ANNUAL BULL SALE

110 CHAROLAIS | 88 ULTRABLACK | 12 BRANGUS

8th September 2023, 12pm

**BRED TO
DELIVER**

Welcome to our 39th Annual Bull Sale

SAME BRAND – NEW LOCATION

It is with pleasure that we welcome you to the inaugural Bull Sale, at our new selling centre, 'Glen Wilga'. It marks the beginning of a new era for Palgrove, whilst the location may have changed rest assured, we are dedicated to providing superior genetics that improve profitability for commercial producers.

Our hard-working team have transformed Glen Wilga into our new selling complex and the new home of Palgrove's Annual Bull Sale. Our five-month timeline was ambitious (8 months might have kept my hair from turning grey), but it's with great pride that I look over what our team has created and we look forward to welcoming you on Friday 8th September to present a quality draft of 210 bulls.

Each year I talk about the underutilisation of the Charolais Bull in the Australian beef market – I still believe the Charolais bull can give you the biggest value add in a single cross – I would challenge that at times producers get caught up in a cents/kg premium, instead of a \$/head, Kgs produced/ha and the early turn off factor achieved in Charolais cross cattle. A Charolais bull is hard to top when it comes to enhancing the hybrid vigour 'free lunch' in a crossbreeding situation. **Winning the RNA Paddock to Palate competition for 5 consecutive years**, with Charolais and Charolais cross cattle confirms the 'real profit' they deliver.

The **'bred to deliver'** guarantee from Palgrove genetics comes from stacking each generation of these bulls pedigrees with proven performers. Our **110 Charolais bulls** are backed by 50+ years of this process and as we continue to increase the number of females we AI, this consistency continues to build year on year. We are extremely excited by some of the new sire lines in this year's draft, special note going to Palgrove Platinum who is represented by 26 sons.

Our **Ultrablack** program has allowed us to maximise our understanding of both the Angus and Brangus breeds. This has enabled us to identify their best performing traits and combine them to produce a package that provides tropical performance, increased meat quality and enhanced fertility. The numbers we are now working with in our Ultrablack program has allowed us to increase our offering to 100 bulls while maintaining the quality we strive to present each year.

We are proud to present the **110 Charolais and 100 Ultrablack and Brangus** bulls. We have seen these bulls grow and develop, we know the pedigrees like the back of our hands, so don't hesitate to contact us for advice. We enjoy being part of your purchasing process and contributing to the development of your herd.

The location change to Glen Wilga marks a new chapter in the history books for the Palgrove brand. We have a dedicated, passionate team that work hard every day to tick off on all the one percenters that will continue to make Palgrove a leader within the industry for many years to come and we look forward to many more sales at Glen Wilga.

Please make sure you Join us post Sale for dinner and drinks. After a busy few months, our team will look forward to a well earned drink on sale night.

OUTSIDE AGENT REBATE:

The vendors agree to a 3% rebate to outside agents who attend the sale with, or buy on behalf of, their clients and settle within 7 days. 1% rebate to outside agents introducing approved buyers to the vendor prior to the sale and settling on their behalf within 7 days of the sale. (This clause will be strictly enforced by the vendor).

SALE INFORMATION

Inspection:

Cattle may be inspected any time prior to the sale by arrangement. If you can't make it on sale day, we encourage you to inspect the bulls at a time convenient to you and bid via phone or AuctionsPlus. Please discuss your bull requirements with Ben, we enjoy being a part of the decision making process.

Sale Day Safety:

We pride ourselves on the excellent temperament of our bulls, however, there are risks associated with bull behaviour on sale day and it is our responsibility to keep you safe.

If you wish to enter the pens please be aware that bulls may fight with each other or they can be playful. We cannot accept responsibility for your safety if you do not follow the instructions of our staff. If you are limited in your mobility or if you have children accompanying you, **please do not enter the sale pens.**

AuctionsPlus:

AuctionsPlus is an alternate bidding option if you can't attend the sale in person. However, it is only available to registered users. We recommend registering online as soon as possible - at least 24hrs prior to the sale.

Register at www.auctionsplus.com.au

Breeding Soundness:

All sale bulls offered for sale have passed a semen test by Veterinarians from Ced Wise ABS.

All bulls offered for sale have been examined by the stud's Veterinary consultant for structural and physical soundness to Australian Veterinary Association standards. A Bull Breeding Soundness Evaluation Certificate will be available.

Guarantee:

All stock are guaranteed breeders. Any claim against the breeding ability of an animal purchased should be made in writing and accompanied by a Veterinary Certificate within six months of the date of sale. In the event of a bull failing to breed, it may either be replaced with an animal of comparable value or credit to the full purchase price will be given at the following sale or on a private sale animal.

Health:

Palgrove maintains a J-Bas 7 status, so bulls are free to move to anywhere in Australia.

Sale bulls have been inoculated twice with 7-in-1; Pestigard, Vibrio and 3 Day Sickness along with a single dose of 3 germ tick blood.

Delivery:

We take personal interest in the efficient delivery of all stock after the sale. George & Fuhrmann and Nutrien will be handling the delivery of sale cattle.

We offer Freight Assistance to several major centres including Emerald, Roma, Inverell and Glen Innes. Please talk to Ben Noller M:0427 700 949 prior to the sale.

The Sale Bulls:

A bull's career begins rather than ends on sale day - so be cautious about comparing bull weights and fat scans between the various sales. Comparison of bulls in a contemporary group is a far more reliable indicator. It is in your best interests to purchase bulls that have had a moderate long term feed ration rather than one that has been 'pumped up' for sale day.

Palgrove Stud:

Our NEW SALE COMPLEX is based near CHINCHILLA QLD, with breeding properties also located at Ben Lomond and Inverell. Our bull depot is located at Drillham.

For over 50 years, we've adapted our Charolais genetics through a commitment to research, education, new technologies and a common sense 'cattleman's eye' to suit clients' environmental and management conditions.

We've grown the stud to a size where it ranks as the largest Charolais stud in Australia and by all accounts, the second largest in the world. In 2009, we started developing our Ultrablack bull breeding program. We're positive that they offer another profitable option to our clients' production and target markets.

Our Ultrablack female herd is now around 1,800 breeders.

Our Approach:

Even though the scale of the registered herd has increased substantially since 1969, our breeding objectives haven't wavered. We aim to be leaders in genetic improvement and customer satisfaction.

Palgrove buyers expect the best from our cattle - whether it's a one stud sire or a draft of 100 commercial bulls. Our job is to deliver cattle and service that is beyond our clients' expectations.

Commercially Focused Genetics:

Since the early beginnings of the Palgrove stud, we have been using raw data and Breedplan to measure the genetic improvement in our cattle for the three main profit drivers: a) Fertility
b) Growth and Weight Gain
c) Carcase Merit

It's been a systematic selection process over 50 years with Palgrove possessing the largest and most comprehensive Charolais and Ultrablack EBV data in the country.

We've always focused our breeding program on the commercial profit traits, but until now it was difficult to verify the value of Palgrove genetics - particularly for eating quality and the carcase \$ value that Palgrove genetics add.

Over the last few years, we've entered cattle in the Paddock to Palate competition which has enabled us to verify the profitability of Palgrove commercial progeny. Our cattle have risen to the top consistently with winning pens across weight gain, carcase and eating quality. We don't just make claims - we deliver value!

Charolais Genetic Disorders:

Similar to other breeds of cattle, Charolais too have known genetic conditions. The two in which we test for in Australia are;

- 1)** Myophosphorylase Deficiency (MYO), if affected, prevents an animals ability to mobilise glucose and results in loss of muscle function & exercise intolerance; and
- 2)** Progressive Ataxia (BPA), a neurodegenerative disease of the central nervous system which if affected, results in an animals inability to stand.

An animal can be an unaffected carrier and live a normal life, but if bred to another carrier can produce affected offspring. Bulls can be tested for these disorders and any carriers are identified on the Charolais Australia website as well as included within the individual lot commentary. As they are recessive conditions, they shouldn't be of concern to our cross breeders, however we wouldn't recommend to our purebred Charolais clients.

PERFORMANCE INFORMATION

In this sale, there are three separate BREEDPLAN figures presented:

- a) Charolais Group Breedplan (July 2023)
- b) TACE Angus MBR Breedplan (Mid-July 2023)
- c) Brangus Group Breedplan (July 2023)

Each breed runs a separate Breedplan evaluation. As the genetic base for each breed is different, only EBVs for animals within a particular breed can be directly compared.

Putting this in practical terms, a 600 day weight EBV of +41 on an Ultrablack or Brangus bull is not equivalent to a 600 day weight EBV of +41 on a Charolais bull.

Our Ultrablack bull EBV's are provided to us as registered animals on the Angus Multi Breed Register (MBR). Only pure Angus cattle are recored on HBR/APR registers.

This year Angus Australia and Palgrove have been working together to provide tailored benchmarking information on our registered Ultrablack animals. This has involved producing averages and percentile rankings based only on the TACE EBVs of all 2021 born Ultrablack or Brangus animals recorded with Angus Australia. This new benchmarking information is presented in this sale catalogue. We hope this makes it easier for you to make comparisons on these animals.

When assessing cattle performance, it is essential to always compare 'apples' with 'apples'.

Charolais Group Breedplan Averages 2021 born calves

	BW	Milk	200	400	600	SS	EMA	Rump	IMF%	RBV	Dom\$	N'th\$
EBV	0.4	7	13	25	33	1.1	1.6	0.5	0.1	0.1	24	40

EBV	-0.3	-2	9	19	19	0.4	1.2	0.1	0.2	0.4	18	18

Parent Verification Assurance:

PV - these lots have been DNA Parent Verified (both Sire & Dam)

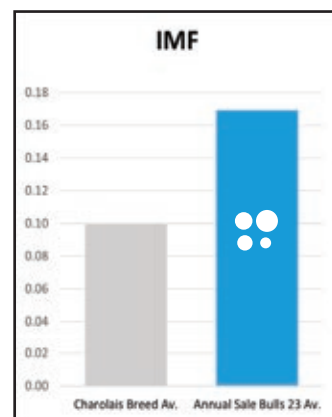

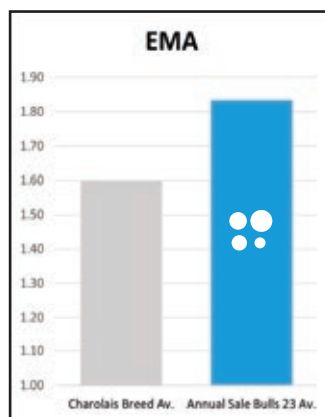

SV - these lots have been DNA Sire Verified

DV - these lots have been DNA Dam Verified

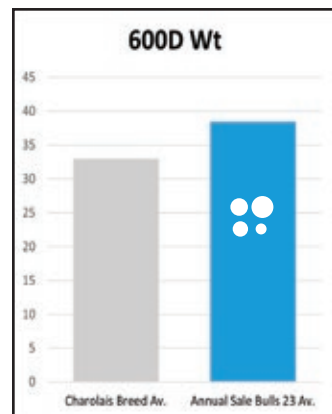

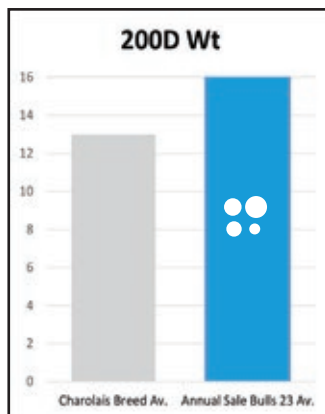

DNA verification improves the integrity of the pedigree & EBV information that is displayed in this sale catalogue.

Please refer to Terms and Conditions of Sale at the back page of this Catalogue.

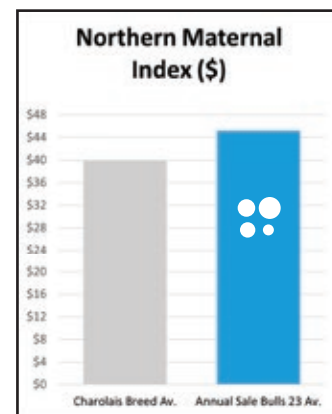

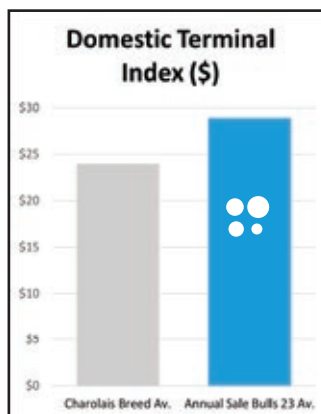

CARCASE

PERFORMANCE

PROFITABILITY

CHAROLAIS REFERENCE SIRES

PALGROVE PLATINUM (P) R/F

- We considered Platinum the 'complete package' when he sold in 2021 for \$48,000.
- He's medium framed, thick butted with that natural balance and constitution you expect in a top breeding bull.
- His combination of Hallmark over a Bond daughter has click perfectly. His first sons sold at this years Hunter Valley Sale to top at \$38,000.
- Represented by 26 bulls in this years sale, with some standouts including 5 bulls in the first 10 lots.

SILVERSTREAM OATLEY (P)

- Picture taken at 14 months -An impressive Homzygous
- Polled Sire who's first 11 sons sold in 2022 topping at \$115,000 to average \$41,818.
- After viewing Oatley, analysing his pedigree and inspecting his dam, we knew he was a must have for our program.
- Oatley has curve bending EBV's from top 15% for Birth Weight to a Trait Leader for Growth. His Carcase Weight and Domestic \$Indexes are also in the top 5% of the breed.
- Represented by 3 sons in the sale Lot 20, 38 and 63.

SILVERSTREAM MANHATTAN (P)

- First sons Palgrove has offered
- Homozygous polled bull out of the Silverstream stud in New Zealand.
- Performance sire that's adding bone and phenomenal carcass traits to his progeny.
- High positive Growth EBV's , with EMA in the top 1% and Retail Beef Yield in the top 8%.
- Represented by 8 sons in the sale. Feature bulls include 13, 17 and 28.

CHAROLAIS REFERENCE SIRES

PALGROVE NEW LOOK (P)

- He's by Keystone out of a Bond female – Platinum's dam is also by Bond.
- New Look was retained for his strong carcass traits and doing ability – He stood out from a young age.
- He's a short Gestation bull and a Trait Leader for 200D & 600D weight combined with all Carcase traits and both \$Indexes in high positive territory.
- Represented by 11 lots, 2 feature bulls we will retain semen in are – Lots 7 & 77 other lots are 21, 39.

PALGROVE NEXT GEN (P)

Next Gen Son: Palgrove Red Rock R790E (P) R/F
Retained by Palgrove

- Proving himself as a leading homozygous polled sire of his generation.
- Ranked in the top 5% for Milk with positive Weaning Weight and Yield.
- 17 sons have sold at auction, topping at \$100,000 to avg. \$23,000.
- His progeny are medium framed; deep sided and really easy doing. With the maternal strength of Bluegrass D55 in the pedigree, we can't wait to see the females in production this spring.
- Represented by 11 Lots, including feature sires at Lot 14, 15, 31, 41 and 102.

LOT 1

PALGROVE STAR MAKER (P) ^{PV}

Tattoo: PK S1012E

Calved: 04/08/2021 (25 mths)

S: PALGROVE HALLMARK (P) R/F
S: PALGROVE PLATINUM (P) R/F

D: PALGROVE DIGNA 182

S: SILVERSTREAM HOLSTER (P)

D: PALGROVE OLIVIA P905E (P) R/F

D: PALGROVE OLIVIA J292 (P)

These Platinum sons are standouts – 13 of them sell in the first 50 lots and we have retained 3 for ourselves.

2023 marks a year of change for Palgrove and the year Platinum makes his mark on the Charolais breed. We Ai'd heavily with him in our spring 2021 season and his Gestation Length and calving ease EBV's have improved out of sight.

Dam – Holster daughter with a 'no miss' calving record, 3 calves in 3 years with a 363 DCI (Daily Calving Interval).

Long bodied; sleek skinned; easy fleshing and soft as butter – there's a lot to recommend.

Get in early on these Platinum sons, before they become popular!

Homozygous Polled. Semen Retained

PALGROVE STATEMENT (P) R/F ^{SV}

Tattoo: PK S1336D

Calved: 15/08/2021 (24 1/2 mths)

S: PALGROVE HALLMARK (P) R/F
S: PALGROVE PLATINUM (P) R/F

D: PALGROVE DIGNA 182

S: SILVERSTREAM HOLSTER (P)

D: PALGROVE HELENA M629C

D: PALGROVE HELENA H205B (P)

Similar in pedigree and phenotype to the previous lot, this time in red factor package.

Dam – 4 calves in 4 years with a 382 DCI. Holster daughters consistently produce these top end bulls, 2 in the first 2 lots this year.

Statement is long and smooth in his muscle pattern with a soft supple skin. When you get behind him you will appreciate the huge amount of red meat in this bull.

Phenomenal cross section of EBV's with great Calving Ease data combined with high positive Growth, Scrotal Size and Carcase Weight.

A top shelf 'beef bull' – stud or commercial, he's a sire with plenty of weight for age, substance and wrapped in an efficient medium frame. You will love him.

LOT 3

PALGROVE SHOWMAN (P) ^{SV}

Tattoo: PK S2467E

Calved: 29/09/2021 (23 1/2 mths)

S: PALGROVE MASTERPIECE (P)
S: PALGROVE QUINTUS (P)
 D: PALGROVE APPEAL J616 (P) ET R/F

S: PALGROVE KAPITAL (P)
D: PALGROVE MELITA M987E (P)
 D: PALGROVE MELITA J391

Upstanding sire with plenty of performance and a bred in the purple pedigree - Jericho, Evolution, Hallmark and Crackerjack.

His sire Quintus was used as a yearling and with 17 progeny recorded is a trait leader for 200 & 400 day growth.

Dam - Donor female with 12 progeny recorded, sons have reached \$24,000.

He has that extra bone, skin type and performance to suggest he would be ideally suited to a northern production system or a bull breeding program looking to add a touch more frame.

	BW	Milk	200	400	600	SS	EMA	Rump	IMF%	RBY	Dom\$	N'th\$

S: PALGROVE CRACKERJACK
D: PALGROVE DULCIE L662E
 D: PALGROVE DULCIE 80 (P)

Natural balance, softness and a real 'sires presence' confirm Silver Service is Bred to Deliver.

We love how Platinum has stamped his progeny - medium framed, thick butted with plenty of substance.

He's a mid-maturity bull with a great muscle pattern and sleek skin.

Carcase improving bull that will add weight for age over Bos Indicus or British bred females.

Stud Sire potential. Semen Retained.

S: PALGROVE PLATINUM (P) R/F
 D: PALGROVE DIGNA 182

S: PALGROVE COURAGE
D: PALGROVE APPEAL G33E
 D: PALGROVE APPEAL 34

The 'bred to deliver' guarantee from Palgrove genetics comes from stacking each generation of these pedigrees with proven performers - This ET combination combines Platinum over Jericho's dam.

Dam - sons include Jericho and Kenworth, both used in our program. Jericho is a trait leader for all growth traits and ranks in the top 1% for EMA and both \$Indexes - for this reason we have dipped back into the tank and used more of Jericho. Two sons feature in the yearling section.

High positive Growth, Carcase and Scrotal EBV's with both \$Indexes ranking in the top 10%.

He has the extra bone, performance, natural balance and sire appeal to suggest he will breed on.

	BW	Milk	200	400	600	SS	EMA	Rump	IMF%	RBY	Dom\$	N'th\$

S: PALGROVE KEYSTONE (P)

S: PALGROVE NEW LOOK (P)

D: PALGROVE IDEAL 72

S: PALGROVE HOWZAT (P)

D: PALGROVE PANACHE L533E (P)

D: PALGROVE PANACHE 244 (P) ET

We believe this is the best New Look son we have bred to date! Big call considering he has over 100 progeny recorded and sons have topped at \$44,000.

Cracking pedigree with built in performance – Keystone, Bond, Howzat, Barrister, Viagra and the renowned Panache female line.

Dam – 6 calves in 6 years with a 366 DCI.

Stallone would be of the thickest set bulls in this sale drop – He's deep and soft, great skin type with a big scrotal.

High positive Growth traits, EMA in the top 1% and Retail Yield in the to 10%.

Ideally suited to northern production systems or a stud program looking to add performance.

Semen Retained.

Purchaser.....\$.....

LOT 8

PALGROVE STOCKMAN (P) R/F ^{PV}

Tattoo: PK S1157E

Calved: 09/08/2021 (25 mths)

Charolais	BW	Milk	200	400	600	SS	EMA	Rump	IMF%	RBV	Dom\$	N'th\$
EBV	-0.2	5	15	28	38	1.3	3.1	-0.2	0	1.1	37	52

S: PALGROVE PLATINUM (P) R/F

D: PALGROVE DIGNA 182

S: PINAY

D: PALGROVE DIGNA G475E ET

D: PALGROVE DIGNA W174E (P)

How ironic – when Platinum sold as Lot 3 in 2021 his stable mate at Lot 4 was Princeton. Stockman combines the genetic combination of Platinum over Princeton's mother giving a double cross of the famous Digna W174E female.

Dam – Donor female and one of our best. A flush was sold in our 2021 Window of Opportunity for \$13,000.

Solid set of EBV data - moderate Birth Weight and high positive calving ease traits, combined with positive growth and strong carcass traits.

This is a top shelf sire – a touch more frame, he's soft easy fleshing with the built-in natural balance and constitution you want in a top end sire.

Note: He is a carrier for BPA (Progressive Ataxia), a recessive condition which shouldn't be of concern to our cross breeders – Not recommend in purebred Charolais herds.

Purchaser.....\$.....

LOT 9

PALGROVE STETSON (P) R/F SV

Tattoo: PK S2216E

Calved: 20/09/2021 (23 1/2 mths)

S: ELDER'S BLACKJACK (P)

S: ELDER'S HONCHO (P)

D: BAR J DESIGN 70X (P)

S: PALGROVE HALLMARK (P) R/F

D: PALGROVE CHARLOTTE L311E (P) R/F

D: PALGROVE CHARLOTTE 19 (P)

A red factor Honcho son with plenty of growth left in the tank. Honcho sons reached \$110,000 in our 2022 record breaking sale.

Dam - 5 calves in 5 years with a 374 DCI.

Stetson's pedigree has a great blend of maternal and performance genetics combing Honcho over a Hallmark daughter.

EBV data confirms his doing ability with Fat Cover ranking in the top 2%. He has high positive calving ease with moderate growth and top 10% for Scrotal size. His sire Honcho is a trait leader for Scrotal Size.

A 'front paddock' bull whichever way you look at him - stud or commercial he will add real value.

PALGROVE SCHOONER (P) R/F SV

Tattoo: PK S2252E

Calved: 21/09/2021 (23 1/2 mths)

S: PALGROVE LEGACY (P)

S: PALGROVE NATURALISM (P)

D: PALGROVE PANACHE J1157

S: PALGROVE HALLMARK (P) R/F

D: PALGROVE DIGNA L339E (P) R/F

D: PALGROVE DIGNA 218

This is a thumping 'Beef bull' - sleek skin, big butted with so much volume, length and capacity.

His Sire, Naturalism, was the high selling bull in our 2019 sale and is a Trait Leader for all growth traits.

Dam - no miss fertility record, 6 calves in 6 years with a 365 DCI. Our Hallmark females are highly regarded.

EBV's position him at the top of the breed for all growth traits (10%) with high positive Carcase, Fat Cover and Scrotal Size.

High performing bull that would be ideal over Bos Indicus females in a northern production system.

Homozygous Polled.

Charolais	BW	Milk	200	400	600	SS	EMA	Rump	IMF%	RBY	Dom\$	N'th\$

A typical Crowd Favourite son – Crowd Favourite is a Trait Leader for all Growth Traits and Scrotal Size.

Dam – 4 calves in 4 years with a DCI of 377.

Moderate boned, thick topped bull with a smooth muscle pattern. He's as long as a train and stands on good feet and legs.

Many of the profit driving traits in the top echelons – high positive Growth, Scrotal Size, Fat Cover and Marbling.

Ideal bull if your looking to add thickness without compromising on finishing ability.

Purchaser.....\$.....

Palgrove Digna R777E (P)

A Palgrove Kudos daughter out of G475E.

We love the maternal strength in this pedigree – Hallmark, Charm, Bluegrass D55, Hombre and Calibre. Pick up any catalogue from the last 8 years and you will see these sires feature heavily in the pedigrees.

Dam – 4 calves in 4 years with a 369 DCI.

Upstanding sire with positive Calving Ease, fat and Marbling EBV's.

A touch more frame but he carries it with ease. His progeny should grow fast and finish early.

Here's the man to improve carcase and yield in your herd – check out the phenomenal butt shape.

After his yearling muscle scanning, he ranked towards the top of his group for EMA – 110 square centimetres at 14 moths of pasture.

Dam – 5 calves in 5 years with a DCI of 363.

EBV's confirm his phenotype – phenomenal carcase traits with EMA in the top 1% and yield in the top 4%. He combines this with high positive growth and fat cover, it's not always easy to find these traits in combination.

We love the extra bone, natural constitution and foot shape in this top end sire.

Here's a pedigree to blow your socks off – Out of Platinum's dam and by the 'new kid on the block' in New Gen.

Next Gen progeny are literally shaping our program – they're medium framed, thick set with so much fleshing and substance. We retained a son out of last years sale group (Red Rock) and another son made \$100,000 and has been used heavily in AI (Rockerfella).

Plenty of bone, softness and carcase shape – he's long and smooth and very easy doing.

Moderate calving ease EBV's with positive Growth, Yield and Marbling.

You could buy this bull with your eyes shut on pedigree alone.

Length - Thickness - Substance plus eye appeal make this Next Gen son a standout in the group.

Dam - 8 calves in 8 years with a 370 DCI, including a set of twins.

Look at SAS to moderate frame without compromising on carcase and weight for age - He's as thick as a brick with an early to mid-maturity pattern.

Domestic or export - which ever market you choose, he will add depth of body, fleshing and strong carcase traits to his progeny.

Charolais	BW	Milk	200	400	600	SS	EMA	Rump	IMF%	RBY	Dom\$	N'th\$

Typical of what we expect from the Next Gen progeny – moderate framed, deep sided, easy fleshing with plenty of thickness.

His pedigree has a great blend of maternal and performance genetics – Bluegrass D55 combined with General, Evolution, Masterpiece and Jericho.

High growth EBV's with positive carcase data, Marbling and high ranking \$Indexes.

Homozygous Polled bull that won't compromise on bone and carcase traits.

Homozygous Polled

Every herd should have a Platinum son, we think so much of them we have retained three and will retain semen in another three .

We love Sailor's muscle pattern, length and doing ability – He's easy fleshing with a big square hip and plenty of butt shape.

Solid set of EBV data from moderate Calving Ease with high positive Growth, Scrotal Size, Carcase and Fat Cover traits.

This bull won't slip under the radar, he's the complete package – strong phenotype, great pedigree and plenty of performance.

Three Silverstream Manhattans to follow.

Out of a proven dam with a 'no miss' record, 4/4 calves and a DCI of 374.

Saloon is easy fleshing with built in constitution - He will add that extra bone, length and thickness to his progeny.

His performance data suggests above average growth which backs his phenotype. EMA and Yield in the top 10% & 15%, combined with positive Fat Cover.

Like all the Manhattan sons Bos Indicus cows will be his forte.

D: PALGROVE FESTOON N845E (AI)

D: PALGROVE FESTOON 313

We can't recommend these Platinum sons enough - they're soft, easy fleshing with great skin types.

Dam - highly productive young female with 4/4 calves with a DCI of 371.

Super Saver is long, has great carcass and butt shape with a big scrotal and sires presence.

His performance data suggests above average Growth combined with moderate Birth Weight and Calving ease traits.

A versatile sire that could be used from north to south - over British or Bos Indicus females.

Note: Carrier for Myophosphorylase deficiency; a recessive condition which won't be of concern to cross breeding herds. Not recommended over purebred Charolais females.

Impressive genetic combination with Oatley over a Bond female.

In 2022, 11 Oatley sons sold at auction to a top of \$115,000 to average \$41,818.

Dam - Our Bond daughters are some of our best. If we ever went back to use a horned bull he would be on top of the list. She remained in the herd until she was 13 and produced 11 calves.

Shadow Boxer is long bodied, has plenty of natural thickness and substance with a great skin type.

A Domestic Terminal \$Index ranking in the top 5% of the breed confirms his profit making ability.

D: PALGROVE FRIESIA 48

S: PALGROVE KRACKER (P)

D: PALGROVE ADELINE M1444C (P) R/F

D: PALGROVE H222B (P) R/F

Homozygous polled and gold - His carcase shape is typical of what we would expect from his sire President.

He's moderate framed with heaps of carcase and a great skin type.

His phenotype is confirmed in his EBV with an exceptional carcase dominated dataset - EMA in the top 1% of the breed with positive Fat Cover, Yield and IMF.

If you're looking for a sire to produce early turn-off weaners and add some oomph to your carcase feedback sheets, this is your man.

Homozygous Polled.

Soft easy fleshing young bull with plenty of growth potential.

The Next Gen progeny reached \$100,000 in last year's record-breaking sale and we also retained a Next Gen son out of the same group.

Dam - 7 calves in 7 years with a DCI of 376.

With his extra length and bone he would be ideal over Bos Indicus cows with progeny destined for the heavy export market grids.

His sire, Quarter Century is a Trait Leader for Weaning Weight and Scrotal Size. He was used as a yearling and is pushing strong carcase traits into his progeny.

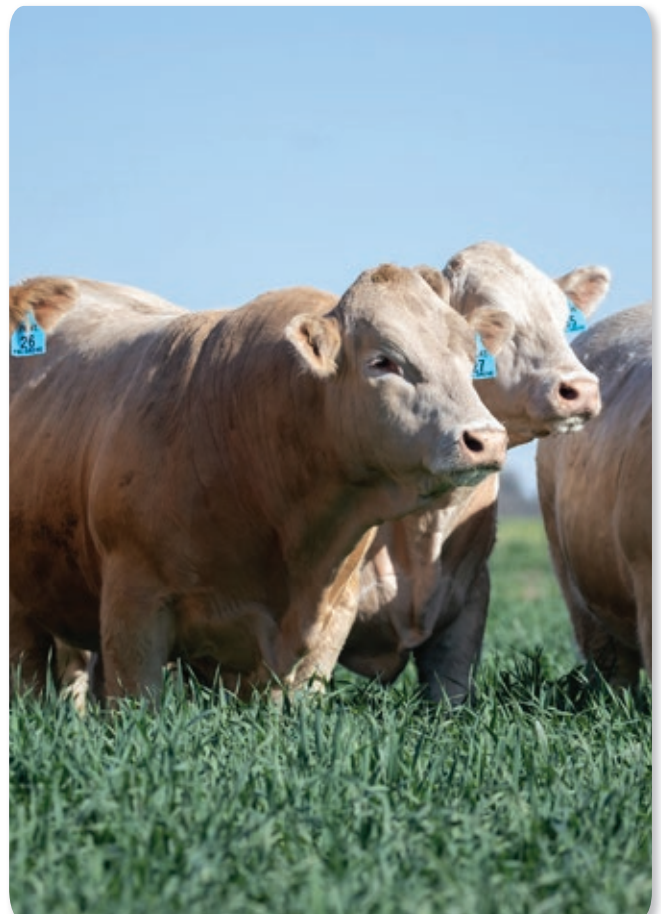

Dam - 3 calves in 3 years with a DCI of 352.

Solomon is naturally balanced with a large Scrotal Size (top 5%).

His EBV data excels in the carcase traits - high positive Growth and Carcase weight with short Gestation and a Maternal Index in the top 10%.

Great disposition with an ideal maturity pattern to finish progeny for the heavy Domestic or Export weights over British, Euro or Bos Indicus females.

A Cracking homozygous polled Jericho son to kick off this year's draft of Autumn drop bulls.

We have moved back to selectively using Jericho in our AI - The more progeny he gets on the ground the stronger his EBV data gets. He ranks in the top 1% for Weaning Weight, EMA, Yield and both \$Indexes.

Task force recorded the highest weights and EMA in his contemporary.

Task Force is soft, long, deep bodied with a smooth muscle patterned.

Awesome EBV's - He is a definite Stud Sire prospect.

Homozygous Polled.

This drop is the first of the Paramount sons to sell - He's adding frame but doesn't compromise on structure and depth of body.

His breeding consistency will be confirmed by the depth of sires in this pedigree - Evolution, Bluegrass D55 and Viagra.

His EBV's are indicating Scrotal Size, positive Fat Cover and IMF and Milk in the top 10%.

Note the age - Younger bull and a double tick for the North!

Spotfire is the youngest bull in this 2YO section.

Dam - 4 calves in 4 years with a DCI of 385.

He has plenty of growth potential - Thick topped, heaps of bone and wrapped in a mid-maturity pattern.

Performance packed EBV's - Growth traits, Carcase Weight and Yield in the top 10% with EMA in the top 15%, he's one of the higher indexing bulls in the sale drop.

Suited to the north - he will provide solid returns in terms of growth and yield in his progeny.

Supercool is a consistent all-rounder like his sire Platinum.

Out of a productive dam who's had 4 calves in 4 years with a DCI of 361.

He's easy fleshing, long, thick and deep with extra sire appeal.

A high indexing sire with above average growth. Combines Carcase Weight, Yield and EMA (in the top 15%) with positive Fat Cover.

The type of bull we love to sell to our commercial clients - one that's versatile in market options.

Tissue Sampling Unit (TSU)

Allflex® Tissue Sampling Units provide a simple but effective means for DNA testing livestock. Collect a clean, uncontaminated sample in seconds with a single squeeze motion, TSU's are easy to use and yield excellent lab results.

TSU's can be paired with a matching NLIS and visual management tag, creating a simple link between the genetics of an animal and it's identification.

ULTRABLACK & BRANGUS BULLS LOTS 111 - 210

Palgrove has been breeding Angus and Brangus purebred bulls for many years. Since 2009 we have pioneered the development of the Palgrove Ultrablack. These genetics were developed to cater to clients who require black hided bulls that retain a small percentage of Brahman (approximately 20% Brahman infusion only).

The bulls resemble a 'tropical Angus' with a sleek coat, pliable hide and the constitution that comes from their 'hint of Bos Indicus' and have the 'meat quality of Angus in a heat tolerant package'.

We know that our bulls need to be equally at home in northern or southern production regions of Australia and that our bulls needed to have clean sheaths; sleek coats; growth and carcase quality, so we focused our genetic design on these when selecting for both phenotype and objective data.

We have been careful to select predictable Brangus and Angus breeding sires from commercially focused herds with high accuracy Breedplan data.

We are now one of the leading suppliers of Ultrablack genetics in Australia. We sell over 600 Ultrablacks per year and have seen the impact of Palgrove Genetics over a large herd base and truly believe that our Bulls are 'Bred to Deliver'.

Our Ultrablack breeding program continues to develop, and we now have a larger percentage of generationally bred Ultrablacks (UB5s and UB6s)

Reports from our clients have been overwhelmingly positive - "the heifer progeny mature at an earlier age and fertility percentages have risen markedly".

Also, "the UB steers are weighing heavier earlier than our purebred Angus and we are able to sell them into the same markets, at the same rate"

And this..."the Ultrablacks are outperforming any other tropical cross cattle we've trialed, from weaners, background and feedlot weights as well as grass fed bullocks".

Performance Data:

We see the most sustainable genetic gain being achieved by using practical, commonsense physical selection alongside objective performance data to ensure the best bulls are produced for the next generation.

Our Ultrablack bull EBVs are provided to us as registered animals on the Angus Multi Breed Register (MBR). Only pure Angus cattle are recorded on HBR/APR registers.

Over the past two years Angus Australia and Palgrove have been working together to provide tailored benchmarking information on our registered Ultrablack animals. This has involved producing averages and percentile rankings based only on the TACE EBVs of all 2021 born Ultrablack or Brangus animals recorded with Angus Australia. This new benchmarking information is presented in this sale catalogue. We hope this makes it easier for you to make comparisons on these animals. Important to note that if you search these animals on the Angus Australia data base, the percentile ranking displayed will be of the entire Angus TACE (not just the MBR).

When assessing cattle performance, it is essential to always compare 'apples' with 'apples'.

Note: If required, any of our bulls can be registered on the Brangus Society's Enrolment Register.

ULTRABLACK REFERENCE SIRE

DMR INVESTMENT (P)

- A low birth weight Sire we have used heavily with great results.
- We love the breed character, bone and depth of body Investment has transmitted to his progeny.
- He has given us great results in both our Brangus and Ultrablack programs.
- We used 6 of his yearling sons in 2023 and 12 of his sons feature in this Catalogue.

PALGROVE QUICK RELEASE (P) ET

- Quick Release is an imported embryo out of the US.
- He's a smooth muscled clean made sire, after his first progeny hit the ground easily and with low Birth Weight data we have used both him and his sons in our heifer programs.
- Quick Release is by arguably one of the best sires to come out of the US, Suhn's Foundation and out of Suhn's Business Line's dam - You can't get a better pedigree than that.
- His first sons sell in this sale and he's represented by 11. Many of these will be suitable for heifers.

DMR CROSSROADS (P) ET

- He was the high selling bull in the 2019 fall sale season in the US at US\$80,000.
- He's adding extra frame, plenty of carcass and a great skin type to his progeny.
- Represented by 12 sons his feature lots are - 111, 113, 118 and 146.

SF BRICKHOUSE (P)

- Impact sire out of the Genepus program in the US.
- After inspecting his dam in the US and combining her with Foundation, it's easy to see where he gets his depth of body; volume; structural integrity and breeding consistency.
- He has been used in our Ultrablack and Brangus programs and has proven he will improve sheath design in one generation.
- High ranking Growth, Yield and Scrotal Size EBV's with IMF% in the top 15%.

PALGROVE SILVERADO (P) ^{SV}

Tattoo: QHB 21S1111

Calved: 07/08/2021 (25 mths)

Angus MBR Registered: Angus 82% Brahman 18%

S: BWCC CROSS FIT

S: **DMR CROSSROADS**

D: MS DMR CORONADO

D: **GLENROY G9 (UBF)**

We always kick off with a good one – Silverado is a powerhouse bull that was used as a yearling.

We gave a sneak-peak at Scone, but these are first and only DMR Crossroad sons to hit the Australian market. 7 sons in the first 25 lots shows his breeding consistency.

Dam – 4 calves in 4 years whilst at Palgrove with a 357 DCI.

Early maturing type who measured a scrotal of 42cm at 14 months. He's deep bodied with a smooth muscle pattern and super sleek skin.

EBV's confirm his phenotype with high positive Growth and Carcase weight.

Plenty to recommend in this sire.

Homozygous Polled, Homozygous Black.

Angus MBR Registered: Angus 81% Brahman 19%

S: SUHN'S FOUNDATION

S: **SF BRICKHOUSE**

D: SF MISS LTD

D: **GLENROY G1070 (UBF)**

Safehouse is right where we aim to be in our Ultrablack program – sleek skinned, ideal sheath design, big scrotal, great structure with loads of volume and capacity.

11 Brickhouse sons sold last year, topping at \$74,000 to average \$33,000.

Dam – 5 calves n 5 years with a DCI of 381. She stems from the successful Glenroy female line, that have featured heavily in the last 3 years

He has always stood out in his contemporaries and a bull we think a lot off – Semen Retained.

Homozygous Polled, Homozygous Black

Phenotypically he would be one of the highest performing Ultrablack bulls we have bred, he's a 'Standout.'

He's got a beautiful big square hip, thick butted, long as a train with so much carcase and softness.

Dam - 5 calves in 5 years with a 363 DCI at Palgrove.

His data matches his phenotype - Top rankings for Growth, Carcase Weight, EMA and Yield. All key profit driving traits we put a lot of emphasis on.

A bull we believe has a lot to offer the industry - should find a home in a bull breeding program.

Semen Retained.

Brangus.

Tremendous hindquarter and butt shape in this ET Investment son.

Moderate framed with plenty of length and capacity - He has always been an easy doing type and will add a good skin and carcase shape to his progeny.

Performance data positions him at the top of the Brangus breed for Growth, with the Export and Domestic \$Indexes ranking in the top 5%.

If your looking for an efficiently made, higher content bull to improve the key profit drivers of carcase and yield in your herd, then Strong Hold will be a double tick.

Strike Out has a silky-smooth skin type with a massive hindquarter.

His sire Pirate goes back to Washington of Brinks and was utilised due to his strong carcase, perfect sheath design, big scrotal and perfect structure.

His performance data backs his phenotype with moderate Growth and a unique combination of high positive Fat Cover, Yield and EMA.

The type of Ultrablack bull that would perform well in both temperate British and tropical Bos Indicus herds.

Homozygous Polled, Homozygous Black.

 D: GLENROY G1056 (UBF)

The first of 10 highly anticipated Quick Release sons to be offered.

Quick Release is by Foundation out of Business Line's dam - After his first drop of calves his calving ease and birth weight data confirmed his ability to be used over heifers. Many of his sons in this catalogue were used as yearlings over heifers.

Dam - 3 calves in 3 years with a DCI of 361.

Long and smooth in his muscle pattern, big scrotal and ideal sheath design. You will see this in all the Quick Release sons.

Don't miss out on this quality sire.

Homozygous Polled, Homozygous Black.

Tennessee has great growth for age, is thick and strong topped.

His sire Quid was an ET son of Guardian and sold as a yearling with semen retained - He was a sleek skinned bull and measured and IMF of 7.0% when sold at 17 months.

He is long, has a great skin, ideal sheath design and a big scrotal which flows through from Guardian.

Always a high performer - he was the heaviest of the group at 400 days with an EMA of 108cm and IMF of 7.2%, all at 11 months.

Homozygous Polled, Homozygous Black.

You'll appreciate the depth of hind quarter in Tycoon – a key trait in his sire Premier.

The Yankee Queen donor female is one of our best. A full sibling to Tycoon sold at Scone for \$18,000 and another two are in this sale (Lot 151 & Lot 190)

He's naturally balanced with a great sheath design and the perfect combination of carcase and softness.

The last of the yearlings for 2023 – Don't overlook him because he's at the end, he's a cracker.

Homozygous Polled, Homozygous Black.

Take a look at this quality sire late in the catalogue – he really highlights the depth in our program.

Dam – 3 calves in 3 years with a DCI of 385. This Glenroy female line continues to produce these top bulls.

He's naturally balanced, big square hip and hindquarter with a big scrotal and ideal sheath design.

Phenotypically he stands out and his data backs it – moderate Birth Weight, high positive Growth, Carcase and Fat Cover.

He has all bases covered – We love him.

Homozygous Polled, Homozygous Black.

We are proud of the depth in our Ultrablack program, to offer bulls of this quality late in the sale.

His sire Premiere has an impressive pedigree and great carcase data. He has had sons sell up to \$44,000.

Dam - She's on top of our list as our favourite UB donor female. 3 ET full brothers in this sale and another sold at Scone for \$18,000.

A super soft sire with great hindquarter expression and positive Yield.

Quality sire, don't overlook.

Homozygous Polled, Homozygous Black.

The bidding from time to time shall be regulated by the auctioneer and no bid shall be retracted.

2. The sale will be conducted on a "Sale" or "no Sale" basis whereby the lot for sale shall be knocked down to the highest bidder, but the sale will be subject to the acceptance of the highest bid by the vendor who will immediately after the fall of the hammer declare "Sale" or "no Sale". Should the vendor reject the bid of the highest bidder such bidder will have the right of first refusal of the lot at the vendor's nominated price for one hour after the lot has been passed out of the ring on the terms and Conditions herein set forth in so far as they shall apply.

(a) All Sales will be conducted on the basis that the bid price will be exclusive of Goods & Services tax (GST). GST will be added to the bid price after the fall of the hammer for those sales subject to GST.

3. The details of the purchaser, the purchase price and the lot sold as recorded by the sale clerk for and on behalf of the auctioneer shall be equally binding on both purchaser and vendor.

4. The auctioneer expressly reserves the right, without giving any reason therefore, to:-

(a) Refuse to acknowledge any bid;

(b) Withdraw any lot or lots before or during the sale;

(c) Exclude any person from the auction venue should it think fit.

5. Each lot in all cases shall be at the risk and expense of the purchaser, upon acceptance of his bid by the vendor or upon acceptance of the highest bidder's offer by the vendor whichever shall be the earlier.

6. Except as expressly provided in these Terms and Conditions of Sale no guarantee or warranty shall be given in respect of any lot sold under these Conditions as to pedigree, sex, age, breeding condition or otherwise howsoever, and no guarantee, warranty or condition whatsoever shall be implied from any affirmation made before or at the time of the sale, or from any circumstances of the sale, but in all cases where a guarantee is intended the same shall attach and be enforceable only if reduced to writing before delivery of the lot and signed by the vendor or by the auctioneer acting as agent for the vendor, and the absence of such writing shall be conclusive evidence in case of dispute that no guarantee warranty or condition whatsoever was given or implied.

7. In the event of any dispute in respect to the sale of any lot:-

(i) The purchaser shall nevertheless be obliged to pay to the auctioneer the full purchase price and any other moneys or interest payable by the purchaser in accordance with these terms and conditions.

(ii) The vendor and the purchaser shall resolve the dispute between themselves;

(iii) The auctioneer shall have no liability or responsibility in regard to the dispute; and

(iv) no lot shall be returned to the auctioneer and the purchaser shall indemnify the auctioneer for all costs, expenses and damages which the auctioneer is put to or incurs by reason of the purchaser so doing.

8. The name of the vendor for whom the auctioneer acts is acknowledged to have been furnished to purchasers prior to sale and further particulars will in all cases be furnished to a purchaser if required. In the case of any dispute the remedy of the purchaser shall be against the vendor only and in no case or under any circumstances against the auctioneer who is to be regarded for all intents and purposes as agent for a disclosed principal.

9. (a) PAYMENT - Unless prior credit arrangements have been made in writing with the auctioneer the full purchase price for each lot shall be due and payable to the auctioneer in cash upon acceptance of the highest bid or the highest bidder's offer by the vendor and prior to delivery. Notwithstanding that delivery is given to or possession obtained by the purchaser or his representative prior to the payment of the purchase money in full the property in any lot which is sold shall not pass to the purchaser until the full purchase price and all cheques, promissory notes, bills of exchange, acceptance orders or drafts given in connection with such payment have been paid and liquidated, and until property shall pass, the purchaser shall hold such lot as bailee, provided that in all cases should such payment not have been made and liquidated within 14 days of the date of the sale the auctioneer reserves the right to:-

(i) Rescind the contract on behalf of the vendor and repossess and resell any lot;

(ii) Recover from the purchaser interest upon the purchase price at a rate per annum which aggregates the 90 day Bill Rate plus two percentum. For the purposes of this condition "the 90 day Bill Rate" is the rate published regularly in the Australian Financial Review, expressed as a percentage per annum. If at any time the Financial Review ceases to publish a 90 day Bill Rate, the auctioneer shall determine and advise the purchaser of the interest rate to apply for the purpose of this condition.

(b) The auctioneer is selling as the del credere agent of the vendor and the full purchase price of any lot sold shall be payable by the purchaser to the auctioneer and be fully recoverable by the auctioneer in its own name.

10. If the purchaser shall neglect or fail to comply with any of the within conditions, any lot purchased by him may be immediately resold by public auction or private contract, with or without notice, at the risk of the former purchaser who will be held responsible for all loss and expenses arising out of such resale, and shall not participate in any profit accruing therefrom.

11. Any vendor or purchaser removing the sale number from any lot after it has been sold will fully indemnify all affected parties for any loss, costs or damage should the lot be wrongly delivered.

12. The purchasers, if more than one, shall be jointly and severally bound by these Terms and Conditions, and shall jointly and severally carry out and perform same.

13. Any person who advances a bid on a lot shall do so on the expressed condition and understanding that should that person's bid be the highest bid and such bid is accepted by the vendor, then that person will be held personally liable for the price so agreed upon, regardless of the fact that person may be acting on behalf of another party, either disclosed or undisclosed to the vendor or the auctioneer, provided however, that this Condition shall not in any way negate the vendor's right to claim against any principal and in such case the bidder's liability shall be construed to be by way of guarantee.

14. The auctioneer may, should it think fit, make arrangements on a purchaser's behalf for the feeding, watering, trucking, shipping of and general attendance to any lot after sale but no responsibility will be accepted by the auctioneer and all such service will be at the purchaser's risk and expense.

15. No lot will be delivered until the sales invoice has been checked and signed by the purchaser or his duly authorised representative.

16. (a) Each lot in all cases shall be sold with all faults, if any, and excepting those conditions and warranties implied by the Trade Practices Act or any applicable State legislation which cannot be contractually excluded and excepting conditions and warranties expressly contained in these Terms and Conditions of Sale, any express or implied condition, statement or warranty, statutory or otherwise, is hereby excluded.

The auctioneer is not liable in respect of any error, misdescription or omission in any particulars appearing or stated regarding the descriptions or pedigrees of any lot offered for sale and no such error, misdescription or omission shall entitle the purchaser to annul the sale or reject the lot or claim any compensation, damage or abatement in price.

(b) Each lot will be sold subject to passing all veterinary tests required by the law of the State or country to which the purchaser intends to transport that particular lot, such tests to be undertaken at the purchaser's expense and concluded immediately following the sale. In the event of a lot failing to pass these tests, the sale shall be null and void, any

purchase moneys paid by the purchaser shall be refunded and property in the lot shall revert to or remain with the vendor.

17. GUARANTEES OF FERTILITY:-

17.1 BULLS. All bulls are guaranteed breeders and to so prove within six months of the date of sale or by reaching the age of 30 months whichever date shall be the later.

17.3 Claims under Clause 17.1 guarantees of fertility shall be made to the vendor within six months from the date of sale or prior to the animal entering a quarantine area other than on the vendor's property.

17.3.1 All claims must be accompanied by a veterinary certificate which shall clearly identify the basis of the claim.

17.3.2 Infertility resulting from injury or disease occurring after the sale of the animal shall not be covered by this guarantee.

17.3.3 The vendor retains the right to have the animal placed on a property nominated by him or returned to his own property for further assessment of fertility for a period not exceeding six months. In the event of the animal being proven fertile within the period, the costs incurred shall be borne by the purchaser. In the event of the animal not being proven fertile within the period the costs incurred shall be borne by the vendor.

17.4 LIABILITY OF A VENDOR. Except for costs defined elsewhere in the conditions of sale, the liability of a vendor in respect of claims relating to fertility shall not exceed the purchase price of the animal(s) or to provide mutually agreed upon replacement animals.

17.5 REFUNDS. In the event of a claim being substantiated and the purchase price being refunded, the animal/s shall automatically become the property of the vendor and be returned to him or disposed of according to his instructions at his expense.

17.6 This guarantee shall be voided by the purchaser if -

(a) The animal is returned to the vendor -

(i) in poor physical condition or with any injury;

(ii) tests carried out on behalf of the vendor within fourteen days of such return proved positive to any diseases which may affect the animal's fertility or ability to breed naturally;

(b) the purchaser has collected and stored semen from a bull or embryos from a female.

17.7 In the event of a dispute as to whether a lot is a breeder, such dispute shall be resolved by the vendor and the purchaser and the auctioneer, while he will use his best endeavours to assist, shall have no liability or responsibility in that regard. In the event that a lot is alleged or proved not to be a breeder, the purchaser shall nevertheless be obliged to pay the auctioneer the full purchase price and any other monies or interest payable by the purchaser in accordance with these Terms and Conditions.

18. (a) Each lot shall be at the risk of the vendor in respect of any damage or injury, whether by disease, accident or otherwise, for the period that the lot be in the custody of the auctioneer, PROVIDED THAT the auctioneer, its servants, agents and employees shall use all reasonable care to protect and control the lot while it is in the auctioneer's custody AND PROVIDED THAT when a lot has been sold, it shall be at the risk of the purchaser in all respects.

(b) If any vendor brings to the sale premises any lot which is dangerous, or infected with any disease, that vendor shall be liable for all injury, damages, costs, losses, or expenses which the auctioneer may sustain, incur or be put to either directly or indirectly as a result of the vendor so doing. The auctioneer reserves the right, at its absolute discretion, to exclude from the sale, or put out of the sale venue or dispose of, any lot which in its opinion shows signs of any disease, whether infectious, contagious or not, or of any serious fault or of being dangerous.

19. DELIVERY - Except at the discretion of the auctioneer no lot shall be delivered to the purchaser unless payment of the purchase money together with any additional charges incurred including those expenses incurred by the auctioneer pursuant to Condition 14 hereof, is first made by the purchaser to the auctioneer. Release of lots may be withheld by the auctioneer until personal cheques are cleared.

20. In these Conditions:-

(a) References to "Auctioneer" shall be taken to mean as the context so admits, the selling agent or any member, subsidiary or related corporation or body, officer, agent or employee thereof, authorised by the vendor to conduct the sale of the lot;

(b) "Purchaser" shall have the meaning ascribed to it in Condition 1;

(c) "Vendor" shall mean the person or corporation upon whose account lots are offered for sale and where a stud or farm is named shall mean the proprietor of that stud or farm;

(d) "Lot" shall be taken to mean the animal offered for sale and/or sold by the auctioneer on behalf of a vendor.

IMPORTANT NOTICE

The selling agent, its members, subsidiary or related corporations, officers, agents, and employees for themselves and for those for whom they act while exercising due care provide all information without responsibility and give no guarantee whatsoever as to its accuracy. All persons who attend the sale do so entirely at their risk and the selling agent, its members, subsidiary or related corporations, officers, agents, employees and its principals, for themselves and for those for whom they act, do not assume or accept any responsibility or liability of whatever nature for any injury or damage whatsoever which may occur.

ACCURACY

Every care has been taken in compiling this catalogue to ensure accuracy of information supplied, but no responsibility is accepted for any errors which may occur. You are encouraged to seek independent verification of any information contained in this catalogue before relying on such information.

BREEDPLAN

Breedplan data is reviewed on a monthly basis and may vary from printing to sale day. Changes to data may occur and alter significantly without notification. We have no control over changes made to ABRI.

ENTRY TO PALGROVE

People entering upon the 'Glen Willga' property for any purpose whatsoever including attendance at the cattle auction do so at their own risk.

We are not liable to you for any personal injury or death suffered by you or for theft, loss or damage to any property caused or contributed to by us or any other person whether caused or contributed to or by negligence, deliberate act or unlawful conduct. "We" or "us" or "our" refer to the owners, their employees, contractors and agents and each of them.

Entry to the property is by invitation for the purpose of inspection or purchase of the sale cattle on offer. Palgrove may request any member of the public to leave the property at any time without warning. Palgrove reserves the right to ask for assistance from authorities should that request be ignored.

PALGROVE'S SUCCESS CONTINUES

From Paddock to
Palate our Genetics
are 'Bred to Deliver'

Palgrove has again demonstrated the incredible depth in our breeding operation, winning the weight gain section of Class 40.- HGP FREE 100 DAY and taking out the Highest Individual Weight Gain with a ADG of 2.87kg in the first phase of the 2023 RNA Paddock to Palate competition. This follows on from Palgrove's success in last year's competition and demonstrates the commercial 'profit' focus we place in our breeding program.

The three-phase competition attracts Australia's best producers in what is the nation's richest beef competition of its kind. It allows us to benchmark our cattle against the best and prove the commercial focus in terms of profitability we apply to our genetics. The competition runs across three classes; Class 37 - 100 day grain fed; Class 38 -70 day domestic and Class 40 - 100 day HGP free.

PHASE 1 - 2023 Weight Gain Results

Class 40A - Best Weight Gain for Pen of Six Steers (100 day - HGP Free)

- 1st - Palgrove Pastoral Company - Charolais X - (2.445kg/day)
- 2nd (tie) - Palgrove Pastoral Co - Charolais X - (2.385kg/day)
- 2nd (tie) - Jabinda Pastoral - Santa/Charolais/Angus - (2.385kg/day)
- 3rd - Palgrove Pastoral Co - Charolais X - (2.385kg/day)

Class 40A - Highest Individual Weight Gain

- 1st - Palgrove Pastoral Company - Charolais X - (2.87kg/day)

Class 37A - Best Weight Gain for Pen of 6 Steers (100 Day - HGP)

- 1st - Juandah Grazing - Charolais X - (3.057kg/day)
- 2nd - Palgrove Pastoral Company - Charolais X - (2.895kg/day)
- 3rd - Palgrove Pastoral Company - Charolais X - (2.85kg/day)

"It's the best way to benchmark your cattle when all entries are fed together and processed together, there is no room for discrepancy."

Ben and the team at Palgrove firmly believe that when a producer invests in a bull, that bull should add value to the whole industry - through weight gain, optimum carcass and eating quality. These attributes should be part of his DNA and should be balanced, matching our claim our Bulls are 'Bred to Deliver'.

In 2022, Palgrove had an extensive list of accolades from 3 phases of the Competition, including, Overall Champion in Class 37 - Champion Individual Carcass and Reserve Champion Carcass while in Class 40 (HGP free) - Palgrove placed first and second in the Individual MSA Eating Quality.

Palgrove has won Class 37 of this competition for the past five consecutive years, we eagerly await the overall results which are announced on August 10.
