# welcome

It is with great pleasure that we welcome you to the inaugural Davena Speckle Park Sale. This has without doubt been a very steep learning curve but one that we have thoroughly enjoyed.

Davena Speckle Park is a partnership between Glenelg Park Euroa, in the North East of Victoria and Kitchwin Hills in Scone, NSW. Although we have only been breeding Speckle Park cattle for a short time, we have been involved in the livestock industry for most of our lives. As thoroughbred breeders we understand rearing livestock. We appreciate that doing things well takes time. Our goal is to produce relevant profitable seedstock for the commercial producer. Genetic gain doesn't happen overnight, and we are committed to the long game.

The bulls that we are using to date reflect where we are going. Leander, Logic, Royal Flesh, Montezuma and Kidmans Cove. All proven in Australian conditions, all performance bulls and all known to be structurally sound and highly fertile bulls. We have focused on 200 and 400 day weight gain, fertility and longevity whilst still maintaining balanced carcass data. Most of our bulls in this catalogue sit in the upper percentile for 200 and 400 day weight gain, carcass weight, EMA and IMF.

Mick and I would like to take this opportunity to thank our families for all their tireless help. Whether it's working in the yards, feeding out or chasing calves to tag and weigh they are always out there doing more than their share. To Mick's partner Pauline and son Ollie and my wife Sarina and children Ella and Ollie we'd like to say a huge Thank You. Without them none of this would be possible.

So, if you are not busy why not come out to Mick's farm on the 11th of May. The BBQ will be fired up and the drinks will be cold and who knows, you might even find a bull you like!

Hope to see you there.

*Danny & Mick*

# information

## **Inspection**

Sale day inspections from 10.00am with the sale commencing at 3:30pm. We recommend and encourage prior inspection so please feel free to contact us to arrange a time. Mick 0428 458 065

## **Selling Agents and Auctioneers**

The sale will be conducted by Garvin & Cousens with Clint Donovan and James Hetherington as auctioneers. Please make arrangements with the agent prior to sale day in regard to settlement terms.

Office 02 6766 2901 | Phillip Hetherington 0428 680 028

## **Agents Rebate**

Agents introducing clients to the sale and accompanying them to sale, a rebate of 5% plus GST is offered. If an Agent introduces a buyer in writing 24hrs prior and settles in 7 days a rebate of 2% plus GST is offered.

## **GST**

All animals are sold exclusive of Goods and Services Tax (GST). For example, if a bull is sold for \$5000, you will be charged \$5500.

## **Guarantee**

In Simple terms, we stand by our bulls. In the unlikely event of infertility in the 6 months from sale day if a bull is totally infertile or totally incapable of natural service, provided it is not caused by injury or disease since the sale, we will refund the purchase price (without expenses) less salvage value. Any claims to be made within 6 months with a relevant veterinary certificate. Please contact us if you have any concerns.

All females have passed a vet check and have been deemed to have 2 fully functioning ovaries. A veterinary certificate of pregnancy is available for PTIC heifers.

# information

## **Health**

Bulls – fully vaccinated with 7in1, Pestigard, Vibriosis, Ultravac BEF and Tick fever.

Heifers – fully vaccinated with 7in1 and Pestigard

Some animals in the catalogue have minor pinkeye scarring that is not deemed to be detrimental to their functionality.

## **Delivery**

Please notify us of your transport requirements for successful purchases. While every care will be taken, no responsibility can be accepted whilst awaiting delivery. We encourage you to insure your purchases.

## **Arrival of your new animal(s)**

On arrival at their new property, it is important a suitable mob of animals (eg: pregnant cows, steers) are yarded to meet the new animal(s), to minimize stress on them. The bulls are in good joining condition at the point of sale, but it is imperative to insure good nutrition for the bull during the joining period. You should check the bulls regularly to see they are working, especially in the first few weeks of joining when most problems occur.

## **Semen Rights**

Davena Speckle Park reserves the right to collect up to 200 straws of semen from any bull in the sale for within herd use only. Any semen collection will be at our cost and the purchases convenience.

## **Supplementary Sheet**

A supplementary sheet will be made available prior to the sale.

# information

## Bidding online via AuctionsPlus

The sale will be interfaced as a sequential auction on AuctionsPlus, with live video and audio streamed for online bidders and viewers. There will also be individual videos of each live lot posted to the AuctionsPlus catalogue leading up to the sale. Please register as an AuctionsPlus user at least 24 hours prior to the sale to bid.

## Disclaimer

The owners, employees, sale staff and representatives accept no liability for the accidents that occur, any person attending does so at their own risk. Please be aware of the dangers inspecting bulls in sale pens. Be especially alert to bulls fighting. We do not expect the bulls to be aggressive with humans, but sale day places extraordinary pressure on them as they experience an entirely foreign environment. Do not crowd the bulls or loiter inside the pens.

# genetic testing key

---

POLL/HORN TESTING	PcPc - homozygous polled HPc - carries one copy of the horn gene
COAT COLOUR	RGF - homozygous dominant black RGC - dominant black/recessive red
MYOSTATIN	NC - non-carrier of the nt821 myostatin gene C - carrier of one copy of the nt821 myostatin gene
LEPTIN	Represented as TT,CT or CC. A Leptin TT genotype animal is believed to have an increase rate of fat accumulation as compared to a Leptin CC animal
