Lot 14: Violet Hills Sailor (P) (VHV S287E)

Violet Hills Charolais 13th Annual On Property Sale

1pm on Thursday 4th May 2023

Lot 23: Violet Hills Simeon (P) (VHV S251E)

Lot 30: Violet Hills Slater (P) (VHV S199E)

All of us at Violet Hills extend a warm welcome and invitation to attend our 13th Annual On Property Sale.

We are once again pleased to present a very good line up of Charolais bulls. Overall we believe that they are the best line up of bulls that we have presented at our sales.

They represent the thick, easy doing, easy calving Charolais that we have been striving to produce for 50 years. Most are polled, with 19 being DNA tested as being homozygous for the polled gene.

All of the bulls have been drenched for liver fluke and worms (13/2/2023). They have been vaccinated with 7:1, pestigard, vibrovax and Piligard. They received Selovin LA on the 20/4/2022. As well as selecting for "type" we have culled heavily for structure and temperament. We do not trim feet.

We are presenting 40 polled bulls. Of these, 19 have been DNA tested as homozygous polls. There are 4 Red bulls.

While we continue to aim at producing Charolais that are suitable for grass finishing they have also demonstrated that they excel when finished in a feedlot. In the past our purebred steers have excelled in the Australian National Steer and Carcase competition organised by the Orange National Field Days.

The bulls are to be scanned for muscle and fat cover on the 12th of April. All information can be accessed via our web site (www.violethillscharolais.com.au) as it becomes available.

Our motto is: ***"We will not be beaten on quality"***

***Best Wishes,
Daryl, Kaye, Sean and Kirsty***

Daryl: 0428 639 674 **Sean:** 0419 416 197 **Email:** violethills@bigpond.com

HISTORY OF VIOLET HILLS CHAROLAIS

We started breeding Charolais in 1972. Because we had very limited finances we were restricted to using AI over British Breed cows to start an upgrading programme. This was a long and often frustrating process. While we were convinced that Charolais had a lot to offer the beef industry in Australia many of the imported genetics did not result in the type of cattle that we aimed to produce. We noticed that in Australia with our diverse pasture types, breeds of cattle and market requirements that different types of Charolais were needed for the breed to be truly successful in different locations.

Our aim is to produce a type of Charolais that suits the high quality temperate pastures of southern Australia. That is, an easy doing, easy calving animal that can be finished at a young age on grass. To produce these animals we mainly rely on selecting some of the best bulls that we produce each year and using them in our breeding programme. We still have a limited introduction of outside genetics.

The most important judges of our cattle are our clients and their feedback is very valuable to us.

Violet Hills Cattle

SALE NOTES

Online bidding will be available through AuctionsPlus.

Bull videos: All bulls will be videoed before the sale and these videos will be on the Auctions Plus site and our web site along with the supplementary sheet with the scanning results.

Scanning and Weighing: All bulls will be scanned and weighed prior to the sale and EBV's will be updated. A supplementary sheet will be available when that occurs.

Health: Violet Hills is a JBAS 7 accredited property and all bulls have been properly vaccinated for clostridium diseases, leptosporosis, pestivirus, vibriosis and pink eye. All have been drenched for fluke and worms. At Violet Hills it is our policy to NOT trim hooves. Any animal that exhibits problems with their hoof structure is culled. This includes all cows as well as the bulls. All bulls are available for inspection prior to the sale (by appointment) as well as the morning of the sale from 10am.

Breeding Guarantee: All bulls are guaranteed breeders. Any claim against the breeding ability of a purchased animal should be made in writing, within 12 months, and accompanied by a veterinary certificate stating that the bull is infertile or incapable of natural service, and that, in his/her opinion, the bull has not suffered any injury or maltreatment, which could have affected its breeding ability, since delivery to the purchaser. Any animal failing to breed may be either replaced with a similar animal or be credited the purchase price at the next sale. No cash refunds will be made. This guarantee does not include interest, expenses, costs or damages this process may involve. All costs incurred for this process, will be at the purchaser's expense. This guarantee does not include problems caused by accident, disease or management after the fall of the hammer.

Inspection: We encourage prospective buyers to inspect the cattle prior to the sale. This enables us to give a more personalised response to any questions. The animals will be available for inspection from 10am on sale day.

Buyer Registration: All prospective buyers please register before the auction as a card system will be used.

Buying Orders and Phone Link Up: Online bidding will be available through AuctionsPlus. For phone bidding please contact the selling agents who will make arrangements to contact you, at the appropriate time, during the sale.

Outside Agents Rebate: (PLEASE NOTE CHANGES): Outside agents attending the sale with their clients will be eligible for a 3% rebate of the purchase price. Outside agents not attending the sale with their clients will be eligible for a 1% rebate of the purchase price. To be eligible for the Agents Rebate an introductory letter MUST be received by Elders Bathurst office 24 hours prior to the sale. These conditions will be strictly adhered to.

SALE NOTES

Refreshments: Complimentary morning teas & light meals will be provided at the venue.

Accommodation: Accommodation is available at Oberon (40 mins), Lithgow (30 mins), Bathurst (50 mins) and Hampton (10 mins). Please contact us for assistance.

Delivery: Clear delivery instructions must be given to Elders at the conclusion of the sale. For stock awaiting delivery, all care will be taken. No responsibility will be accepted for injury or loss during this period. Ownership of the stock will pass to the successful purchaser on the fall of the hammer. We recommend that you insure your purchases. Please make arrangements with either Sean or Daryl (preferably before the sale), if you would like us to assist with the delivery of your purchases. A maximum charge of \$250.00 per head will apply to selected regions of NSW and Victoria and also to Pages depot in Melbourne for Tasmanian clients. All care and no responsibility will be taken while stock are awaiting delivery and during delivery. PLEASE MAKE SURE YOUR PURCHASES ARE INSURED.

Caring for your new bull: When taking your young bull home, it is a good idea to have a welcoming group of cows or steers to help him settle into his new environment. Separation from his mates and being transported, sometimes alone, can be very stressful for a young bull. His preparation will enable him to go to work as soon as needed. As he is still growing he should be kept on good quality feed, before, during and after being with your cows.

We strongly advise against running your new bull with older bulls during joining. Your young bull will run the risk of being injured. He will also get very few calves as he will be dominated by the older bulls.

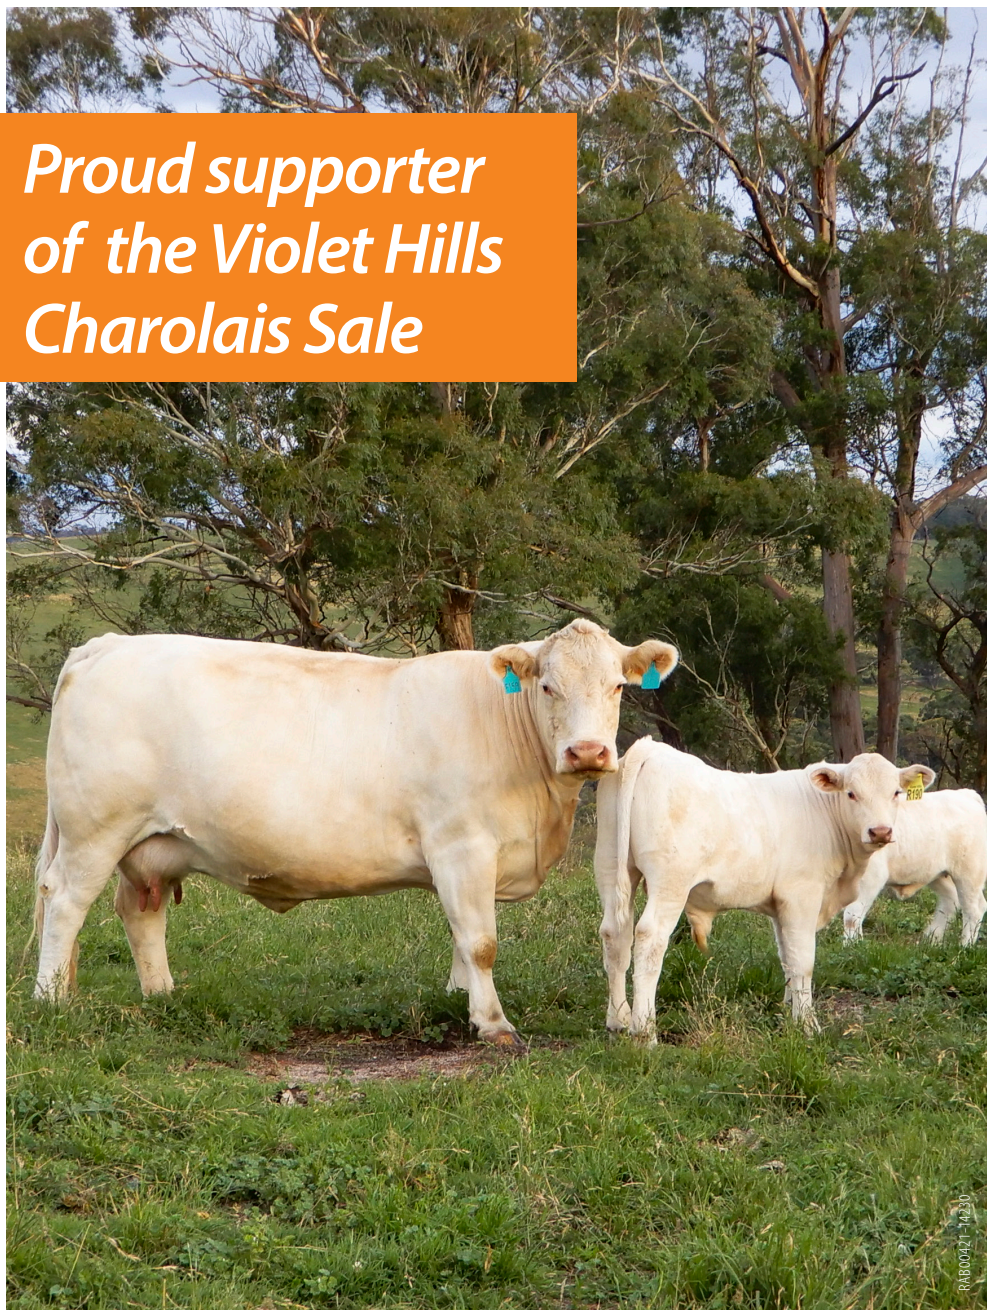

PLEASE NOTE: It is unethical for anyone to promote, advertise or arrange the sale of any cattle, other than those in the sale, on the sale premises.

IMPORTANT NOTICES: While all care is taken in compiling the catalogue, the vendors give no guarantee to the accuracy of the information contained in it. All persons who attend the sale do so entirely at their own risk and the Selling Agent, its members, subsidiary or related corporations, officers, agents, employees and its principals for themselves and for those for whom they act, do not assume or accept any responsibility or liability of whatever nature for any injury or damage whatsoever which may occur.

Bring gumboots, a jumper and coat.

The sale ring is undercover, however the cattle are in the open and the weather can be unpredictable.

Charolais BREEDPLAN

Estimated Breeding Values (EBVs)

EBVs are aimed at putting value on certain traits. These values can be compared with the breed average value for that trait for those recorded animals that have been born in the same year. An accuracy figure gives the percentage chance that these allocated values will be achieved. For young animals with limited recordings there can be very big changes in their EBVs as more measurements are made as they get older.

In our opinion, EBVs can give an indication of how they compare to their mates in the same herd. Caution should be used when comparing animals in different herds unless the accuracy of the figures is above 80%.

Australian Charolais Selection Indexes

The Charolais Society in their wisdom have removed the 3 selection index's and replaced them with 2 Index's namely Northern Maternal and Domestic Terminal. Our experience in producing cattle for the grass fed market leads us to have some doubts about these new Index's, especially the Domestic Terminal Index which is designed for the feedlot industry. **Our advise to bull buyers is to back your stockmanship skills when selecting your purchases.**

- Heifers are two and a half years old.
- The calves are 4-6 weeks old.

Purchaser / \$: _____

~ End of Sale ~

Calves by Violet Hills bulls, being weaned at the Stanley (Tas) property of Audrey and Robert Scott. The calves are out of Red Angus cows and will be grown out and fattened on grass for the Cape Grimm branded beef.

David McKay (Bathurst, NSW) is very proud of his Charolais cross calves by a Violet Hills bull. He commented that the calves have better shape and are out performing the Angus calves.

~ NOTES ~

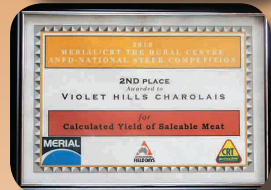

Est. 1972

Australian National Field Days (Orange) Steer and Carcase competition results

Violet Hills entered two teams of purebred Charolais steers in the Australian National Field Days Steer and Carcase competition 2017-2018. We had two different sire groups. Both teams were from the bottom end of the pure bred calves out of first calf heifers. This resulted in lower carcase weight and only average performance on grain. When the steers were slaughtered the results were very pleasing.

- ▶ 1st and 2nd for dressing percentage
- ▶ 1st and 3rd for MSA eating quality
- ▶ 2nd and 4th for saleable meat yield
- ▶ 2nd and 3rd for carcase quality

One team came 3rd overall in the competition.

Purebred steer that was Reserve Champion on the hoof

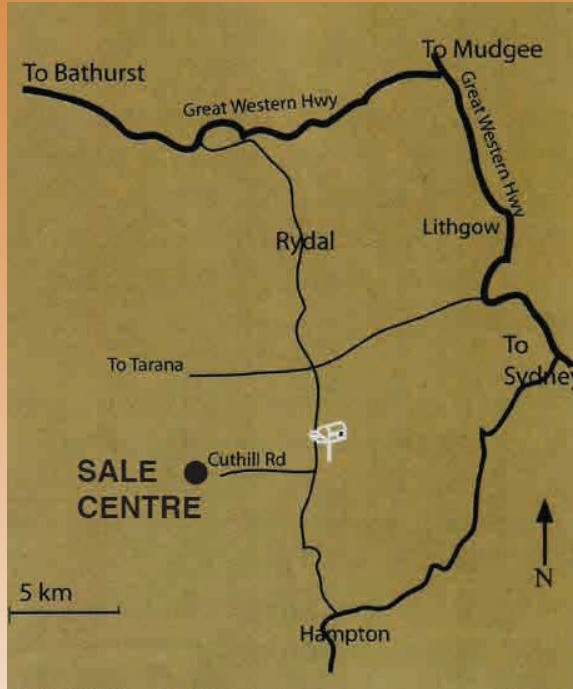

This clearly demonstrates to us that we are producing the type of Charolais that performs very well as a purebred and does not need to be crossed with British breeds to meet industry requirements.

DIRECTIONS TO “VIOLET HILLS”

Rydal is between Lithgow and Bathurst, 150km west of Sydney.

“Violet Hills” is 13km from Rydal on the Hampton Road.

The Sale Centre is 3km along Cuthill Road.
