

Bay Black

Female with cria at foot

Sire: Tularosa Lazy Days

Dam: Tularosa She'll be Ready

Mating: Tularosa Rasmus

LMD 25/04/2022

This placid young female is a bay black maiden from some of our most reliable lines (Gray Knight, Bachelor).

She is mated to silver-grey Tularosa Rasmus, and is due April 2023.

This could be an exciting start to a long reproductive career and a wild card opportunity!

Rasmus is an impressive silver-grey male, well-credentialed and just starting to work. He is not available for outside matings.

Fleece:

Date	micron	sd
first	18.7	4.4
2021	22.5	5.0
2022	25.9	6.6

Covering Sire, Rasmus

LOT 51 Tularosa Keeping Up

247611 5/5/2020 True Black Pregnant Female

Sire: Tularosa Levitate
Dam: Tularosa Keepsake ET
Mating: Tularosa Leonardo
 LMD 03/12/2022

This typey female is jet black save for a small silvery white spot on her shoulder. She is sired by Tularosa Levitate. Her dam was an ET female and she has solid black and grey genetics, including Ultimate Black and Gray Knight.

Her mating is to silver grey Leonardo to reinforce the Gray Knight genetics. Leonardo is producing quality true black and silver-grey progeny. Keeping Up is sold pregnant and due in November 2023

Fleece:

Date	micron	sd
first	22.1	5.9
2021	26.5	5.2
2022	28.3	6.6

Covering Sire, Leonardo

LOT 52 Tularosa Frim Fram

207739 31/3/2015 Rose Grey Mated Female

Sire: ILR Sierra Bonita's The Bachelor (US)
Dam: Tularosa Miss Frangipani
Mating: Tularosa Shazaam
 LMD 11/03/2023

Frim Fram was our first cria from imported male Sierra Bonita's The Bachelor. She has thrown quality progeny and is the dam of the most recent Best Grey Suri from National Alpaca Show in Adelaide 2022 (Tularosa Tier One). We plan to use him as a stud sire.

Frim Fram is rose grey with a strong frame and still has nice handling fleece as a 7yo. She will offered mated to silver-grey Tularosa Shazaam.

Fleece:

Date	micron	sd
2016	20.9	5.3
2021	29.7	7.6
2022	31.0	7.7

Frim Fram's previous son

Covering Sire, Shazaam

LOT 53 Baarrooka TB You're Missing

226995

9/4/2017

True Black

Open Proven Female

Sire: ILR Sierra Bonita's The Bachelor (US)
Dam: Baarrooka UB Yizheng
Mating: open

You're Missing is by US import The Bachelor , whose progeny are tightly held by his co-owners due to his excellent fineness and density and exclusive, high quality pedigree.

She has a solid frame and strong bone.

You're Missing has produced a stud-quality male by Magician. His second fleece micron was 21.6, showing how easy it is to bring down a higher micron if quality genetics are present.

Fleece:

Date	micron	sd	CEM	FDI
first	25.0	6.8	14.1	NA
2021	28.7	6.9	14.5	6.5
2022	32.8	8.0	17.5	NA

2020 son by Magician
