

PALGROVE

HUNTER VALLEY SALE

60 CHAROLAIS | 20 ULTRABLACK

2nd June 2023, 11am

**BRED TO
DELIVER**

Welcome and thank you for your interest in our 2023 Hunter Valley Sale.

We are pleased to be able to offer you another consistent line of Sires. We believe they are a very even group of commercially relevant bulls with some very special individuals.

We have always been committed to make genetic improvement in the profit driving traits that help our clients reach their breeding objectives and improve the profitability of their beef business. There is no doubt these Palgrove bulls will make a measured difference in your herd. With over 50 years of critical selection pressure and measuring our cattle to identify the highest performing genetics, we are confident the bulls we offer will add 'real value' to our commercial clients.

CHAROLAIS

These Charolais bulls demonstrate the breeds' strength within the industry - in our eyes they are still number one for the value they add in a single cross to a commercial cross breeding beef business. I still believe the value added by cross breeding, is currently under rated in southern production systems and this is heightened more with the reduction in purebred premiums. Our consistent wins in Paddock to Palate competitions that measure performance along all points of the supply chain verify this 'proof of profit.' This Charolais draft are above breed average for low Birth Weight and have high Positive Maternal Traits for carcase, Fat Cover and Marbling.

These bulls are selected with our southern clients and production systems in mind, and we believe they fit this perfectly.

ULTRABLACK

The industries response to our Ultrablack program highlights the market acceptance of the breed across diverse climatic zones - Ultrablack now make up 60-70% of our total bull sales. I really believe we have only just scratched the surface for the potential this breed has in the Australian beef market. Feedback has highlighted increases in fertility and carcase quality with no weight gain compromises, but it's the maternal strength added by retaining the Ultrablack or Ultrablack cross females that's proving to be even more valuable.

The Palgrove team have worked hard to present this draft of bulls. At every step along the way our team have contributed their bit to present this consistent line of bulls to our Hunter Valley clients and I thank them for their work.

We enjoy being part of your purchasing decision, we've seen these bulls grow since birth and know the pedigrees like the back of our hand, don't be afraid to use our help.

We would love for you to join us on Friday 2 June at Scone sale yards. We are starting the Sale earlier this year so looking forward to welcoming you all. If you can't make it to the sale bidding is available through Auctionsplus. The bulls are located at Macintyre Station, Inverell, NSW and can be inspected via appointment.

SALE INFORMATION

About Palgrove

The Palgrove stud is based at Macintyre Station, NSW, with our female herds located at Ben Lomond and Inverell, NSW. Our bull depot is located at Drillham, QLD and our new Selling Centre will welcome you in September at Chinchilla, QLD.

For over fifty years, we've adapted our Charolais genetics by committing to research, education, new technologies and a common sense 'cattleman's eye' to suit clients' environmental and management conditions. Palgrove now has the largest registered Charolais herd in Australia.

In 2009, we started developing our Ultrablack bull breeding program. We're positive that they offer another profitable option to our clients' production and target markets. Our bulls are grown out on pasture with moderate sale preparation. We believe a bull's career begins on sale day, so our sale bulls are presented to you ready to work.

AuctionsPlus

AuctionsPlus is an alternate bidding option if you can't attend the sale. However, it is only available to registered users. Please register online at least 24hrs prior to the sale.

Breeding Soundness

All bulls offered for sale have passed a semen test by Veterinarians, Ced or Adam Wise. The Vet will examine all bulls for structural and breeding soundness to Australian Veterinary Standards and will issue a Soundness Evaluation Certificate.

The Markets

In our comments on most sale lots we've made some suggestions as to the most suitable market options for the progeny by the bulls. Some will fit a broad range.

Several factors influence the outcome of breeding, such as the breed makeup of your cows; seasonal conditions during the growth stage; country and management. In making these market suggestions, we consider a number of factors:

- Pedigree and EBVs
- Maturity type and growth pattern
- Physical attributes, like doing ability

Supplementary Sheet

The bulls have scan data supplied by certified scanning technician, David Reid, for Eye Muscle Area, Rump & Rib Fat, Marbling (IMF%) and will also have sale Weight and Scrotal Size measurements.

Guarantee

All bulls sold by Palgrove are guaranteed breeders. Any claim against the breeding ability of an animal purchased should be made in writing and accompanied by a Veterinary certificate within six months of the date of sale. If a bull fails to breed, it may either be replaced with an animal of comparable value or credit to the full purchase price will be given at any of Palgrove's auction sales or by private treaty.

Health

Palgrove maintains a J-Bas 7 status, so stock are free to move anywhere in Australia (please note WA eligibility).

All sale bulls have been inoculated twice with 7-in-1, Pestigard, Vibrio and 3 Day Sickness, as well as a single dose of 3 germ tick blood.

Delivery

We take personal interest in the efficient delivery of all bulls after sale. The agents oversee all deliveries of sale cattle. We will assist in the delivery of bulls where possible in the Hunter Valley or on route to the QLD border via Tamworth.

We've always focused our breeding program on the commercial profit traits, but until now it was difficult to verify the value of Palgrove genetics - particularly for eating quality and the carcass \$ value that Palgrove genetics add.

Over the last few years, we've entered cattle in the Paddock to Palate competition which has enabled us to verify the profitability of Palgrove commercial progeny. Our cattle have risen to the top consistently with winning pens across weight gain, carcass and eating quality. We don't just make claims - we deliver value!

We've had the advantage of watching these bulls grow from birth and know their pedigrees like the back of our hand. As buyers you only get a couple of hours to make an assessment, so we encourage you to use our knowledge to help you select the right bull for your operation.

PERFORMANCE INFORMATION

EBV's

In this sale, there are two separate BREEDPLAN figures presented:

- Charolais Group Breedplan
- Angus MBR Breedplan

We have included the latest Breedplan Data available to us before this catalogue went to print. For more information on accuracies and specific traits not included in this catalogue, visit the Charolais and Angus Society Websites at;

charolais.com.au

angusaustralia.com.au

The Breedplan Data printed in this catalogue has been taken from the March 2023 (Charolais), and Mid April 2023 (Angus) run.

Each breed runs a separate BREEDPLAN evaluation. As the genetic base for each breed is different, only EBVs for animals within a particular breed can be directly compared.

Putting this in practical terms, a 600 day weight EBV of +41 on an Ultrablack bull is not equivalent to a 600 day weight EBV of +41 on a Charolais bull.

Our Ultrablack bull EBV's are provided to us as registered animals on the Angus Multi Breed Register (MBR). Only pure Angus cattle are recored on HBR/APR registers.

This year Angus Australia and Palgrove have been working together to provide tailored benchmarking information on our registered Ultrablack animals. This has involved producing averages and percentile rankings based only on the TACE EBVs of all 2021 born Ultrablack or Brangus animals recorded with Angus Australia. This new benchmarking information is presented in this sale catalogue. We hope this makes it easier for you to make comparisons on these animals.

When assessing cattle performance, it is essential to always compare 'apples' with 'apples'.

CHAROLAIS GROUP BREEDPLAN AVERAGES 2021 BORN CALVES

	BW	Milk	200	400	600	SS	EMA	Rump	IMP%	RBY	Dom\$	Nit\$

Parent Verification Assurance

PV - these lots have been DNA Parent Verified (both Sire & Dam)

SV - these lots have been DNA Sire Verified

DV - these lots have been DNA Dam Verified

DNA verification improves the integrity of the pedigree & EBV information that is displayed in this sale catalogue.

CHAROLAIS REFERENCE SIRES

PALGROVE PLATINUM (P) R/F

- A sire making his mark at Palgrove - producing soft easy doing prodginey with impressive consitution, natural balance and sire appeal.
- Sold in 2020 for \$48,000, He has over 150 progeny recorded from our Spring and autum programs.
- Above average growth and fats with excellent Calving EBV's.
- 12 sons feature in this years sale.

PALGROVE PRESIDENT (P)

- Moderate Birth Weight with high postive Growth.
- An impressive sire with a great hindquater, sleek skin and combination of carcasse and fat.
- Top 10% for carcasse, fat and milk
- Sold for \$30,000 in 2020. His first sons Sell Lot 3, 27 & 42

CHAROLAIS REFERENCE SIRES

PALGROVE PINBALL (P)

- A retained sire - used in our heifer program for his injection of calving ease, doing ability and high Marbling.
- Trait Leader for Low Birth Weight and Scrotal Size and ranks in the Top 1% for IMF.
- 8 Sons in this sale - including some heifer bull options,

LT AUTHORITY (P)

- \$160,000 Record Setting bull from the 2018 Lindskov Thiel Sale.
- Trait Leader for Low Birth Weight and Scrotal Size and High ranking Calving Ease and Fat EBV's
- A Sire producing some great calves - including Lots 1 & 5.

LT VISTA (PP)

- Vista is a very balanced, sound structured bull that is super docile and extra sire appeal.
- Should produce high quality carcass and high yield: top 5% of the breed for BW and top 10 % for IMF
- DNA tested homozygous polled

MODERN | BALANCED | FUNCTIONAL

LOT 1

PALGROVE SAFEHOUSE (P/S) ET ^{PV}

TATTOO: PK S1557E

CALVED: 25/08/2021 (21 mths)

A 'safe as houses' sire to kick off our 2023 sale!

Strong predictable pedigree – he's long and smooth and out of a successful donor female. She's also the dam of Muchmore who sold for \$36,000 and has a son selling at Lot 4.

Authority has been widely used in Canada as well as Australia and is known for producing progeny with excellent phenotypes and moderate birth weights.

He's thick butted; square hiped with a big scrotal. As his data suggests, you can expect his progeny to be born easily with positive Fat and Marbling traits.

LOT 2

PALGROVE SAMURAI (P/S) ^{SV}

TATTOO: PK S1453E

CALVED: 19/08/2021 (21 1/2 mths)

If you're looking for a moderate framed, thick set, carcass specialist, this Oatley son will be high on your list.

Dam - 3/3 calves with a DCI (Days to Calving Interval) of 371.

The first of our Oatley sons were offered at our record-breaking sale in 2023. A son topped that sale at \$115,000, breaking the Australian record at the time, with his remaining sons averaging \$42,000.

Phenotypically Samurai is hard to fault - long and thick, deep sided and easy fleshing. He is backed up with a strong data set ranking him in the top 15% for Growth and Domestic Market \$Index with Marbling in the top 25%.

Expect his progeny to finish early on grass or grain.

The only Oatley son to feature in this catalogue, don't miss out!

LOT 3

PALGROVE SCULPTOR (P) ^{PV}

TATTOO: PK S2100E

CALVED: 15/09/2021 (20 1/2 mths)

Phenotypically impressive bull – we have worked hard at pushing the performance in these polled cattle over many generations – Sculptor is testament to this.

Dam - 3 calves in 3 years with a DCI of 371.

First son to be offered by President, who sold for \$30,000 in 2020. Semen was retained, for his moderation in frame; impressive butt shape; perfect skin type and combination of carcase and fat cover.

We love the depth, softness and tremendous hindquarter in this bull. He's got a big scrotal, easy fleshing, with a touch more frame and plenty of stretch.

He has a fantastic dataset with 200D, Fat Cover and IMF all in the top 5% & Indexes in the top 10-15% of the breed.

A standout **Homozygous Polled**, Stud Sire Prospect.

LOT 4

PALGROVE SECRET SERVICE (P) ^{SV}

TATTOO: PK S1244E

CALVED: 12/08/2021 (21 1/2 mths)

A bull with a great combination of maternal strength and performance in his pedigree.

Dam - 6 calves in 6 years with a DCI of 366. She's a highly fertile Gridmaker daughter.

His sire Muchmore, is a Trait Leader for all growth traits and ranks in the top 5% for Carcase Weight.

A touch more performance, great skin and a bomb proof temperament. He's a deep flanked, thick butted, strong carcass bull with the natural balance and constitution we aim to breed in our cattle.

He has a balanced set of EBVs without pushing any extremes. High positive Scrotal Size with a Northern Maternal Index in the top 15%.

Admire the extra sire appeal - he has the quality and performance to warrant duties in a bull breeding program.

LOT 5

PALGROVE SEVEN SEAS (P) ET ^{PV}

TATTOO: PK S857E

CALVED: 24/07/2021 (22 mths)

Full brother to Lot 1, this time in a Homozygous polled package.

Top shelf pedigree! Out of a consistent producing donor female. She's had 10 natural calves with a DCI of 367, in addition to 11 ET calves.

Sire - The high selling Canadian sire LT Authority, who sold for \$160K in 2018. We've used LT Authority again in our Spring AI, due to his low birth weight and excellent calving ease.

Seven Seas displays the softness and added frame, length and performance stemming from the maternal line. He has a soft supple skin type, big Scrotal with great constitution.

EBV's match his phenotype - moderate Calving Ease with high positive Fat and Marbling.

Diversity in market options from grass to grain, Domestic to Export his progeny will excel.

Homozygous Polled.

LOT 6

PALGROVE SHAKESPEARE (P) PV

TATTOO: PK S721E

CALVED: 12/07/2021 (22 1/2 mths)

An upstanding Sire with plenty of length and performance.

Outcross pedigree and out of a first calf heifer.

His sire Cheyenne Blend, is a Trait Leader for low Birth Weight, ranks in the top 1% for Fat Cover and in the top 10% for IMF.

He's a soft, easy fleshing bull with a great skin and perfect temperament.

He ranks with positive Growth EBV's, IMF in the top 15% and Fat Cover in the top 1%.

His progeny will fit a range of marketing options at sale time. If you are looking to add softness and fat cover to your program then rank him high on your list.

LOT 7

PALGROVE SHERIFF (P) R/F ^{SV}

TATTOO: PK S1395E

CALVED: 17/08/2021 (21 1/2 mths)

Pedigree, Performance and Phenotype – they don't come much better.

Dam - 3/3 calves with an amazing DCI of 363. Her sire Heritage is also the sire of Landmark – The female progeny of both these sires consistently produces these top end bulls.

Sheriff is the first son to be offered by the highly anticipated Platinum, who sold in 2020 for \$48,000.

He's a soft, easy doing bull with impressive butt shape and that extra sire appeal. His mid-maturity pattern, phenomenal length, natural balance and constitution make him a standout.

EBV's confirm his quality by indicating strength in all the key profit driving traits.

A clone of his sire Platinum with a pedigree that combines Hallmark, Charm, Bond, Bluegrass, Heritage and Viagra.

There is no doubt he is a Stud Sire prospect.

LOT 8

PALGROVE SOUTHERN STYLE (P) ^{SV}

TATTOO: PK S1584E

CALVED: 26/08/2021 (21 mths)

Southern Style is a medium framed, carcass improving bull with a great phenotype.

His sire, Nitrogen was retained for use in our heifer program. He's Top 1% for Birth Weight, positive Calving Ease and negative Gestation Length, whilst maintaining high EMA & Fat.

A similar shaped bull to the previous lot; he's moderate framed, long bodied, has a great butt shape & Scrotal Size.

Well balanced EBV's with positive growth and high ranking Scrotal Size, EMA & Fat Cover.

A bull we suggest would add fast early growth and increase Carcass and Yield in his progeny - They would ideally suit the Domestic market with the ability to grow out to heavier weights.

LOT 9

PALGROVE SPORTSMAN ^{PV}

TATTOO: PK S1143D

CALVED: 09/08/2021 (21 1/2 mths)

Platinum over a Justice daughter, a perfect combination to produce commercial relevant bulls with stacks of carcass and performance.

Dam - 3/3 calves with a cracking DCI of 364.

Platinum sold in 2020 for \$48,000. He's been used heavily, with over 140 progeny recorded in our Spring and Autumn programs. The sons in this sale will show why we are so impressed with his calves.

A balanced set of EBVs without pushing any extremes, moderate Growth, positive Calving Ease, negative Gestation Length and fats in the top 25%.

Sportsman is long, thick and has a perfect hip design which is a feature in the Platinum progeny.

He's moderate framed, mid-maturity and performance indicates his progeny will excel over British or Bos Indicus females for the Domestic Market.

LOT 10

PALGROVE SUPERIOR ^{SV}

TATTOO: PK S1880C

CALVED: 06/09/2021 (21 mths)

Another moderate framed, long, thick butted Platinum son.

Very similar to the previous lot and typical of what Platinum is producing - extreme length, big scrotal, plenty of volume and capacity with a great combination of carcase and softness.

Dam - quality Calibre daughter who are renowned for their doing ability and udder structure. A son has sold to \$18,000.

EBV's indicate positive Calving Ease, Scrotal Size and Fat Cover in the top 20%.

He would be a solid performer in any environment - grass or grain, Domestic or Export he will excel. The maternal strength of the pedigree also suggests he would produce a wonderful line of replacement females.

LOT 11

PALGROVE STOWAWAY (P) R/F TW ^{SV}

TATTOO: PK S650E

CALVED: 06/07/2021 (23 mths)

A pair of Red Factor heifer bulls to follow.

The first of 8 Pinball sons to be offered for sale. He was retained for use in our heifer program injection calving ease, doing ability and stacks of Marbling.

Pinball scanned 5.7% for IMF at 15 months off grass.

Stowaway has more frame than the typical Pinball progeny; he's long and square, thick topped, great skin and wrapped in a mid-maturity pattern.

EBV's are confirming his maternal strength - high positive Milk, IMF in the top 2% with high positive Fat Cover.

Pinball over a Landmark daughter - it has certainly clicked.

Purchaser \$

LOT 12

PALGROVE STICKLER ^{PV}

TATTOO: PK S719E

CALVED: 12/07/2021 (22 1/2 mths)

Cracking Pinball son with that soft supple skin we love.

Dam - 2 calves in 2 years with a DCI of 367. Out of a first calving heifer with a predictable pedigree, by Muchmore M349 out of Naturalism's Dam.

Very similar to the previous lot - impressive combination of carcass and doing ability.

High ranking EBV's for Fat cover and Scrotal Size (top 10%) with IMF in the top 5%. At 400 day scanning he reach 5.0% off grass.

Stickler would suit the Domestic Market over British females - the type we love to offer to our Hunter Valley clients.

LOT 13

PALGROVE SNOWDRIFT ^{PV}

TATTOO: PK S1335E

CALVED: 15/08/2021 (21 1/2 mths)

When his sire Platinum sold, he was described as 'one of the most complete sires in the sale and thick as a brick' - Snowdrift is one of the thickest bulls in this sale.

Dam - 3 calves in 3 years, with a DCI of 368.

Snowdrift is a bull that catches your eye from every angle - Medium framed, deep and soft with that extra volume and capacity.

EBV's confirm his phenotype with Carcase, Yield and EMA all in the top 1% combined with high positive Growth.

A top shelf commercial bull for any market - we love him.

PALGROVE STALWART R/F ^{PV}

TATTOO: PK S1337E

CALVED: 15/08/2021 (21 1/2 mths)

You will continue to see the pattern in these Platinum sons - great phenotype, medium framed with stacks of carcase.

Dam - 3 calves in 3 years with a cracking DCI of 367.

Stalwart is a super thick, higher yielding sire with optimum frame.

Profit driving EBV's with both \$Indexes in the top 10% - He's high positive for all the money-making traits, Growth, Yield, EMA and Carcase Weight.

He would produce sale topping weaners and the ideal type to improve Carcase and Yield over British or Bos Indicus females.

PALGROVE SENATOR (P/S) ^{PV}

TATTOO: PK S875E

CALVED: 25/07/2021 (22 mths)

Low Birth Weight sire out of a first calf heifer.

Dam - First calving heifer, now has 2 calves in 2 years and by the carcase improving sire Masterpiece.

His sire Easy Gain has curve bending EBV's and is a Trait Leader for low Birth Weight and all Growth traits.

Medium framed, mid-maturity bull with great carcase shape and length.

EBV's confirm Calving Ease with high rankings across the spectrum (actual Birth Weight of 28kg). He combines this with high positive Milk, Growth, Fat Cover and Marbling.

PALGROVE SINGLETON (P) ^{PV}

TATTOO: PK S1013D

CALVED: 04/08/2021 (22 mths)

A complete bull in a Homozygous Polled package.

His sire Legacy offers a balance of thickness and softness. He is a trait leader for 200D and was the sale topper in 2017 at \$40,000.

Dam – 3/3 calves, by Hombre.

Moderate framed, naturally balanced and thick topped with sire appeal. Singleton is deep, has a great skin and bomb proof temperament!

EBVs suggest low BWT & positive calving ease, moderate growth and strong carcase traits.

He's a versatile sire to hit a variety of markets.

Homozygous Polled.

PALGROVE SAXON (P/S) ^{PV}

TATTOO: PK S1281E

CALVED: 13/08/2021 (21 1/2 mths)

Naturalism is passing on impressive growth and carcase attributes to his progeny, Saxon is a prime example.

Dam - 4/4 progeny with a DCI of 381.

Long, carcase bull with great constitution. Saxon has a good butt shape and great Scrotal Size (top 15%).

His performance data backs his phenotype with Yeild in the top 15% & EMA in the top 10%.

Top ranking EMA and yield EBV'S reinforce his ability to breed progeny into the premium markets - domestic or export.

Saxon should produce progeny with heavier weights whether he is joined to British, Bos indicus or Euro females.

PALGROVE SANDSTONE (P) ^{SV}

TATTOO: PK S1015E

CALVED: 04/08/2021 (22 mths)

Don't miss out - the only Prophet son catalogued for Scone 2023!

Prophet is a homozygous polled Silverstream Holster son with low Birth Weight and Gestation Length in the top 1%.

Dam - goes back to Winn Mans Skaggs and has had 4 calves so far.

A free moving sire with a smooth muscle pattern. Sandstone is deep, easy fleshing, has a good skin and big scrotal.

His data indicates positive Calving Ease with positive Growth and Fat.

A medium boned, mid maturing maternal sire that would breed exceptional replacement females.

PALGROVE SUPERSTAR (P) R/F ^{SV}

TATTOO: PK S1583D

CALVED: 26/08/2021 (21 mths)

Polled and gold with a 'Superstar' pedigree - Pinball over a Landmark daughter.

His sire Pinball is a trait leader for low Birth Weight and Scrotal Size and ranks in the top 1% for IMF.

Dam - First calver who has now had 2 calves in 2 years with a 337 DCI. We are loving seeing these Landmark daughters in production - They're long and feminine with ideal udder structure.

You'll appreciate the smooth muscle pattern combined with his thick top, beautiful skin and ability to move freely from built in constitution.

EBV's emphasise his softness - Fats in the top 20%, IMF in the top 5%, Milk in the top 15%.

Plenty of quality to back your judgment. He would produce a great line of replacement females.

PALGROVE STRONGHOLD (P) ^{SV}

TATTOO: PK S1366E

CALVED: 16/08/2021 (21 1/2 mths)

Bred in predictability in this pedigree with Platinum over an Evolution daughter.

Dam - 4 calves in 4 years with a DCI of 351. Strong fertility record, her sons have topped at \$20,000.

He has a smooth muscle pattern with an enormous amount of thickness when you get behind him. He's deep sided; sleek skinned with a big scrotal.

We are excited by the consistency and commercial relevant traits in these Platinum sons - medium, framed, plenty of weight for age and strong carcase traits.

His maturity pattern indicates he would be an ideal candidate to produce top end weaners or progeny for the heavy domestic or export weights.

PALGROVE SUCCESSOR (P) R/F ^{PV}

TATTOO: PK S929D

CALVED: 29/07/2021 (22 mths)

A low-birth-weight sire out of a first calf heifer that won't compromise on growth traits. Born at 36kg we suggest he would be suitable for heifers.

His sire Easy Gain has curve bending EBV's - Seldom do you find a bull that's a Trait Leader for low Birth Weight, plus all Growth traits.

Dam - 2 calves in 2 years with an average DCI of 367.

He's a mid-maturity bull with extreme length, spring of rib and great carcass shape for a bull that still measures 5.6% for IMF as a yearling off grass.

Breed leading EBV's from Calving Ease, Growth to Fat Cover and an IMF% in the top 1%.

PALGROVE SUBLIME (P) ^{SV}

TATTOO: PK S1105E

CALVED: 07/08/2021 (22 mths)

A low birth weight bull, that we suggest would be suitable for heifers.

His sire Pinball was used in our heifer program and is now a trait leader for Scrotal Size and low Birth Weight.

Dam – First calf heifer, who’s now had 2 calves in 2 years with a 350 DCI.

He’s smooth made, naturally balanced with plenty of thickness across the top. We love his hip shape and soft supple skin.

His EBV’s indicate good Calving Ease traits with positive Milk, Fat cover and IMF in the top 5%.

He’s a very complete young sire.

Homozygous Polled.

Tissue Sampling Unit (TSU)

Allflex® Tissue Sampling Units provide a simple but effective means for DNA testing livestock. Collect a clean, uncontaminated sample in seconds with a single squeeze motion, TSU's are easy to use and yield excellent lab results.

TSU's can be paired with a matching NLIS and visual management tag, creating a simple link between the genetics of an animal and it's identification.

ULTRABLACK BULLS LOTS 61-80

We've been breeding Angus bulls since 1989 and since 2009 we have pioneered the development of the Palgrove Ultrablack. These genetics were developed to cater to clients who require black hidred bulls that retain a small percentage of Brahman (approx 20% Brahman Infusion only).

We knew that our clients needed clean sheaths; sleek coats; growth and carcass quality, so we focused our genetic design on these when selecting for both phenotype and objective data.

We have been careful to select predictable Brangus and Angus breeding sires from commercially focused herds with high accuracy Breedplan data.

Our Ultrablack breeding program continues to develop, and we now have a larger percentage of generationally bred Ultrablacks (UB5s and UB6s)

Reports from our clients have been overwhelmingly positive - "the heifer progeny mature at an earlier age and fertility percentages have risen markedly".

Also, "the UB steers are weighing heavier earlier than our purebred Angus and we are able to sell them into the same markets, at the same rate"

Performance data:

We see the most sustainable genetic gain being achieved by using practical, commonsense physical selection alongside objective performance data to ensure the best bulls are produced for the next generation.

Our Ultrablack bull EBVs are provided to us as registered animals on the Angus Multi Breed Register (MBR). Only pure Angus cattle are recorded on HBR/APR registers.

This year Angus Australia and Palgrove have been working together to provide tailored benchmarking information on our registered Ultrablack animals. This has involved producing averages and percentile rankings based only on the TACE EBVs of all 2021 born Ultrablack or Brangus animals recorded with Angus Australia. This new benchmarking information is presented in this sale catalogue. We hope this makes it easier for you to make comparisons on these animals.

Important to note that if you search these animals on the Angus Australia data base, the percentile ranking displayed will be of the entire Multibreed Breed Register (MBR).

Note: If required, any of our bulls can be registered on the Brangus Society's Enrolment Register.

ULTRABLACK REFERENCE SIRE

PALGROVE KINGPIN (P)

- Kingpin himself held the Australian Ultrablack top price record for many years, only to be broken by one of his sons Primemover in 2020 when he sold for \$34,000. This record has since been broken again in 2022.
- His raw carcass data when scanned at 23 months was 140 centimetres squared for EMA and 7.3% for IMF.
- He has been breeding extremely consistent for many years and we continue to use him in our heifer programs.

ULTRABLACK REFERENCE SIRE

PALGROVE PREMIER (P)

- When he sold for \$32,000 in 2020 he was describe as 'a text book Beef Bull'.
- It wouldn't matter what breed or segment of the industry you are involved in, you can't help but appreciate the commercial relevance of Premier.
- His raw data scans on sale day; EMA - 138cm, Fat - 12/9, scrotal - 41cm, IMF - 6.6%.
- 12 sons feature in this years sale.

DMR INVESTMENT (P)

- Imported sire out of the Draggin M Ranch in the US.
- Palgrove has exclusive Australian rights, and these are the first sons to sell in the country.
- He's a sire that is injecting strong carcase traits in his progeny - Their medium framed; deep sided, easy fleshing and tend to lean a touch more to the Bos Indicus in phenotype.12 sons feature in this years sale.
- He will sire many of the feature Brangus and Ultrablack bulls in our Annual sale.

LOT 61

PALGROVE SUPERCOOL (P) ^{SV}

TATTOO: QHB S740

CALVED: 13/07/2021 (22 1/2 mths)

Angus MBR Registered: AA 81% | Br 19%

An eye appealing bull out of a first calf heifer to kick off what we believe is the best draft of UB bulls we have offered at our Hunter Valley sale.

His sire Kingpin was a cornerstone bull of his generation, his sons held the Australian top price Ultrablack record for several years.

Dam – first calf heifer whose now had 2 calves in 2 years, with a DCI (Daily to Calving Interval) of 361. You will notice the great Yankee Queen cow appear in the pedigree of 5 out of the first 7 lots.

‘Supercool’ has that extra sire appeal; length; thickness and that super sleek skin we aim to bred in this UB bulls.

Homozygous Polled, Homozygous Black.

PALGROVE

ANNUAL BULL SALE

8TH SEPT 12 NOON | Chinchilla QLD

100 CHAROLAIS

100 ULTRABLACK & BRANGUS

***NEW VENUE* SAME BRAND**

Palgrove genetics are 'Bred to Deliver' from Paddock to Palate

Caption Class 37 - Champion Individual carcass

We said 2021 was unprecedented – however 2022 left us speechless after winning the 2022 RNA Paddock to Palate for the 5th consecutive year.

The three-phase competition attracts some of Australia's best producers in what is the nation's richest beef competition of its kind. It allows us to benchmark our cattle against the best and prove the commercial focus in terms of profitability we apply to our genetics. The competition runs across three classes; Class 37 - 100-day grain fed; Class 38 - 70 day domestic and Class 40 - 100-day HGP free.

We consistently talk about our genetics adding value at all points of the supply chain (breeder, backgrounder, feed lotter, processor & consumer) – this competition confirms that claim. The cattle are measured on performance in the feedlot (weight gain), carcass quality and eating quality (MSA Index).

In the past 5 years, Palgrove has not only won overall but has featured with individual wins and placings in all three of these categories

CLASS 37

- OVERALL - 1st, 2nd & 4th (from three entries)
- CHAMPION INDIVIDUAL CARCASS • RESERVE CHAMPION INDIVIDUAL CARCASS
- MSA Eating Quality (Pen) – 2nd
- Weight Gain Pen of six – 3rd

CLASS 40 – (HGP FREE 100 DAY)

- Individual MSA Eating Quality - 1st and 2nd
- Highest Weight Gain (Pen) – 1st
- Highest Weight Gain (Individual)– 1st (2.91kg/day)
- OVERALL – 3RD & 6th

'Bred to Deliver' through balanced breeding objectives

'Balance' is one of our key breeding objectives – by balance we mean not breeding for extremes or one particular trait but keeping balance across all of the key profit drivers. This breeding objective is the backbone of our success in the Paddock to Palate Competition and reinforces our claim that we are supplying our clients with genetics that have consistently proven to be at the forefront to improve profitability in commercial beef production.

Highlighted by the success of Palgrove sired Charolais cross and Ultrablack cross Steers from the Crombie Family's Aurelian Pastoral Co and Simon and Mym Daley. Aurelian, using Ultrablack bulls over Angus females, achieved the highest individual weight gain in Class 70, with an impressive 3.79kg/day, the highest gain across the entire competition. They also won Champion pen in the MSA eating quality. Using Palgrove Charolais bulls over tropical based females, Simon & Mym Daley, Daley Cattle Co. took home the Champion Individual Carcass in Class 40.

We firmly believe the consistency of these results doesn't come from selecting the right steers for the competition – it's from continuously challenging ourselves through decades of strict selection for efficient cattle with superior performance that is now firmly entrenched in the 'Palgrove DNA' – they really are '*Bred to Deliver*'

Class 40 Pen - Highest weight gain Pen of 6
