AGENTS

MILLING STUART PTY LTD

Dunedoo
 Angus Stuart 0427 751009
 Jamie Stuart 0427 467322

Welcome

We would like to take this opportunity to welcome you to our sale, and thank you for attending.

This sale we are excited to be offering sons of 3 new AI Sires. All from the renown Miller Wilson Angus Stud in Canada. DMM International 54D, being 2018 All breed Champion of the world. Both he and Boss Lake Bonafide have had a big impact in the Miller Wilson program.

The sons of Crank 13E will be some of the very first to be offered.

We welcome you to join us for a B B Q and refreshments after the sale.

Ian, Christine , Duncan & Toby

SALE INFORMATION

AUCTIONS PLUS:

The sale is interfaced with AuctionsPlus & will be conducted live online in real time. For those not able to attend the sale, new users must register 24 hours prior to the sale to bid.

VIEW OUR WEB PAGE AND AUCTIONSPLUS FOR INDIVIDUAL LOT VIDEOS

BREEDPLAN FIGURES:

- . Raw scan figures on supplementary sheet - scanned 4th June 2023.

CONDITIONS OF SALE

- . Bidding price is GST exclusive, ie: GST is added to prices bid on the day.
- . No delivery of Bulls without signed and completed delivery slips.
- . Delivery of bulls after completion of sale or at a later date (as pre organised).
- . 2% rebate to introducing agents.

HEALTH STATUS:

- . Bulls inspected and Semen tested by our Vets at Central West Genetics
- . All bulls fully vaccinated with Pestiguard, Vibriovax & 7 in 1.
- . All bulls back lined with Ausmectin in August, 2023.

BULL WARRANTY:

All bulls are sold as fertile and capable of natural service. If a bull should breakdown due to reasons other than injury, mis-adventure or negligence, Narranmore will provide you with a satisfactory replacement if available or issue you with a credit equal to the purchase price minus salvage value. This credit may be used to purchase a bull from Narranmore in the future. Any request for replacement/refund must be lodged with the vendor within 6 months of purchase and be accompanied by a current vet certificate.

SAFETY DISCLAIMER:

All of the cattle are quiet to handle under normal conditions. However, there are always risks associated with handling cattle. Visitors enter the cattle pens at their own risk. Children must not enter the pens under any circumstances. The vendor accepts no liability for accounts that may occur at the Narranmore sale or whilst on the property.

DISCLAIMER:

The vendors and/or their agents do not give any warranty as to errors and omissions, if any, in these particulars which they believe to be accurate when compiled. Prospective purchasers should satisfy themselves by inspection or otherwise as to the accuracy of particulars.

ATTENTION BUYER:

Animal details included in this catalogue, including but not limited to pedigree, DNA information, Estimated Breeding Values (EBVs) and Index values, are based on information provided by the breeder or owner of the animal. Whilst all reasonable care has been taken to ensure that the information provided in this catalogue was correct at the time of publication, Angus Australia will assume no responsibility for the accuracy or completeness of the information, nor for the outcome (including consequential loss) of any action taken based on this information.

UNDERSTANDING ESTIMATED BREEDING VALUES (EBVS)

BIRTH

Calving Ease Direct	%	Genetic differences in the ability of a sire's calves to be born unassisted from 2 year old heifers.	Higher EBVs indicate fewer calving difficulties in 2 year old heifers.
Calving Ease Daughters	%	Genetic differences in the ability of a sire's daughters to calve unassisted at 2 years of age.	Higher EBVs indicate fewer calving difficulties in 2 year old heifers.
Gestation Length	days	Genetic differences between animals in the length of time from the date of conception to the birth of the calf.	Lower EBVs indicate shorter gestation length.
Birth Weight	kg	Genetic differences between animals in calf weight at birth.	Lower EBVs indicate lighter birth weight.

GROWTH

200 Day Growth	kg	Genetic differences between animals in live weight at 200 days of age due to genetics for growth.	Higher EBVs indicate heavier live weight.
400 Day Weight	kg	Genetic differences between animals in live weight at 400 days of age.	Higher EBVs indicate heavier live weight.
600 Day Weight	kg	Genetic differences between animals in live weight at 600 days of age.	Higher EBVs indicate heavier live weight.
Mature Cow Weight	kg	Genetic differences between animals in live weight of cows at 5 years of age.	Higher EBVs indicate heavier mature weight.
Milk	kg	Genetic differences between animals in live weight at 200 days of age due to the maternal contribution of its dam.	Higher EBVs indicate heavier live weight.

FERTILITY

Days to Calving	days	Genetic differences between animals in the time from the start of the joining period (i.e. when the female is introduced to a bull) until subsequent calving.	Lower EBVs indicate shorter time to calving.
Scrotal Size	cm	Genetic differences between animals in scrotal circumference at 400 days of age.	Higher EBVs indicate larger scrotal circumference.

CARCASE

Carcase Weight	kg	Genetic differences between animals in hot standard carcass weight at 750 days of age.	Higher EBVs indicate heavier carcass weight.
Eye Muscle Area	cm ²	Genetic differences between animals in eye muscle area at the 12/13th rib site in a 400 kg carcass.	Higher EBVs indicate larger eye muscle area.
Rib Fat	mm	Genetic differences between animals in fat depth at the 12/13th rib site in a 400 kg carcass.	Higher EBVs indicate more fat.
Rump Fat	mm	Genetic differences between animals in fat depth at the P8 rump site in a 400 kg carcass.	Higher EBVs indicate more fat.
Retail Beef Yield	%	Genetic differences between animals in boned out saleable meat from a 400 kg carcass.	Higher EBVs indicate higher yield.
Intramuscular Fat	%	Genetic differences between animals in intramuscular fat (marbling) at the 12/13th rib site in a 400 kg carcass.	Higher EBVs indicate more intramuscular fat.

FEED EFFICIENCY			
Net Feed Intake (Feedlot)	kg/day	Genetic differences between animals in feed intake at a standard weight and rate of weight gain when animals are in a feedlot finishing phase.	Lower EBVs indicate more feed efficiency.
TEMPERAMENT			
Docity	%	Genetic differences between animals in temperament.	Higher EBVs indicate better temperament.
STRUCTURE			
Front Feet Angle	%	Genetic differences between animals in desirable front feet angle (strength of pastern, depth of heel).	Higher EBVs indicate more desirable structure.
Front Feet Claw Set	%	Genetic differences between animals in desirable front feet claw set structure (shape and evenness of claw).	Higher EBVs indicate more desirable structure.
Rear Feet Angle	%	Genetic differences between animals in desirable rear feet angle (strength of pastern, depth of heel).	Higher EBVs indicate more desirable structure.
Rear Leg Hind View	%	Genetic differences between animals in desirable rear leg structure when viewed from behind.	Higher EBVs indicate more desirable structure.
Rear Leg Side View	%	Genetic differences between animals in desirable rear leg structure when viewed from the side.	Higher EBVs indicate more desirable structure.
SELECTION INDEXES			
Angus Breeding Index	\$	Genetic differences between animals in net profitability per cow joined in a typical commercial self replacing herd using Angus bulls. This selection index is not specific to a particular production system or market end-point, but identifies animals that will improve overall profitability in the majority of commercial grass and grain finishing beef production systems.	Higher selection index values indicate greater profitability.
Domestic Index	\$	Genetic differences between animals in net profitability per cow joined in a commercial self replacing herd targeting the domestic supermarket trade.	Higher selection index values indicate greater profitability.
Heavy Grain Index	\$	Genetic differences between animals in net profitability per cow joined in a commercial self replacing herd targeting pasture grown steers with a 200 day feedlot finishing period for the grain fed high quality, highly marbled markets.	Higher selection index values indicate greater profitability.
Heavy Grass Index	\$	Genetic differences between animals in net profitability per cow joined in a commercial self replacing herd targeting pasture finished steers.	Higher selection index values indicate greater profitability.
