'ARDMONA' GILGANDRA

cooindaborders.com

Welcome!

We would like to welcome you to our 6th on property ram sale and thank you for your ongoing support.

It has been another busy year in the stud and you may have seen us out and about at local shows and field days. We have continued our involvement with the Gilgandra High School Livestock Show Team students throughout this show season. There were many early starts for the students who travelled around the region with us providing not only excellent help but a whole lot of fun along the way.

This years charity ram (Lot 1) will have the proceeds of his sale donated to the Gilgandra Hospital's Windmill Cottage so feel free to throw an extra couple of bids on him.

The performance of our flock is recorded through Lambplan and we use the ASBV data generated in the analysis to select for animals with a balance of traits best suited to our clients and their production environment. In the past two years we have introduced a couple of outside sires that will help us to improve on a number of important traits in our existing well recorded and stable flock. These rams have a lot to offer our flock both in genotype and phenotype and we are looking forward to seeing their impact on future drops of lambs.

Sheep Genetics (Lambplan) have introduced a Data Quality Score (DQS) with a 1-5 star rating system which describes the overall quality of a flocks data. Our flock has been allocated a DQS of 5 stars - so it looks like those late nights in front of the computer have paid off! The ASBV information displayed in our catalogue has been calculated in the 15th of August Lambplan analysis. All efforts have been made to ensure we provide accurate data both in the analysis and this catalogue.

As part of our ongoing focus on biosecurity we have continued to work through Australian Johne's Disease Market Assurance Program (SheepMAP). We have now progressed to the highest status as part of this scheme with the flock now having a rating of Monitored Negative 3 (MN3) and fully Gudair vaccinated. Additionally we have maintained our Ovine Brucellosis Accredited Free status.

Videos of all lots will be available to view on the AuctionsPlus website in the lead up to the sale or alternatively inspections of rams prior to sale day can be arranged at a time that suits you.

Sale day inspections will open at 11am with the Auction to commence at 1pm. This year will certainly be an excellent opportunity to update your ram team with some fresh, young sires while ram prices are low. Please also join us for lunch from 12pm and a beer after the sale. Delivery on rams purchased can be arranged and encouraged as we love the excuse to hook the trailer up for a day on the road.

Our future sale ram numbers will be driven by your demand so please get in touch with any feedback or enquiries on 0407 537 836 or cherie@cooindaborders.com. **George & Cherie Pagan**

The vendor offers to pay a purchasing agent rebate of 2% to licenced agents who influence prospective buyers to the sale and settle on their behalf within 7 days.

Introductions must be in writing and directed to the settling agent Elders of Dubbo no later than 24 hours prior to the sale.

Cooinda Health Status & Treatment Information

- Accredited Brucellosis Free (Accreditation No. 76987)
- OJD Market Assurance Program MN3V (Accreditation no. NS76986)
- All rams approved Gudair vaccinates
- Vaccinated with 6in1+B12 and Eryvac at Marking & Weaning
- Last 6in1 vaccination in August 2023
- Shorn and treated with Avenge on 22/06/2023
- WEC completed mid August drenching not required

In the interest of the longevity of your purchase we would recommend bringing any purchased rams in line with your current health and worm control programs. If you look after them, they will look after ewe!

All sale rams have been grazing a cereal crop. If you plan on feeding grain we recommend increasing their ration as per grain feeding guidelines.

All rams vet inspected on Wednesday 6th September 2023 by Dr Nadine Allan, Gilgandra Veterinary Clinic.

- ASBV's in **BOLD** indicate traits in the top 20% for the breed
- Rams with a \$ next to the BLX index indicate a \$superborder
- Figures in the white row below ASBV's show accuracy of breeding values provided (%)
- BT/RT = Birth Type/Rear Type
 - 1 = Single
 - 2 = Twin
 - 3 = Triplet
 - 4 = Quad
- BWT = Birth Weight (kg)
- WWT = Weaning Weight (kg) at 100 days
- PWWT = Post Weaning Wt (kg) at 200 days
- AWT = Adult Weight (kg)
- MWWT = Maternal Weaning Weight (kg)
- PEMD = PW Eye Muscle Depth (mm)
- PFAT = Post Weaning Fat (mm)
- WR = Weaning Rate
- BLX = Border Cross Index (\$)

Superborders

SuperBorders is the brand name for Border Leicester Rams that are of high genetic merit for a first cross production system. The official SuperBorder yellow ear tags allow SuperBorder rams to be easily identified.

To qualify as a SuperBorder a Border Leicester ram must be above the 50th percentile for the breed based on the BLX index (Border Leicester Cross Index). The 50th percentile index value is calculated based on the 15th of August LAMBPLAN run each year. It is used to determine SuperBorder rams for that selling season. The BLX Index has been developed for production systems using Border Leicester sires crossed to Merino dams to produce first cross progeny. BLX balances maintaining mature size with significant improvements in early growth and reproduction. A higher BLX index targets animals that are more profitable in this production system.

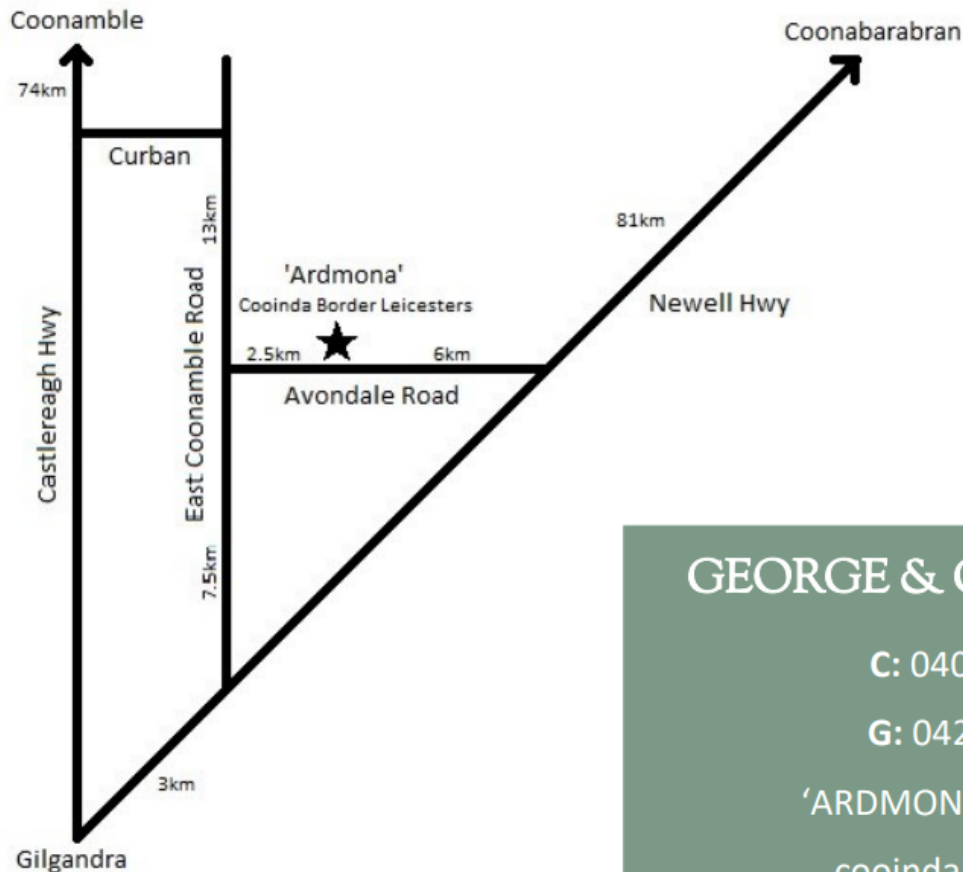

Not all rams sold by SuperBorder members are necessarily SuperBorder quality, but are bred by committed, registered breeders striving for genetic gain. SuperBorder rams must be structurally sound and of good breed type.

The SuperBorders group is made up of a number of studs across 5 states who work together in meeting market requirements for objectively measured maternal genetics in the Australian Lamb Industry. SuperBorders members are industry leaders with longstanding involvement in research, trials and industry resource flocks.

First cross lambs sired by 100% SuperBorder rams may be sold as 'Bred from SuperBorders'. Special yellow pen cards and SuperBorders ear tags are available to identify these animals when sold in physical sales. Virtual yellow sale cards are also available for SuperBorders progeny sold on online sale platforms. Please speak with us if you would like either of these marketing materials.
