Sale Committee Welcome

Welcome to the Northern Limousin Breeders Sale for 2023. This year the limousin breed celebrates it's 50th year in Australia. Limousin genetics continue to be sought by astute producers for their superior carcass attributes, coupled with softness, docility and maternal qualities. We are seeing carcass competitions being dominated by limousin & limousin infused cattle on a regular basis.

Our sale has a real focus on a commercially oriented offering that will add performance and increase your bottom line. Our vendors have put a lot of effort into selection and preparation, and will present a line up of bulls that will not disappoint.

All sale lots will be inspected prior to sale & the bulls will have scan data available. To the producer looking for specific breeding objectives, our EBV's & raw data will assist with your selection. There are options here to target various markets and breed objectives that you may have set for your operation.

In addition to our live auction at the saleyard, we will again be integrating the sale with the Auctions Plus electronic platform, to provide an opportunity for buyers to bid electronically. So whether you choose to inspect the offering in person, or to bid from the comfort of your own home, the choice is yours.

Our Northern Limousin Breeders Sale FB page will be the best place to view sale lots in one place, so keep an eye on that one.

Thanks again to our selling agents, Nutrien Livestock, Scone, and if you'd like any further information on the sale lots, please contact Chris Dobie 0418 434 061.

Head to ***Northern Limousin Breeders Sale*** for the latest info, pics, videos and more of the NLBS sale draft!

Better Results

Because of the generous support of all above, we are able to bring back the donation of a jacket to celebrate 50 years of Limousin for the purchaser and vendor of the top priced bull and female of the sale.

SALE INFORMATION

BUYERS REGISTRATIONS: Buyers number systems will be in operation, please register prior to the commencement of sale at the selling agents office at the Scone Saleyards.

CATERING: Limited facilities for lunch and refreshments will be available at the Scone Selling Complex on sale day.

HEALTH: All animals are from herds free of TB, Brucellosis and Johnes Disease. (Note – also clause 17 of conditions of sale).

FERTILITY GUARANTEES:

BULLS: Bulls are sold as fertile and capable of natural service. The purchaser shall have the right to a full refund of the cost of the bull from the vendor within six (6) months of the date of the sale (excluding any costs and expenses of the purchaser), if the Purchaser can submit a Veterinary surgeon's report that the bull is infertile or incapable of natural service. The veterinarian must also state in his opinion that the bull has not suffered any illness or injury which could have affected his breeding ability since being taken delivery of by the Purchaser. The veterinary report (together with a statutory declaration by the purchaser to the effect that the substance of the report is believed by the purchaser to be true and correct) must be forwarded to the vendor within 14 days of the date being six months after the sale date.

FEMALES: Females over 12 months are warranted fertile to natural service within 12 months of sale if unjoined. The purchaser is to have the right to a full refund of the purchase price of the female (excluding any costs and expenses of the purchaser) on submitting a veterinary report after the expiration of 12 months to the effect that the purchaser has been unable to get the female in calf to natural service. The Veterinarian must state that in his opinion the female has not suffered any injury or illness and has not been entered into an embryo transfer program since being sold to the purchaser, which could have affected her breeding ability. If a female catalogued as "not in calf" or "not joined" is subsequently proved to have been in calf at the time of the sale the Purchaser will be entitled to a full refund of the sale price on return of the female to the vendor. Females over 24 months of age at sale date are to be PTIC 8 weeks or more or have a calf at foot. A female with a calf 6 months of age or older is to be PTIC on inspection day.

TRANSPORT: Will be available for private arrangement at the sale conclusion.

INSURANCE: Cattle can be insured from the fall of the hammer.

REBATE: 2% to outside agents introducing buyers in writing prior to and settling within seven (7) days of sale.

BUYERS INSTRUCTION: Instructions must be completed prior to delivery. Purchasers requiring transfer of registration of stud cattle should indicate their stud prefix in the space provided.

NEW SOUTH WALES STUD STOCK TERMS AND CONDITIONS OF AUCTION SALE: The sale will be run in accordance with the New South Wales Stud Stock Terms and Conditions of Auction Sale.

POST SALE CONDITIONS OF SALE: N.B. – No animal is to be sold at Scone Selling Complex on Sale Day after being passed in from the sale ring, except where: -

- 1) The losing bidder has the first option on the animal for 30 minutes post sale**
- 2) After that, any sales will be \$500 over and above the vendors reserve.**

The selling agent must be present for the negotiations and transaction for 1 and 2 above.

SALE DINNER: A dinner will be held on Thursday night before sale day at the Scone Golf Club. Those wishing to attend please notify the sale committee – **ALL WELCOME.**

Accommodation is available at a discounted rate at Scone Motor Inn – Phone (02) 6545 3079 for more information. Please mention you are here for the sale.

EXPLANATION OF THE SUFFIXES TO ANIMAL NAMES IN THIS CATALOGUE

LIMOUSIN SUFFIXES			
Trait	SUFFIX	STATUS	STATUS ARRIVED AT BY Details available for individual animals on Limousin database Animal Details page
Horn status	PP	Homozygous polled	DNA test confirmed homozygous polled, or Animal is homozygous polled by pedigree as both parents are confirmed homozygous polled, or Animal is confirmed homozygous polled by progeny analysis process.
	P	Polled	DNA test confirmed heterozygous polled, or Animal is untested, information was provided by breeder.
	Ps	Polled with Scurs	Identified by details provided by breeder at time of registration, or DNA test confirmed heterozygous polled and breeder information indicates animal shows scurs.
	H	Horned	DNA test confirmed horned, or Animal is untested, information was provided by breeder.
Coat colour	BB	Homozygous black	DNA test confirmed homozygous black, or Animal is homozygous black by pedigree as both parents are confirmed homozygous black. Animal is confirmed homozygous black by progeny analysis process.
	B	Black	DNA test confirmed heterozygous black, or Animal is untested, information provided by breeder.
	R	Red	Identified by details provided by the breeder.
	A	Apricot	Identified by details provided by the breeder.
	O	Other	Identified by details provided by the breeder.
F94L gene	AA	F94L 2 copies	DNA test confirmed animal carries 2 copies of the F94L gene, or Animal carries 2 copies of the F94L gene as both parents carry 2 copies of the F94L gene.
	AC	F94L 1 copies	DNA test confirmed animal carries 1 copy of the F94L gene.
	CC	F94L 0 copies	DNA test confirmed animal carries no copies of the F94L gene.
	U	F94L Status unknown	Animal is untested and parent status is unknown.
Lim-Flex	LF	Lim-Flex	Animal is identified as Lim-Flex by pedigree details in line with ALBS regulations.

EXPLANATION OF ESTIMATED BREEDING VALUES

An Estimated Breeding Value (EBV) is an estimate of the genetic merit of that animal for each trait measured.

EBVs are provided for the following traits:

Calving Ease Direct: estimates the differences in the ability of a sire's calves to be born unassisted from a 2-year-old heifer.

Gestation Length: ranks sires for the time between conception and the birth of a calf. Shorter gestation is indicated by negative EBVs and longer by positive EBVs.

Birth Weight: indicates the genetic potential for birth weight. Positive EBVs indicate higher birth weights and negative EBVs indicate lower birth weights of progeny.

200, 400 & 600 Day Weight: give us an estimation of the animal's genetic potential for growth.

Mature Cow Weight: estimates differences between animals in live weights of cows at 5 years of age.

Milk: a key component of fast growth to weaning is the dam's maternal performance. A bull with a high milk EBV should produce daughters which milk well.

Scrotal Size: indicates whether the bull will produce sons with above average or below average scrotal sizes.

Carcase Weight: ranks animals for carcass weight.

Eye Muscle Area: ranks animals for eye muscle area measured at the 12th rib on a 300kg carcass.

Rib Fat: ranks animals for rib fat depth at the 12th rib on a 300kg carcass.

Rump Fat: ranks animals for fat depth at the p8 site on the rump on a 300kg carcass.

Intra Muscular Fat: ranks animals for the percentage of intramuscular fat at the 12th rib of a 300kg carcass.

Docility: is expressed as the increase or decrease in the percentage of progeny that will be scored as docile (score 1 or 2). Positive EBVs indicate a higher proportion of progeny that will be scored as docile and negative EBVs indicate a lower percentage of progeny being scored as docile.

Comparing EBVs: The EBVs for Limousins cannot be compared with EBVs for animal of other breeds. They should be compared with the current average EBV for the Limousin breed shown below.

Breed Average EBVs for 2021 Born Calves														
CED	GL	BWt	200	400	600	MCW	MLK	SS	CWT	EMA	RIB	RMP	IMF	DOC
+0.5	-2.1	+1.7	+21	+35	+49	+49	+7	+1.1	+31	+1.8	+0.0	-0.1	+0.0	+43

Accuracies: Accuracies are presented with each EBV and give an indication of the amount of information that has been used in the calculation of that EBV. The higher the accuracy the lower the likelihood of change in the animal's EBV as more information is analysed for that animal and its relatives.

Disclaimer: The Estimated Breeding Values (EBVs) contained within this sale catalogue were compiled by the Agricultural Business Research Institute (ABRI) from the data supplied by breeders. Neither the Australian Limousin Breeders' Society or ABRI oversee or audit the collection of this data.

Northern Artificial Breeders

Better Results

Northern AB offers a comprehensive professional service for both the beef and dairy industries. We collect, process and store semen from throughout New South Wales and have our own NHIA accredited storage centre at Scone.

Our services:

- Artificial Insemination
- Semen Collecting
- Crush Side Semen Tests
- Semen Morphology
- Ultrasound Pregnancy Testing
- Storage and Despatch of Semen and Embryos
- AI Merchandise
- Liquid Nitrogen Delivery

Traits Observed:

Notes: Sonic is an exceptional bull, he is as outstanding in the flesh as he presents on paper. He has tremendous carcass attributes with thickness, balance & depth of body, while still retaining his softness. With bloodlines like Bubba Watson, Vision Y329, and Krystal L35, this bull will excel in either stud or commercial duties. One not to be missed.

PROTECTING YOUR FAMILY WEALTH FOR YOUR RETIREMENT AND YOUR CHOSEN BENEFICIARIES

No bull-sh_t! You have spent hard years building value in your farm and livestock – your life’s work, your legacy.

You have often wondered whether your property, livestock, machinery (and your off-farm assets) are safe from creditors, predators, death or divorce in the next generation. But you’re not convinced that these risks are fully understood... or managed. Who can you ask? Who can you trust?

With 40 years as a practising Chartered Accountant, supporting Hunter farming families, we know and understand why it’s complicated.

At EPI-Centre we capture the required underlying legal and financial expertise, matched with empathy, technology and court-tested successful strategies, to design and deliver instant protection and succession, asset protection and estate planning solutions.

We are not talking about insurance and it’s not just about Wills. Protecting your legacy is much more than that.

Please join us at our first public session where SAPEPAA accredited and Board-Certified John Gowing (director and founder of EPI-Centre) will provide you with the information you need to know, to profile your risks and plan for the future of your business, your retirement and how to protect your legacy.
