

# WINTON BULL SALE

1pm, Friday 14th July 2023

Winton Saleyards, QLD and via AuctionsPlus

39 Charolais Bulls on offer - 30 Polled, 8 Red Factor

Selling Agents: Elders Winton

[WWW.GLENLEABEEF.COM.AU](http://WWW.GLENLEABEEF.COM.AU)

# WELCOME TO OUR ANNUAL WINTON BULL SALE

Glenlea Charolais was established in 1973 with the simple vision to produce more kg of beef from our cows and existing land base using Charolais genetics. That productivity boost still drives our program today. From modest beginnings Glenlea Charolais found innovative pathways to grow through good and tough times. Our plans are to establish a base in North QLD in the near future. We are now a major Charolais seedstock producer in Australia as Glenlea Beef with the goal to grow more and cement our position as a Charolais seedstock producer of influence, supplying large lines of quality bulls to northern producers.

In 2021 we purchased the entire herd of Fairfield Charolais females from Lindsey and Belinda Hindle to add to our growing Charolais cow herd now numbering 1000 cows. Glenlea Beef's future aspiration is to grow to be Australia's Largest Charolais seedstock Business and supply large numbers of bulls throughout QLD and NSW to our existing and new clients. Our cow herd is located across several properties in sub-tropical coastal far north NSW, an environment that quickly finds out any poor doing cattle, only the best doing females are retained to enter the herd. During the last 18 months we have added a large herd base in central western NSW at Coonabarabran.

With 3 bull sales again this year in Winton, Clermont and Roma. Our focus is CENTRAL and NORTHERN QUEENSLAND with our bull sales, now and into the future. Taking our bulls to our clients! Our performance recording and genetic testing is a key part of our growth.

In 2023 we have nearly 300 bulls to offer at our sales and in the paddock! Our stud cattle are our primary business and selling bulls that add value to our client's bottom line, and the entire supply chain is what we strive for in everything we do with our cattle.

Our after sales service we take very seriously and back our stock with 100% guarantee. Our bulls have thrived in the Winton / Longreach district and elsewhere at their new homes in the Clermont area, along with Emerald, Alpha and further north to Charters Towers, Prairie and Julia Creek.

**Feedback has been very positive with repeat buying the benchmark, we attribute this easy adaptability to having generationally bred cattle with natural doing ability as our number 1 selection criteria, with performance recording and all the other selection and breeding tools we use being applied after that.**

The bulls we have on offer in this sale include sire prospects, which are some of the most outstanding bulls we have available this year. Joint prefix bulls are from our joint venture breeding programs and is one of our growth strategies now and in the future.

The draft includes 5 bulls selected from the Calmview Stud, whom we have invited to offer bulls at all our sales again this year. Tough coastal bred bulls with same breeding philosophy as Glenlea, that you can buy with confidence as they will adapt and produce high value progeny.

Regards,

Roderick Binny  

# WINTON BULL SALE

1pm on Friday the 14th of July 2023

Sale to be held at Winton Saleyards, QLD and via AuctionsPlus

## LUNCH AND REFRESHMENTS

We extend an invitation for anyone to come along and inspect our bulls and enjoy lunch and refreshments on us, provided by Elders Winton and Glenlea Beef.

## 39 Charolais Bulls on offer

30 Polled Bulls | 8 Red Factor Bulls

## INSPECTIONS OF BULLS

Available from Wednesday 12th July after midday at Winton Saleyards.  
Bulls will be penned from 10am on sale day.

## VIDEOS OF FEATURE BULLS

Available to view at [www.glenleabeef.com.au](http://www.glenleabeef.com.au) a week before the sale.  
They will also be on AuctionsPlus from Monday 10th July.

## CONTACTS

STUD PRINCIPAL

# Conditions of Sale

## BULL HEALTH AND FERTILITY

All bulls have been vaccinated for 3 germ blood, 3 day, botulism and 7 in 1. Bulls have all been semen tested, both for motility and morphology.

## SUPPLEMENTARY SHEET

Available from Monday 10th July with updated information such as weights and carcass scans and semen tests.

## GUARANTEE

All bulls are guaranteed to be able to serve cows naturally at the time of sale and are guaranteed for 6 months from sale day. If a bull should prove infertile or unable to serve cows naturally, provided the inability not caused by injury or disease contracted after sale, the bull will be replaced with a bull of similar quality or credit given for another of our sales by discussion with purchaser. Less salvage value of the bull.

## INSURANCE

We recommend you insure your new bulls. Elders can arrange this at fall of hammer sale day.

## AGENT REBATE

A rebate of 2% to all licensed agents is available, introducing buyers 24 hours prior to sale and settling accounts within 7 days.

## REFRESHMENTS

A complimentary lunch and drinks will be provided on sale day by a local service club on behalf of Glenlea Beef, so even if you don't require a bull this year come along, inspect the bulls and enjoy lunch on us!

## PHONE BIDDING

Phone bidding is available by contacting the agents or vendor prior to sale to arrange for a dedicated agent to call you and assist you with your bidding.

## TRANSPORT

Delivery will be coordinated by Scott Taylor of Elders Winton.

## BULL PROGENY AND TARGET MARKETS

I personally (Rod Binny) make a number of suggestions on individual lots regarding target markets for progeny. Many bulls will fit all markets for progeny as plans change with seasonal and market conditions.

When making these suggestions I take into account physical body type or Phenotype, maturity pattern and doing ability, along with pedigree and EBVs.

We have bred many of these bloodlines for generations and so know how they breed. These suggestions are just another assistance for you to assess the bulls in a sale environment, in a very short space of time, while we have watched them grow and develop over their life to date from birth to sale day.

Having said that, many factors effect breeding outcomes - seasonal conditions from birth to weaning, your cow herd breed make up, management and type of country your cattle run on.

## ACCURACY OF CATALOGUE

Every effort is made to be as accurate as possible. However mistakes can happen in the construction of catalogue and printing, we will resolve any issues at best as possible but make no warranty.

# AuctionsPlus

## How to Register and Bid on AuctionsPlus

1

Go to [www.auctionsplus.com.au](http://www.auctionsplus.com.au) to register at least 48 hours before the sale.

2

Select "**Sign Up**" in the top right hand corner.

3

Fill out your name, mobile number, email address and create a password.

4

Go to your emails and confirm the account.

5

Return to AuctionsPlus and log in.

6

Select "**Dashboard**" and then select "**Request Approval to Buy**".

7

Fill in buyer details and once completed go back to Dashboard.

8

Complete buyer induction module (approx. 30 minutes).

9

AuctionsPlus will email you to let you know that your account has been approved.

10

Log in on sale day and connect to auction.

11

Bid using the two-step process – unlock the bid button and bid at that price.

12

If you are successful, the selling agent will contact you post sale to organise delivery and payment.

For more information please contact us on:

Phone: (02) 9262 4222

# Glenlea Beef: Background, Bloodlines, Breeding Strategy & Customer Service

Australian Charolais breeders have embraced performance recording as other countries have reduced their efforts, I have seen this first hand in north America. Our data now is more accurate and detailed, making looking overseas less likely to add genetics that take your herd forward in genetic development than using **Australian evolved genetics that are the best in the world for our environments and markets** with large amounts of individual data to help us as seedstock producers, identify positive influences.

Glenlea Beef is now a large seedstock enterprise, totalling 1000 Charolais females. This includes the purchase of the Fairfield herd in 2021. We have been using **Australian bred sires** to continue the evolution of the herd over the last 10 or so years as Australian bred sires are the best adapted to our country and markets. The genetic base of the Glenlea herd is now as diverse as the breed in Australia, with a blend of many bloodlines and that meet our criteria and with the heart being a number of Glenlea cow families that have origins going back over 40 years, with descendants not only directly in our herd but many studs throughout the country.

**Our genetic base** of the Glenlea herd is now as diverse as the breed in Australia, with a blend of many bloodlines and different phenotypes to produce an Australian type Charolais. We have a degree of type variation, which is necessary with our range of markets and geographic footprint, from higher growth and yield types for northern markets over bos indicus cows to more moderate, early maturing types

that suit more southern markets, but all assessed through the same process for all economic traits. This will be evident through the catalogue and comments, and EBV's on individual lots will highlight this.

**Our breeding strategy** is to produce powerful performance cattle in a medium to moderate frame score with a complete carcass. By that we mean above average yield, EMA, fat cover and IMF%. Measuring birthweights to be able to assist our bull clients to make the best selections for their operation and maintaining calving ease through BW and early gestation length.

**Maternal strength** focus on fertility, milking ability with great udders and moderate sized teats for longevity. While we are primary a terminal breed, in northern markets especially, Charolais x heifers are retained in there 1000's, so as seedstock producers we must always have our customers and in turn their customers in the front of mind in our breeding decisions, as those decisions ripple down the supply chain and leave big impacts, both positive and negative.

**Polled genetics** have progress in our breed to match horned bloodlines for every economic trait. Our herd still has a number of horned females and these are joined to homozygous polled sires. 98% of our calves born in the last 5 years are polled, many homozygous, and all testing will be available in catalogue or supplementary sheet.

# Glenlea Beef: Background, Bloodlines, Breeding Strategy & Customer Service

**BREEDPLAN** is a genetic evaluation tool now over 30 years old and proven across many breeds and countries. We no longer print a detailed general explanation in our catalogues for bull sales or female sales as that information is available at the touch of your phone screen or click of your mouse! We are happy to explain any of the finer points of EBV's as they relate to the Charolais breed and specifically to our cattle, just call and ask! In the comments of each lot, you will see our summary of the EBV's printed for that lot.

**Customer Service** is at the heart of what we do, we spend much of our time travelling to clients both commercial and stud to help with a full range of services. We provide many services to all our clients from the most basic to full stud breeding and marketing support. Your success is our success. We are here to assist and work with you and your agents to help you achieve the highest possible price for your Glenlea sired stock.

For more information about Glenlea Beef, please contact Stud Principal Roderick Binny on 0409 911 791.

**COMMENTS:**

Massive bull, carcass, bone and volume. Retained especially to lead off this sale.

A real sire prospect to breed herd bulls from a Charolais or Brahman base herd or prime bullocks and heavy feeders.

Fine hair, strong head and well hooded eye, docile nature.

Waterford Charolais - VIC semen rights.  
Challambi Charolais - NSW with an exclusive semen package.

**Our first sons of JEHU will be offered at WINTON in 2024!**

## REFERENCE SIRE: ELRIDGE LORD (AI) (P) (R/F) (RUU L43E)

Trait leading sire for growth, fat cover with moderate BW and excellent EMA. Progeny are docile and can finish at any age so have great market versatility. Really breaks the rules in opposing traits of growth and finish. His daughters are coming through with perfect udders, extra growth and plenty of milk. Top 1% all growth traits, Top 10% Fat Cover.

**SIRE:** PARINGA RIO BRAVO D213E (TOL D213E) (P)

**DAM:** ELRIDGE HARMONY (RUU H14E)

## REFERENCE SIRE: ADVANCE KODY K13 (P) (R/F) (ADV K13E)

Big strong Polled sire that has produced many great bulls in the Fairfield herd. High growth progeny with good bone, slick skin and fine hair, with great carcass and ability to finish. Sire was a champion at EKKA and a very high growth bull. Dam was from the royal show Champion Gina cow family. EBVs Top 10% of breed EMA, top 15% Beef Yield and IMF%.
