14 ELITE FEMALES | 6 GENETIC PACKAGES

AUCTION OPENS - 9^{AM} WEDNESDAY 16TH AUGUST 2023
TIMER STARTS - 6^{PM} THURSDAY 17TH AUGUST 2023

welcome

Limousin Genetics Australia welcomes all comers to our inaugural Limousin Genetics Australia Elite Female & Genetics Sale. Limousin Genetics Australia is focused on Breeding Better Beef with particular emphasis on carcass quality and yield. Influencing the development of the female herd to match with bulls that will provide what the market is looking for is important to us.

We aim to source, breed, and provide access to genetics that produce progeny who can thrive and perform in Australian conditions. We believe there is an increasing opportunity and demand to provide access to Australian Limousin genetics for both seedstock and commercial producers. It is time to develop confidence in and promote the genetics available within the Australian herd. Continuing to carefully source and integrate imported genetics into breeding programs is important, but it is equally important to be aware of the quality of Australian genetics available. In order to do so the genetics we promote need to be suited to Australian conditions and markets. We are focused on making good our goal of Breeding Better Beef for the consumer.

Each lot in our inaugural sale has females and genetic packages with elite and proven pedigrees that we believe will further enhance existing herds and provide a strong foundation for those looking to establish their herds.

All the females will be available for inspection on the BJB Limousin property, 32 Frohloff's Rd Yarraman Qld, from Tuesday 13 August or inspections can be arranged prior to this by arrangement directly with vendors. We invite everyone to a day of on property inspections of our females and a Bull Walk for the BJB Limousin Invitational Bull Sale on Thursday 17th August. Complimentary food and drinks will be available throughout the day and into the evening. Come along and enjoy the company of other likeminded enthusiasts for conclusion of the Limousin Genetics Australia Elite Female & Genetics sale - the AuctionsPlus clock starts the run down at 6.00pm.

Please use AuctionsPlus online bidding and ensure you have registered your details as required. Instructions on how to register and bidding are on page 4 of the catalogue or alternatively you can arrange for agents Aussie Land & Livestock or Bartholomew & Co or your preferred agent to bid on your behalf. Videos of all sale animals are available on AuctionsPlus and www.limousingenetics.com.au

PRE-SALE INSPECTIONS

All the females will be available for inspection on the BJJ Limousin property, 32 Frohloff's Rd Yarraman Qld, from Tuesday 13 August or inspections can be arranged prior to this by arrangement directly with vendors.

FEMALE INSPECTIONS & BULL WALK - THURSDAY 17TH AUGUST

We invite everyone to a day of on property inspections of our females coinciding with a Bull Walk for the BJJ Limousin Invitational Bull Sale on Thursday 17th August.

Complimentary food and drinks will be available throughout the day and into the evening. There is full mobile coverage that will allow you to come along and enjoy the company of others for the conclusion of the Limousin Genetics Australia Elite Female & Genetics sale and be able to bid online with confidence - the AuctionsPlus clock starts the run down at 6.00pm.

VIDEOS

Scan the QR code on each lot to view videos, or visit ww.limousingenetics.com.au

ONLINE SIMULTANEOUS AUCTIONSPLUS BIDDING

The sale will be conducted by AuctionsPlus as a simultaneous auction. Sale will open at 9.00am Wednesday 16 August and close at 6.00pm Thursday 17 August when the clock will start running. See Page 4 of catalogue for instructions on how to register. Scan QR code below to view AuctionsPlus catalogue and to bid online.

ACCOMODATION

If you need accommodation to stay on and attend the BJJ Invitational Bull Sale on Friday 18 August - accommodation is available 7mins to Yarraman, 25mins to Nanango, 40mins to Kingaroy and 1.5hours to Toowoomba.

SCAN TO BID ONLINE

GST

All lots are sold exclusive of GST with GST to be added to the sale price.

TERMS AND CONDITIONS

The sale is conducted under the ALPA Livestock Auctions terms and conditions (published 2017).

BUYER'S INSTRUCTIONS

At the completion of the sale all successful purchasers will be contacted by agents to provide full and clear buyer's instructions and delivery details.

TRANSFER OF REGISTRATION

Females will be transferred to new owners for registration with the Australian Limousin Breeders' Society on provision of Stud Name and Ident.

INSURANCE

Your new purchases are valuable to you just like any other piece of farm equipment. It is highly recommended that you insure them especially whilst they are awaiting transport and during transport to your property. Whilst all care and attention will be taken by the vendors the liability for sale animals lies with the purchaser from the close of the auction.

DISCLAIMER FOR ACCURACY OF CATALOGUE

All care has been taken to ensure all information in this catalogue is accurate during compilation, production and printing by all parties involved. All parties involved take no responsibility for any mistakes made during the compilation, production and printing or further actions taken by any party resulting from any mistake.

BJF DANS WUNDA S14 (PP A AA)

Ident: BJFPS14

Homozygous Polled

Apricot

DOB: 7/8/2021

JYF CHUNK 35C (PP R AA)

BJF CHUNK DAN (PP A AA)

BJF ZAMBUKA DONNA M256 (PP R U)

WULFS YANKEE K689Y (PP B AA)

BJF YANKEE WUNDA K156 (PP B AA)

BIRUBI WUNDA GIFT G120 (PP B AA)

We offer the pick of the 2021 and 2022 natural-born heifers from one of our favourite matrons at BJF, BJF Yankee Wunda K156. When the idea of the LGA sale evolved we decided that as hard as it may be we will offer our very best. The Wunda cow family has proven to be one of the most consistent performing families in Australia over a long period of time. Both of these heifers offer exceptional BreedPlan figures and wonderful maternal traits, with breed-leading milk, docility, and scrotal size traits. Also, take note of the very high IMF score which is very important to us at BJF. Both are an absolute pleasure to handle. S14 was joined to Anchor B Goldrush on 24/12/2022. Golden opportunity to fast-track the genetics in your herd!

JYF CHUNK 35C (PP R AA)
AMBER PARK QUELLA PRIZE (PP A AA)
SUMMIT MAGIC PRIZE L45 (PP A AA)

Lot 2A of 'The Downfall Pick of the Pair' a deep female with soft thickness and plenty of capacity and spring of rib. Quella Gold T2 is a sweet female who carries herself with pride and purpose. Love this Anchor B Gold Rush female. She comes with JYF Chunk and Summit Magic Prize L45 influence from her dam Amber Park Quella Prize. To us she is a complete package of what we want in Limousin females. Disappointed to be offering her but we committed to offering our best and will be excited to follow her progress. Will be Aled prior to sale to East Coast Hector if this does not hold she sells with 2 straws of Goldstein Park Pheonix P10 (at UCBS). You can see her at the Ekka Limousin Feature Show - judging day 11 August.

THE DOWNFALL KAYE QUEEN Q11 (PP A AC)
 THE DOWNFALL GMV GABRIELLE KAYE(P R AA)

Lot 2B of 'The Downfall Pick of the Pair' another tremendous Anchor B Gold Rush female. There is not much between these two - Kaye Queen T3 carries the same soft thickness and depth of body as Lot 2A. Her dam is a Zambuka female and out of the best of our best cow line, The Downfall GMV Gabrielle Kaye. Her dam's flush sister Kaye Queen Q10 sold at 2021 BJF sale for \$10000. She has a presence that says "Look at me". Kaye Queen T3 brings another level to this line. We committed to offering our best and she is one of our best. Will be Aled to Balamore Gryphon if this does not hold she sells with 2 straws of Pheonix (at UCBS). Look for her at the Ekka Limousin Feature Show - judging day 11 August.

WULFS UPPERMOST 6196U (PP B AC)

OSULLIVANS BLACK PEARL K35 (PP BB AC)

OSULLIVANS BLACK PEARL E42 (P B U)

Pick of two full sisters - you take your pick the other stays in the OSullivans herd. Maternal powerhouse is written all over these two females, combining the Gem family from Warrawindi with the Pearl cow family. Add to that an excellent balanced EBV profile. These heifers are as good as we can make, lucky there were two or they would not be offered.

RUNL STETSON 850S (PP BB AA)
BJF R.S BLACK SUGAR 4 (P B U)
 STEVENS BROWN SUGAR D58 (A U)

Sugar R465 is an outstanding young cow who is very hard to part with. She is a very good representation of the type of cow we are trying to breed at BJF. Faultless temperament, perfect udder, teat size, placement and direction, a feminine head with good muzzle width, very long, wide and deep with good legs and feet. She has a lovely heifer calf at foot born on the 6th April 2023 by Jen Da-View Mr Pinnacle. She is sired by the highly sought-after RPY Paynes Cracker. A definite donor prospect. Will be left open to flush.

THE DOWNFALL QUELLA MARTINI T24 (PP A AA)

Ident: PPGPT24

Homozygous Polled

Apricot

DOB: 2/5/2022

GREENWOOD PLD ZAMBUKA (PP R AC)

THE DOWNFALL GRANTS RED MARTINI (PP R AA)

GOLD'N'GLOW EASTER (P A U)

JYF CHUNK 35C (PP R AA)

AMBER PARK QUELLA PRIZE (PP A AA)

SUMMIT MAGIC PRIZE L45 (PP A AA)

Here is one of our favourites, has been from day 1 and we are not the only ones to have had their eye on her so join the queue. Quella Martini T24 brings the best of The Downfall Grants Red Martini (full brother to Lot 2 in BJJ Invitational Bull Sale) genetics with her coupled with the infusion of JYF Chunk and Summit Magic Prize L45 through her dam Amber Park Quella Prize. She is bomb proof (well beyond her top 13% docility) so as well as getting an outstanding genetic package you get a young heifer suited to any handler. She has thickness, depth and capacity all in the right proportions. She has a very balanced set of EBVs and has a physical presence that attracts attention. Will be Aled to Anchor B Gold Rush prior to sale but pregnancy will most likely be too early to detect so will come with 2 straws of Anchor B Gold Rush (at UCBS) for purchaser to use in her. She will be with our heifer team at the Ekka Limousin Feature Show - judging day 11 August.

 BJF R031 (P B U)

Jessie T53 is only 9 months but shows great potential already. She is one of the first Balamore Gryphon daughters to be offered in Australia. Gryphon is a new Canadian sire with some big wraps on him. This heifer and others at BJF are living up to this reputation. She is homozygous polled and is a real sweetheart, an absolute dream to handle.

VACCINATIONS & TREATMENTS

Sale animals have been vaccinated/treated prior to sale according to recommendations as follows:

- ✓ Vaccinated against tick fever
- ✓ Vaccinated with 7 in 1
- ✓ Vaccinated against pestivirus
- ✓ Treated with pour on drench.

SUPPLEMENTARY SHEET

Any relevant updates will be available on the Supplementary Sheet online, in hardcopy on property, or via email on request.

TEMPERAMENT

All of the animals for sale have been screened for temperament and vendors are confident that under normal circumstances each animal in the sale is of sound and acceptable temperament.

It is understandable that an occasional animal may misbehave on sale day due to the exceptional circumstances and the pressures of a number of strange people encroaching on their space.

SETTLING YOUR NEW FEMALE IN

On arrival at your property it is recommended that you have a small number of suitable cattle yarded to greet your new female to minimise stress on her. Suitable animals would be of similar size and age and could be other females and/or young steers. Adequate clean water and feed should be provided.

technical information

EXPLANATION OF ESTIMATED BREEDING VALUES

An Estimated Breeding Value (EBV) is an estimate of the genetic merit of that animal for each trait measured. EBVs are provided for the following traits:

Gestation Length: ranks sires for the time between conception and the birth of a calf. Shorter gestation is indicated by negative EBVs and longer by positive EBVs

Birth Weight: indicates the genetic potential for birth weight. Positive EBVs indicate higher birth weights and negative EBVs indicate lower birth weights of progeny.

200, 400 & 600 Day Weight: give us an estimation of the animal's genetic potential for growth.

Mature Cow Weight: estimates differences between animals in live weights of cows at 5 years of age.

Milk: a key component of fast growth to weaning is the dam's maternal performance. A bull with a high milk EBV should produce daughters which milk well.

Scrotal Size: indicates whether the bull will produce sons with above average or below average scrotal sizes.

Carcase Weight: ranks animals for carcass weight.

Eye Muscle Area: ranks animals for eye muscle area measured at the 12th rib on a 300kg carcass.

Rib Fat: ranks animals for rib fat depth at the 12th rib on a 300kg carcass.

Rump Fat: ranks animals for fat depth at the p8 site on the rump on a 300kg carcass.

Retail Beef Yield: ranks animals for the boned out retail beef yield of a 300kg carcass.

Intra Muscular Fat: ranks animals for the percentage of intramuscular fat at the 12th rib of a 300kg carcass.

Docility: is expressed as the increase or decrease in the percentage of progeny that will be scored as docile (score 1 or 2). Positive EBVs indicate a higher proportion of progeny that will be scored as docile and negative EBVs indicate a lower percentage of progeny being scored as docile.

COMPARING EBVS

The EBVs for Limousins cannot be compared with EBVs for animal of other breeds. They should be compared with the current average EBV for the Limousin breed shown below.

Breed Average EBVs for 2021 Born Calves															
	GL	BWT	200WT	400WT	600WT	MCW	MLK	SS	CWT	EMA	RIB	RUMP	RBY	IMF	DOC
EBV	-2.1	+1.7	+21	+35	+49	+49	+7	+1.1	+31	+1.8	+0.0	-0.1	+0.8	+0.0	+43
Yearling Prime (\$)				Domestic Maternal (\$)				Export Maternal (\$)				Northern Export (\$)			+\$81

ACCURACIES

Accuracies are presented with each EBV and give an indication of the amount of information that has been used in the calculation of that EBV. The higher the accuracy the lower the likelihood of change in the animal's EBV as more information is analysed for that animal and its relatives.

DISCLAIMER

The Estimated Breeding Values (EBVs) contained within this sale catalogue were compiled by the Agricultural Business Research Institute (ABRI) from the data supplied by breeders. Neither the Australian Limousin Breeders' Society or ABRI oversee or audit the collection of this data.

EXPLANATION OF THE SUFFIXES TO ANIMAL NAMES IN THIS CATALOGUE

HORN STATUS

- PP** - **homozygous polled** - DNA test confirmed homozygous polled, or animal is homozygous polled by pedigree as both parents are confirmed homozygous polled, or animal is confirmed homozygous polled by progeny analysis process
- P** - **polled** - DNA test confirmed heterozygous polled, or animal is untested, information was provided by breeder.
- Ps** - **polled with scurs** - identified by details provided by breeder at time of registration, or DNA test confirmed heterozygous polled and breeder information indicates animal shows scurs.
- H** - **horned** - DNA test confirmed horned, or animal is untested, information was provided by breeder.

COAT COLOUR

- BB** - **homozygous Black** - DNA test confirmed homozygous black, or animal is homozygous black by pedigree as both parents are confirmed homozygous black, or animal is confirmed homozygous black by progeny analysis process.
- B** - **black** - DNA test confirmed heterozygous black, or animal is untested, information provided by breeder.
- R** - **red** - identified by details provided by the breeder.
- A** - **apricot** - identified by details provided by the breeder.
- O** - **other** - identified by details provided by the breeder.

F94L GENE

- AA** - **F94L 2 copies** - DNA test confirmed animal carries 2 copies of the F94L gene, or animal carries 2 copies of the F94L gene as both parents carry 2 copies of the F94L gene.
- AC** - **F94L 1 copy** - DNA test confirmed animal carries 1 copy of the F94L gene.
- CC** - **F94L 0 copies** - DNA test confirmed animal carries no copies of the F94L gene.
- U** - **F94L status unknown** - animal is untested and parent status is unknown.

LIM-FLEX

- LF** - **lim-flex** - animal is identified as Lim-Flex by pedigree details in line with ALBS regulations.

WHAT IS HOMOZYGOUS?

Homozygous is the term where an animal has two copies of the particular gene (tested or pedigree) for a trait (colour, polled). An example is homozygous polled where all progeny will be polled from that particular animal or homozygous black where all progeny will be black.
