**FOR 35 YEARS WE HAVE BRED LIMOUSINS WITH A FOCUS ON
PERFORMANCE, STRUCTURE AND DOCILITY.**

**WE HAVE BRED ROYAL CHAMPION STEERS AND ROYAL WINNING STUD
STOCK AS WELL AS BREEDING RELEVANT COMMERCIAL CATTLE.**

WELCOME

A warm welcome to everyone.

It is with much sadness that after 35 years of breeding Limos, Barbara and I have decided to disperse our herd and take things a bit easier.

Our girls and boys have been our life since 1988 through the good times and not so good times, they have been good to us allowing us to see a lot of the world.

With 3 International Conferences and 3 New Zealand Events, we have met many Limo breeders and made many friends along the way.

We have always strived to ever improve the genetics of our herd, concentrating especially on performance, doing ability, docility and low birth weights, things that all breeders should keep an eye on and strive for.

On the docility matter, after living through the 80`s and 90`s, we thought we would never get the problem solved and nearly gave up twice. We persevered and finally won through. We now have a herd that is easy and a pleasure to work with.

It is also a credit to all breeders who have brought the breed to where it is today.

Our herd has given us so much pleasure. We were always looking forward to the next drop of calves which we will miss very much.

To all the visitors that acquire our genetics we wish you well and are confident they will not let you down.

We would like to thank everybody that is attending the sale and especially the purchasers both here on farm and online.

Phil, Barbara and Todd

SALE INFORMATION

Video Auction Format

The sale will be conducted by video auction with sale lots present on-property for viewing.

Video footage of each sale lot will be available in advance of sale on King Creek Limousins' Facebook page and AuctionsPlus.

Bidding and Phone Services

Mobile phone service will be available sale day if you require an agent to representative to bid on your behalf. Please contact the selling agents to arrange prior to sale day. AuctionsPlus will be operating on the day.

Supplementary Information Sheets:

Supplementary sheets will be available at the sale with any updated information on the sale offering.

Health

King Creek Limousin stud is JBAS score 6. All adult females will be preg-tested and bulls will be semen tested. All cattle will be drenched with Cydectin, and vaccinated with 7 in 1.

Delivery and Transport

No cattle will be transported on the day of sale (Wednesday, 24 May). All transport is to be coordinated via selling agents.

Buyers' Registration

Buyers are required to register with selling agents prior to the commencement of the sale.

GST

All lots are sold exclusive of GST with GST to be added to the sale price.

Insurance

Purchases become the responsibility of the buyer at the fall of the hammer. While all care will be taken, no responsibility will be borne by King Creek Limousins. It is recommended that all buyers insure their purchases.

Sale Lot Videos

Stud Transfers

All sale animals are registered with the Australian Limousin Breeders Society and are eligible for ownership transfer. Buyers that require transfer or registration for animals purchased should indicate this on their buyers instruction sheet.

Safety

Cattle have been screened for temperament and are quiet to handle under normal conditions but the stress of a sale day can upset some animals so we ask that you move kindly and quietly around the stock. If any assistance is needed please ask either King Creek Limousin staff or a sale agent representative. **Visitors enter the viewing pens at their own risk and children must not enter the pens.**

Safety Disclaimer

People entering upon King Creek Limousins' property for any purpose whatsoever including attendance at cattle auctions do so at their own risk. The owners, employees and representative of King Creek Limousins accept no liability for any accidents that may occur at the King Creek Limousins Sale or while on-property.

Sale Catalogue Disclaimer

All reasonable care has been taken to ensure the information provided in the catalogue is correct at the time of publication. Both the vendor and agent make no representations about accuracy, reliability or the completeness of any information provided and do not assume any responsibility for the use, or interpretation of the information.

SUFFIXES AND EBVS

EXPLANATION OF THE SUFFIXES

POLL / HORN STATUS

(HP*) Homozygous Polled by DNA test (which has an accuracy of 92%), (HP) Homozygous Polled by progeny test, (2P) Homozygous Polled by Pedigree, (P) Polled, and (S) Scurred

COAT COLOUR STATUS

(HB) DNA tested Homozygous Black, (2B) Homozygous Black by pedigree, (B) Black, and (R) Red (not Apricot).

PROTOPORPHYRIA STATUS

(PN) Proto Normal, (PF) Proto free by pedigree, (PC) the animal is a carrier of the abnormal gene for Protoporphyrin, (PS) Proto Suspect (parent of diseased animal), (PU) the animal has not been tested for Protoporphyrin or have parents which have been tested normal or are free by pedigree.

HOMOZYGOUS

Homozygous is the term where an animal has two copies of the particular gene (tested or pedigree) for a trait (colour, polled). AN example is Homozygous Polled where all progeny will be polled from that particular animal or Homozygous Black where all progeny will be black.

LIM-FLEX

A commercial Lim-Flex must be 25 to 75 percent Limousin and 25 to 75 percent Angus or Red Angus.

LIM-FLEX OFFERS

Maximum hybrid vigour especially for maternal traits such as fertility.

A combination of the muscle and efficiency of Limousin with the maternal and finishing ability of Angus.

Market flexibility – commercial Lim-Flex steers are ideal for all domestic and most export markets so are in strong demand from grass finishers and lot feeders. Lim-Flex heifers have more muscling than pure Angus which is sought after for the domestic market.

Australian Limousin Breeders' Society Ltd

DISCLAIMER: The Estimated Breeding Values (EBVs) contained within this sale catalogue were compiled by the Agricultural Business Research Institute (ABRI) from the data supplied by breeders. Neither the Australian Limousin Breeders' Society or ABRI oversee or audit the collection of this data.

UNDERSTANDING EBVS

An Estimated Breeding Value (EBV) is an estimate of the genetic merit of that animal for each trait measured.

GESTATION LENGTH: ranks sires for the time between conception and the birth of a calf. Shorter gestation is indicated by negative EBVs and longer by positive EBVs.

BIRTH WEIGHT: indicates the genetic potential for birth weight. Positive EBVs indicate higher birth weights and negative EBVs indicate lower birth weights of progeny.

200, 400 & 600 DAY WEIGHT: give us an estimation of the animal's genetic potential for growth.

MATURE COW WEIGHT: estimates differences between animals in live weights of cows at 5 years of age.

MILK: a key component of fast growth to weaning is the dam's maternal performance. A bull with a high milk EBV should produce daughters which milk well.

SCROTAL SIZE: indicates whether the bull will produce sons with above average or below average scrotal sizes.

CARCASE WEIGHT: ranks animals for carcase weight. Eye Muscle Area: ranks animals for eye muscle area measured at the 12th rib on a 300kg carcase.

DOCILITY: is expressed as the increase or decrease in the percentage of progeny that will be scored as docile (score 1 or 2). Positive EBVs indicate a higher proportion of progeny that will be scored as docile and negative EBVs indicate a lower percentage of progeny being scored as docile.

COMPARING EBVS: The EBVs for Limousins cannot be compared with EBVs for animal of other breeds. They should be compared with the current average EBV for the Limousin breed shown below.

BREED AVERAGE EBVS FOR 2021 BORN CALVES

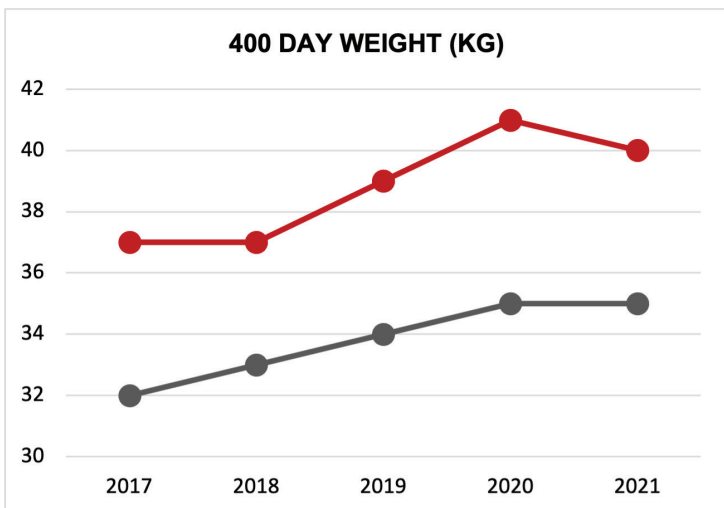

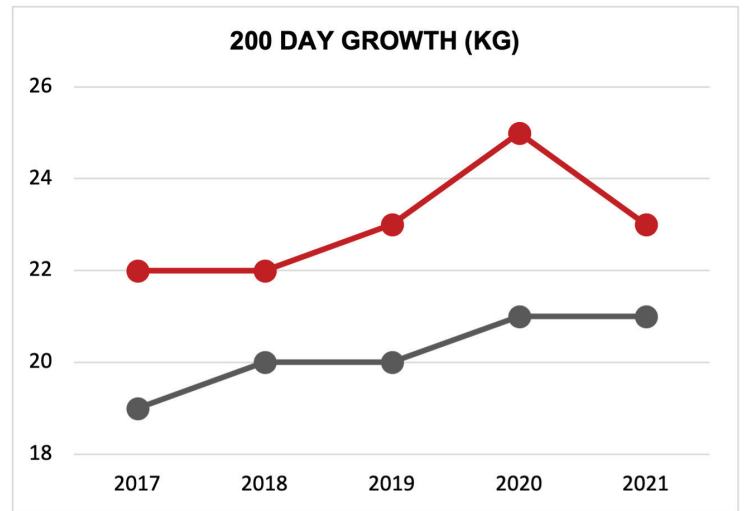

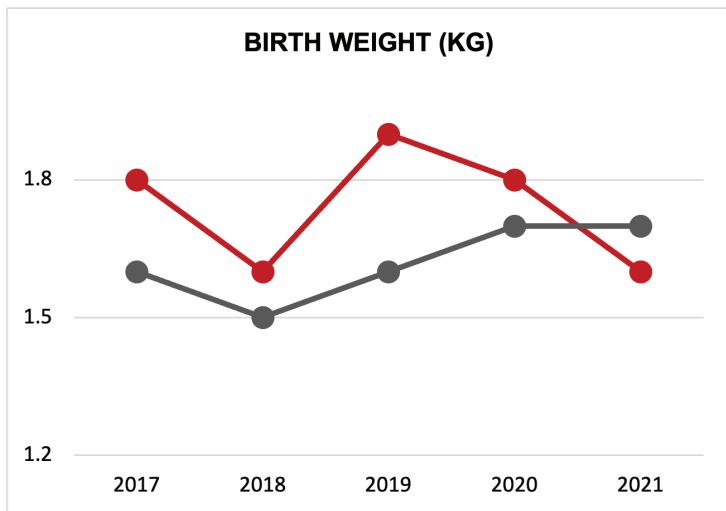

GL	BWT	200	400	600	MAT	MILK	SS	CAR	EMA	DOC
-2.1	+1.7	+21	+35	+49	+49	+7	+1.1	+31	+1.8	+43

ACCURACIES: are presented with each EBV and give an indication of the amount of information that has been used in the calculation of that EBV. The higher the accuracy the lower the likelihood of change in the animal's EBV as more information is analysed for that animal and its relatives.

How to Register and Bid on AuctionsPlus

1

Go to www.auctionsplus.com.au to register at least 48 hours before the sale.

2

Select “**Sign Up**” in the top right hand corner.

3

Fill out your name, mobile number, email address and create a password.

4

Go to your emails and confirm the account.

5

Return to AuctionsPlus and log in.

6

Select “**Dashboard**” and then select “**Request Approval to Buy**”.

7

Fill in buyer details and once completed go back to Dashboard.

8

Complete buyer induction module (approx. 30 minutes).

9

AuctionsPlus will email you to let you know that your account has been approved.

10

Log in on sale day and connect to auction.

11

Bid using the two-step process – unlock the bid button and bid at that price.

12

If you are successful, the selling agent will contact you post sale to organise delivery and payment.

For more information please contact us on:

Phone: (02) 9262 4222
