**LOT 4
LEAWOOD
LAZ S414**

**LOT 23
LEAWOOD
TITAN S411**

Welcome to Leawood Angus

We invite fellow cattle breeders on Monday 3rd of April for our 2023 Autumn bull sale starting at 1.00pm.

We have catalogued an outstanding and consistent line up of 46 bulls for your viewing. Here at Leawood, we really pride ourselves on consistency and quality in every bull we sell. This gives all our clients the utmost confidence when selecting their next sire. Longevity and structural soundness traits are so important when we are selecting genetics to add to our herd. We must be fully confident in our progeny to be able to perform off grass and thrive in our commercial based operation. These breeding principles give our clients better value for money when purchasing Leawood bulls. We have numerous clients with bulls still out working that are 8 to 10 years old.

This year once again, all sale bulls have been scanned for fats and EMA, along with a crush side semen morphology assessment. Registered bulls have been Genomics tested and sire verified. We offer free delivery on sale bulls throughout Victoria.

All 14 sires of this year's Autumn sale bulls have been used in our heifer joining program providing us with first hand calving ease data. Standout New Zealand sire to introduce this year is Brookwood Titan J32. Titan is an exciting edition to our herd with a golden pedigree cross of Braveheart of Stern and Turihaua Crumble Y167. Titan progeny have good ease of calving traits and huge early growth, and we have found he is breeding beautiful correct females as well as cracking soft skinned bulls. All Titan progeny have excellent temperament. Other standout sires of the draft are our two Merchiston Steakhouse sons Leawood Steaks N297, whose progeny will catch your eye in all sale pens with the extra depth and thickness displayed throughout and Leawood Nugget N282, who is a moderate meat power house who continues to excel in early growth, laying the meat down with ease. If you're looking for a bit more size and frame, we would recommend Leawood Pirate P391 and Leawood Express L581 progeny for your consideration. Both these bulls have tremendous longevity and very structurally so correct.

Following the sale of the bulls will be 30 commercial PTIC Spring Cows with calves at foot, followed by 40 12mth old Un-joined heifers. Females will be penned in approximately numbers of 4-8.

Please feel free to get in contact with us about any questions that we can help you with.

Luke 0474 992 683 or Graeme 0429 992 683
